Only one Day After the Big Landslide | The Blanket Ballots Printed Ahead of Time Is Over Is Necessary to

QUIET WALL STREET'S NERVES.

The Iron Industry Continues to Be in Satisfactory Shape.

CROPS ARE SMALLER THAN EXPECTED

NEW YORK, Nov. 11 .- R. G. Dun & Co.'s weekly review of trade says: The Presidental election has interrupted business to some extent in all parts of the country during the past week, but by no means as much as usual, and at nearly all points the volume of trade has been fairly maintained and the unprecedented activity of the industries has only been interrupted by the election holiday. The money markets have not been disturbed, though working somewhat closer at several important points and foreign necessities and the scarcity of commercial bills have caused some decline in toreign exchange.

Trade at Boston has been fairly active with wool mills fully employed and the

consumption large. The output of pig iron November 1 was 171,082 tons weekly, an increase of 13,055 tons during October. Deliveries of rails for the year are small, probably not over 1,250,000 tons. Bars are more active, owing to car building, but plates are quiet and new orders for structural work are scarce. How Pittsburg Iron Men Are Faring.

At Pittsburg the production of iron is intreased, but the demand and the general tone is slightly better than before, with large orders for wrought pig. Glass, especially plate, is in large demand. Trade at Cleveland is good, the trade for manufactured iron exceeding the capacity of mills. Copper is in moderate demand at 11%c, tin hardening at 20%c, and lead weak at 8.9c. It has been the dullest October ever known for anthracite coal, and the Reading finds its terminals crowded, though working only three days in the week. The bituminous trade has been active and in-

The Government crop report indicates smaller yields than were expected of wheat, only 500,000,000 bushels; of corn, only 1,600,000,000 bushels, and a decidedly small yield of cotton. Wheat is stronger than a week ago, with no great change in corn and oats, but moderate trading in either. Cotton has risen over half a cent, with sales

Cotton has risen over half a cent, with sales of 485,000 bales on Thursday alone, exceeding by 60,000 bales the largest previous record for any day.

Business in drygoods has been dull. Wool was very active. Many shoe factories will require their full capacity till Christmas to fill their orders. In spite of storms, the movement of live stock at Chicago is larger than a year

The State of Affairs on Wall Street. Business failures during the past seven

days number 210; for the corresponding week of last year, 291. Bradstreet's weekly review of the stock market says: Although a little covering of short contracts on Saturday and Monday gave a rather strong tone to prices, there was no market worthy the name just before the election. The speculative week really began Wednesday, when the Stock Ex-change resumed its sessions and the public was completely informed as to the outcome at the polls. The first effects upon values were indicative of surprise, mingled to some extent with apprehensions that the coming change in the national administration involved immediate and radical alterations of fiscal and economic policy. While considerable bearish pressure was

brought to bear on Wednesday's market, the remainder of the week has witnessed a return to normal speculative feeling, with a reappearance of the bullish tendencies that have been the chief feature for some time

Europe Not Interested Just Now.

he market is not a wide one, and is plainly subjected to the same professional manipulative influences which have played such a conspicuous part of late. Europe has taken little part, and the action of the money market continues to be an obstacle to the development of any general bullish

movements. In this connection the unexpected and sustained advance of foreign exchange attracts attention and creates a good deal of conservative sentiment. Sterling exchange is still below the gold importing point, the is still below the gold importing point, the high rates for money here being a tangible bar to any operations of that kind. Nevertheless, the action of exchange, in the face of a more secure feeling in the London money market, is a disappointment, and indicates that foreign capital has not as yet regained its interest in this market.

Pittsburg Ninth in Clearings. The following table compiled by Brad street's gives the Clearing House returns for the week ending November 10, and the per centage of increase or decrease as compared with the corresponding week last year:

BUSINESS MEN EASY. A GREAT PRINTING REGORD

Allowed 450 Changes of Type Matter and Not a Mistake in Name, Initial or Final Packing Made-A Banquet at the

Close.

