Nipper and the Industrials Prominent for Strength.

BIG FOUR SCORES A GOOD ADVANCE

NEW YORK, Oct. 20.-The stock market displayed greater strength to-day than expected in view of the protracted holiday, the Stock Exchange having resolved to keep closed until Monday morning next. The early trading afforded indications that the bears intended it possible to use the approaching holiday as a pretext for a resction. New England was sold with considerable freedom down to 43%, a decline of nearly a point from last night's closing. A few other stocks were also raided, but fractional declines resulted in bringing in large buying orders for the railroad as well as the industrial shares and a general advance followed.

Speculation in the railway list was stimu lated by advices of a heavy freight and passenger traffic over the Western lines. "Big Fou:" advanced 2 and others 1/4 to 1 per cent, Fou:" advanced 2 and others 1/2 to 1 per cent, the prices attained being the best for some time. Reading, which has been heavy for some days, started on the up track and advanced over a point, but lost half the improvement before the close. Northern Pacific preferred advanced a little over a point and held firm to a close at about 50. The general market closed firm. Railroad bonds were quiet and the market presented no special feature.

M'DONALD DROPPING.

Its Production Below 20,000 Barrels—The People's Gas Company Loses the Rig at Their McMurray Well, Near Greggs—A Couple of Big Wells at Sistersville.

The estimated production of the M:Donald field has again fallen below 20,000 barrels aday. It was given out yesterday as being 19,500 barrels. There is still only one well on the list making 20 barrels an hour.

The rig at the People's Gas Company's No. 156, on the McMurray farm, located between Oakdale and Gregg station, was burned yesterday. The origin of the fire was rather peeuliar. They engaged in shooting the well: A shot had been put in, but the go-devil failed to explode it. The shooter then dropped a squib, and 'just as he did so the well made a flow, throwing the lighted squib up into the derrick, where it exploded and ignited the rig. The burning well is only a short distance from the Forest Oil Company's No. 2 Gregg, and it was only by the hardest kind of work that it was saved. It is the first accident of the Kind that has happened in the field.

The Forest Oil Company's No. 6 on the Clever farm in the northeastern part of the McCurdy field reached the firth sand yesterday morning and made a 35-barrel flow. It was only by the hardest kind of work that it was saved. It is the first accident of the kind that has happened in the field.

Flour in the Northwest. Minneapolis, Minn., Oct. 20.—The North-watern Miller says: The mills did not get out quite as much flour hast week as in the week before, partly on account of a loss of time by one of them from a break down. The amount of flour made was 221,370 bar-rels, averaging 38,235 barrels daily. Only the previous week's run has has ever exceeded that of last week. For the corresponding week a year ago the output was 194,600 bar-rels, and in 1890, 185,730 barrels. This week the same 20 mills are going, and if no acci-dents happen they are quite likely to again average 25,000 barrels per 24 hours. While millers complain of the flour market as lacking any vim or liveliness, they seem to be selling about as much as is being ground from week to week. MINNEAPOLIS, MINN., Oct. 20 .- The North-

HOLIDAY FEELING

Pervades the Street and Restricts Trading in Securities.

PHILLIE LOSES A FRACTION. But the Remainder of the List Rules Steady to Firm.

LOCAL AND GENERAL PINANCIAL NEWS

THURSDAY, Oct. 20. A sort of a holiday spirit pervaded "the street" to-day, being especially noticeable in the brokers' offices and on 'Change. It was reflected in various ways, though mainly in very moderate trading and a disposition to sell rather than to buy. This disposition became more marked when the Exchange voted to adjourn at 3 P. M. until 10 A. M. next Monday, but nothing suffered save Philadelphia Company, which declined a fraction and closed looking rather weak. There, were no other particularly weak spots, however, and in a general way the market was steady to firm, though quiet, with Pleasant Valley, Switch and Signal, Underground Cable, Luster and United States Glass most prominent with respect to firmness.

At the calls Electric scrip, Philadelphia Company, Citizens' traction, P. & B. traction and Pleasant Valley were the only items traded in-scrip selling at 93 and closing at 93 bid, Citizens' traction at 62% and closing at 62% bid, Philadelphia Com-pany at 21% and closing at 21% 21%, P. & B. traction at 24% and closing at 24% 225, and Pleasant Valley Railway at 25%, closing at

A Burle Blast for Seattle.

A Bugle Blast for Seattle. William H. Llewellyn, Vice President of the Llewellyn Mortgage and Trust Company of Seattle, Wash., was encountered in the office of George B. Hill & Co. this afternoon, and talked to THE DISPATCH as follows:

"There are those who have been pleased to compare Seattle to Chicago, and have

as it was a failure in that formation they put it on down to the fifth sand. This is the first oil that has been struck in the fifth sand in this part of the field. Paid Too High Prices. British investors have had occasion to express much dissatisfaction with their investments in American breweries three or four years ago. The London Statist has this to say upon the subject: "The English directors of some American breweries are now disors of some American breweries are now disposed to regard the disastrous state of their affairs as the result chiefly of bad management in America. It is to be noted, however, that in most cases this is the same management which, before the breweries were sold to English companies, had, acaccording to the prospectuses, made them highly prosperous, and that, in some insuances, the English directors, after visits to America, have expressed full approval of the management which is now strongly condemned. There may have been mismanagement, but the great mistake, as we have constantly pointed out, was that twice or three times their value was paid for most of the breweries, and the difficulties which were almost certain to arise in carrying them on by British companies were resolutely ignored." How are investors in some of the many "Industrials," which have been floated in the same way, likely to fare?

B. S. MoLure, assistant secretary of the Fire and Marine Insurance Company, of Wheeling, writes to The Disparded as follows: "Under the head of Tinancial Notes' in your issue of, the 18th inst. you have, doubtless unintentionally, done us an injury, in stating that this company has, by action of its stockholders, voted to retire the company. As this company has never been in a better financial condition, no such move has been made or is contemplated. We trust that you will give the same publicity to this, as you have to the error. Your mistake has probably followed the notice of the winding up of the Ætna Fire and Marine Insurance Company."

The Baltimore and Ohio Railroad Com The Baltimore and Ohio Kaliroa! Company, at its meeting yesterday, declared a dividend of 2½ per cent for the six months ended June 30. TALES LIKE A REAL BRITISHER.

The Canadian Goldwin Smith Attacks Gladstone in a Newspaper Article.

LONDON, Oct. 20 .- Prof. Goldwin Smith has written a letter, which is published in the Times to-day, commenting on Mr. Gladstone's recent article on home rule in the North American Review. Prof. Smith save that among educated Americans the tradi-tional hatred of England is dead. Among the masses it is dying out, but what remains is kept alive by newspapers, stimulated by protectionists in their own interests. Hatred of everything English is effected in American polities for the sake of the Irish vote. Prof. Smith says:

I have yet to see the American who really cares for the Irish cause or who clearly understands the meaning of home rule. America's pretended love for Mr. Gladstone is nothing but hatred of England. Americans cannot help in their hearts spurning the Englishman who, while holding Great Britain's highest trust, stabs her character in a foreign press.
