

ONE GRAND DIVISION. Fifteen Thousand Catholics Will March in the Columbus Day Parade.

ALL NATIONALITIES UNITE To Do Honor to the Discoverer of the Western Hemisphere.

A PROCESSION ON THE RIVER. Steamboat Owners Anxious to Give a Maritime Display.

DISCUSSING THE STARS AND STRIPES

At a meeting of the marshals of the Columbus Day parade with Chief Marshal Dennison yesterday it was decided that the Catholic societies of the county will form a division of themselves, following on the left of the Pittsburgh, or second division. The Southside division will be first, following the military division, while Allegheny will bring up the rear.

IN THE HANDS OF THE JURY.

Judge White Delivers His Charge in the Conspiracy Case Against the Builders' Exchange—Legal Points Presented—No Verdict Rendered Yet.

Judge White yesterday charged the jury in the case of Thomas Buchanan against John G. Kerr and others of the Builders' Exchange, who are sued for damages for conspiracy. The judge in substance said: "The plaintiff alleges through a conspiracy on the part of defendants he was compelled to abandon a contract."

FOUND HIS MOTHER

Laying on a Cold Slab in the Morgue, After Eleven Days' Search.

SHE WAS KILLED BY A TRAIN.

A Son's Hunt for a Parent Ends at the Coroner's Office.

A HUSBAND'S GRIEF MAY END IN DEATH

An unknown woman found on the Allegheny Valley Railroad tracks at Fifty-first street, her right leg severed from the body, her head badly crushed in the back and several internal injuries was the record placed on the invidious register of the West Penn Hospital on October 8. The woman died an hour after her arrival, and later was taken to the morgue.

No one knows who she was. It was the usual daily history of accidental death recorded in the Coroner's office. The deputies and clerks of the office searched high and low for proofs of the poor woman's identity, but none were found. More than 1,000 persons visited the morgue in the course of a week and gazed with eagerness on the dead form of the old lady. But no one recognized her.

The police were notified in the usual way to look out for those whose relatives were missing, but nothing came of it. No names of missing people were sent in by the officials—no woman was reported missing.

Moved Into the City. In a dwelling on Thirty-seventh street lives Martin Grunhard. He is the uncle of A. M. Rabanus, who moved there recently from Sharpsburg. With him came his old mother, Helena Rabanus, 65 years of age. Her husband stopped at the old homestead in Sharpsburg, working at his trade of shoemaking. She stayed at Grunhard's house for about a week, and then went home.

On Tuesday, October 4, Mrs. Rabanus told some members of the family that she was going to visit her niece, on Coal Hill, across the river. Three days later the old woman was found dead. Her body had been taken off her mind by the knowledge of her whereabouts. Early in the morning he sought his son, to whom he said he was going to visit his wife. When he reached Coal Hill, he was informed by his niece that his wife had not been there.

Wandering in Search of His Wife. The old man's heart dropped for a while as he wondered where his mate for half a century could be. Back to 232 Thirty-seventh street he wandered to look the Grunhards and his son what he had learned from his niece. Young Rabanus could not begin to imagine what had become of his mother and he started out to find her.

From Thirty-seventh street to Mt. Washington, thence to Sharpsburg and back to the Southside, and then to Pittsburgh, he went, but no trace of the missing woman could be found. For five days and nights he walked the streets looking for his mother. No trace of her could be found; not even a clew to her whereabouts. Two men were arrested, and the young fellow gave up the chase. But there was one place he had forgotten to visit. It was the morgue.

Laying on a marble slab, cold and motionless in death, was the body of the poor old woman he was looking for. It was Mrs. Helena Rabanus, of Sharpsburg. She was 65 years of age, and the mother of two sons and one daughter.

The Husband Overcome by Grief. Her poor old husband, 67 years of age, who worked at all his life as a heavy lead water, lay down in bed to think of where his wife could be, and is there yet, perhaps for the last time. At the morgue lay the corpse of Mrs. Rabanus until yesterday. She was identified by her son who visited the Coroner's quarters as a last resort.

It was just 11 days before she had been brought there. On her way to Mt. Washington she had attempted to cross the river. She was killed when she was struck by a passing train. Her right leg was severed completely from her body, and her head was bruised in the most horrible manner. She was taken to the West Penn Hospital in an ambulance and died there an hour later. The Coroner was immediately notified and the body removed to the morgue, where it remained until last evening.

