The Grangers and Industrials Lead Another Upward Movement.

REPORTS OF BETTER EARNINGS

The Stimulating Influence in Western l ailway Shares.

BEADING AND NEW ENGLAND DECLINE

NEW YORK, Oct. 14.-The stock market during the greater part of the day was strong to buoyant. The dealings were unusually well distributed, although the total transactions were somewhat smaller than yesterday. The Western railway shares, as well as the industrials and a number of the specialties, scored the highest prices for some time past. The grangers improved 1/4 to 13/2 per cent, the latter in Burlington and Quincy. The buying of these stocks was based on semi-official statements that the September reports of the Burlington and Quiney, Rock Island and Union Pacific will all show a material increase in net earnings, as compared with last year.

The industrials, after a slight decline in the early trading, again assumed the leadership in the upward movement, Chigago Gas being especially prominent, with sales from 8814 to 90. General Electric was another feature, rising from 11834 to 11934 on reports that the Company has secured con-trol of the Consolidated Electric Storage Company, and on statements by officials that Mr. Edison has no intention of withthat Mr. Edison has no intention of with-drawing from the concern. American Tobacco, which was quoted ex-dividend, sold up from 11634 to 11834. National Cordage shares rose 34@134. Distilling and Cattle Feeding was irregular and closed with a net loss of 34 per cent. Edison Illu-minating advanced 134 and Western Union 134 per cent. Among the low priced shares, Pacific Mail, Louisville, New Albany and Chicago, Minneapolis St. Louis preferred, Nickel Plate second preferred, Mexican Central and Ohio Southern rose 34 to 3 points.

points.
During the afternoon New England, which had previously advanced from 40½ to 46, sold down to 40½ and Reading at the same time declined from 58½ to 18 on rumors of fresh litigation. The general list reacted ½ to 3½ in sympathy and closed firmer in tone at the decline. decline.

Railroad bonds were generally firm. The saios footed up \$1,216,000; Minneapolis and St. Louis equipment 5s jumped from 192% to 197 bid. Reading, Atchison, Texas Pacific and Kansas and Texas issues ruled quiet. Government bonds were firm. Close of

HOG PRODUCTS HIGHER.

Under Clique Manipulation and the Cereals

Tend Downward. CHICAGO, Oct. 14.—A rapid twist of the jack screws under January pork elevated that article near the close to-day to 30c over last night's figures. In cereals the tendency was downward. A considerable portion of Bloom's big line of wheat is said to have come upon the market, and the closing prices showed a net loss of 100 c for the day. Corn is off 100 c, and oats 100 c. In the pork crowd the Cudair, wright combination took all the January pork that the packers were willing to seil. Lard moved, or rather was moved, up in sympathy and ribs were likewise advanced. The packers, with the exception of the Cudahy Bros., are reported to be opposed to the advance which the latter, they say, are siding Wright to bring about. January pork closed 75c from top figures of the day. Lard and ribe each left off with a gain of 10c for January. What strength there was in wheat to day. CHICAGO, Oct. 14.- A rapid twist of the jack

Lard and ribe each left off with a gain of 10c for January.

What strength there was in wheat to-day was chiefly derived from the improved Liverpool cables, the public ones quoting decided strength there, while the private ones were even more tavorable. Another reason for the strength was found in the falling off in receipts at primary points and especially in the Northwest, where deliveries have apparently reached the maximum. But reports that the parched wheat fields in the Southwest had been getting the needed moisture were frequent and apparently authentic and this, with the fact that other European markets did not show the same degree of strength that the Liverpool market did, and some were rather easier, had a weakening effect.

Corn was quiet, and showed a little firmness early, larriely in sympathy with wheat, but then became weak on the free selling both of long property and for short account.

In cats operators showed a disposition to sell receip, with some orders of this kind said to be for Eastern account.

There was a moderate demand for wheat

LOCAL AND GENERAL FINANCIAL NEWS

FRIDAY, Oct. 14. The bulging feature of the market to-day was something that looked like a concerted raid on Philadelphia Company. For several days past the proceedings on 'Change with respect to Philadelphia Company have had a somewhat suspicious look. There has been no particular pressure to sell and no disposition of consequence to buy, but in a general way things have looked as if someone was trying to jar out some of the stock. It remained very dull and stub-born, however, until day before yesterday, when a slight sagging tendency set in. Today the stock became active. Several of the brokers appeared openly at the noon board as sellers and disposed of several hundred shares, which, however, were so well absorbed and the consequent de-cline so slight that if, as intimated, it was a raid those behind it must have felt a little

cline so slight that if, as intimated, it was a raid those behind it must have felt a little chagrined over the result. The selling was accompanied by talk about a notice of cancellation of contracts to be sent by the company to some of the manufacturing concerns, which, as noted, proved to be a very ineffective weapon.

