family has been unable to do anything with him. The authorities were appealed to and he was sent to the workhouse several times, but the officials there finally refused to take Guaranteeing Situations in This Country at \$15 a Head.

JEANNETTE GREATLY EXCITED.

Summary Justice Promised to the Men Who Attempted to Evade

THE ALIEN CONTRACT LABOR LAW

The arrest of 30 Belgian glass blowers on the steamer Friesland at New York on Wednesday, a telegraphic account of which THE DISPATCH published yesterday, is likely to turn out to be the most important seizure under the contract labor law yet made. Immigration inspector R. D. Layton spent yesterday at Jeannette and found much to confirm his suspicions before he left last night for New York, whither he had been summoned by Immigration Commissioner O'Beirne. Mr. Layton expects to prove that the 30 men now in custody at the seaboard have been brought here under contract, and before he gets through with the investigation he expects to arrest three or four men now in Jeannette for complicity in a conspiracy to import alien labor. Until he has all the facts he is after Mr. Layton will withhold the names of the glassworkers at Jeannette. A manufacturer or two are also suspected of winking at this breach of the law, and they may be reached too.

Inspector Layton upon his return from Jeannette vesterday had this to say about the affair: "I have suspected for some time that an illegitimate traffic in Belgian glassworkers was going on, but I could get no definite information till recently when I learned that a large party of men were to be landed this week under contract to work at Jeannette.

Paying for a Summer Vacation "I found that certain Belgian glassworkers hereabouts were accustomed to go home for their summer vacation, and to pay the expenses of the trip to Belgium punched a hole in the alien contract labor law. The expenses alluded to amounted in round figures to \$160, and the Belgian gentleman of seisure has been accustomed to engage to procure work for a dozen of his fellowcountrymen in America at a fixed price of \$15 each-thus paying for his holiday trip and pocketing \$20 besides. Whether the holiday maker acted as well as an agent for a manufacturer is what I am trying to discover. I think he was, and that he probably got a commission from the employer in addition to the fee from the employed. There is no doubt but that an illegal contract was made.

"In the case of the Friesland's passengers whom we have captured I believe the procedure I have described was followed out. Somebody got \$15 ahead in advance from these 30 men, who were to be brought to Jeannette to take places in the factories there. The scheme was slickly worked. I was informed that the suspected men would travel in the second cabin, instead of the steerage; that they would be nattily dressed, with high silk hats on their heads, and gloves on their hands, to throw the immigration officers at the port off their guard. Identified by Their Style.

"I furnished Immigration Inspector John E. Webber at New York with this informa tion, and he had no difficulty in spotting the Belgians. The gloves which hid their horny hands were as good as tabs, and one by one they were sorted out and placed under surveillance. They did not confess, of course. But in spite of the glib stories they told of how they came to be traveling in a body I think we shall be able to induce some of them to squeal. President John Eberhart, of the Window Glassworkers' Association, went on to New York last night to probe the matter thoroughly, for he is convinced that wholesale evasions of the law have taken place."

The excitement caused among the glassworkers at Jeannette by the news of the arrest yesterday was intense, and when Inspector Layton appeared there he was not allowed to doubt for a moment that the men were deeply interested in having the law enforced. They wanted Mr. Layton to give up the names of the Belgian glassworkers who had acted as brokers in order that summary justice might be meted out to them. Mr. Layton refused to reveal their identity, but he promised to proposely the control of the promised to prosecute the case against them vigorousty. It was the widespread belief that such importation of foreign contract labor was going on in the glass trade on a large scale that made the glassworkers so anxious last summer to have one of their number appointed Inspector of Immigra-

TO BEAUTIFY THE STREET.

Ramilton Avenue Property Owners Want

It Lined With Trees Property holders along Hamilton avenue have determined that it shall be one of the handsomest streets in the East End. During the past summer it has been widened to 60 feet and paved with asphalt. The dwellings along its mile or more of length are neat and tasty homes, mostly occupied by the owners. It is expected the Duquesne Company will have cars running upon the plant a row of trees from one end to the other on both sides between the curbstone and sidewalk. In order to secure uniformity and lessen the cost, the property holders will meet in the Homewood school house Monday evening to decide upon the character of trees to be used and place the contract with one firm. It is expected the trees will be planted at once, so they may have a good start by spring.

