PATECIAL TELEGRAM TO THE DISPATOR, 1 NEW YORK, Nov. 7 .- The last political slogan has gone forth from both headquarters, and preparations are new made for receiving results there. While both sides are confident, there is no question that both sides are anxious. New York is without question the rallying point, and the interest of the campaign centers here. Mr.

Croker claims 75,000 majority for the Democratic ticket, and Governor Flower says 50,000 would not surprise him.

Republican managers are equally conson will be 10,000 in the State. To-night certain figures are published claiming to be the latest estimates of both parties here in New York State. According to the Democratic arithmetic Cleveland's majority in all election. Dispatches were received from a confident as ever of Mr. Cleveland's election. Dispatches were received from a confident as ever of Leveland's election. the counties will be 99,650, while they concede the Harrison ticket 73,550, giving the Democrats 26,000 supremacy in round figures-this on a basis of 68,000 in New York | Hoosier State was secure.

Figures Are Conservative.

The Republicans have also indulged in figures, and according to their estimates they find 92,000 as against 86,000 for their Democratic brethren, thus giving Harrison the State by 6,000. These are regarded as had the most conservative of figures, and much larger results are looked for.

Messrs. Harrity, Croker, Dickinson and Whitney are out to-night in a card, calling attention of voters to the fact that many pasters are issued which are more than four inches wide, and while they do not necessarily anyalidate a ballot, all good Democrats should see that any paster they may use shall not be wider than the regulation four inches, will such supplied by Democratic workers at the polls. Tammany has also issued instructions to the faithful, calling upon them to vote early and to have their voters, if challenged, sworn in promptly, also saving that ample protection will be thrown about voters, and if they are arrested before voting they will be released on bail at once, and then they must return and vote.

Many Millions of Bonds Ready. Prominent Democratic candidates have qualified as bail to the extent of over \$1,000,000, and it is said that before to-morrow \$3,000,000 will be presented, so there will be no delay in the release of those arrested for want of good and sufficient sure-

At both beadquarters to-day the signs were of perfect confidence. The Republican quarters are being changed to accommodate the crowds expected to-morrow night. The harriendes that have hitherto protected the sacred few from invasion have all been removed and the immense rooms on the first floor all thrown together. Long tables will be in place tomorrow for the accommodation of newspaper representatives, special wires and messengers will be in place, and everything done to facilitate the spreading of the glad tidings among the faithful.

The news bureau has practically suspended operations, chiefs of various departments are at rest, and it looks as though within 24 hours the business end of the Republican party will have suspended operations.

Satisfied With the Prospect,

Members of the committee are not saying much, and only expressed themselves as perfectly satisfied with the prospect, and content to abide the issue.

From outside points come conflicting reports. Each side is claiming doubtful districts, and the actual result can only be considered speculative. Fraud is charged on both sides, assertions are freely made that boodle is extensively used, and that the sanctity of the ballot will be violated by unprincipled managers of both parties. In fact, matters have assumed much the same appearance of a race track just before the horses come to the

The result in some of the Northwest States is unquestionably in doubt. Conservative men on both sides admit they cannot forecast the situation with any degree of accuracy. The strength the People's party depends largely upon the loyalty of malcontents, and they are not to be relied upon. If at the very last moment there should be indications that the fusion movement will not win, the dissatisfied will return to their original party allegiance, and in this way there may be a slump one way or the

Wet and Unpleasant Weather. The weather prophet predicts wet and unpleasant weather, through the State and city at least, until noon, and this will mean that a smaller vote will be polled than on a clear day, and it is generally conceded that the Republicans will be the losers. Be that as it may, there is one thing certain, and that is that never in the history of the country has there been such an earnest endeavor on the part of the majority of voters to post themselves fully on the issues of the campaign and be prepared to east an intelligent balof Harrison's election is passed. On Saturday we had 211 sure electoral votes for

Indiana and Connecticut Solid. "I classed New York, Connecticut, Indi-ana, Nevada, West Virginia and Delaware as doubtful last week, but to-day I have taken Indiana and Connecticut out of the doubtful column, which gives Mr. Harrison 232 electoral votes and elects him without New York. But I believe we have more than an even chance to carry this

State. I am willing to stake my reputation that Benjamin Harrison will win to-morrow's battle." Chairman Brookfield, of the Republican State Committee, gave it as his opinion to day that Harrison would carry the day in

New York State by a majority so large as would set at rest all cavil upon the question of Republican supremacy. Chair-man Harrity has to-day been in receipt of a number of telegrams from all section predicting success for the Democratic party, Headquarters—Clarkson Amends His and assuring him of complete organization and perfect confidence. Carter Is More Than Confident,

At Republican National headquarters Mr. Carter and his friends were just as confident of President Harrison's re-election, The Republicans also claim New York, Indiana and Connecticut. They said that the only hope the Democrats had in this fight was that Weaver would carry enough Western States to throw the election in the House of Representatives. These Republicans say that the hope of the Democrats in that di-rection does not rest on the slightest foundation, and that they are beaten in the contest all over the country.
In other words, all any intelligent person

can do is to forego predictions and await the result in peace and patience. It will do no harm to add, however, that by cer-tain persons interested in this contest there has been some splendid lying. Ex-President Cleveland will receive the

He will be of great service in figuring out the percentage and other political data as received over the private wire.

