GOUT & LUMBAGO

400 SMITHFIELD ST

McKinnie & Chessman MF'o. Co., Citt:
Gentlemen—For the last 18 months I was a great sufferer from Rheumatic Gout, when I purchased a bottle of Rheumacura and after taking six or seven doses I was, to my great astonishment, perfectly well. I then gave the bottle to Louis Schowbtholer, who is in my employ, and who was also a great sufferer from Rheumatism, and before he had taken half of what was left it cured him.

him.

He then gave the balance of the bottle to Albert Kimmich, a butcher, who was suffering intense pain from Rheumatism, and he was cured with the remainder of the bottle, which we think is the most wonderful thing, after we all had taken all kinds of one-dicine and doped with all kinds of ointment and then be cured with such a small amount of Rheumacura was beyond our comprehension.

comprehension.

I have no besitancy in saying that I think it the only medicine that is worth a cent for the cure of Rheumatism or Gout. Yours very truly,

GEORGE DIMLING,

17 Diamond Square.

Price \$3 00 per bottle. For sale by all drugglets. McKINNIE & CHESSMAN MF'G. CO., 616 Penn ave., Pittsburg, Pa.

DALZELL ON TARIFF, CATARRHAL ASTHMA

the Western University On

THE BENEFITS OF PROTECTION.

Discussing the Fundamental Difference Between the Parties.

THE EFFECT OF AN ENGLISH TRUST

Before Congressman John Dalzell addressed the students of the Western University yesterday afternoon upon "The Benefits of a Protective Tariff," Dr. Holland jokingly remarked to the statesman that it was rather like inviting him to a feast of crow, after the events of last Tuesday. But Mr. Dalzell did not permit the shadow of the political revolution to fall upon his subject. After the lecture, indeed, Mr. Dalzell remarked to THE DISPATCH reporter that he didn't think it was
worth while to worry about what the tariff
tinkers might do when they get into power;
for the present it was well enough to remember that the Senate is still Republican,
and that Mr. Harrison is still in the White

Have a political revolution to fall
up. Had choking sensitions and smothering spells so bad that I would have to be
propped up in a chair to get my breath.
Coughing speils would sometimes last all
night, especially if I felt smothered, raising
a thick tenacious mucous after the smothering spells passed off. During the smothering spells passed off. During the smothering spells upon to a chair to get my breath.
Coughing speils would sometimes last all
night, especially if I felt smothered, raising
a thick tenacious mucous after the smothering spells so bad that I would have to be
propped up in a chair to get my breath.
Coughing speils would sometimes last all
night, especially if I felt smothered, raising
a thick tenacious mucous after the smothering spells rounded sometimes last all
night, especially if I felt smothered, raising
a thick tenacious mucous after the smothering spells I merely nad a dry, hacking cough.
Finally my cough become so bad I often
raised mucous mixed with blood. I had
pains all through the properties of the property of the properties of the p

Nor were there any tears mixed with Dalzell's lucid exposition of a protective tariff's benefit when he started to talk to the ideal audience, as he called it rightly enough, of young men mostly with sprinkling of maidens fair and elderly professors. The lecture itself was informal in style, and the matter was of necessity not new, but of course Mr. Daizell made very clear indeed his reasons for believing as a patriot as well as a party man that protection had built up the country, and should not be exchanged for a new policy coming as near to free trade as any system of tariff for revenue only could.

Few Allusions to the Elections

Mr. Dalzell's allusions to the result of the election were few and far between, Early in his address the speaker said that the fundamental difference between the two great parties, which last Tuesday's election had decided if it had decided anything, was that the Democrats want a purely revenue tariff, while the Republicans were still for protection. He instanced as a proof of how protection works for our benefit an experience of his while on the stump in the recent campaign. In Norristown a carpet manufacturer told him that he couldn't let his workmen go to hear Mr. Dalzell speak because they were working night and day making rugs. Mr. Dalzell asked where all the rugs went, and the manufacturer replied that England bought some. This was a result of the building up o! a new industry by protective duties.