Gum Made of Fried Starch,

The preparation of the gum used on postage stamps was once the work of a solitary individual who declined to disclose the recipe of his secret, even to the Government which employed him. He always did his work alone, in a room carefully locked to prevent intrusion. An inquisitive official, however, learful that the secret might be lost, in case of the man's sudden death, employed a sweep to creep down the chimney while the gum-maker was at work. The sweep discovered the mystery—the splen-did gum was nothing more than fried

Robbed of a Leg While He Slept. Edward Dougherty laid down on the Pennsylvania Railroad tracks near Wilkinsburg early yesterday morning to take a rest. He fell asleep and when he awakened one of his legs was gone. A freight train had run over it while he slept. He lived in Edgewood, but is now at the West Penn

MONEY TROUBLES DROVE HIM CRAZY

The charm which is said to surround the life of a lunatic was illustrated yesterday. Herman Hitty, an unfortunate but yigorous imbecile from Somerset county, leaped head first through a car window and landed on his head, yet escaped serious injury. The train was moving at the rate of 35 miles an hour. It was the Baltimore and Ohio train which reaches this city about 2 in the afternoon. Hitty was in charge of Steward Miller, of the Somerset County Home, and a cousin of his who lives at Myersdale. They were taking him to Dix-

Hitty was quiet and gave his guardians no trouble when first put on the train. The changing scenery along the road seemed to attract his attention as the train whirled along, until he finally dropped into what appeared a deep sleep. Just beyond Layton station the steward, who had purchased

The Madman's Leap From a Train. some apples from the newsboy on the train, stepped away from his seat beside the unatic to get a bill changed by another

Mr. Lewis moved that the City Solicitor Then he kicked his apple basket, sending draft a resolution for Councils, as the recomthe fruit flying in every direction. Before

anyone realized what had happened, Hitty desperate leap headfirst right through the It required less time than it takes to tell it for the whole incident, and the crashing of the glass was the first intimation that his guardians had of the madman's feat. The train was just prssing through a cut and it was supposed Hitty's mangled body would be found lying against the embank-

ment when the train was stopped and the crew ran back. The first thing they saw when they alighted, however, was the mad-man standing on the embankment waving his hat in demoniacal glee and cursing those Again Attempted to Escape. As they approached he turned and en-

get them.
Subscriptions are swelling daily and are deavored to break for the woods, but was soon overtaken and placed aboard the train. His injuries consisted of a severe scalp wound and bruises about the body. A Pittsburg physician dressed him up, much against his will, and later he was successfully taken to the Dixmont hospital.

Hitty belongs to a respectable family in Somerset county and he had some property of his own when he married. His wife also

owned considerable property in her own name, and while she lived Hitty was a happy man. All this was changed on her death two years ago. Her death was a severe blow to him, but when her relatives a woman's hat at least ten have died. The destruction of parent birds during the nestwent into court, contested his right to her property and won their suit, it completely unsettled his mind. It was found after her share had been taken he had almost noth-ing left and he was placed in the County Home insane department. Recently his relatives kindly decided to place him in Dixmont in the hope of effecting a cure. It is thought probable he can be cured in a few months with proper treatment.

LOOK OUT FOR THE COMET.

A New One Visible Here With an Opera Glass-Will Grow Much Brighter-An-On a Train Going 35 Miles an Hour nounced at the Academy of Science Last Night.

