moved within a very narrow range, say 1/6 M. Oakley & Co., bankers and brokers, No. 45 3/2 per cent. Dealings, however, were characterized by a firm tone, and final quotations for some shares were a small fraction above last night's figures. The market closed dul

The railway and miscellaneous bond market was quiet, the sales amounting to only \$872,000. Prices generally were firm. Consumers' Gas (of Chicago) first rose 2 to 91. The leading issues, such as the Readings, Atchison, Kansas and Texas and Texas Pacifics, were duli.

Speculation, such as it was, says J. S. Buche & Co. was centered in whisky and Chicago Gas, and the rest of the list was practically neglected. Whisky was hampractically neglected. Whisky was hammered more or less ail day, but still the pool gave the stock good support. An average of two points in Gas was recorded, and the buils talk par for it within a couple of weeks. This stock has had such a tremendous advance that we think it about time to take profits on it.

The market is waiting wearily until the election is out of the way and speculation can once more have a tree course. To-day

election is out of the way and speculation can once more have a free course. To-day has been as unproductive of any real interest as its producessors, the only feature being the upward move in Chicago Gas, which was accounted for by rumors of an increase in the dividend rates. Distillers was also the object of a little attention, declining in the morning and then rallying, though whether its action has anything to do with the manipulation of Chicago Gas is an open question. A story was heard that the Parsons party and the Reading interests have come to an understanding in regard to New England. This, however, lacked confirmation and bad at any rate, no effect. Money was easier and exchange was less firm, was easier and exchange was less firm, which last fact is believed to have a bearing upon the action of the loan market.-From Sproul & Co.'s market letter.

Government bonds were dull. Close of the

#### CHICAGO 'CHANGE.

Wheat and Corn Are Lower and Pork and Lard Are Higher.

CHICAGO, Nov. 4.-Liveliness followed by stupidity characterized to-day's markets. Compared with last night wheat and corn are 1/2 off and pork and lard 73/2 up. Oats and ribs are about unchanged.

Initial transactions in wheat were at the full closing figures of last night with every appearance of strength. The market was quickly weakened on liberal receipts in the Northwest and a perfect flood of offerings. Pardridge apparently had brokers all over Northwest and a perfect flood of offerings. Pardridge apparently had brokers all over the pit selling and New York and St. Lonis also had liberal selling orders on the market. Advices reported an improved feeling later in New York and the strength in Liverpool being confirmed the market began to react. The early sellers having been pretty well bailed out, the market soon recovered all the early loss and held steady and firm for a considerable time, but turned weak during the last hour on the absence of any additional bull news and on selling. In the gossip that took the place of trade, it was pointed out that there has not been a November in 27 years in which wheat has sold as low as it did yesterday—60% for cash. The nearest approach to it was on November 10, 1884, when cash wheat sold at 70%. The lowest May wheat sold on that day was 80c. Attention was also given the fact that the Price Current wheat review argued that too much importance is given the large visible supply figures and not enough calculation made on the inferior quality of a large part of the crop; that instead of 65c wheat the country is likely to see 75c and an advancing market. Another matter of discussion was, although it rained in Chicago, the weather West was dry and cool with temperatures near the freezing point. A dispatch from Minneapolis to a commission firm here said, with

New York, Nov. 4.—The transactions to day at the Stock Exchange were light. Bets on the election were numerous, and they diverted the attention of brokers and others from speculation, the only stocks which made even an approach to activity being Chicago Gas and Distilling and Cattle Feeding. Chicago Gas was strong from start to finish, closing at the highest point. Distilling and Cattle Feeding was heavy for a time, selling down to 65, but it rallied to 66% and left off at 65%, a net decline of only 3% per cent. The general market moved within a very narrow range, say 14@

LOCAL AND GENERAL FINANCIAL NEWS

FRIDAY, Nov. 4. In the course of a special market letter to a local house, the financial writer of a New York firm says: "Betting engrossed the attention of the brokers more than business, and is likely to remain so until the result of the election is known. The buil leaders promise a lively market in case of Mr. Harrison's election, and think that the election of Mr. Cleveland would not materially reduce the success of their plans. The only severe setback that this market might receive would be in case the result would not be known on Wednesday and the same should have to be given over to the House of Representatives to settle." To a certain extent these remarks were applicable to the

of Representatives to settle." To a certain extent these remarks were applicable to the local situation. More attention was paid to betting than to business to-day on 'Change up until the last board, when there was sufficient trading to bring the day's transactions up to a fair total. Features were lacking, as a rule, but Airbrake was materially higher, Philadelphia company was slightly weaker, Switch and Signal was strong, and Duquesne traction was firm and in demand at a small fractional decline.

The market opened with a sale of Lustre Mining Company at 8%. At the second call the stock sold at 8% arter call it sold at 8% and then it was bid up to 9, with none offered. Philadelphia Company opened at 22 sales, sold down to 21% and closed at 22 bid for 19 shares and 100 offered at the same price. Two or three odd lots of Pleasant Valley Railway sold at 25%, and the close was at 25% 265%. Duquesne traction sold at 28 and closed at the same price bid. Union Switch and Signal common sold at 19% chosing at 19% 199%, and the preferred heid strong at 38040%. People's Pipeage sold at 18, closing at 14% 195% and the preferred heid strong at 38040%. People's Pipeage sold at 18, closing at 14% 195%, and the preferred at 28% 39 and the first preferred was quoted at 28% 39 and the first preferred at 50% asked. Others were without noteworthy change.

