On Good Buying by Professionals and Commission Houses.

RAILROAD SHARES ADVANCE

And Some of the Industrials Recover the Recent Losses.

BRISK DEMAND FOR RAILWAY BONDS

NEW YORK, Nov. 10.-The hesitancy which characterized operations at the Stock Exchange yesterday disappeared entirely this morning and the market for securities developed great strength. Stocks were particularly firm under liberal purchases, both for the long and short accounts, and notable feature of the dealings was the de mand for industrial shares. In addition to liberal buying by the professionals to-day the commission houses reported an increased number of orders for out of town ac count, both for railroad as well as indus trial shares. The former improved 14 to per cent, and St. Paul led all others both in point of activity and strength. The Indus trials advanced 34 to 234 per cent, the latter in Distilling and Cattle Feeding, which was also the most active stock of the day. Chicago Gas came next. Western Union advanced & but lost most of the improvement after the announcemen was made that the directors had declared a 10 per cent scrip dividend. The general market closed strong at or near the top

market closed strong at or near the top figures of the day.

There was a brisk inquiry for railroad bonds throughout the day and the market was strong. The dealings aggregated \$1,783., 600. The low-priced issues were most promi-nent in the dealings. Green Bay and Wino-na incomes sold up 2%.

The London market did nothing here at The London market and nothing here at the opening and prices here were strong throughout the day. A considerable short interest, it seems, had crept into the market yesterday and during the alternoon they covered up most of their outstanding contracts. The built manipulators have the market well in hand and had this smoother. market well in hand and had this snort interest to work on, but the general public remains out of Wail street and we hardly think that they will come in or the present, at least. A very important meeting is in session to-day looking to a settlement of the different disputed in southwestern territory, but as rates are in a very poor condition at will be very difficult for them to come to any conclusion. The Missouri Pacific seems to be the chief offender. We believe that the only way to get around this cutting of rates is to adopt the Gould system of joint agencies, and until this plan is put into practice rates cannot be maintained.—J. S. CEREALS LOWER

In the Face of Firmness Abroad-Provisions Irregular.

CHICAGO, Nov. 10 .- In the face of firmner in grain abroad, prices here for nearly every article on the Board of Trade averaged lower to-day. There was some recovery near the close, but wheat, compared with last night, is 1/2 lower. Corn is up 1/201/2c. Provisions were steady at a slight decline, except January lard, which was scarce and

except January lard, which was scarce and wanted.

While the early transactions in wheat were at full yesterday's figure a weak celing soon developed and there was a steady drop of nearly a cent, but a fraction of this was recovered later. English cables came in a triffe higher and at the start domestic markets held their own very well. But ontside of this there was nothing very encouraging for the bulls and as prices did not go up holders began to lose confidence and sold out their holdings. Some of the large operators onenly took the selling side. A good deal of the wheat bought on the bull wave yesterday was put on the market and he ped to cause depression. Another very influential bear factor was firedstree's report of the available supply, which showed an increase during the week of 5,53,000 bushels on both coasts.

There were pretty free offerings in the pit There were pretty free offerings in the pit and considerable that was bought on yes-terday's bulge was thrown overboard, while short selling was also quite a feature. There was a good demand for December at the start from shorts, while May was more free-ly offered and sold off slightly while the first named month advanced. The decline cov-sted all intures as the day advanced there named month advanced. The decline covered all futures as the day advanced, there being quite free realizing which carried prices off %c. At the decline the demand improved, and the carlots for to-morrow coming in light at 210 cars local traders started in to buy which advanced the price %c, but it did not hold, as offerings were considerably increased; it rallied afterward and closed with near futures 3/66 %c lower and May %c higher.

There was a good trade in December and May onts, and a weaker feeling prevailed

May outs, and a weaker feeling prevailed most of the day. Prices fluctuated freely within a %c range, and the close was at a slight sain over yesterday.

The provision market was quiet and easier early in the session, but firmed up on the call and recovered its former bullish tone

THURSDAY, Nov. 10. The market for local securities to-day showed a decided improvement over yes showed a decided improvement over yesterday, the general demand being excellent and the tendency of most prices upward. Philadelphia Company recovered from its weak spell of the previous day, Airbrake and P. & B. traction continued to advance, Union Switch and Signal, Duquesne traction and P., A. & M. traction were firmer, and the character of the inquiry was indicative of higher prices in inquiry was indicative of higher prices in the near future, particularly for the street the near future, particularly for the street railway shares mentioned and Union Switch and Signal. The weak spot of the list was Citizens traction. There appears to be no support for the stock and the continued dribbling of the shares upon the market has the effect of weaker.ing the price. It is evidently considered too high for a 6 per cent dividend payer, especially as its future is not quite as satisfactorily defined as it might be.