GORMAN STILL CERTAIN

That Cleveland Is Just as Good as Elected President of This Country.

WASHINGTON, Nov. 7 .- Senator Gorman was in the city to-day seemingly just as placid as he might appear were there no Presidental election within two or three years. "I shall be at home until after election," said the Senator. "I came home soon as my work elsewhere was done, and to-morrow I expect to vote for the next President. That remark might be regarded as indicative of certainty on my part as to the identity of the next President. Let me say very frankly that for two weeks past there has never been any doubt in my mind as to Mr. Cleveland's success. Be yond question he will win.
"New York is sure by a good majority—I

am not dealing in figures now-while bot Indiana and Connecticut are equally safe. West Virginia will continue to belong to us. We will not lose a Southern vote. Under some circumstances the Republicans might have gained temporary advantage in places beretofore Democratic but for the action of the Government in offensively enforcing a statute which will permit employment of deputy marshals at the poils. That gives the people a practical idea as to what might be expected were the force bill a law. I shall not attempt to tell you what our New York majority will be, but you may be satisfied with the assurance it is going to be large enough. Cleveland is as good as elected now."

HARRITY'S VERY LATEST.

He Looks for a Most Decisive Dem Victory To-day.

CHICAGO, Nov. 7 .- The following telegram from W. F. Harrity, Chairman of the National Democratic Central Committee, was received by the State Central Demo cratic Committee to-day.

The eve of the election finds us even more The eve of the election finds us even more confident than we have ever been. Earnest efforts to-day and to-morrow will bring every Democratic voter to the polls and insure a decisive Democratic victory. New York has been practically abandoned by the Republican managers, and they are about prepared to concede New Jersey and Indiana. We also shall carry Connecticut. There will be no break in the electoral vote of the Southern States. Make electoral vote of the Southern States. the Typographical Union reconsidered its action and went out at 6 o'clock. The clothing clerks, all save four, struck and the paper hangers, who had refused to go out went out as ordered. Every union expressed its willingness to obey any order of its Council. River steaments were reconstructed by a contract out the

The engineers also left, but were ordered back by the Council with the information that they had not been called out and to

cause of all this industrial disturbance com-

pletely tied up the trade and business of

the city.

The tie up everywhere was complete. The

simultaneous strike of the street car men and the carriage drivers has left the people

without means of getting from one part of the city to another. The bakers went out

to-day, leaving the people without bread. Even the Gas Goes Out.

The gas men striking, the gas companies abandoned the field this morning, announcing to-night that they would be unable to supply the city or private residences with a to-night. It is understood that the electric

company can supply lights for to-night, but the illumination will also be whort before

drivers having struck, the undertakers have

been compelled to drive their own carriages and have limited funerals to two carriages.

Even those trades not affected by strikes are paralyzed by it, as for instance, the cotton pressmen and screw men, who are

waiting to handle the cotton coming to the

presses, say there is none to handle.

Although outside of the union there is a

strong feeling against the strike. There

seems to be no organization in opposition

to it. While the Council has got its men

The strike seems to have completely paralyzed politics, and fears are entertained that it may cut down the Democratic vote of New Orleans. The Republicans have made savage attacks on the labor record of the Democratic candidates for Congress, and hope to use the excitement as the subject against them. The loss in wages from the strike will amount to some \$50,000 a day, and to employers still more.

The injury to the business of New Orleans will be very great, as this is the busiest season of the year. All the steamboats save the whispers are tied up. Another General Fight in Indiana Ends in One Man's Death.

INDIANAPOLIS, IND., Nov. 7.—The rapidly growing number of political murders committed in Indiana was further augmented last night at Cosseville in Clay ounty, by the killing of Ed Kirkwood by Mike Hanlon. Both are miners. They got Mike Hanlon. Both are miners. They got into a quarrel over politics, the bystanders took it up and a general street fight ensued. Hanlon grabbed a pop bottle and struck Kirkwood a crushing blow over the head, cutting it in a terrible manner. The broken bottle also severed the jugular vein, cutting a terrible gash in his neck. Kirkwood's skull was tractured and he sank until this morning, when he died. The marderer is still at large, although a possets in pursuit. The murdered man leaves a large family.

FIREMEN SAVED FROM A FALLING WALL.