Aliegheny Valley Railway 7.30s were quoted at 180 bid, Junction Railroad 6s at 117 bid, Ciuzens traction 5s at 106 bid, and Pittsburg traction 5s at 104 bid.

#### BUSINESS MODERATE

Along the Wholesale Mercantile Line-The Intense Interest in the Coming Election Restricting Trade More or Less-Very Little Change in the Temper of the Markets. FRIDAY, Nov. 4.

No change of consequence was reported or observed in the wholesale mercantile markets to-day. The movement was moderate on all accounts and business seemed to be suffering more or less in consequence of the intense interest prevalent in the Presidental campaign. Betting was again the order of the day, and the wagers made covered almost everything from a box of tobies up to a \$500 bill, the latter being placed even on the general result. As a rule prices were unchanged and noteworthy features were lacking, which condition of affairs is expected to prevail were lacking, which condition of affairs is expected to prevail until after the election. Sugar was reported a little firmer at primary points, however, and dried fruits were quoted stronger and more active. Oats and hay continue to show an improving tendency; wheat, corn, flour and leed were easy; butter, cheese and ergs were steady to firm; vegetables were weak; hor products were heavy; game was more abundant and truits were steady.

A WEEK OF ACTIVITY.

Sales of Iron and Steel Exceed One Hundred Thousand Tons.

BESSEMER FIRM AND HIGHER. The Insiness in Foft Steel Billets More

GRAY FORGE STEADY AND UNCHANGED

Than 30,000 Tons.

FRIDAY, Nov. 4. The tone of the raw iron and steel market is steadily gaining strength, and the impression is becoming stronger that higher prices for raw material and finished product are not far off. Unless all indications fail next year's prices will certainly show a very material advance. The inquiry for both iron and steel is steadily increasing, and most of the pig iron makers have already begun to consider the advisability of revising quotations. As it is, long time contracts at present prices are not desirable and few makers are willing to make sales for later delivery than December. Raw iron and steel are relatively lower in Pittsburg than at any other point. It is not to be supposed that this condition of affairs can hold out much longer; the increased demand will be certain to force prices unward. The demand for soft steel blooms and billets is very active; indeed, the demand for spot or early deliveries is so pressing that all the mills are now running to their full capacity. The fact is, steel is fast crowding from from the market; it is said to be cheaper, besides having many other advantages over from. The advance in steel noted last week has been fully main-

Affairs in the Valleys.

The situation in the Mahoning and Shenango Valleys is reported very healthy. A short time ago a sale of 10,000 tons Bessemer occurred at a valley fornace at \$13 10 for future delivery; this would be equal to \$13 70 future delivery; this would be equal to \$13.70 delivered at Pittsburg. The present week a similar sale occurred at \$13.65, which would be equal to \$14.25 delivered here. These sales fairly represent the condition of the market at the time noted. While the advantage thus soems to be with the seller, there is no anxiety felt by the buyers who think that any advance will be small and thatan increasing capacity will castly supply the markets' needs. Some of the Southern makers have been able to obtain 25 cents more for their fron than before, and this advance has become firmly established.

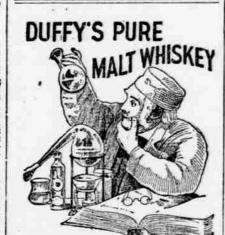

An Opinion From the East.

An Eastern dealer says of the situation: "Soft steel billets are strong and scarce: the demand in excess of the supply, and prices relatively higher. Most other specialties remain at about last week's prices. The general opinion in the trade seems to be that the uncertainty will continue until a ter the Presidental election, and then either a decidedly active or a procoundly dull market will ensue. Pig ironis firm and in some directions is gradually working to-ward a higher level."

Sales and the Closing Temper. The sales foot up over 100,000 tons, the largest for a long time. Besides those published we hear of a sale of 9,000 tons Bessemer, the exact terms of which are withheld. Bessemer closed firm at \$14 00 cash, with large sales for various deliveries, and some dealers disposed to hold their iron for higher prices. Gray forge is in steady demand. Soft steel billets are very firm, with large sales; spot firm, at the highest prices reported for some time. Mills at most points are rouning to their full capacity. A new steel plant started at New Castle, Pa, this week an dis running very successfully.

#### FOR MEDICINAL USE NO FUSEL OIL

It is a remedy, a tonic and not a beverage. It stimulates the circulation, tones up the life, purifies the blood, gives brightness and health to women, strength to men, and is being endorsed by physicians and the more advanced thinkers. It is the best remedy for PNEUMONIA. Bear in mind that Duffy's Pure Malt has grown in popularity for years, that it is acknowledged as the only pure remedy of its kind on the market, that it contains no fusel oil, and that it invariably benefits all who intelligently use it. Get it from your Druggist or Grocer. Send for pamphlet to THE DUFFY MALT WHISKEY CO.,

# CASTOR

for Infants and Children.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." II. A. Archen, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"The use of 'Castoria' is so universal and its merits so well known that it seems a work of supercrogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach." Carlos Martis, D. D., New York City. Late Paster Bloomingdalo Reformed Church within easy reach.

Castoria cures Colle, Constipation, Sour Stomach, Diarrheaa Eructatio Kills Worms, gives sleep, and pro-Without injurious medication.

"For several years I have recommended your 'Castoria,' and shall always continue to do so as it has invariably produced beneficial results." EDWIN F. PARDEZ, M. D., "The Winthrop," 125th Street and 7th Ave., New York City.