The work of printing the ballots was not the least interesting feature of the election this year. The complications ensuing because of the wide divergence of opinion as to the intent and meaning of the law as to the intent and meaning of the law as to the form and size of the ballots caused much delay and confusion that gave reasonable grounds to fear that it would be impossible first to print them at all, and second to print them in time to have them distributed to the outlying precincts of the county before the morning of election day. That this was accomplished in ample time is due to the remarkable energy of the management of the Pittsburg Printing Company, which had the contract, and which is the only printing establishment in Western Pennsylvania that has the necessary equipment to turn out such a large amount of printed matter on short notice, the accommodation necessary to put a large number of men to work, and the large amount and variety of type and other printing house requisites that are essential to expedite work of this kind.

type and other printing house requisites that are essential to expedite work of this kind.

The official ballot was received by the manager of this company, Mr. W. J. Rothweller, at il o'clock A. M. saturday, October 29. At 5 o'clock r. N. on Friday, November 4, the last package of ballots had been delivered to the custodian of the ballots representing the County Commissioners, several hours shead of the time allowed for the fulfillment of the contract. Between the dates and the hours mentioned 24 tons of paper had been passed through the six big presses of the company, and the names of the candidates for Presidental electors of all parties, Congress and the State and county offices had been printed thereon. During the printing it was necessary to stop the big presses from time to time that the names of minor candidates might be inserted for each ward, borough and precinct of Allegheny county. This consumed considerable time, but the big presses were kept going to their utmost capacity night and day until the entire number of ballots—810,000—had been printed, and also 210,000 sheets of "Instructions for Voters." What is most remarkable is that of this great number of ballots printed and requiring 450 changes on face of ticket and indorsement ticket being printed on both sides, not a single error was made in the name, initial or address or title of any candidate. This is a record that challenges comparison with that of any other house in the United States for accuracy and exactitude when the magnitude of the job is considered. It had been stated in the papers in interviews held with managers of some of the largest printing houses of Pittsburg that it would be impossible for one house to perform the entire work. It is but the truth to say that the Pittsburg Printing Company is the only firm that made a bid on the work that did not contemplate subletting the greater part of the job, at least as to the press work, notwithstanding that there are houses here claiming to be able to do anything in the printing line, no were printed for the Aliezheny County Republican Committee, while at the same time the papers and magazines regularly published by the Pittsburg Printing Company were gotten out promptly. The magnitude of the work accomplished therefore within the brief period of six days can readily be understood. To undertake such a task would be foolbardy, of course, without a splendid equipment, This is not all. It requires systematic and watchful management and skilled and trustworthy workmen; and herein the Pittsburg Printing Company is also at the front. It keeps a large force of the most competent printers in the county constantly employed in setting up type for papers, catalegues, pamphlets, books, and in job work of all kinds, while the pressmen, feeders, binders, assistants are all experienced and proficient in their respective departments. During the six days the ballots were being printed Mr. Rothweiler, the manager, never was away from the building, and by constant attention the work was accomplished without a single error or mishan of any kind.

complished without a single error or mishan of any kind.

Feeling that the success of the undertaking was due largely to the watchfulness and care of the employees of the company, as an evidence of approciation the management tendered them a complimentary dinner at the St. Charles Hotel on Saturday evening last, at which there were present every employe and the managers of the departments. The menu card for the occasion was gotten up in imitation of a "Baker" ballot sheet, and the entire number present, nearly 150, voted it straight, putting the mystic X opposite each course.

Although occupying the entire large building at No. 89 Third avenue, the pressure of the company's business is such that an additional story will be put on the building early in the coming year and the entire structure will be remodeled and equipped, making it the most complete printing house between Philadelphia and Chicago.

A TRADE LAW!

NEW ADVERTISEMENTS

Only three years ago we were selling a desk like this for \$20. Today our price is \$10. Why? The reason is found in the increased demand requiring larger production.

An increased demand and larger production enable the manufacturer to add to the conveniences, improve the quality and finish, and at the same time to cheapen the cost. Or, in other words, you get better value for less money.

Our stock of Ladies' Writing Desks strikingly illustrates this law. Prices are now ridiculously low. They have dropped 50 per cent in three years. The same is true in a greater or less degree throughout our three departments of Carpets, Curtains and Furniture.

Multitudes are therefore buying goods now which a few years ago were quite beyond their reach.

Furniture, Carpets, Cur-

tains, Bedding.
