NEW YORK, Oct. 26.-The stock market to-day turned upon the developments in the New England deat, definite details of which were made public this afternoon. The stock advanced this morning from 471/2 to 491/8. but toward the close was subjected to a fierce assault, under which the price broke rapidly to 44%. Enormous blocks changed hands and a scene of intense excitement was witnessed in the Exchange. The final quotation was 451%. The theory after the close was that the movement was a coup prepartory to the naming of Mr. McLeod as President of the company. The belief was general that the ailiance will inure to the benefit of all three roads, and that the Reading people have other plans in contemplation which will give them control of one of the greatest railroad combinations in the country. It was noticeable that Read-

the country. It was noticeable that Read-ing was but slightly affected by the slump in New England. It advanced from 57% to 56% and closed at 58%, against 58% yester-day. The transactions in New England reached 11,000 and in Reading 12,000 shares, in a total for the whole list of 441,570. The temper of speculation in the early dealings was strong. Some shares sold off. M to 1 per cent at the start, but later ad-vanced M to 2 per cent, with the industrials in the lead-Chricago Gas. Distilling and Catin the lead-Chicago Gas, Distilling and Cat-tle Feeding and Northern Pacific preferred being especially strong. The market with-stood the break in New England surprising-

biolog tesperative series and surprising-ly well, except in the case of American Sugar, which dropped to 10%. Other stocks, as a rule, yielded only ¼ to 1 per cent, and finally recovered ½ to ½. American Sugar rallied 1 from the lowest. Peoria, Decatur and Evansville broke 2½ to 15. The general market close' stendier. Railroad bonds were generally strong. The dealings tooted up\$1,14,000. Louisville, New Albany and Chicago consols rose from 101½ to 104½ on a report that the bonds are to be listed on the London Stock Exchange. The Reading issues were 'tregular on slight changes. The Atchison, Kansas and Texas, Texus Pacific and Erie mortgages were quiet.

Tendency. LOCAL AND GENERAL FINANCIAL NEWS Trading in local securities was fairly active and well distributed on 'Change today, but the tone of the market was about as it has been for several days past-generally weak and unsettled. Airbrake fur-

nished one of the features of the day by a further drop to 125@130, with considerable for sale at about the latter price and a disposition to take hold at the former. The scare created by the rumors about the New York Brake Company and the New York Central is subsiding, and as the concrete

facts come to the surface it is seen that there was no reason to be scared at there was no reason to be scared at all. There is no more reason now to believe that the New York Company will ever be able to compete with the home com-pany than there ever was; its business and prospects have not changed any; the New York Central Railroad management has not indorsed its apparatus either directly or inderest is a point in favor of the position taken by the Westinghouse Company. The rumors came to hand very opportunely, however, for these who were working to get the stock down, and while it may go a little lower be-fore the influence of the story has spent its force, it looked at the close to day as if the rallying point was close at hand. The pressure to sell Philadelphia Com-many was even less to day than yesterday, and in consequence the stock was firmer, with a rising tendency. Electric was stronger, with a sale of the first preferred a fraction above par. It is ourrent talk in excellent quarters that the meeting of the directors a week ago last Wednesday, mention of which was made in these columns, was mainly for the purpose of considering a new proposition from the General Electric Company for consolida-tion, and that its acceptance hinges on questions so slight as to make it almost a certainty that the Westinghouse Company will soon be a member of the combine. To all. There is no more reason now

which Mr. Schmertz intends to occupy as a residence. Mr. Wilkinson also sold for Henry Rob-erts a piece of vacant ground situated on Penn avenue, near Dennison avenue, 503231 feet, for \$15,000, or \$187 50 per foot front. This property will also be improved. Both of these sales show an increase in value within a little more than one year of over 50 per cent.

A Little Gossip.

A deposit of \$10,000 by certified check, on

alley, will be required of the successful bid-der at the time of sale, November 16, in de-fault of which the property will be reoffered for sale. The property owned by Julius Voetter, situated on Denniston avenue, near Mar-chand street, having a frontage of 150 re-by 270 leet in depth with two brick dwell-ings, it is reported, will change hands in a few days. The final papers, it is said, are now being prepared, the consideration being \$27,000. The erection of 20 fine dwellings has been commenced on Homer street and Avondale

DECREASING RECEIPTS

Cause Uneasiness Among Grain Sh Provisions Close Weak.

CHICAGO, Oct. 26 .- Toward the end of today's session of the Board of Trade talk of decreasing receipts af country points began to cause uneasiness among the shorts and the St. Louis people who had wheat sold and Minneapolis men in the same predicament sent in boying orders in such numbers as to wake up the local crowd. A lively rally resulted and instead of a material decline sulted and instead of a material decline there is practically no alteration in prices of wheat, corn or cats, comparing yesterday's and to-day's closing prices. By e was very weak and is from 1c to 3c lower than on the day before. Provisions had a very dull ses-sion and closed at the bottom for the day.

It is not expected, how-ever, that even under such circumstances the Atchison will return to a payment of dividends within the next year or two. Like the Rock Island is will no doubt devote a large portion of its earnings to im-provements before beginning to distribute the profits to stockholders. Bondholders of the Georgis Southern and Florida Railroad met to-day under call of the trustees of the mortgage, the Mercantile Trust and Deposit Company, of Baltimore. Of the \$3,420,600 bonds there were repre-sented \$2,522,000 by holders in Baltimore, New York Richmond and Savannah. It was de-cided by resolution to indorse the foreclosure action of the trustees. A committee was ap-pointed to represent the bondholders in the foreclosure proceedings and to transact business looking toward placing the com-mittee in active control of the bonds pend-ing these proceedings. the Rico-Aspen Company, and robbed them of a great many thousand dollars worth of ore. Underground surveys made by Mr. Max Boehmer, of Leadville, whose work no one will question, shows this to be the case. Not content with robbery he gave orders, it is claftmed, to his foreman to shoot ground in contest between the companies at a time and in a way which endangered life, and did seriously injure the foreman on the Rico-Aspen." Higher-Grain Weak.

WEDNESDAY, Oct. 26. Trade in mercantile and manufacturing lines is being conducted at present on a rather liberal scale despite politics, and the demand is increasing rather than otherwise. In some lines, however, which depend largely upon the patronage of the farmer for support there is just now, it is said, a little hesitation. This is chargeable, not to the farmer's inability to pay for goods, but rather to his good fortune. The weather for a month past has been almost uniformly excellent, and farm work of all kinds is being pushed forward more rapidly and to better advantage than for a number of years. This keeps the farmer employed and prevents his visiting town and city to make purchases. A little later a recompense will come. With his crops ready for the market and his ground plowed and sown, he will not only have time to buy, but money to pay, and country trade will almost boom. The hardware men report slow trade from this cause, but are confident that they will transact a very heavy fall business in the country. Up to this time the approaching election has had no effect upon business, but from now on the excitement will in-crease to the delay of general trade. Early in November this will be a thing of the past and tiade will be excellent. excellent, and farm work of all kinds is