Another incident of Mr. Dalzell's speech making tour this fall served to illustrate the Congressman's contention that protection did not make or foster trusts and combines. In Syracuse he found the only manufactory in the country where sods and bicarbonate of soda, etc., is made. Its capital is \$4,000,000 or \$5,000,000. The manager told him that when the works were first France and abroad generally cut prices away down. Even with high protection, large capital and a better process of manufacture than the Old World knew had to be employed.

Trusts Without a Tariff.

Prices were ruinously low for a while, but the foreigners finally went into a trust and prices went up across the ocean, and in sympathy the same thing occurred here. But the protective tariff had nothing to do with forming these trusts abroad or putting up the price of soda ash here.

Another illustration showed how protec-

tion stimulates the inventive faculties of a nation. Mr. Dalzell cited the case of a Philadelphian who had invented a machine to make a continuous roll of tin plate, while the Norcross Bros., of Chicago, had devised a machine to play some important part in tin plate manufacture and had in the course of a year sent over six of these muchines to Wales. Mr. Dalzell's closing words were: "Whether the extraordi-nary demonstration of the voters last Tuesday means the destruc-tion of ancient landmarks or not, and the opening of a new era, I don't know. But I do know that I was never prouder of my American citizenship than I was last Tuesday when the people of this country, without noise, without disturbance, regisbrought its surprises to many, its disappointments to not a few, everyone assented saying: 'It is the people's will, let it be

The address was plentifully punctuated with applause, and the speaker's concluding words evoked enthusiastic hand-clapping and three rattling cheers. Dr. Hol-land gracefully thanked the lecturer, and invited him to return, which Mr. Dalzell, as an old University boy, said he would be sure to do with pleasure. The next lecture will be delivered by Congressman Stone on "The Evils of Unrestricted Immigra-

STRIKERS COME TO TERMS.

New Orleans Merchants and Workmen Compromise Their Differences.

NEW ORLEANS, Nov. 11.-The great strike was declared off at 2 o'clock this morning. The agreement is this: That the laborers who struck October 22 be taken lock at once where this does not conflict with existing contracts; wages and hours to be arbitrated; merchants and all other emplayers to agree not to discriminate against t nion men, giving their applications first consideration, but reserving the right to deal directly with the men. The arbitration cisuse to be put into effect in 48 hours. All parties agree to adjust any strike which ceurred from sympathy in accordance with there terms.

The committee of five representing the Isborers did not go back to their headquar-ters when the strike was settled to report the matter to the laborers, who were left to shift for themselves, and who only learned the result of the strike through rumor and the morning press. The indignation of the laboring men over the action of their is intense, and there was a large and sullen throng of nearly 1,000 men crowded into Exchange alley this morning, bitterly bensiling their fate. Some of them tefused to return to their places.

SENT TO THEIR HOMES

Paupers Who Violated the Immigran Laws Returned to Europe.

John Hoffman was yesterday sent back to his home in Bremen by the Department of Charities. He came to America last December and has been a charge on the poor authorities ever since.

Mrs. Mary Marrick and infant were returned to Antwerp vesterday also. The them home again, as it was a violation of the immigrant law to land them.

STRAINING and racking your lungs and throat with a rasping cough is but poor policy. Rather cure yourself with Dr. D. Jayne's Expectorant, an excellent remedy for asthma and bronchitis.

Costly Gifts to Men.

"The Great Contest," a magnificently bound book of 60 pages, containing a complete and correct history of the Civil War, and steel engravings of the most active figures of that memorable period, sold by book dealers for \$2, will go gratis with every man's suit or overcoat bought roday. man's suit or overcoat bought to-day.

KAUPMANNS'.

An Informal Talk to the Students of Its Distressing Symptoms as Described by Mrs. Gregory.

"I had asthma from infancy, "Choking and smothering spells, "Coughed all night, "Spit up blood

"Headache over eyes, "Distressing stomach trouble, "Palpitation of the heart." Continuing, Mrs. Josie Gregory, of Raver

Rock, W. Va., proprietress of the Parker & Gregory general store, Raven Rock, relates her case as follows: "My trouble began when I was a small child. I was so young I can't remember the exact time when it did begin. My age now is 30 years. I had asthma from my infancy up. Had choking sensations and smother-

pains all through the upper part of my lungs.