> A comet, visible in this section with an opera glass, is wandering around through the heavens. Prof. Brashear announced it at the meeting of the Academy of Science and Art last night. The professor was down on the cards for a talk about his recent trip through the great scientific workshops of Europe, but just before he went to the meeting he received a telegram relative to the comet and he made that the leading feature of his talk. The message came from John Ritchie at Harvard College, stating that the comet, a bright one, had been discovered in the nebulæ of An-dromeda, one of the stars in the great dromeds, one of the stars in the great square or Pegasus. It lies northwest of the great square and is visible almost directly overhead in this country at about 8 o'clock in the evening.
>
> From a telegram received a few days ago from Prof. Berberich, of Berlin, Prof. Brashear believes it to be the Biela's comet, which astronomers supposed had disjunctioned.

which astronomers supposed had disin-tegrated into meteors. If it is the Biela's comet, Prof. Brashear says, it will become much brighter and be visible here for a con-siderable time. He gave an interesting history of that famous comet. It was dis-covered in 1826 by M. Biela, an Austrian officer, having a revolution requiring six years and eight months to complete. A French scientist announced at that time French scientist announced at that time that the comet would cross the earth's path in 1832, producing great alarm in France, it being predicted that the globe would be destroyed by the collision. It passed the earth 50,000,000 miles away. It returned in 1845, in two parts, widely separated. In 1852 it again appeared, the two parts being 1,250,000 miles apart. Since then it has appeared everal times, but greatly dipinished. peared several times, but greatly diminished in magnitude, leading to the belief that it had disintegrated. Prof. Brashear's talk about European

workshops mainly showed the jealousy with which they were guarded from visitors with which they were guarded from visitors for fear their secrets would be stolen. In visiting them he had found them far behind America in every respect, and saw nothing to steal. He was greatly disappointed at the back number indications he found at the famous Greenwich observatory, which he described as a scrap heap. The French and Germans were far ahead of the English, but no: up to the Americans. Prof. Keller followed with an interesting

talk about Mars, including drawings taken recently of that planet.

TO FORM A NEW CONGREGATION.

Church Members Object to Being Preache to in the Welsh Language.

The English members of the Welsh Congregationalist Church, on Sidney street, Southside, will hold a meeting to-night to decide whether they will secede and form a new congregation. They claim their children cannot understand the Welsh anguage and they want the services conducted in English. The only question is whether a new church would be self-supporting, the members having fully ex-pressed their determination to flock by hemselves. Rev. Mr. Jones, of Philadelphia, is expected here next week to organize the new congregation. It is thought there will be enough additions from other churches on the Southside to insure success. Dr. John Edwards will preach for them once every Sunday.

HIS HEART NOT RIGHT.

John Stricher Haunted by a Peculiar Insane Delusion

John Stricher is locked up in the Twentyeighth ward station suffering from a peculiar type of insanity. He will be taken to the usane department of the City Poor Farm this morning. He is haunted with the delusion that someone is trying to kill him. He says the doctors want to cut him up and fix up his heart which is divided into 28 pieces. He says his head is all right, but that there is something wrong with his heart. He has been in a demented condition for the past two weeks, but has been violent anyone realized what had happened, Hitty then stood up on the car seat, and, posing himself for an instant like a diver, made a

THE PARTIES WEDDED.

Republicans and Democrats May March Side by Side

IN THE JOLLIFICATION TO-NIGHT.

Many Candidates Bobbing Up for Every

Federal Office. THE OFFICIAL COUNT GOING SLOWLY

There may be a political wedding in Pittsburg to-night. Party lines will probbly be forgotten and Democrats and Republicans will march side by side in today's jollification, offering tribute to the President-elect.

Captain Batchelor makes a suggestion that Chief Marshal Rutledge should invite the Republican clubs to join in the Democratic parade to-night. He says: "Let us be not Republicans nor Democrats, but American citizens who have at heart the welfare of the nation. Let us drop party, bury the hatchet, smoke the pipe of peace and all support the President-elect." In response, the following invitations were

issued vesterday from the headquarters of the Democratic clubs in relation to tonight's jollification:

