## BUSINESS IS ACTIVE.

Operations in All Manufacturing Lines on a Pretty Big Scale.

PREVIOUS RECORDS SURPASSED.

Indications Point Unmistakably to Season of Great Prosperity.

SATURDAY, Oct. 22. The business week has been broken up and demoralized by the Columbus holidays, and a trade review with comparisons, therefore, is out of the question. We have had reports of increased activity in mercantile and manufacturing lines, however; and according to the commercial agencies the volume of general business is surpassing all previous autumn records. This is particularly gratifying in view of the Presidental contest now in progress, as it indicates that no matter what the outcome of it may be trade will not be materially affected one way or the other. The most encouraging teature of the general situation, perhaps, is facture. It indicates that manufacturers are confident of an unusually bread and strong market for manufactured goods throughout the World's Fair year, and may be accepted as a guarantee of at least a year be accepted as a guarantee of at reast a year of unwonted prosperity. Farmers are get-ting low prices for their grain, but they are making money on live stock, dairy products and tarmyard stuff, and otherwise faring well. The distributive movement of general merchandise from this point is larger and more profitable than at this time last year, showing that the purchasing pewer of con-sumers has increased, and as collections are fairly easy no complaints are heard on any

### Lowest Price | ver Recorded.

St. Louis, Oct. 22.-The lowest quotation ever recorded on wheat since St. Louis became a leading market was recorded to-day. came a leading market was recorded to-day. The price, which has been on the decline for some time past, dropped to-day to 80%. The bears have for some time believed that they were on the winning side, but so sharp a decline had not been expected. The crop this year, although fair, is below the average, and the European demand has been heavier than had been counted on, owing to the poor crops in the wheat growing sections of Europe. The direct cause of the low price seems, according to the prevailing idea, to be that farmers who have been holding back their grain have suddenly released it, floodtheir grain have suddenly released it, flooding the market in consequence.

## Higher Priced Cotton Looked For.

NEW YORK, Oct. 22.-Hubbard, Price & Co. say: The statistical position of cotton, as made up by this morning's Chronicle, shows the following: A visible supply of 3,073,776 bales this year, against 2,635,402 at the same time last year. Crop coming in sight this week 263,163, against 514,675 beles for the same week in 1831. The figures speak for themselves. In Liverpool yesterday our decline of Thursday was the cause of lower quountions. To-day sales were unusually heavy for a Saturday, and the market closed steady at an advance. Our own market opened firm at 10 points advance, and closed at the best price of the day, 16 to 17 points above those of Thursday. The temper of the market is very bullish and there appears every probability of higher prices on Monday. The movement at the interior towns will hardly exceed 36,000 bales, against 125,000 lates last year. The foreign markets can scarcely be expected to decline upon any comparison which shows so great a the following: A visible supply of 3,073,776 comparison which shows so great a

## deficiency as this.

Grain, Flour and Feed.

The sample table was covered with samples of all descriptions of stuff to-day, but, judging by results, the general supply was largely in excess of the demand. The only transaction was one car sample oats, spot, at 31%c.

Receipts bulletined: Via the R & O.—7 cars bay, I car brain, I car jouts, I car middlings via the P., Ft. W. & C.—2 cars corn, 17 cars oats, 6 cars rye, II cars hay, 5 cars barley, 2 cars flour. Total, 34 cars.

Level of the waskness and lower on the duliness in trade, the big receipts for three days and the offerings were free. The tendency to decline was slightly counteracted by the firmness of provisions. Initial trades were at about the final fluwer of Wednesday and gradually saged off 1/46%c.

Out were quiet and lower on the duliness in trade, the big receipts for three days and in sympathy with the weakness of provisions. Initial trades were at about the final fluwers of Wednesday and gradually saged off 1/46%c.

Out were quiet and lower on the duliness in trade, the big receipts for three days and in sympathy with the weakness of ship were free. The tendency to decline was slightly counteracted by the firmness of provisions. Initial trades were at about the final fluwers of Wednesday and gradually saged off 1/46%c.

Out were quiet and lower on the duliness in trade, the big receipts for three days and in sympathy with the weakness in wheat. There was not much demand and the offerings were free. The tendency to decline was slightly counteracted by the firmness of provisions. Initial trades were at about the final fluwer of Wednesday and gradually saged off 1/46%c.

Out were quiet and lower on the duliness in trade, the big receipts for three days and in sympathy saged off 1/46%c.

Out were quiet and lower on the dulines ship with the weakness in wheat.

## HEAVINESS IN GRAIN

And Buoyancy in Provisions the Features on the Chicago Board of Trade-Wheat Receipts Enormous-Receipts of Hogs Light and Prices Somewhat Higher.

CHICAGO, Oct. 22.-Heaviness in grain and buoyancy in provision tells the tale of to day's markets. Wheat is Male lower and corn 14874c.
The wheat receipts were a depressing weight, the arrival here for three days foot-ing up 1,026 cars and there were nearly 3,000 orars in the Northwest. A reported failure of a large concern in Paris made trade here nervous and helped to weaken prices, atthough it did not appear to have much effect on the market, which would naturally be most affected if the failure had been important.

Corn was weak and lower on the dulines

Doesn't mean simply scrubbing the floors and woodwork. Your papered walls and ceilings accumulate as much dirt as any part of the house and it can't be cleaned, at least no one has yet made a success of this art. Anyway, new hall paper is cheaper. We have wall paper in our stock made by the following firms: Beck, Graves, Manhatten, Campbell, Gladhill, Strahan, Nevins & Haviland, Cary, Cresswell & Washburn, Janaway & Carpender, Mairs, Bartholomar, Wilson Fenimore, Warren Fuller, Frankford, Yerkes, Birge, Howell, Hobbs, Empire and all the leading factories of America. We mention these names because many dealers claim the exclusive control of them. These goods were all (but one) bought direct from the factories, thereby giving us our selections from each entire line. No other house in Pittsburg has this variety. We also keep a large line of Lincrusta Walton and picture moldings; also any number of paper hangers and painters. The dealers admit our prices are the lowest. All our papers above 5c are full length. This is more than many dealers in Pittsburg can say. We are receiving new goods (1893 patterns) and can please any fancy. We have a splendid line of special (1893 goods) 22-inch papers at 15c and any number of gold papers at 10c. Send for samples. Sent free to any address.

G. G. O'BRIEN,

Paint and Wall Paper, Store, Smithfield St., Cor. Diamond St. SALL 292 FIFTH AVE., Three Squares from Court House.

This man is trying to joke his wife about her cooking ability.

He says the household will suffer from dyspepsia. It's a poor joke. Americans eat too much rich food, without taking advantage of natural antidotes to overcome the bad effects. Nobody wants to diet. It is a
