

POTTER IS PROMOTED.

A Change of Management at the Carnegie Company's Mills.

WILL NOT AFFECT THE SITUATION.

Homestead Considerably Excited by the Considerable Order.

ALL THE WINDOW GLASSHOUSES GOING

The rumors that were abroad concerning a change in the management of the Carnegie Steel Company's Homestead mill were well founded. Yesterday, the company issued a circular announcing several changes and appointments approved by the board. It reads: "Mr. John A. Potter, having resigned the general superintendent of Homestead Steel Works, has been appointed chief mechanical engineer of this association, with office at No. 42 Fifth avenue. Mr. Charles M. Schwab has been appointed general superintendent of the Homestead Steel Works. Mr. James Gayley has been appointed superintendent of Edgar Thomson works. Mr. D. G. Kerr has been appointed superintendent of furnace department, Edgar Thomson works, all taking effect today."

Mr. Potter has had charge of the Homestead mills for the past three years and has made many improvements in the works, which have given the plant the high position which it now holds. Takes the Late Captain Jones' Place. By his appointment as general superintendent of the Homestead Works, Mr. Potter now holds the same position as that held by the late Captain Jones. Mr. Schwab's ability as a superintendent exceeds even the most sanguine expectations of his friends, and the position in which he is now placed will give him a wider field to demonstrate more fully his capability. Mr. Potter formerly had charge of the furnace department at the Edgar Thomson. Mr. Kerr has been chief of the chemical department. T. F. T. Lovejoy, Secretary of the Carnegie Steel Company, when asked about the changes in the management of one of its works said: "Every change made has been a promotion, in appreciation of good services rendered by the company. There has been no dissatisfaction, nor has there been any personal antagonism which the Homestead men are reputed to have for Mr. Potter had any place in the cause for the changes. It was simply a matter of promotion."

A Promotion for Mr. Potter. As far as Mr. Potter is concerned, the new fact of his being moved to the city office is promotion in itself. The position assigned to Mr. Potter was not made at once to suit the condition of affairs, but as the result of two years' contemplation, for that period the board has felt the necessity of a man to take charge of the mechanical engineering departments of the interests, and only waited until it found the right man for the place. Heretofore, perhaps, two of our works would be working at the same machine, yet would know nothing about each other's operations, on account of being here in head man with whom they were connected. The board has also been troubled in passing upon matters which in reality should have been first passed upon by an expert and then referred to the board. As far as the trouble at Homestead is concerned, it is a matter of time, and the changes will have an effect upon men's returning, although they may."

LL NOT CHANGE THE SITUATION. The Amalgamated Officials View Superintendent Potter's Resignation. The resignation of Superintendent Potter of the Homestead mills, was the topic of conversation among the Amalgamated officials yesterday. They were apparently satisfied with the change, but generally did not think it would have any effect on the Homestead lockout, or tend to influence the old men to return to work. At the Amalgamated headquarters it was reported that from all appearances the men were as determined as ever, and there were no signs of their returning to work. President-elect Garland expressed himself as satisfied with the outlook, and took hopeful view of the situation. He said: "Contributions continue to come in freely. It does not seem to be determined as ever, the changing of superintendents may have been made with the object of inducing more of the old men to return, but I do not see it will change the situation. I see the miners' Board deny that there have been many desertions as reported, at least no part of desertions has been made at this time." Mr. Garland said he knew nothing of the proposed movement by the Knights of Labor to ask Congress to appoint a committee to investigate the armor plate sent from the Carnegie mills.

THREE ROLLS BROKEN.

orkmen Say There Was a Breakdown at the Thirty-Third Street Mill. Workmen coming out of the Thirty-third mill last evening reported that early yesterday morning three rolls in the 12-inch department were broken. The accident is said to have been the result of carelessness in inexperienced on the part of the non-union workmen. When work was begun the day the rolls were changed, the turn out different sized steel. The piece of metal run through was not in proper condition and the accident was the result. The mill was shut down and will be in working order for some time. The men were jubilant when they heard of the accident, as during the past ten days there have been no serious breakdowns in the mill and they thought the new men were beginning to run the machinery more competently. The strike has been on the whole being more enheartened and the men are a little more than half the capacity.

KNIGHTS OF LABOR TO MEET.

Delegates of This District to Meet Together for Consultation. The quarterly meeting of the delegates to the locals in District Assembly No. 3, Knights of Labor, will be held at the m. No. 66 Third avenue, this afternoon, 7 o'clock. There is a great deal of business to come before the meeting on account the starting up of the various mills for the work. The Homestead struggle will be fully discussed and some action likely be taken to relieve the present situation.

AMONG THE GLASS HOUSES.

Last Window Glass House Started Up and All Are Now Busy. Campbell & Co., window glass manufacturers of Blair station, started up their glass house yesterday. This is the first in this vicinity to begin operation this fall. The window glass workers in Southside are all busy. The manufacturers report trade good, and say the prospect for a good winter's work is excellent. Many have enough orders booked to them busy for months.