HEADQUARTERS DEMOCRATIC CLURS, }
PITTSBURG, PA, Nov. II, 1892. {
Hon. Charles W. Batchelor:
My Dear Sir—As marshal of the division of the Democratic jollification and parade Saturday, November 12, 1892, I extend you and your staff of last Saturday's Republican parade an invitation to accompany us tomorrow evening, feeling assured that, while we have honestly differed politically, we are all equally interested in the prosperity and welfare of our country. I am, my dear

sir, very respectfully, C. C. Wiley,
Marshal First Division. Republicans Invited to Participate. HEADQUARTERS DEMOCRATIC CLUBS, PITTSBURG, PA., Nev. 11, 1892. to the Republican Clubs of Allegheny county,

Captain Charles Batchelor, who was mar shal of the Pittsburg division of the Republican parade last Saturday night has suggested that the Republican clubs be requested to join in the demonstration to-morrow night in honor of the election of Grover Cleveland. As chief marshal of the parade, I take the greatest pleasure in following Captain Batchelor's suggestion. We will be glad to welcome them as Pittsburgers and Americans. If any of the clubs will turn out please notify us by 4 r. M.

F. S. RUTLEDGE,
Chief Marshal. lican parade last Saturday night has sug-

The official count of the vote of Allegheny county was continued all day yester-day. The count for the Forty-third Senstorial district, comprising the First and Fifteenth wards inclusive, and the Twentythird ward, was completed. It gave John Upperman, Republican, 7,355 votes and Jeremiah Dougherty, Democrat, 6,779, a majority of 576 for Upperman.

In the Forty-fifth Senatorial district the count of the Southside wards alone was finished. They gave Steel 4,204 and Snee 4,487, and William Hogby, People's party, 27. a plurality for Snee in the city wards of 283. The country districts are not yet counted. The count was also finished in the Third, Fourth and Fifth Legislative districts,

The vote was as follows:
Third district, two to elect—Lemon (R.),
4,032; Mackrell (R.), 4,035; Gardner (D.),
2,571; Acklin (D.), 2,544; Hemseker (P.),
85; Whiston (P.), 66.

Counting the Legislative Vote. Fourth, district, one to elect - John Fourth, district, one to elect — John Kearns (D.), 2,296; Otto Hening (P.), 49. Fifth district, four to elect—Lafferty (R.), 6,094; Culbertson (R.), 6,099; Weaver (R.), 6,099; Cotton (R.), 6,091; Joyce (D.), 5,040; Lauer (D.), 5,042; Nugent (D.), 5,036; Howley (D.), 5,025; Gram (P.), 71; Wood (P.), 62; Lose (P.), 60; Husted (P.) 84

The footings have not yet been made as to the electoral or Congressional votes. The Democratic office seekers are doing a great deal of hustling. The rush for offices has fairly begun. There are already several candidates for every place to be filled, and it will simply be a question of influence and capability. Ex-Postmaster John Lar-kin yesterday announced himself as a canfor Postmaster McKean's place. There are several petitions now in circula tion among his friends. Patrick Folev is looked upon as having favorable prospects for this position also. Being an intimate for this position also. Being an intimate triend of Harrity, who is expected to have the naming of the postmasters at Philadel-phia and Pittsburg, Foley's friends think that the position is almost assured. Mr. Foley is not quite sure that he wants the place. Samuel A. Duncan and several dark horses who have not yet expressed their intentions publicly, have also entered into the race. The fight will probably be a

Commissioner Boyle for Marshal, County Commissioner Dennis J. Boyle has been mentioned for United States Marshal, but he says if his party favors him with the office of County Commissioner

it is all he cares for.

Daniel Barr is out for the position he held under the last Democratic administration-Collector of the port. Ex-Pension Agent Barclay is said to be also trying for his old position.

The Allegheny postoffice is also having its share of people who want to manage its affairs for the next four years. Nearly every prominent Democrat in Allegheny is striving for the appointment.

Edward G. Lang, who ran against Emanuel Wertheimer for a seat in the Leg-islature from the first district, has an-nounced himself as a candidate for the position. Ex-Postmaster Swan, who served during Cleveland's last administration, has also been mentioned for the place, but he himself has not yet signified his intention of entering the fight. City Engineer Robert Swan, son of ex-Postmaster Swan, has also been mentioned. Anthony Ken nedy, who held the position of stamp clerk under Postmaster Larkin, of Pittsburg, is also pushed for the place. A. H. Paden has also announced himself as a candidate.

