cent outside of New England, Lake Shore, American Sugar and Northern preferred, the decline being about a point in each case. Final sales were at a recovery of 3 to 36. A few stocks moved inde pendently of the fluctuations just noted, scoring higher quotations and holding the advance well to the end. Hilmois Central rose 2½ to 103. New York Central moved up from 111 to 111½, but reacted to 111½. There was a lively demand for New York, Susquebanna and Westerns, the common and preferred both advancing a point. The widest chances of the day were in Ohio Southern, which advanced 4½ per cent to 35 on rumors that the company has obtained the necessary capital to extend its system. The industrial group was quiet and quotations closed about the same as yesterday. The market closed steady in tone.

Builway bonds were firm, the sale amounting to \$1,224,000. The Reading issues were weaker. Detroit and Bay City and Alpena 1sts declined 3 to 60 and Houston and Texas debenture 4s rose 2½ to 80%. pendently of the fluctuations just noted

In the morning Hinois Central and New York Central were advanced by the traders, the former on a report that the decision soon to be rendered by the United States Supreme Court would cede the right to them of the property along the lake front at Chicago. If they win the suit it will be a tremendous thing for the Central, but they have lost it once before in another court, and it is probable that the decision will be adverse to them again. Whisky moved in narrow limits, and the Coalers report fractional losses, though there were rumors of a narrow limits, and the Coalers report fractional losses, though there were rumors of a cut in coal rates. We think that in view of the present manipulated state of the markets it is best to take profits and await developments before purchasing.—J. S. Bache & Co. to Oakley & Co.

## EVERYTHING TIGHER

A Sharp Rally Follows Early Depression in Grain and Provisions.

Chirago, Nov. 2.- A strong rally, after an interval of depression, was the feature of to-day's markets. The strength extended into all the pits, lifting both cereals and provisions. Price changes from last night, however, are not remarkable. In wheat at the start there was free liquidation which was increased by rains throughout the winter wheat district. December was the weakest and fell to 6 cents discount on May against 55c difference yesterday. Counsel-man was out with a statement that all reports connecting his house with a squeeze of against 5½c difference yesterday. Counselman was out with a statement that all reports connecting his house with a squeeze of that month are unterly without foundation, and that he really feels very bearish on the market. This was followed by weak cables, which increased the depression and the selling was for a time urgent and vicious. slay sold at the lowest of the crop. Later, however, operators began to feel that perhaps they had not acted wisely in selling so freely and began to take back the property. At the same time the estimates for to-morrow came in unusually light, and this was quickly followed by Bradwiee's report of the available supply showing a much smaller increase than expected. Under the influence of this news the market developed considerable firmness and prices reacted. Reports from the Northwest are generally agreed about a heavy decrease in farmers' deliveries, but country elevators and sidetracks are so crowded that the effect of that on Minneapolis and Duluth receipts is not expected to show for some time yet. sold at the lowest of the crop. Benorts from the Northwest are generally agrreed about a heavy decrease in farmers' deliveries, but country elevators and sidetracks are so crowded that the effect of that on Minneapolis and Dulub receipts is not expected to show for some time yet.

Corn was weak during the first hour and sold off sharply, influenced largely by the down ward tendency in wheat, for all other conditions were favorable. The receipts were nearly 100 cars less than estimated and rain was reported everywhere in the corn belt, but the slump in wheat carried corn with it. Later when wheat he end to react or quickly followed, and was further strengthened by the small estimate for to-morrow—only 250 cars.

Oats were steady most of the day. The

New York, Nov. 2—Speculation at the Stock Exchange was less active than for some time past, and the dullness is attributed to the near approach of the Presidental election which occupies the attention of the street to the exclusion of everything else. The dullness was taken advantage of to raid the different shares, which, however, yielded ¼ to % per cent outside of New England, Lake Shore, American Sugar and Northern preferred, American Sugar and Northern preferred.

# TRADING FALLING OFF.

But the Market Presents a Generally Steady to Strong Front.

AIRBRAKE MOVES UP AGAIN

And Duquesne Traction Continues Its Re covering Movement.

PEW OTHER CONSPICUOUS FEATURES

WEDNESDAY, Nov. 2 The volume of business in local securities to-day showed a further tapering off from that completed Monday, and indications pointed to the conclusion that moderate trading is all that can be looked for until after the election. Such a condition, however, is without the natural accompaniment of a weakening tendency superinduced by a disposition to let go of stocks for a while. Indeed, the market is generally strong, all things considered, and the position of a majority of the active shares is such that advances are more likely to be es-tablished in the near future than declines. The features to-day were a further recovery in Duquesne traction, the strength of Airbrake, a slight weaken ening in P., A. & M., sales of Pittsburg traction at 59 and the failure of Philadelphia Company to retain all the re-

covery of the previous day.
On the street there was evidence that con On the street there was evidence that considerable business in street railway bonds was passing, and some of the brokers were busy picking up small lots of Pleasant Valley so that holders could even up in order to trade their holdings properly for Manchester stock. The work of attending to transfers and other necessary details is generously left to the brokers, but as a rule it is a "thank you" job and they are not particularly anxious for it. It takes time, and time is money, especially with the brokers.

Movements on 'Change. Westinghouse Electric second preferred sold at 39 at the first board and closed offered at 39. Pittsburg traction sold at 59, and the closing quotations were 5%259. An odd lot of Union Switch and Signal preferred sold at 38, the stock closing at 371439 ferred sold at 38, the stock closing at 3754@
39. Pleasant Valley sold at 25%, closing at 25% asked. P., A. & M. traction sold at 44%, @45 on call, the outside price for two shares, but after the close the stock sold at 44, and the closing bid was 43%. Central traction sold at 30, closing at 29% bid; a small lot of Airbrake sold at 132, and after the close Electric scrip sold at 94, with the same price bid for more.