"My nose stopped up on one side and then the other, dropping from head to throat and hawking and spitting. I had beadaches over eyes and top of head. Myappetite grew very poor, and what I ate distressed me so much, and if ate very much it would make my smothering spells worse, I would often starve myself rather than smother as I did.

"I had a burning sensation in my stomach all the time and gas would accumulate in my stomach. Bowels costive, palpitation of the heart. I have taken treatment all my life, all the patent medicines I could hear of. One doctor treated me for over a year, and said I was in the first stages of consumption. In all I have taken treatment from seven different doctors, who gave me no encouragement, and all of them said I would never be any better. Three months ago I applied for treatment to Dr. Copeland and his associates. I found their examinations very thorough, and thought they surely understood their business, and put myself under their treatment and I began myself under their treatment and I began

Mrs. Jorie Gregory, Raven Rock, W. Va. a different person altogether, and have had only one choking spell since I began treat

only one choking spell since I began treatment.

"My nose is cleared up, hawking and spitting of green stuff from my throat in mornings has disappeared. I sleep good and arise in morning refreshed. The fact is, I never knew before what a good night's sleep was. I have gained in flesh from the beginning, and now feel it my duty to advise anyone suffering from catarrh and asthma as I did all my life to try Dr. Copeland and his associates and get relieved.

"I really don't think I could have lived much longer, and people about Raven Rock did not think I would live very long, either. They did not tell me this to discourage me before I began, but told me their opinion after I had taken treatment for six weeks and saw I was getting well."

Asthma is rarel disease of itself. I arises from numerous causes—diseases of the kidneys, stomach, heart, nerves, lungs, blood and nose. If these several causes were well understood and treated accordingly, there would be tewer irascible asthmatics. Catarrh of the nose, moist, dry, atrophic, hypetrophic, is now regarded the most frequent cause of asthma-reflected asthms it is called. The cause, of course, indicates the treatment cause the catarrh. indicates the treatment-cure the catarri correct the deformity in the nostrils if there be any, and the asthma will disappear.

Nasal Catarrh Often Extends to the Lungs Causing Bronchial Asthma -Remove

TAKE TIMELY ADVICE.

Heed the Warning Signs and Place Your System in Proper Condition to With-

stand the Winter's Severity. Drs. Copeland, Hall and Byers want to reach every patient who took treatment with them during the spring and summer months and only remained under treatment one or two months under the impression that because they got such quick results and felt comparatively well that they were permanently cured. They desire to impress upon such patients the fact that during the warm wholesome summer season catarris affects a person but very little, and that as soon as the severe and changeable winter weather appears there will return again the same old round of agonizing neuralgic headaches, stopped up condition of the nostrils, sore and irritable throat, with hawking and spitting and darting pains through chest.

WOMEN'S HEADACHES.

Why Should They Be Endured When They Can Be Cured?

Frightful, violent headaches. Ache, ache, ache; throb, throb, throb. It is women who suffer most from headaches, and the "sick" headaches are the most
common affliction as well as the most painful form of that trouble.

Why should they be endured when relief
can so surely be had by consulting Drs.
Copeland, Hall and Byers? Can anything be
more convincing than the statement
of Mrs. Osmer? She was skeptical like a
great many others because she had doctored and doctored without receiving any
benefit, but now she is one of Drs. Copeland,
Hall and Byers' most enthusiastic indorsers. It is women who suffer most from head

McDonald, Pa., Oct. 20, 1892.

Drs. Copeland, Hail and Byers:

GENTLEMEN-I received my medicine. I GENTLEMEN-I received my medicine. I feel better as the result of one month's treatment than I have for over a year. When I first consulted you one month ago it was with doubt and but little hope of receiving any benefit, for I had grown discouraged of ever being any better. But I must say I have been agreeably disappointed, for the relief has been almost miraculous, and I feel it my duty toward suffering humanity to testify publicly to your wonderful skill and successful methods of treatment.

Respectfully yours.

Mes. I. J. Osmes.