Big Murphy Meeting. The Great Temperance Apostle Will Be Welcomed Home on Sunday Night. The friends of Francis Murphy will assemble at the Grand Opera House on Sunday night to welcome home Mr. Murphy. Joseph J. Hunter will preside at the meeting.

Accidentally Shot Himself. Elmer Lewis, a brother of O. M. Lewis, of No. 7 police patrol, was fatally injured while hunting yesterday. Crossing the river above Charleroi his gun was accidentally discharged, the contents of the barrel lodging in the back of his skull. Some of the shot entered his brain. He was brought to the Southside Hospital, where he is not expected to recover. He is about 22 years of age. His home is on South Twenty-fifth street.

Killed by an Engine. Benjamin Foukes, 64 years old, died yesterday afternoon at the West Penn Hospital from injuries received in the morning, by being struck by an engine on the Park-andale road. The deceased was a track walker and the accident happened between Birmingham and Templeville stations. An inquest will be held to-day.

Struck Him With a Hatchet. William Duke was held in \$1,000 bail by Alderman Richards for his appearance in court to answer a charge of assault and battery made against him by W. H. Weston, of Oakdale. Weston charges Duke with having struck him with a hatchet several times and the hearing was set for Tuesday next.

SEARCHED THE MILLS.

Union Men Make an Investigation and Report to the Advisory Committee—Three Carpenters Have a Tilt With the Strikers—Families Moving Away.

Much excitement was caused at Homestead among the coal and iron policemen and mill officials Thursday night over a report that two men with their pockets filled with dynamite had gained entrance into the mill. The rumor created great consternation among the mill workers. The police Superintendent, Foster, his foreman and several mill workers began an immediate search. All departments and the yards were searched and the men were not discovered.

Three non-union carpenters were proceeding down Shanty hill this afternoon to go to work when they were met by five Homestead strikers. The strikers demanded that the carpenters, who had been secured for \$2 a pair. Every non-arrival was given a pair of blankets and if he left some other man usually took his blankets also, some having as many as six pairs on their coats.

Several other Homestead families moved away during the day. An employe said tonight that already 6,000 pairs of blankets had been provided. At first these cost \$4 a pair, but the last \$200,000 were secured for \$2 a pair. Every non-arrival was given a pair of blankets and if he left some other man usually took his blankets also, some having as many as six pairs on their coats.

COAL OPERATORS UNITE.

A Gigantic Scheme to Control the Markets and Advance Prices.

The soft coal operators east of the Allegheny Mountains have organized under the name of the Seaboard Steam Coal Company with an incorporated capital of \$20,000,000 to control the market and keep up the price of coal. The intention is to control the bituminous trade from Eastport to Key West, and from the Allegheny Mountains to the Atlantic. The different companies were driven into this combine by the cut in prices through sharp competition. It is expected to market between 12,000,000 and 15,000,000 tons of coal a year.

REYNOLDS WILL STICK.

He Had Agreed to Resign, but Now Reconsiders His Action. At a meeting of the Executive Board of the Allegheny Baptist Association held on Thursday resolutions were passed withdrawing the right hand of fellowship from the Rev. J. C. Taylor, of the Tabernacle Baptist Church, and all members thereof as long as they continue to sustain him as pastor.

HOPELESSLY INSANE.

Charles K. Patchen, a Once Wealthy Oil Man, Taken to His Home at Corry. Charles K. Patchen, at one time a wealthy and well-known oil producer, was brought to this city last night by Sheriff Hardman, of Tyler county, Va. Patchen had been picked up in Tyler county several months ago as a lunatic through a jail commitment issued by a Justice of the Peace, and kept in confinement there until his relatives were located. They officials ascertained that he had well-to-do relatives at Corry, Pa., and thereupon went into the Circuit Court with an appeal. In response to his application the Circuit Court ordered for the removal of the Sheriff to remove Patchen to his home in this State, of which he is a citizen, and to turn him over to his relatives or the poor authorities of Corry.

WELCOMING A NEW PASTOR.