In explanation of the notice mentioned, Manager Brown talked to The Dispatch late this afternoon, as follows: "During the summer we have a surplus of gas, which we sell as best we can to manufacturers and others subject to cancellation of contract when our domestic consumption, which pays us the maximum price, increases. About this season of the year we send out a cancellation of these summer contracts, and while we would not care if none of them always are. These are the facts about the notice. There is nothing unusual about it at all. It has been the custom of the company for years."

Luster was comparatively active, with the tendency downward, and Pleasant Valley Raliway, Union Switch and Signal, Underground Cable, United States Glass and Manufacturers' Gas were strong, but otherwise the market was featureless.

Philadelphia Company sold at 22621% on call, closed at 2134,223 and sold at 21% after call. At 2134 the demand covered several hundred shares. At the second board, Luster sold from 834 down to 836 between calls at 8 seller, four months, at 84683 at the third and clossed at 23634 Pleasant Valley sold at 254,2534, closing at 234,22354; dividend on and 15 was bid for it ex-dividend. The books for the dividend close tomorrow (Saturday). Manufacturers' Gas was higher at 2254 bid: Duquesne and P. & B. tractions were about steady at Thursday's quotations; M. & M. Mational Bank was higher at 254,6254, closing at 234,62554, closing at 234,62554, dividend on and 15 was bid for the ex-dividend. The books for the dividend close tomorrow (Saturday). Manufacturers' Gas was higher at 254,6254, closing at 234,62554, do 5s at 1024,610254; Diquesne traction at 284,6254, do 5s at 1034,610254; Diquesne

McCutebech sold Manchester & to Law-

rence & Co., and H. M. Long sold Switch and Signal to David Shaw.

A sale of 15 shares of United States Glass common at 66% was reported to-day.

The Governing Committee of the New York Stock Exchange has decided to close the Exchange from Thursday, October 20, at 3 F. M. until Monday, October 24, at 10 A. M.

The jury in the United States Circuit Court at Rutland, Vt., last evening awarded the receiver of the First National Bank of Frankfort, Kan., \$5,007 in the suit against the Bradford Savings Bank and Trust Company to receiver \$7,500 in bonds sold the latter bank by James S. Warded.

The special meeting of the stockholders of Pittsburg and Western Railway Company was held to-day, at their office, Allegheny City, and the proposal to increase the capital stock and the bonded debt \$1,500,000 was unanimously approved. The proceeds are to be used in double tracking the line, reducing grades and preparing for the new business of the Baltimore and Ohio Railroad, which will throw all its traffic over the line prior to the opening of the Columbian Exposition.

Figures obtained from official reports made to the Government in every wheat producing country in Europe show that, except in Great Britain and Italy, the crop prospects average nearly 15 per cens better than last year.

The annual statement of the American

average nearly 15 per cent better than last year.

The annual statement of the American Cotton Oil Company, to be presented at the annual meeting November 3, is not ready for publication, but enough fluures are said to have been made up to indicate approximately that there will be a surplus of about 5 per cent on the common stock.

For the first week of October the earnings of the Buffalo, Rochester and Pittsburg decreased \$7,880. Pittsburg and Western also shows a decrease of \$4,763.

J. S. Bache & Co. to Oakley & Co.: "A favorable feature in the market was the advance in silver in London and a sympathetic advance here, which should lead to an advance in the price of cercals and cottons, and that cannot but benefit the country at lar.e. We admit that developments are favorable to the bulls; that business is generally good; that money is in demand for legitimate enterprises, and that prospects favor an ultimately still further increase in values; but for the moment we think that traders are pretty well loaded and that some of the recent manipulators have been tempted by the advance to take their profits, hence we do not think it a favorable moment for purchases."

MONETARY.

One of the brokers stated this afternoon loan, and that while he could probably go more call money at that figure the ruling rate was 5 per cent. On the general run of mercantile and manufacturing paper the rate continues to be 6 per cent. Eastern exchange and currency are trading even.

ACTIVITY THE FEATURE

In Grocery and Country Produce Lines Poultry in Heavy Supply and a Little Easier—Everything Else Steady to Firm and Some Prices Higher-Nuts Active. FRIDAY, Oct. 14.

