

STRONG ALL THE WAY.

Grangers and Others That Have Been Quiet Come to the Front.

GAINS THE ORDER OF THE DAY.

The List Favorably Affected by Buoyancy in the London Market.

RAILROAD BONDS ACTIVE AND FIRM

NEW YORK, Oct. 13.—The stock market today was strong from start to finish. Probably the most significant feature of the market was the increased activity and buoyancy of the grangers and a number of other stocks which have hitherto occupied a comparatively unimportant position in the market.

The general list was favorably affected at the opening by advices from London of a buoyant market there for American securities. An advance ranging from 1/2 to 2 per cent was recorded. New England, Lake Erie and Western, Burlington and Quincy, Rock Island, Louisville and Nashville, Northern Pacific preferred and the Industrial leading the upward movement. During the afternoon New England advanced 1/2 per cent to 4 1/2 per cent. The denial of the story about the alleged Boston and Maine deal. Chicago Gas declined from 39 1/2 to 38 1/2. The official list reported a sale of \$1,000 at 35. This is a break of 4 points compared with the last previously reported market. Close of the list:

WHEAT STUBBORN.

Oats and Corn Rather Weak and Hog Products Generally Stronger.

Chicago, Oct. 13.—Oats and pork did the spinning on Chicago today. Still, the sales of oats were enormous, and the market was a tumble of 3/8¢. Wheat was stubborn as a rule. It closed strong at 1 1/2¢ advance after recovering a decline. With the light weight corn was less steady and shows a net loss of 1/4¢ from last night.

With some advance abroad and the Cincinnati Price Current estimating the crop at 2,800,000 bushels and the supply on October 1, including old wheat left over, at 336,000,000 bushels against 436,000,000 bushels a year ago, the crowd was inclined to report the showing as decidedly bullish at the start, and there was good buying for a time, but the rumors led to rising reaction by long who were disposed to take profits and the strength soon disappeared.

A FEW STRONG POINTS.

Local Stocks Continue Dull, With the General Tone Barely Steady.

CHANGES EQUALLY DIVIDED.

Peoples Pipe and Switch and Signal Prominently Strong.
