A Very Favorable Report for the Past Week All Along the Line.

THE IRON OUTPUT INCREASING.

Ixports Are Again nereasing, Though Big Imports Continue.

THITSBURG DROPS IN BANK CLEARINGS

NEW YORK, Oct. 14.-R. G. Dun & Co., in their weekly review of trade, say: Once more it must be said that trade indications are entirely favorable. Even the shrinkage in exports has ceased an increase of \$1,500,000 appearing here last week, while imports continue surprisingly large and 1 reign exchange declined.

Patisburg reports a stifler market for pig iron and a good demand for manufactured products, with improving prospects on the g ass business.

Wheat is an eighth stronger than a year ago, but corn is le lower; oats, 136e; hogs, 20c, and lard, 15c per 100 pound; cotton 2 c lower, with sales of more than 1,100,000 bales for the week, and oil Mc lower. Improved crop reports and heavy movement or products push prices downward.

The iron output October 1 was 158,027 tons weekly, against 151,648 tons September 1, this in spite of the fact that the stock on hand decreased 25,324 tons during September, The demand for pig iron is improving. A general advance of 50c per ton is reported for pig. with liberal buying, while trade in plates is very unsatisfactory. Bar iron is somewhat better and structural mills are full of orders.

Reports From the Big Cities.

Boston reports active trade. At Philadelphia the iron market decidedly improves. Western orders for coal cannot be filled because the railroads are blocked and good orders for the spring, fall and winter trade are reported in drygoods, while the wool market continues active. Trace in jewelry is fair and paints and oils are active. At Baltimore the infrequency of Southern failures is gratifying and collections are

more satisfactory.

At Cleveland rolled iron is in large demand, though pig is lower than ever in price. The boot and shoe trade at Indian-spolis reports increased sales, and at Ft. Wayne sales of merchandise exceed last year's. Building is fair and manufacturing healthy. At Detroit manufacturers are full of orders and trade is good.

Chicago again reports enormous increase in receipts, those of wheat, oats and barley having doubled, while receipts of corn are about 15 times last year's; in wool, a gain of 40 per cent is reported; in cattle and hogs, 25 per cent, and some increase in flour, dressed beef, butter and cheese. Business was never wore prosperous and shipments of merchandise are of enormous magnitude. Trade is remarkably strong at St. Louis, the corn ercp proving larger than was anticipated. Business is larger than last year at Kansas City and very good at Denver. At Minneapolis nearly all branches show increase over last year, and the output of flour, 230,000 barrels, is the largest ever known in a week. At St. Paul increased movement in crops is seen. At Omaha trade is very busy. Business at Nashville is improving, but at Little Rock is still

Conditions of the Commodities.

Livelier buying continues in copper at 11% cents, and speculation moves tin upward, but lead is weak and unsettled at 4

Cotton and woolen mills are fully employed, and many of them can't fill their criders, though running their machinery night and day. Sales of wool this year at three chief markets have been 247,000,000 pounds against 194,000,000 to the same date last year. Strong buying is seen in cottons. The business failures occurring throughout the country during the last seven days numher 215. For the corresponding week of last

Bradstreet's weekly Wall street review says: The holiday spirit which prevailed during the early part of the week naturally resulted in considerable speculative dullress. It was, however, noticeable that the inactivity created very slight impression upon prices, and that even the augmented firmness of the money market failed to give a bearish tendency to the market. The resumption of business on the Stock Exchange Thursday resulted in the appearance of other factors, which have given an increased bullish tone to the proceedings. A renewal of foreign buying has been the most encouraging of recent developments.

Pittsburg Drops in the Bank Race. The following table, compiled by Brad-street's, gives the Clearings House returns for the week ending October 13, 1892, and the percentage of increase or decrease as compared with the corresponding week

tempts to levy political assessments are but the work of wags, who take a delight in making life a burden for that fierce civil service reformer, Theodore Roosevelt. Several of the reports that have served to keep that gentleman awake at night recently have proved to be without foundation. Another one, that is brought to light to-day seems to be of the same pattern. It was seems to be of the same pattern. It was stated that the employees at the Norfolk Navy Yard had been invited by the members of the Republican State Committee to call at the office of Colonel Lamb, a prominent Republican of Norfolk, and take counsel how they could best promote the good of the party, and suggesting the contribution of a day's pay as one of the means.

means.
Colonel Lamb happened to be in this city to-day and was asked about the matter. He replied that he had loaned his office to the replied that he had loaned his office to the committee and Republicans had been invited to attend a meeting for consultation, but that he knew of no suggestion to the navy yard employes to make contributions. He assured the correspondent of THZ DISPATCH, however, that if the Republicans were to do so they would but follow in the footsteps of the Democrats, who, under the Cleveland administration, assessed every employe at the yards, even to the water bova. He did not think the Republicans would be inclined to go so far as this, but he assumed that they would not refuse money from any source if it came voluntarily.

### SCHEMING FOR A SENATOR.

The Real Reason Why Democrats Are

Fusing in Minnesota. St. PAUL, Oct. 14.-The action of the Democrats and Populists in several parts of the State discloses in part why the four Weaver electors were put on the Democratic national ticket. At Rochester two candidates for the Legislature were nominated by the Populists, and the Democrats promptly indorsed them. The same thing was done in three other counties of the State. The scheme, it is stated, is to bring about fusion in every part of the State. To this end the Populists will withdraw all their candidates in St. Paul and Minne-apolis, and in return for the favor the Democrats will withdraw all their candi-dates in the Alliance stronghold in the porthern part of the State

The plan, it is alleged, contemplates the control of the LowerHouse with the view of sending Michael Doran, Democratic National Committeeman for Minnesota, to the Senate, to succeed Davis. The State Senate, which holds over, stands; Republicans, 25; Fusionists, 29. In order to control the Legislature the combine must elect 56 of 114 members of the House.

### WARDEN WRIGHT HOME.

The Ruler of the Penitentiary Back Fron His European Trip.

Captain Wright, the warden of the Western Penitentiary, and his daughter, Miss Lucie Wright, returned home from Europe yesterday. The prison officers tendered the warden a warm reception. While on the Continent he visited several prisons at the request of the United States Government.

He visited 11 penal institutions in Great Britain, Ireland, France and Italy and found them differently managed from those in this country. In France the convicts manufacture wax dolls and are allowed to drink wine. The warden said the McKinley bill was not thought very much of in England or the other European countries at the present time.

at the present time.