BETS ON THE SOUTHSIDE.

How the Republicans Are Paying for Defeat on That Side of the River.

The Southside is having an exciting time while election bets are being settled. Last night Constable Lindner, of Alderman Mo-Garey's office, who bet on Cleveland with Luke O'Brien, was given a ride over the principal streets in a wheelbarrow.

The men employed at Ihmsen's glass-house had a jollification. Previous to the election the Republicans and Democrats employed in the factory entered into a wager that whichever party lost should hire a band for a parade of all the men over the Southside streets. The parade took place last night, and red fire was On Wednesday evening the Snee Club

celebrated their champion's supposed vic-tory by having a mock funeral in a mild sort of way for Steele. Relying on official figures to change the result, the Conkling Club has hired an old hearse and two of th ugliest mules the Southside can produce for a Snee funeral which is to take place a soon as the official count is completed.

The Woman in the Moon. It seems not to be generally known that

the regal "man in the moon," who for ages

has been looked up to as sole ruler

of his planet, shares his throne and divides his honors with the loveliest semblance of woman. Use a good opera or field glass. Be patient; some fail to find her at first. The face is in profile and looks toward your left as you gaze, occupying half the surface of the moon; the hair dark and coiled rather high; her throat and neck are radiantly beautiful. Beyond her profile is seen the dark face of a man, looking straight forward.

EOTH WERE SURPRISED.

John Manchester Surreptitiously Enters His Father's Works and Is Arrested. For some time past William Man chester, of the firm of Manchester & Son, boiler manufacturers at Twentyeighth street and Spruce alley, has been systematically robbed of valuable brass cast ings, patterns and scrap. Officer Sam Miller ings, patterns and scrap. Officer Sam Miller was detailed on the case, and has been watching the foundry closely for the past two weeks. Last night about 8 o'clock, as he was standing in the shadow of the foundry door he saw a man come hurriedly down the street after glancing around nervously to see if he was observed, lift the grating off the coal hole and crawl in. Officer Miller waited until the man was well inside, and then, opening the door with a key which he had procured from Mr. Manchester some time ago, went in. He saw a dim light in the office, went in. He saw a dim light in the office and upon reaching the door he heard some one moving around within. Without a moment's hesitation he opened the office door and grabbed the intruder before he could make any resistance. He then turned up the light and to his surprise discovered that his prisoner was none other than John Manchester, the son of the owner of John Manchester, the son of the owner of the foundry. Young Manchester tried to pass the matter off as a joke, saying that he had only gone in to stav all night, not wish-ing to go home. Despite his assurances, entreaties and threats, he was removed to the Twelfth ward police station and locked up. locked up.

FUN by Bill Nye in THE DISPATCH to

Charged With Neglecting Her Children. Secretary Dorente, of the Anti-Cruelty Society, entered suit before Alderman Kerr yesterday charging Elizabeth Gillespie with cruelty and neglect of her four children. She lives in Spring alley near Twenty-eighth street, and it is alleged is in the habit of getting intoxicated and does not provide food for her children, allows them to run around without sufficient clothes, does not pay any attention to sending them to school and beats them in a shameful manner. She was arrested last night and held for a hearing next Monday.

May Lose Both Arms.

Anton Bergman, of Manstield, an engine cleaner on the Allegheny Valley Railroad, was knocked between the wheels of a locomotive last night. One of the wheels passed over his right arm and another over his left. He was taken to the West Penn Hospital where both arms may have to be amputated. Bergman is 53 years old and unmarried.

Will Talk to Drinking Men. John J. Moore, the reformed sporting man, will address the meeting at the Open Door Mission, Fourth avenue, near Market street, Sunday evening. Mr. Moore was here last winter, addressing meetings and giving away his T. T. G. buttons. He has been visiting the large Eastern cities, where he has drawn large crowds.

No use to deny the fact that Salvation Oil is fast taking the place of all other liniments
