FROM A STAFF CORRESPONDENT.

WASHINGTON, Nov. 12 .- Senator Quay, who left for Florida this evening, has hitherto declined to make any comment upon the result of the Presidental election beyond the single laconic remark, "We did not have votes enough." To-day, however, THE DISPATCH correspondent succeeded in persuading Mr. Quay to say a

The Senator was found sitting in his library, dictating replies to several hundred telegrams of congratulation which he had received from friends in Pennsylvania over the Republican majority on joint ballot of 82 in the Legislature, which insures his re-turn to the United States Senate.

When asked to explain the causes of Republican defeat in the battle for the Presidency, the Senator turned to a sunny window in which a parrot was swinging in a cage. The Senator cocked one eye at the serrot, and the bird in response blinked both eyes and sang very distinctly: "Oh, dear, what can the matter be?"

The Senator Serious and Thoughtful. Mr. Quay grew very serious and thoughtful when he was asked for his opinion as to the future policy of the Republican party. "I believe," he said, "that the Republican party should not yield one inch in its theories as to the benefits of a protective tariff. I believe, too, that the bills passed at the last session of the House, placing wool on the free list and reducing the duties en woolen manufactures, and removing the luties from tin plate, binding twine, cotton ties and cotton bagging and from machinery used in the manufacture of cotton bagging, Committee, should be retained in that committee and not reported. In fact, I believe they will not be reported.

Duty of the Democratic House "If the business interests of the country are anxious to know what scheme of legislation awaits them it is the duty of the Demperatic House, as soon as it meets in Denember, to frame a general tariff bill, indienting in a broad and definite form just what the revenue policy of the next administration is to be.

land will call an extra session of Congress next March?"

"No. I do not. One reason for Mr. Cleveland's election is that he is estimated as a conservative man. He is not likely to be dragged by the more radical and revolucionary elements of his party into frightening, at the very outset, the people who have believed in his conservatism. It may perhaps be too soon to speak so positively, but I really cannot believe that there will be any extra session of Congress beyond the usual executive session of the Senate to confirm the most important appointments." The Future of the Republican Party.

"Speaking in the most general terms. what do you think of the future of the Republican party?"

"You may say that I consider nothing more probable than that four years hence there will be an exact reversal of the populag verdict of 1892, and that, as in 1888, Mr. Harrison will succeed Mr. Cleveland in the Presidency. The people had four years of Cleveland once and they had enough. As I have said before, Mr. Cleveland's renomination, while he still held the Presidental office, made it-easier for the Republican party to succeed. Four years hence, after wages have been reduced and after the enormous cost of labor strikes has been charged to the party in power, it may be that the people will demand the renomination and re-election of General Harrison, Senator Quay expects to return from Florida in time for the opening of Con-

Probable Policy of the Democrats. Some interest in the light upon the probable policy of the Democrats at the next session of Congress was given to THE DIS-PATCH correspondent to-day by Representative Outhwaite, of Ohio. Mr. Outhwaite is Chairman of the House Committee on Military Affairs, and is one of the best informed and sagacious of the Democratic leaders in Congress. It will be seen that his expressions are somewhat in line with those uttered by Senator Quay. Said Mr. Outh-

"It is useless to anticipate any interference with our banking laws at this time. The Democrats do not expect-and they could not if they so desired-to make any change in our present system of making all esue of money come directly from the Federal Government. The 10 per cent tax on State bank issues will not be repealed. It is not my way, nor that of the Democratic party, to kill a thing by taxing it out of existence, but now that the State bank insues are done for by an inhibitory tax they will not be revived. There will not be an extra session of Congress. Mr. Cleveland is opposed to such a thing, and said so eight years ago. Everybody knows that the party responsible for an extra ses sion of Congress in times of peace always auffers defeat at the next election.

The present tariff law will be very materially modified, but there will be only slight reductions of duties upon articles which are successfully manufactured in our country. We will give the manufacturers free raw We will give the minufacturers free raw materials, and will put tinplate upon the free list, because it is not an established in-dustry and cannot be made so in this country. The established industries will not be destroyed by being thrown into full competition with those of England, nor will they be materially affected by heavy reductions of duties upon their manufacreductions of duties upon their manufacture. We will first give them free raw naterials to work with, and then we will consider reductions of tariffs upon the man-

utactured articles." Harrison Isn't Criticising Anybody. What purported to be an indirect expression of the views of the President upon the management of the campaign and results, given through an anonymous "friend," appeared in a New York Democratic paper this morning. It may be said ositively that this indirect interview was wholly unauthorized, and was filled with errors and inaccuracies. The President has uttered no criticism of Mr. Carter or Mr. McComas, or Mr. Manley or General Clarkson. It is emphatically untrue that the President has attributed in any degree his defeat to the influence of any of the Re-publican leaders, including Mr. Platt, Mr. Quay or Mr. Cameron, who were opposed to his renomination at Minneapolis.

As a matter of fact, the President be-came thoroughly satisfied early in the cam-paign that all of the Republican leaders, whatever their attitude before the Minneapolis convention may have been, were loyal and sincere in their support of the party and its candidate.