Mercantile trade was quite active to-day, especially in grocery and country produce lines, but it was generally featureless. As a rule, however, the markets were firm. Receipts of poultry were unusually heavy and prices were shaded a little, but this was about the only exception to the rule of strength. Nuts of all kinds were reported in active demand owing to the approach of Halloween and prices, particularly of chest-nuts, were higher and firm. Provisions were reported firmer and so were cabbage, reported firmer and so were cabbage, turnips, potatoes, eggs, dairy products and fruits. It is expected that dealers in hog products will advance sides Saturday and that butter and coffee will be higher the first of next week.

FRIDAY, Oct. 14.

STRUCTURAL IRON IN GOOD DEMAND

Pig iron shows unmistakable signs of improvement at most of the consuming points throughout the country, and, with the exception of an occasional weak spot, the mar-ket for most kinds of finished material conhave been at work in crude material during the past six weeks have had the effect of increasing the strength of this branch of the trade to a marked degree. The improvement has not been owing to any authorise.

New York Metal Market.

New York Metal Market. tinues satisfactory. The influences that have been at work in crude material during ment has not been owing to any sudden increase in the sales made, since buyers, as a rule, show great conservativeness in purchasing beyond their pressing wants; but it is largely due to an extension of the confidence and better seeling than have been mani-fested in the trade since it became recog-nized that consumption and production

ere more nearly equal. As yet, however, the market has shown no As yet, however, the market has shown no important change in values. Some of the furnaces report orders booked sufficient to take their output during the balance of the year: others, while adhering firmly to the existing quotations, are disposed to ask a slight advance for new business, especially for deferred deliveries. One of the leading brokers says that one of the inrances sent word to sell no more mill iron below \$12.75, while other furnaces were selling at \$12.50. On the whole, the present situation is one in which manufacturers find much that is encouraging and the prosuce: for better business during the remainder of the year.

Two Opinions on the Situation. Two Opinions on the Situation.

"Cold Short," excellent authority on raw iron, has this to say: "I adhere to the opinion previously expressed that as soon as matters can be straightened legitimately

as matters can be straightened legitimately Bessemer will not only catch up but it will relatively distance the other grades of pig metal."

There is considerable difference in the views of leading dealers. Some specialties have an upward drift, others have a downward tendency; some are absolutely featureless, so that the ultimate outcome is a matter of uncertainty, "The inquiry for pig iron in the East," says an Eastern dealer, "has become such that sellers are declining to enter In the East," says an Eastern dealer, "has become such that sellers are declining to enter
the long time orders and none, so far as can
be learned, are willing to quote prices for
delivery later than December 3l. Consumers
are not worried about the situation, apparently believing that the advance, if any,
will be small and that it is better to run the
risk than lay in stocks. Their orders, however, are a little neavier."

Closing Temper of the Markets.

The latest trade was reasonably active so far as the volume of business was concerned. Prices, however, for most descriptions were not very satisfactory. Bessemer ranged from \$13 60@14 00; gray lorge, \$12 40@12 50; steel billets firmer, with sales 10,000 tons at \$22 75, being 75 cents above the lowest sale 13, being 75 cents above the lowest sale 183 week. Structural material was active at the following prices: Steel beams, 21-10@22-10c: channels, 22-1-10c; angles, 15, 22-c; tees, 2.40 @2.50c; Z bars, 2.00@2.50c; steel mill plates, 1.75 @1.80c. Serap material from and active, and old iron rails scarce and wanted. Following are the sales reported this west.

SPELTER. **DUFFY'S PURE**

MALT WHISKEY

FOR MEDICINAL USE NO FUSEL OIL

It is a remedy, a tonic and not a beverage. It stimulates the circulation, tones up the life, purilies the blood, gives brightness and health to women, strength to men, and is being endorsed by physicians and the more advanced thinkers. It is the best remedy for PNEUMONIA. Bear in mind that Duffy's Pure Malt has grown in popularity for years, that it is acknowledged as the only pure remedy of its kind on the market, that it contains no fasel oil, and that it invariably benefits all who intelligently use it. Get it from your Druggist or Grocer. Send for pamphlet to

CHARCOAL PRONS, ETC.

Active in Chicas-

CHICAGO, Oct. 14.—[Special.]—Rogers, Brown & Merwin say: The Chicago market continues active. Inquiries are numerous and many of these are now coming in from prominent consumers for round lots and are distributed between strong and soft foundistributed between strong and soft foun-dry grades and about equally divided be-tween local coke and Southern brands. Northern coke companies are now mater-ially firmer in price than was the case last month. Reports published show a heavy cutting down on stocks at the furnaces dur-ing September. This is proving an impor-tant factor in the market and has added to the strength and firmness of tone.

LIVE STOCK.