MINERS STRIKE NEARING THE END.

A river coal operators are reported as being that they have practically won the strike for the half-cent reduction in mining coal and that the miners are willing to return to work. It is thought that the loading of flats will be begun next week. The fact that the operators have volunteered a yearly agreement with the men is regarded as encouraging.

SCHWAB GOES TO WORK.

He Enters Upon His Duties as General Manager of the Homestead Plant—Strikers Think the Change Will Effect a Settlement—Potter's Work.

Mr. Charles M. Schwab yesterday entered upon his duties as general manager of the Homestead Steel Works. That the sudden change in management has created a sensation in the borough is to put the situation mildly. All day and last night the streets were thronged with locked-out men and sympathizers. Many think that it is the opening wedge to a settlement. They believe that Mr. Schwab will invite a conference and that the strike will be over in a week.

John A. Potter came here in 1887 from Chicago, where he had been an employee of the North Chicago Rolling Mill Company, now known as the Illinois Steel Company. At first he was a master mechanic of the local plant, and in a year was appointed assistant superintendent. Shortly afterward he was made superintendent, and when Mr. Schwab was appointed general manager of Edgar Thomson Steel Works Mr. Potter was made general manager of the Homestead plant.

From one basic and two acid furnaces and 16 open-hearth furnaces outgrew the present magnificent Bessemer process under the new management. The new beam mill was afterwards put in and finally the armor plate department. Previous to building the latter Mr. Potter was in charge of Europe, where he inspected the Creusot forges, the Whitfield and Campbell and Brown works. He was impressed with the slowness of handling plates and the primitive methods in vogue, and he invented the system of rolls for the rolling of armor plate which has proven so useful here. By this Mr. Potter has gained a name throughout the country.

Edward Willis, colored, was moving into a house near Fourth avenue and McClure street yesterday, when a crowd gathered and began to hoot and yell. Finally some of the rioters were taken to the Edgar Thomson. Mr. Potter and Ritchie dispersed the crowd with difficulty.

CLUBS AT WHEELING.

Local Republicans Were Well Represented in the Wheeling Parade. A number of local Republican clubs left for Wheeling yesterday to attend the McKinley meeting. The American Club started in the morning, and was delegated to escort the Governor to the fair grounds in the afternoon. The Grand Army band furnished the music, and 117 men under the command of Major S. D. Hubley, were in line. The boys looked well in the new suits. They wore white high hats and black mackintoshes. The famous red, white and blue umbrella was a feature.

The Six Footers were presented with a handsome clock for \$200. The clubs that left for Wheeling on the morning were the American, Conkling Club, General Republican Club, of Allegheny, and the Allegheny Republican Club. These who started yesterday afternoon were the Six Footers, the Fourteenth and Eleventh Ward Clubs, Tariff Cadets, Union Republican Club, McKeesport Young Men's Club, Mansfield and Braddock Republican clubs.

WILL WORK FOR HARRISON.

Fred Douglas Thinks the President Will Be Re-Elected. Among the people bound for the dedication of the World's Fair buildings yesterday morning, were Fred Douglas and Governor Reynolds and his staff, of Delaware. Old Fred said he expected to make five speeches for the Republicans in Indiana. "This is the best of times," he said. "Sympathy for his life has nothing to do with it. The President is the friend of the working people and they know it. We could easily carry the country if we had a fair count in the South."

DEMOCRATS ARRANGE A MEETING.

The Democrats of the Fourteenth and Twenty-third wards met last night and arranged to hold a meeting in Lawrenceville on Saturday night to boom Jerry Dougherty for the State Senate. It is said the Saturday night's meeting will be one of the largest ever held in Lawrenceville.

OPEN AIR DEMOCRATIC MEETING.

A Democratic meeting was held last night on Kirkpatrick street, above Wylie avenue. About 1,500 people attended. Speeches were made by Chairman Bonner, Jerry Dougherty, James Howley and Walter Brown. Several clubs paraded.

LOCAL POLITICAL BRIEVES.

A REPUBLICAN mass meeting will be held at Homestead on Monday evening next. There will be a Republican meeting held in Ritchie Hall, Sewickley, on Thursday night.

The Republican County Committee will hold a meeting in Common Council Chamber at 2:30 o'clock Saturday afternoon.

The Twenty-first ward will hold a meeting at the club headquarters on Friday night.

The Republicans of the Thirty-second ward will hold a meeting at the Third-second ward Republican headquarters to-night. A large turnout is expected.

The Republicans and Prohibitionists opened the campaign at Verona last night. W. D. Evans and William Bonham spoke for the Republicans. B. S. Taylor, of Iowa, was the Prohibition speaker. Both held enthusiastic meetings.

THE MAYOR SAYS NO.

