Pupils.

PUPILS—To-morrow and Tuesday we will receive students for one Pittsburg institution during October; the Pennsylvania National Savings Fund and Loan Association, No. 60 Fourth ave., is growing in favor at a rate that astonishes the most sanguine of its promoters; the reason for this is obvious; the general system of the Savings Fund and Loan Association has, after years of trial, been proven to be the safest and most profitable plan for saving and investing money, and the cheapest and most satisfactory for borrowing it; people all know that it is no longer an experiment, but an established fact; if the general system is good, it is brought to the highest prefection by the system of the Pennsylvania National Savings Fund and Loan Association; a better loss of the safety of an investment in this association may be gained when one considers that the actual cash value of first mortgages on improved real estate taken as security amounts to two dollars and fifty cents ($2 50) for each dollar loaned, and the fire insurance carried on the improvements on said real estate, in favor of the association, averages one dollar; strictly cents for each dollar loaned; when one takes into consideration these facts and the care with which the funds and securities of this association are handled, and the character and standing of its officers, it would be difficult to select a safer or more desirable investment; any inquiries, either in person or by letter, will be promptly attended to by the General Manager, W. S. Black.