The Fifth Avenue M. E. Congregation Receives Rev. Dr. Mansell. The members of the Fifth Avenue M. E. Church last night tendered a reception to their new pastor, Rev. E. R. Mansell, D. D., supplying the place recently left vacant by the expiration of the Rev. L. McGuire's pastorate. There were over 300 persons present, including members of the church and their friends.

WILL NOT BE GOUGED.

The County Commissioners Will Not Be Fooled in Printing the Ballots. The County Commissioners will to-day open the bids and award the contracts for printing the ballots for the coming election. The latest decision of Chairman Reeder in Philadelphia that the law does not compel a municipality by machinery will affect the local bids greatly, and it is now thought there will be no trouble encountered in getting the work out in time.

ANOTHER BIG BLOCK

Will Rise on the Present Site of the Old Arbuthnot Building.

FOUNDATIONS WERE WEAKENED

By Workmen Digging for a New Structure on the Next Lot.

HOW SOME CONTRACTORS SAVE MONEY

Building Inspectors Hoffman and Brown yesterday condemned asphalt and ordered to be torn down at one the six-story Arbuthnot building, No. 719 Liberty street. The matter has been under consideration for nearly two months and a number of the best architects and contractors of the city have been called into consultation. A majority of them advised the tearing down of the whole structure, while some advocated the reconstruction of only a portion with a view to economy.

After critically investigating the subject the inspectors came to a decision yesterday. The three sons of the late Charles Arbuthnot and John S. Roberts, the occupant of the building, were summoned to the inspector's office and the matter talked over. The ultimatum was satisfactory to all. The Arbuthnot heirs had previously agreed to be guided by the judgment of the inspectors and, calculating that their decision might be to raze the building, had already planned for a handsome new 9-story structure similar to the new Harper building adjoining.

DANGER OF A COLLAPSE.

The top of the building had already swung out several inches and there was imminent danger of the whole side of the building falling out. He stopped the work until the wall was braced to make it safe. Ever since then plans for saving it have been discussed, but without success. Building Inspector Hoffman said yesterday that if the city had supervised the construction of buildings in 1871 as she does now the present difficulty would not have arisen. The office of building inspector was not created until 1873. Since that time all foundations, particularly of large business blocks, have been carefully scrutinized by the inspectors so that a repetition of the Arbuthnot trouble, entailing inconvenience and great loss to the owners, is not likely to occur in any structure erected since that time.

TO CARRY ON THE DEFENSE.

The Homestead Advisory Board Organized as a Fund for the Purpose. The Advisory Board of Homestead has appointed Thomas Telford & Co., of The National Labor Tribune, Box 435, Pittsburg, to act as trustees of a fund to be raised to carry on the defense in the number of charges preferred by the Carnegie Steel Company against the workmen. In a circular issued yesterday by Telford & Co., they say:

We need hardly state that the defendants in this case are financially situated as to finances, and that they will have to depend upon the sympathy of that public which has shown a generous interest in their case, and the generosity that flows from this quality of sympathy. The expenses of the men will be met by the Carnegie Steel Company, as far as possible, and a desirable shall be made, witnesses having to be brought from as far as the Pacific coast. On the part of these defendants we feel that we may, with assurance of success, appeal to business men and the public generally to secure subscriptions to be devoted wholly to the purpose mentioned. We also appeal for prompt response, that the interests of the workmen shall be as effective as possible. Subscriptions will be acknowledged in the Labor Tribune, impersonally, and the name of each subscriber shall show. We should note here that it is deemed inadvisable to have individual collectors, hence that all contributions should be sent to our address as undersigned.

THE DELEGATES GO HOME.

After a Four Days' Session the Convention of Engineers Adjourns—Many Questions Considered—Officers Elected—The Order Being More Completely Organized.

The Convention of the Brotherhood of Engineers and the Brotherhood of Firemen adjourned yesterday afternoon after a four days' session. Most of the delegates left the city last evening, but some remained here to consider further the work of some of the boards or committees.

The delegates came from all parts of the country, but the majority are identified with the Pennsylvania system. The next convention will be held in this city in 1924. The officers elected for the next two years were: Chairman, S. P. Lowery, of Harrisburg, and Secretary, J. P. Welsh, of Erie.

NECKWEAR AT 50c.
