### A STRONG UNDERTONE PREVALENT

NEW YORK, Nov. & .- The approaching Presidental election was again the chief topic of discussion at the Stock Exchange and the market suffered in consequence. The transactions were small. Despite the dullness the undertone of speculation was strong and the changes, such as they were, were generally in the direction of higher prices. Among the usually active stocks chicago Gas scored the greatest net advance, closing at 94%. New England moved up % and Northern Pacific, St. Paul, Rock Island and Louisville and Nashville about ½ per cent each.
Missouri Pacific sold off a fraction.
The specialties afforded a marked contrast to the uninteresting movements in the gen-eral list. Consolidated Gas jumped from 119% to 124%. Laclede Gas was higher on increased earnings. The common rose 1% and the preferred 35. American Cotton Oil advanced over a point on the favorable character of the annual statement of the company. Pullman Palace Car, after opening two points lower at 197% rose to 199%. Ohio Southern sold up 13. Delaware and Hudson dropped 2 per cent on small sales and American Sugar was also weak at a decline

American Sugar was also wear and of 1 per cent.
The market generally left off firm in tone.
One reason for the effective support given to the leading shares was the non-advance in the Bank of England rate of discount, which also led to more or less covering of short contracts. short contracts.
Railroad bends were dull, the sales footing up only \$611,000. Reading, Atchison and Texas Pacific issues were steady. Ohio Southern 4s rose 5, to 63, and New York, Suguenama and Western General 5s 2, to 95.

The gas stocks were the only ones which assumed any prominence. Consolidated Gas scored a big rise, as it is said that the company is going to move its works over to Long Island, pipe the gas to New York and sell its valuable real estate in this city. Laclede also advanced in sympathy, and it is more than likely that some of the other gas stocks in other cities will also be put higher. We are told that Baltimore gas is paying at present 4½ per cent, and will also sell higher in the near future.—J. S. Bache & Co. to Oakley & Co.

The improvements which were produced in various portions of the list to-day were apparently due to covering of shorts, the failure of the Bank of England to advance its discount rate and a corresponding easing off in money at London being the ostensible cause of the movement.—From Sproul & Co.'s letter.

Government bonds were dull. Close of the

# CHICAGO 'CHANGE,

Cereals Are Somewhat Higher and Provisions Also Advance.

CHICAGO, Nov. 8.-With the receipts at primary points the smallest for three months and the exports the largest during the same time, wheat to-day closed strong. Final figures, as compared with those of last evening, show a gain of 16%c. Corn is unchanged to 1/2 higher. Provisions ad-

vanced 10@20c.

The first feeling in wheat was one weakness. This was attributed to the fact that the local receipts exceeded the estimate by about 90 cars, that deliveries in the Northwest were liberal, and the clearing weather was regarded as favorable for a further increase of interior deliveries. Early English cables were firmer, but this did not prevent a decided bear sentiment on the part of the local trade and there was pretty free selling for a time, under which prices fell off with business dull. Later reports from the seaboard showed a marked revival in the export demand, and the clearings from the seaboard were reported at 915,000 busiels in wheat and flour. This caused an immediate change. The early sellers quickly started to get back what they had sold, and there was fair investment buying, while the offerings became unusually light. The result was a steady advance. The Cincinnati Price Current remorted that wheat was still suffering from drought in large areas, and there was every reason to expect a steady falling off in interior deliveries.

Fardridge was a good buyer of May wheat prices fell off with business dull. Later repardridge was a good buyer of May wheat below 77%c, and was believed to have cov-ered a considerable line. R. W. Dunham &

The Market Dull Owing to the Great Interest in Politics.

A STRONG UNDERTONE PREVALENT

Co. were said to be buying in short wheat for the carly trading similar to that of yesterday. This was due very largely to the sensational reports on the failure of Pegram & Brothers and the published statement that Chicago commission houses were heavy losers. This made the trade nervous. The clearing weather, which it was argued would increase receipts, and the early depression in wheat also had some effect. Provisions began to develop strength with wheat and corn was quick to sympathize. A report from the Chicago the substitute of the corn and closed about steady.

The provision market showed strength all day, chiefly on the smaller receipts of hogs than expected, higher prices at the yards and good buying by the late clique in ribs and shorts generally.

LOCAL AND GENERAL FINANCIAL NEW

THURSDAY, Nov. 3. The market for local securities is restin quietly in the shadow of the approachin election, though a little business is bein transacted daily in a sort of a perfunctory manner which serves to keep the market from being relegated entirely to the background. The betting spirit is rife on 'Change and throughout the street, and while Harrison money meets one at almost every turn it is quite as difficult to place bets, owing to the scarcity of Democratic money, as it is to excite anything like real interest in stocks. The Republican contingent, therefore, are more persistent and cager than they might otherwise be and appear to think it is all over but the shouting. The trading on 'Change to-day was confined to P., A. & M. traction, Philadelphia Company, Union Switch and Signal preferred, Pleasant Valley Railway, Luster Mining Company, Duquesne traction, Citizens' traction and United States Glass common, though in a majority of cases it was retail in character. The only noteworthy leatures were a slight weakening in Philadelphia Company, and a further recovery in Duquesne traction and Airbrake, though that in the latter was more in the general sentiment than in the price.