People's Pipeage was fractionally firmer, but Philadelphia Company, under a little offering, lost a fraction of the gain of the past few days. Underground Caple and United States Glass continued to show strength. La Noria was higher and Luster easier, and others were unchanged.

Unlisted street railway securities closed as follows: Duquesne traction, 27% bid; do. 5s, 100 asked ex-interest; P. & B. traction, 23% 20, 24%; do 5-, 100 asked ex-interest; P. A. & M. traction, 43% bid; do. 5s, 103 asked.

on 'Cnange, if, indeed, more interest was not manifested in the former than the latter. Harrison money was abundant, but the supporters of Mr. Cleveland had either already "put up" to the extent of their ability, or else they felt less sanguine of the success of their favorite than they did a few days ago, for none of the Harrison money was covered.

The black eye received by Central traction in Councils in the matter of the Beliefield street railway ordinance has evidently embittered the Iriends of Central against the Duquesne people. The latter were charged with violation of agreements and promises, and wagers were offered that their road had not made a dollar since it commenced operations; that it would not pay a dividend as soon as some people expecied, and that it was "no good" on general principles anyhow, Friends of Duquesne offered to take some of the wagers, provided those who offered them would prove their ability to decide them satisfactorily. It was also intimated that Central would "have the law on" Councils and the Eulefield street railway projectors. The Election and the Trusts.

RESIDENCE PROPERTIES ACTIVE.

Recent Sales in This Line Fully Up to Expectations-The St. Anthony Chapel Will Probably Be Sold This Week-Important Building Permits.

WEDNESDAY, Nov. 2. Two sales of residence properties were closed to-day by Messrs, W. C. Stewart and Black & Baird. These sales, in conjunction with the many other deals in properties in this line which have been made lately, verify the statement made in this column a short time ago that increased this column a short time ago that increased activity had developed in residence properties. W. C. Stewart sold for William Biggs n new dwelling on Meyran avenue, Oakland, for 88,500 cash, and Black & Baird sold for Annie M. J. Lawton to Frank Torchist the properties Nos. B and 21 Webster avenue, being a brick dwelling on a lot 40x80 feet through to Dante alley, for \$8,650.

Notes of Gossip. The St. Anthony Chapel on Troy Hill will very likely be sold before the close of the present week. Two of the heirs of the late Father Mollinger, with the power of at-torney from the remainder of the beirs, are in the city (at the Seventh Avenue Hotel), it is said, for the purpose of disposing of the property. A very flattering offer has been submitted to the heirs, and it is very likely that the transfer will be made in a few days. The new boulevard that will extend from the Allegheny river to Forbes street is one of the most important improvements projected in the East End. The new thoroughfare will not only open up immense tracts that are now difficult of access, but it will furnish more direct communication between localities lying within comparative little distance from each other, but which, owing to the peculiar topography of the city, are almost disconnected.

#### GOOD TRADE REPORTS

Continue to Come From All Points-Money Plentiful and Collections Easy-Farmers Still Rushing to Market With Their Wheat, Oats and Corn. WEDNESDAY, Nov. 2.

For some time past trade in all departments has been quite active and general business reports continue highly encouraging. Money is plentiful and likely to grow easy from now forward and collections are satisfactory. The most striking feature of the movement is the extraordinary rush of the farmers to market their grain. All the railroads are crowded with orders to move wheat and corn, and blockades are reported everywhere. Stocks of wheat in sight are unprecedentedly large for the time of year, and they have been increasing at the rate of upward of 4,000,000 bushles a week. At New York the stocks have risen to 14,000,000 bushles and the elevators there and elsewhere are crowded to overflowing. A day or two ago it was stated that from 4,000 to 6,000 cars of grain were on the tracks in Chicago waiting to be switched or unloaded; 130 cars on outside tracks were not inspected owing to their distance from the city. Under these circumstances is is only natural that prices for grain should rule lower. Wheat is phenomenally cheap, the price having fallen to the lowest figure so far reached on this crop. No. 2 cash lots of spring wheat have sold at 694 c per ba during the last week, which is 23c lower than it touched at any time in October, 1891. It seems as if the farmers should get a better price for their wheat, as India and Russia have short crops, and European importing countries are certain to be good buyers of our surplus breadstulls, and there are reasons for believing that after the mad rush to sell is abated there will be a rise in values. the farmers to market their grain. All the our surplus breadstuffs, and there are reasons for believing that after the mad rush to sell is abated there will be a rise in values. Corn is being marketed with great freedom, and is very weak. Corn-husking is proceeding rapidly, and the new crop will be mareted at an early date if the weather continues as favorable as it has been of late. Advices from different parts of the West state that farmers are still plowing and that the winter wheat in the ground is making good progress. Hogs are arriving more freely, and cattle and sheep are being marketed actively.

Drygoods.

Drygoods.

New York, Nov. 2. Business in drygoods tends to moderate as the week advances and the election excitement increases, but buyers keep close watch of tendencies, which all is in fav. r of a strong and higher market and is relying on that. To-day Androscoggin wide sheetings were advanced 140 c a yard. The print market was especially strong, goods for future delivery being "at value."

tral yards this week, but common and medium grades were slow sales. Feeders were scarcely salable, owing to the lack of fail pasturage. Hogs were lower in sympathy with controlling markets and sheep were steady, mainly because of light receipts.
