

#### Expected to Start Up Soon.

A telegram from Beaver Falls last evening says that up to this time no official three months ago I now have to give 4 cents for. It is the same with the better declaration has been made regarding the resumption of openations at the Carnegie grades, though the difference is not quite so much. All this time the railroads are sumption of operations at the Carnegie mills in that city. Yet there is no reason-able question that such a move will be made, and that specally. Superintendent Wrigley was in Pittsburg yesterday, and there are other indications that the long talked of resumption will not be deferred the only means of supplying the markets, and they haven't enough cars. The effects of the strike will soon be telt by the conlater than next Monday.

New Mills for Kensington.

Nimick, Jock & Tyson, proprietors of the Cold-Rolled Steel Company, have decided to locate their plant at Kensington. The main building of the new mill will be 200x100 feet. A number of smaller build-ings will be put up. The entire plant will cost from \$75,000 to \$100,000.

This work has proved very interesting to those connected with the cemetery and people living in the neighborhood, as some startling and strange sights have been revealed by the opening of some of the coffins. Petrified bodies have been found in abundance, the soggy condition of the bury-ing ground favoring this work of nature. The bodis removed yesterday were the dead of two families, namely, the Pabsis, of East street, Allegheny, and Jahns, of Eina. Mr. William Jahn had a sad duty to per-form. The Situation as Viewed in McKeesport.

A telegram from McKeesport last night, in commenting on the strike, sizes up the situation as follows: That a speedy settlement of the strike among the river coal miners is at hand, by the surrender of one side or the other, is apparent in the brisk renewal of "war talk" in both sides during yesterday and to-day and in the activity shown by the operators in completing preparations for handling the output of the mines without a moment's unnecessary delay when the So much has been does come. mid on the subject that there would be nothing left to report were it not for the numistakable indications that are visible along the river and in the talk of the combatants that water is only wanted now on either side to put an end to the long contest. Captain Posey, an operator prominent among the river mines, said to-day that his coal boats were all ready, but that they will never be filled except at the reduced rrie, and that when the river is ready the miners will be. Captain Benton, another well-known operator, said the oper-ators had made a decided gain during the week, but declined to go into particu-lars. #### NEW MILLS FOR HOMESTEAD.

Plans Being Drawn Up for Another Plant on the Old Poor Farm-More Men Return to Work-No Deputy Sheriffs to Be Removed.

It had been claimed that the moment the election was over a large majority of the locked out men would apply for work at the Homestead mills. The leaders say that the report has been proven untrue, and the majority of the 2,000 men yet here are firm and confident. At the mill it is asserted and names are offered to show that a number of men did apply and were told that their positions were filled. Three blacksmiths, however, were taken back.

An employe, who stands very near to the Carnegie Steel Company, Limited, said this evening that despite the election the firm is now securing plans for additional mills to be located on the Poor Farm pla and the moment that property is vacated work will commence to cover it with er Chairman H.C.Frick visited the tensions plant to-day and spent several hours in-specting the various departments accompanied by Manager Schwab. He was in a very cheerful humor at noon and said the works were operating in a perfectly satisfactory manuer.

Non-union men have begun to move into the new houses on the hill above the works, which has been dubbed Carnegie City. A striker living on Eightsenth street went over to superintend the moving and expressed ability and willingness to whip any blacksheep on the hill. A worker from the 119-inch mill immediately accommodated the siriker, and being much larger soon bested his opponent and then rolled him down hill. #### Another Human Body Found Minus Money in the Hydraulic Canal.

NIAGARA FALLS, Nov. 10--[Special.]-Another unknown victim of foul play was found here in the water of the hydraulic canal to-day. The remains were those of a well-dressed man about 40 years of age, sandy hair and mustache, 5 feet 8 inches in hight, rather thickset. He had on a nice blue suit of clothes. One cuff button of gold with diamond setting and a gold watch and chain were found on him. His pocketbook contained no money, but a ticket on the Lehigh Valley good from Suspension Bridge to Petrolia, Ont. It was stamped on October 30. The body looked as if it had been in the water three or four weeks.

The theory advanced by the police is that the man was a passenger on one of the night trains on the Lehigh Valley Railroad which reaches here about midnight, and

while waiting for his connection was enticed into some dive where he was drugged and robbed and then pushed into the canal. This is the fourth body found in the canal this fall under suspicious eiroum-stances. It is thought that toughs lie in wait for passengers on these late trains who have to wait an hour or two, lure then into some dive, where they are made drunk and easily disposed of.

Father Mollinger's Securities Sold.

Nearly the full value was realized on the stocks owned by late Father Mollinger at the auction sale yesterday morning. The various stocks were valued at \$10,000 and the amount realized on the sale was \$9,933. Eight different companies were represented in the stocks sold. The bidding on some of the scrip offered was very tame, but the activity on the part of the bidders for the more desirable stock made the total amount arge,

#### Would Not Leave His Mother.

Eight-year-old Willie Gaertner refused to be separated from his mother, Mary Gaertner, when Officer Carmody arrested the latter yesterday. The child and his mother are locked up in the Twenty-eighth ward station house. Mrs. Gaertner is held to answer the charge of disorderly conduct preferred by Mary Hockings, a neighbor.