The Crop Report. Washington, Nov. 10 .- The average yield for corn in the seven States is as follows: Ohio, 29 busheis; Indiana, 38; Illinois, 25.8; Iowa, 28: Missouri, 28: Kansas, 23.3: Nebraska, 28.7. The average yield of buckwhear is 14.1 bushels per acre. In New York, 14.7; Pennsylvania, 14.5; Wisconsin, 13.5; Iowa, 10.7. The yield of corn averages by the November returns is 224 bushels per acre, and promises an agreegate product of a little more than 1,600,600 bushels, while in the collast month point to a product not exceeding 500,000 bushels, with a possibility of alkiniance in the spring and a certainty of light weight. In the Northern States of the Atlantic coast the crop ripened well. In the cotton States it was injured by excessive moisture, causing rot and moid, and in some districts it was shortened by drought. In on drying too rapidly. The count of the cotton States is was injured by excessive meets, nanging from 10 to 80 bushels per acre. The Indiana product is in good condition on early planted areas and better than was expected on late planting and in view of the long continued drought. There is much complaint of lightness of ears and looseness in the cob in Illinois, and the same in the cob in Illinois, and the same of the long continued drought. There is much chaffy corn and the average weight will be light. I lowa combast repeated well, heavy frosts being delayed till the last week of October, but late planted is shriveled from the rapid drying of immure ears. Fart of the crop is sound and or areas were damaged by the low yield of seed corn, which is, of course, included in the aggregate. Low or bottom lands yielded better than oplands, as the season injury from frosts.

The estimated yield of polatices is 60 to face in the season injury from frosts.

The estimated yield of polatices is 60 to face in the corn of the large stand with a moderate demand, but a corn siderably in New York and throughout the west.

Paid for Two Building Lots in the Twenty Second Ward-That Glass Syndicate Finally Settles on a Site at Carns Station-Building Permits and Sales.

THURSDAY, Nov. 10. A very good sale in building lots in the Twenty-second ward has just been made by Black & Baird, who sold for the Linden Avenue syndicate, lots Nos. 6 and 7 in their plan on opposite sides of Edgerton svenue, corner of Brookline street, Twenty-second ward, for \$10,700 70 spot cash. It is very likely that fine residences will be erected or these lots by the purchasers. A Site Selected.

The glass syndicate which has been negotiating for several tracts of land upon which to locate their plant, mention of which has been made in this column, has finally agreed upon a site. The property selected is 500 acres of the Carns tract at Carns station, on the Allegheny Valley Rail-Building Permits.

Only one permit was issued by the Building Inspector to-day. H. Senior took a permit for a one-story frame dwelling, Lupton street, near Sweetbriar street: cost, \$300. Late Sales.

Baxter, Thompson & Co. sold for Mr. J.W. Greaves part of lot No. 199, in the Bank of Commerce addition plan, Brushton, Fronting 40 feet on Brushton avenue by 130 feet to 20-

40 feet on Brushton avenue by 130 feet to 20foot alley, for \$1,670.

BUSINESS MORE-ACTI-E.

A Lower Temperature Stimulates the Demand in Many Lines-Eggs Higher and Oats and Hay Firmer-Sweet Potatoes Continue to Advance.

THURSDAY, Nov. 10. Business in local wholesale lines was more active to-day than yesterday, the demand in some branches of trade being stimulated by the lower temperature, but with the exceptions of advances in eggs and sweet potatoes and a firmer feeling in oats and hay the markets were unchanged as to

prices.
California prunes, 60 and 95s, now due in California prunes, 60 and 95s, now due in New York, are quoted at 12%c.

Three-pound canned pumpkins, Baltimore shipment, are quoted at 60c per dozen.

According to the New Orleans Sugar Bowl sugar receipts thus far have been larger than during the same period last year, and the probability is that they will so continue, as prices stimulate shipments. The Sugar Bureau is kept busy on samples and applications for bounty. The sugar receipts are exceeding the expectations of those best acquainted with the size of the crop.

Shippers of rice from the plantation stations appear to have worked around the draymen's strike at New Orleans and obtained a new point of delivery, as shown by the following, received by the Times-Democrat from Crowley: "Farmers have been having a lively time with their harvest and have saved their large crop in fine condition. The receiving and shipping of rice has been going on lively. Trainloads, leaving here daily, were brought to a standstill yesterday by the railroad company having to retuse further shipments on account of the strike in New Orleans, but to-day shipments commenced going to Lake Charles, and by the end of the week that place will ments commenced going to Lake Charles, and by the end of the week that place will be largely the gainer from shipments that should go to New Orleans."

Flour in the Northwest. MINNEAPOLIS, MINN., Nov. 10.—The North-western Miller says: The flour output last week showed an 11,000 barrel decrease, one mill less being in operation than the week before, while some shrinkage was entailed before, while some shrinkage was entailed by the water power proving a trifle short. The week's manufacture was 215,000 barrels, averaging 35,819 daily against 225,025 barrels the week before, 201 525 barrels for the corresponding time in 1891 and 179,980 barrels in 1890. Sales of flour by local mills the past week appear to have about equaled the output though it is admitted that very low prices had to be accepted. The bulk of trade is on domestic account.