P., A. & M. traction sold at 44 to the extent of three shares and more could have been purchased at the same price. Philadelphia Company soid at 232/6234 and 22 closing at 214/622. Switch and Signal preferred sold at 23, closing at 234/62354; Lustre soid at 83, closing at 254 closing at 834 closing at 83 gent, therefore, are more persistent and

Against Passes on Street Railways. In conversation with a Fourth avenue broker this afternoon on street railway mat-ters, a gentleman well known in street railway circles said: "I am thinking of having an injunction served on the President and Secretary of every street railway company in Allegheny county, restraining them from

in Allegheny county, restraining them from issuing any more passes over their lines and of taking other legal steps necessary to break up the pass evil. The issuing of passes is in direct violation of the laws of the Commonwealth, and it is carried to an extent that is positively outrageous. If those who now ride on passes, particularly over the Northside lines, were compelled to pay their tare, the same as other people, there would be an annual difference of thousands of dollars in favor of every company in the two cities. I think it would be a charitable and righteous move." The gentleman was evidently in a jocular mood, but he has plenty of time to engage in such a movement, and is popularly supposed to be in his element when warring for or against street railway interests.

Condition of the Treasury.

Condition of the Treasury. The decrease of \$800,000 in the Treasury net cash balance during the month of October, accompanied as it is by an increase of nearly \$5,000,000 in the net gold fund. of nearly \$5,000,000 in the net gold fund, makes a more favorable showing than was to have been expected in view of the fact that interest payments of more than \$5,000,000 were made October 1. November 1 having been reached with the surplus larger by \$5,000,000 than at the beginning of the fiscal year and the gold fund \$14,000,000 above the lowest point to which it fell during the summer, the Treasury has met the requirements of the autumn with unexpected ease and approaches the duller winter and approaches the duller winter season under more favorable conditions than had been deemed possible. It is a rather striking coincidence that the increase of revenue for the four that the increase of revenue for the four months of the fiscal year has corresponded so closely with the increased expenditures; the receipta rising from \$119,000,000 to \$133,000,000 as compared with last year, while the expenditures increased from \$116,000,000 to \$130,000,000. The increase of revenues was quite as pronounced in October as during the preceding months, and they were paid to a larger degree in United States notes and gold certificates and less in silver certificates and so-called Treasury notes. Treasury conditions are fortunately such as to warrant no apprehension as to the adequacy of the provision for current requirements, and to permit a postponement of legislation affecting the currency until the results of the International Monetary Conference are made known.

The report of the American Cotton Oil Company shows profits for the year of \$2,527,598; deducting \$673,725 for expenses and interest leaves net profits of \$1,883,978, an increase of \$530,978. The net accumulated profits were \$4,085,590 and the balance to profit and loss account \$5,393,553. The July dividend on the preferred was \$305,933 and the net balance is \$5,418,590. President Adams stated that the net earnings will be used as working capital and for the settlement of the debenture bonds. This avoids the creation of a floating debt, but it postpones a dividend on the common until the extraordinary amount of repairs expended on oid mills have been regulated.

Minneapolis—Wheat started in weak this morning on the fine weather, but soon rallied. The trading was not of a sprightly character, although there were some good sales, but generally speaking buyers held rather an indifferent attitude toward purchases. The cash market was active. There were liberal purchases, and millers and elevators were good buyers. No. 1 Northern sold at 88c; the leading price for No. 2 Northern was 64c. Receipts of wheat here were 471 cars, and at Duluth and Superior 383 cars. Close: May, 78%c; November, 67%c; December, 67%c. On track; No. 1 hard, 69%c; No. 1 Northern, 68c; No. 2 Northern, 68c56.

# BIG DEAL IN COAL LAND.

Syndicate of Buffalo and Cleveland Capitalists Pays \$180,000 for 1,300 Acres in Fayette County-Other Transact

THURSDAY, Nov. 3. A very large deal in coal land has just been consummated. George W. Ache yesterday sold to a syndicate of Cleveland and Buffalo capitalists a tract of 1,300 acres of land situated near Whitsett station, Fayette county, about 38 miles from the city, on the Pittsburg, McKeesport and Youghlo-gheny Railroad, which is underlaid with a seven-foot vein of very fine coal, for \$180,000. The land has a very large frontage on the Youghlogheny river, and the railroad runs directly through the property. The purchasers will commence operations immediately, and it is said that all coal mined in this field will be shipped to Cleveland and Buffalo.