No Discrimination Permitted in the Illegal Sale of Liquor.

THE BROOKS LAW IS ENFORCED

In the Districts Where Its Provisions Have Been Violated.

THE POLICE ACT WITH PROMPTNESS

The agitation which began with the arrest of Mrs. Sherry for illegal liquor selling culminated yesterday. After carefully considering the matter Mayor Goetz yesterday issued an order instructing the Chief of the Department of Public Safety to stop violations of the Brooks law in disseminating houses in the First ward and other sections of the city. In his letter to Chief Brown the Mayor, among other things, says:

I write you briefly to say that I am confirmed in the opinion that the illegal sale of liquor should be absolutely suppressed in every district of the city. The law is a no respecter of persons. It applies with equal force to all. We cannot, as public officials, enforce the law against one class of transgressors, while we permit another class, doubly guilty, to enjoy immunity. To do so must inevitably expose us to the just criticism and censure of all right thinking people. It is the duty of every citizen in the earnest sense of duty, and in the firm conviction that there should be no unjust discrimination in the enforcement of the law.

RECEIPT OF THE MAYOR'S LETTER

Chief Brown lost no time in promulgating the following order:

PITTSBURGH, Oct. 18. Roger O'Mara, Esq., Superintendent Bureau of Police: DEAR SIR:—In compliance with an order of the Hon. H. L. Goetz, Mayor of the City of Pittsburgh, you are hereby notified to absolutely prohibit the illegal sale of liquor in all houses in the city of Pittsburgh. You will notify said houses of this order and prosecute to a conviction any and all violators of the law, and you are hereby authorized and directed to use so much of the secret service fund as may be necessary to complete the above duty. Very truly yours, J. O. Brown, Chief of Department of Public Safety.

In speaking of the above order last evening, Chief Brown said: "I will not only fully comply with the order, but I will have the license of any wholesaler who supplies this class with liquor revoked, and will prevent the liquor from being sold in retail saloons to inmates or visitors of such houses. I will also dismiss any policeman who winks at the order." The entire detective force spent last night visiting the houses of such houses and notifying the keepers of the order issued by Chief Brown forbidding the sale of intoxicating liquor of any kind in these houses. They were also notified to stop all saloons to inmates or visitors of such houses. It would be sent to the workhouse.

KEELEY LECTURES APPOINTED.

The Executive Committee of the Keeley League finished business yesterday, and adjourned to meet in New York on the third Tuesday of January, 1923. The following lecturers for the league were appointed: Rev. S. T. Montgomery, Pittsburg; Frank Crosby, John H. Pierce and Nate A. Reed, Chicago; Colonel William Vissler, Tacoma; Washington, Crittendon, S. K. V. Stephens, Madisonville, O.; J. W. Vandervort, New York, and Erasmus Wilson, Pittsburg. Mr. Francis Murphy was engaged for special work, and in response to a telegram from Dr. Keeley, leaves tonight for Dwight.

INSPECTING THE PENNY.

The army of engineers, supervisors and trackmen of the Pennsylvania road started from the Union depot yesterday morning to inspect the roadbed. They occupied three trains. Owing to the heavy fog the party did not leave as early as expected.

TRI-STATE BRIEVES.

TOLDO, O.—Councilman Frank Tanner, the second of the hoodlums was arraigned for trial yesterday afternoon and entered a plea of guilty, throwing himself on the mercy of the court.

CANTON, O.—A shooting occurred last night in which John Ellis and Scott Smith were fatally wounded by George Preston. The shooting grew out of a quarrel over a game of pool.

ZANESVILLE, O.—The grand jury has indicted Thomas Ross, of Norwich, for bigamy. He has a wife in Norwich and another woman in Zanesville, Pa., says she was married to him in 1871.

PHILADELPHIA—At the meeting of the Health Board yesterday 29 new cases of diphtheria were reported as occurring during the past 24 hours. Five have been sent to the Municipal Hospital and 14 houses are quarantined.

McKEESPORT—Foreman Earnest of the Carnegie Steel Works, at Duquesne, met with an accident yesterday, and will probably prove fatal. While working under the mill conveyor he was struck on the head by a red-hot billet. His skull was fractured and his head was terribly burned.

GOETZ'S VISIT TO CARLSBAD

His Life Greatly Prolonged.

There is no doubt that the life of the great poet was greatly prolonged by drinking the waters of the Sprudel Spring. In our day we have the Sprudel Spring brought to us in the form of Salt, which is obtained by evaporation from the waters of Carlsbad.

The Natural CARLSBAD SPRUDEL SALT is in no sense a mere purgative, but is an alternative and eliminative remedy which dissolves tenacious bile, allays irritation and removes obstructions by aiding nature. It acts soothingly and without pain, and is therefore far superior than pills, purgatives and other remedies. The genuine has the signature of EISNER & MENDELSON CO., Sole Agents, New York, on every bottle.