The paint and wallpaper store of G. G.

G. O'Brien, No. 292 Fifth avenue, was totally destroyed at midnight. Mrs. Minnie Shuett, wife of William Shuett, who occupied the top floor of the building, lost her life by jumping to the street to escape the flames. Her sister, Lydia Edwards, jumped also, but her injuries are not considered fatal. Shuett was hangng to the window sill and about to jump when a ladder was procured and he was saved. His hands were severely burned before he was rescued. A dozen firemen narrowly escaped death by the falling of the

rear wall. The fire broke out in the cellar in the rear of the building next to Ann street. Those who were in the vicinity say it was not a minute from the time they first saw indications of a fire until the building was a mass of flames from cellar to roof. The first floor was used as the paint store, oils and varnishes were stored in the cellar and the second floor was the wall paper storeroom. The building had a front of our stories on Fifth avenue and three on Ann street in the rear. The two upper floors have been rented as flats for several

years. Awakened by Flame and Smoke For the past two months Shuett, his wife and her sister were the only occupants. They were in bed asleep when the fire started, and were awakened by heavy volumes of smoke bursting into the room through the doorways. Shuett sprang out of bed and called to his wife and her sister. All were comparatively cool and collected until they found the stairway leading from their rooms into Ann street blocked by flames. The women screamed in terror. Their only mode of escape was by the window, 30 feet from the pavement. Without stopping to add to her scanty night dress Mrs. Shuett crept over the window sill, and letting herself down at arms' length, dropped to the pavement. She tell on her head and shoulder, breaking her nees and head and shoulder, breaking her neck and

left arm.

John B. Downey, of No. 34 Gibbon street, came along at this moment and carried her out of the way just as Mis window. Downey can be window. Dow Hanging in the Flames.

William Schuett was the next one to appear at the window. He hung there several moments while half a dozen men below called to him to wait. After what seemed to him an age a ladder was procured and placed in position against the wall and Schuett, almost dead with tear and his hands badly scorched, descended to the street in safety. While the rescue was going on Downey, assisted by John Noon, of No. 15 Gibbon street, car-ried the bleeding, inanimate form of Mrs. Schuett to the house of Louis Rosenfeld, 74 Forbes street, where in a few moments she expired. Mrs. Edwards was taken to the same place.

Mrs. Shuett's body was taken to the

morgue and her sister to the Mercy Hospital. Shuett when first rescued did not know his wife had been killed. He ran frantically through the crowd calling for her for some time. When apprised of her fate his grief was painful to witness. Shuett is a blacksmith, has only lived in the city since July and lost all he had in the world

Narrow Escape From a Falling Wall, The contents of the building being of such highly inflammable nature, burned it out completely before the firemen got thor-oughly to work. The engines did not reach the scene until the Shuett family had all left the building. A dozen firemen were at work on Ann street when the rear wall fell out, but fortunately all escaped, only one being slightly injured. Good fire walls and prompt work of the firemen saved the big store buildings on either side of the one de-stroyed. While removing the balance of the wall Albert Lincoln, of No. 4 company, was slightly injured and taken home.

G. G. O'Brien, proprietor of the store, did not come in to the fire, but his brother said the stock was large—worth probably \$25,000, and well insured. The building was erected eight years ago, was owned by O'Brien and valued at \$5,000. Mr. O'Brien is one of the most aggressive young business men in the city. Having succeeded his father, who was a painter before him, he has extended the business in other lines with great success. His brother says arrangements will be made to continue the business without interruption.

The stock of J. A. Shapira, whose drygoods store adjoins the ruined building, was slightly damaged by water and his cel lar filled with water.

The Dispatch will contain the most comreliensive report of the election To-morrow Order in advance.

It is not expected to have as much effect in the cities and towns as upon the farmers, who will be compelled to travel several miles to a polling place. ANARCHY NOT DEAD.

Inflammatory Circulars Distributed Chicago With Great Secrecy.

CHICAGO, Nov. 7 .- Chief McClaughrev is in possession of a document which apparently proves that anarchy in Chicago is not dead. The document contains three closely printed pages. A black line of mourning surrounds the following announcement on the title page:

In memoriam of the martyrs of the wor ing people murdered at Chicago on Novemher II, 1887. Great demonstration at Ublich's Northern Hall, Clark and Kinzie streets, Friday, November II, 1892, Sr. M., under the suspices of the International Working Peo-ple's Association, of Chicago, III.

Though carefully guarded, the language is thoroughly inflammatory and advocates the dagger for the modern "Cmaar," supposedly the chief of police. Major Mc-Claughrey has information that thousands of the pamphlets have within the last three days been secretly circulated in this city.

BOUGHT CIGARS ON SUNDAY.

A Methodist Minister Gets Into Particularly Hot Water.