A Little Gossip. The work of grading the Wightman property, corner Murray avenue and Forces street, has been commenced and the work

will be pushed rapidly.

It is rumored that the Clark property on Forward avenue, Twenty-second ward, has been sold. The tract contains about 26 acres and it is said brought \$2,500 per acre.

Mr. McGonnigle, Secretary of the Allegheny County Light Company, was the purchaser of the Wallingford street lot reported sold a few days ago by W. A. Herron & Sons.

### POLITICS AND BUSINESS

Do Not Mix Very Favorably for the Latter— More Interest in the Approaching Election Than in Trade-Market Gossip and Current Quotations. THURSDAY, Nov. 3.

Politics is the all-absorbing theme in mercantile-circles at the moment and the progress of the battle between the two great parties is being watched and discussed to the detriment of trade in all lines. The betting fever strack the Grain and Flour Exchange to-day, and after the call a good many honey. New crop white clover, 21@220 per lb; evens on the general result. provement.

Eggs are somewhat firmer without being any higher and the poultry market is heavy under big supplies.

Receipts of game are increasing, but the demand is not what it would be if the tem-

perature was lower.
Sugar and coffee are fairly steady and raisins and kindred goods are higher.
Prunes are comparatively scarce and in active demand. California prunes are about the only variety offering at present.

The demand for nuts has failen off materially and the market is easier. They will be good stock, however, until after the winter holidays.

Drygoods.

New York, Nov. 3.—Trade in drygoods was fairly active. Goods are every day better sold up and the situation is felt to be a little boomy, although not speculatively so. Not within ten years have demand and supply been so strongly related. The outlook seems to be for a decided scarcity of goods, especially cottons. The Allendale wide sheetings were advanced. Lawrence L L 44 brown sheeting was advanced 5c. Gold medal 44 bleached was advanced ½c a yard, and regatta shirtings 2½c. Other changes are imminent in bleached goods.

GALVESTON, TEX., Nov. 3.—Cotton firm: middling, 7 13-16c; low middling, 7 7-16c; good ordinary, 6 15-16c; net and gross receipts, 9,001 bales: exports to France, 6,737 bales; exports, constwise, 4,007 bales; sales, 2,129 bales; stock, 137,174 bales.

New Orlians, Nov. 3.—Cotton steady; middling, 7½c; low middling, 7½c; good ordinary, 6½c; net receipts, 8,427 bales: gross, 8,530 bales; sales, 3,900 bales; stock, 192,333 bales.

Flour in the Northwest. MINNEAPOLIS, MINN., Nov. 3.-The Northwestern Miller says: The mills improved on their output of last week, grinding 225,000 barrels, or 37,000 barrels for each of the six days. This is once more the second largest days. This is once more the second largest run on record. In the previous week the output was 224,000 barrels; for the corresponding time in 1891, 208,330 barrels, and in 1890, 189,000 barrels. There is so far little diminution in rate of manufacture, though after this week a shortinge of water power is liable to bring about curtailment. A few large domestic handlers in the East are reported as showing a little more confidence in present prices of breadstuffs, and are buying more freely than heretofore to stock up.

#### WARRANTS ARE HIGHER

As the Result of the Shorts Covering a Portion of Their Sales.

NEW YORK, Nov. 3.—[Special].—A special to the Iron Age says: There has been a slight reaction in prices of warrants, Scotch selling at 41s 3d, Cleveland at 37s 7%d and hematite at 47s 4%d. The rise is attributed to operations of members of the trade who were lately on the "bear" covering a portion

were lately on the "bear" covering a portion of their short sales. Outside speculation continues very slow. Trade demand is quiet, but at the last Cleveland makers' meeting buyers took hold rather more freely. There are now 76 Scotch furnaces in blast. Stocks in warrant stores include 358,000 tons Scotch and 13,000 tons Cleveland pig.

Pig tin prices receded about 10s under the influence of more ample supply and moderate demand. London stocks now amount to 3,171 tons. Business in tin plate has slightly increased and prices have hardened. The strength is due chiefly to recent stoppage of mills which caused more eagerness on the part of dealers to place orders, but a better American demand has helped the market.

#### A FIRMER TONE

And a Better Demand Are the Features of the Pig Iron Trade.

NEW YORK NOV. 3 .- [Special.]-The Iron Age says: Quite an active demand and a firmer says: Quire an active demand and a firmer tone characterize the pig iron markets throughout the whole country, the only ground for apprehension being that idle plants may be induced to resume. The steel rail manufacturers had a meeting in this city at which nearly every concern was represented. The situation was discussed without leading to any immediate change. Tin plate is a shade higher as the result of orders from the canning trade.