Sr. Louis, Nov. 7 .- Methodists in this city have been painfully shocked by the statement that Rev. Mr. McIntosh, preacher of the First Methodist Episcopal Church here, has violated the Sunday buying eigars. Nor is this all. At his trial before the Conterence on the 15th he will be charged with uttering profane language and having married another woman without a divorce from his first

Deputy Marshals and Police Have Their Orders-The Precautions Taken Point to a Pure Ballot Being Cast-The Supreme Court to Sit All Day-Four Thousand Warrants Sworn Out by Marshal Jacobus, to Be Served if Illegally Registered Men Attempt to Vote -Attorney General Miller Returns to Washington-He Thinks He May Be Needed There More Than in Indiana-Little Serious Trouble Feared Anywhere, Apparently.

[BY ASSOCIATED PRESS.]

NEW YORK, Nov. 7.-The weather prospects for to-morrow are not alluring, according to the weather bureau. A heavy storm is now in progress in the lake region, and this evening there is here a cold, drizzling rain, probably the advance guard of this same storm. The duration of the storm, it is predicted, will be about 24 hours, and behind it is a cold wave of considerable strength. Mr. Dunn said this morning that the storm to-morrow would probably extend from Virginia northward over the Middle Atlantic and New England States, and while it might clear off before night, it was not probable. All over the rest of the country it will be cold and

clear, according to the present indications. Arrangements have all been completed for the election in this city to-morrow, and there is little for the managers to do except to see that the vote is properly cast and counted. There will be a large force representing both parties at the polls, and if numbers of watchers are any evidence of an honest vote, the ballot will be pure. A Close Watch on All Frauds.

On behalf of the Federal authorities a

force of supervisors, each with a United States marshal's certificate, will watch proceedings at the polls, keeping the peace and watching for alleged proposed frauds. John W. Jacobus, the United States mar-

there is no likelihood now of any violence. There has been much correspondence between Mr. Jacobus, John I. Davenport and the Tammany committee of lawyers, and little has resulted in the way of a settlement of the alleged difficulties. Proclamations have been issued by the United States District Attorney, Mr. Mitchell; Governor Flower, Lieutenant Governor Sheehan, the District Attorney, Mr. Nicoli, the Attorney General of the United States and others, all apparently having the same purpose in view-the purity of the election.

Police the Real Peace Preservers. The police have had their orders, and they will be the real preservers of the peace if it comes to any such state as to require the interference of anybody.

It has been claimed by those who hold to the Federal view of the matter that the deputy marshals have a right to go within the rails at the polling places, and that they have many rights which the Democratio party managers say they have not. It may be that the courts will be called in to decide the mooted points, but the police seem to have decided for everybody, and they are likely to insist upon their orders being obeyed. Superintendent Byrnes says he expects no trouble to-morrow, and that the police force will do its duty without fear or favor. He says that the deputy marshals are seting under United States laws, and they will be aided, if necessary, in the enforcement of them, but that he is sure that the superiors of the marshals will not allow any of them to violate the law any more than they would allow anybody else to do it. If the Federal representatives break any law to-morrow, Mr. Byrnes says they will be as amenable to the law as anybody else. It is the general opinion of the city officers that the anti-election stories of expected trouble will amount to as much as hey have in former years-that is, much

talk and very little trouble. The Supreme Court to Sit All Day. Judge Barrett said to-day that from the opening to the closing of the polls tomorrow the Judges of the Supreme Court will attend in turn, two or three at a time, in their chambers at the County Court

House, as has been the custom in preceding years. This will greatly aid the people who may be arrested illegally.

Extraordinary preparations have been made in the matter of looking out for all attempts to vote fraudulently. There have attempts to vote fraudulently. There have been filed with United States Marshal Jacobus about 4,000 warrants, sworn out against persons who are alleged to have registered illegally. They will not be served unless the persons named therein

attempt to vote to-morrow.

Information was received at the marshal's office to-day that a body of 300 colonizers, whose destination was Coney Island, have been shipped from Pittsburg Marshal said he was prepared to give them

warm reception.

Mr. Jacobus has a private wire in his office, and is in touch with all parts of the country. The marshal stated, late this afternoon, that the limit of deputy marshals who would do duty at the polls tonorrow had been placed at 7,000.

Sheehan Predicts Trouble Lieutenant Governor Sheehan, when asked at Buffalo, to-night, what he thought of the situation at the closing hour, re-plied: "We will carry New York State. Of that I have not the slightest doubt. There is every indica-tion of trouble to-morrow. The tion of trouble to-morrow. The Republican mausgers have sworn in a small army of deputy marshals, and insist on having from two to five marshals in each election district. The Sheriff has sworn in about 300 deputy sheriffs, and the Democratic managers declare that every Demo-