They were all the same. This completed the list of counties. List of Officers in the Departments.

WASHINGTON, Nov. 12 .- It was said at the White House to-day that the President had decided to pursue a strictly conservative course in all matters relating to ap-pointments. He does not desire to lay the administration open to the charge of arbi-

trarily depriving the coming administration of patronage in a spirit of vindictiveness or retaliation. Consequently he will extend which he had determined on in case he was re-elected. This decision, it is said will not affect more than half a dozen positions in each department. It is stated that the President does not desire to take the Government Printing Office into the classified service, as urged to do. The Bureau of Engraving and Printing is virtually within its list now.

Within the past three days each head of a department has been tairly besieged by employes who were not appointed under the civil service law to be taken into the classified service in some way, in order to afford them protection. It is said that this class of employes are very much alarmed, as they fear that the coming administration will pursue a more aggressive policy than Mr. Cleveland did during his former tenure

MR. CARTER MAY EXPLAIN

POLITICIANS MAKING CABINETS.

Every Caller on Cleveland Thought to Be Looking for a Job.

WHAT RUSSELL HARRISON HAS TO SAY

NEW YORK, Nov. 12.—The Republican National headquarters were closed tight as a drum to-day. Chairman Carter will remain in town for a number of days. Before returning to his home in Montana it is pos sible that he will construct some sort of locument giving his reasons for the frightful defeat of the Republican party. That was his intention to-day.

It is just possible that Mr. Carter and other members of the Republican National Committee will advocate the establishmen of a permanent office for the use of a sub ommittee of the national body here in New York City. Eminent Republicans believe that this should be done and the subect will receive consideration.

Russell Harrison son of the President called on Mr. Carter at the Palace Hotel today. Young Mr. Harrison said that his ather was by no means cast down by his defeat, but that he had accepted it manfully, as he had other afflictions. Young Mr. Harrison added that the defeat of the Republican party was of very much more moment to his father than the personal disappointment over the loss of the Presi-

To Return to Indianapolis

Mr. Harrison stated that the President rould return to Indianapolis and pass the remainder of his days among his associates and friends. He did not care to speak at length on the election, but added: "I think my father is proud of the good showing made in Indiana. Two years ago the State gave the Democrats a majority of 19,000, and now they only carry it by 8,000, showing a Republican gain of 11,000. It was not even a doubtful State, for the Democrats had carried it last fall. Other States that were conclusively Republican until the election proved the contrary are the ones that cause surprise. Look at Ohio, which gave McKinley a majority of 20,000 or more, when he was elected Governor, and which has always been considered a Republican State in national years, and consider the great revolution wrought there. In view of the overwhelming change of votes in that State I certainly think the President has cause to be proud of his own State and the great gains he made in two years."

Democratic Headquarters Not Closed Yet, The national Democratio campaigners god their minds to-day and will not close the doors of their headquarters until the latter part of next week. On Thursday there will undoubtedly be a meeting of the Campaign Committee, and at this meeting a proposition to establish permanent head-quarters in New York will be submitted. Senator Gorman left town to-night. It may now be printed that he came to New

Tork at the urgent invitation of Hon. W. C. Whitney.

Very little additional gossip about the formation of Mr. Cleveiand's Cabinet was heard to-day. The latest bit is that Benja-min T. Cable, who had much to do with steering the western branch at national headquarters at Chicago, will be urged for headquarters at Chicago, the Western Secretary of the Navy by the Western Democrats. It was still in the air that Henry Villard's friend would urge his apintment as Secretary of the Interior. Mr. Villard's services in this campaign have been invaluable to the committee. He devoted much of his time to raising money with which to put forward the issues before the people. In this matter he was espec-ially successful in the Northwest, where his

inence as a railroad manager has prominence as a railroad manager has gained him a wide circle of acquaintances. Whitney Can Have What He Wants. It is still said that Mr. Whitney can have about anything in the shape of a portfolio he may desire, even if it be the place which has been so signally honored by Hon. James G. Blaine, but that he does not desire to enter the Cabinet and that he will only do so if Mr. Cleveland insists. Any number

of Democrats believe that Mr. has a great future before him. Senator Carlisle is still at the Fifth Ave. nue Hotel. A DISPATCH reporter asked nim to-day if he thought an extra session of Congress would be necessary after the in-auguration of Mr. Cleveland. Senator Car-lisle replied: "One or two gentlemen asked me that same question this morning, and without stopping to think, I answered off-hand that I did not believe there would be an extraordinary session of the House. It seems to me that these gentlemen have ac-cepted that as my final judgment. It would be most imprudent for me to make any such announcement at this time, and would like to have it distinctly understood that when I made that reply I was exceed ingly busy and scarcely stopped to heed what I said. I cannot tell whether or not an extraordinary session will be necessary.

Much Depends on What Congress Does. "Much depends upon the action of the present Congress on the act of July 14, 1890. Should Congress decide to repeal that act it may not be necessary to call an extraordinary session. Still, even if the present Congress repeals that act I would not dare to say positively whether or not an extraordinary session would be, in my indement necessary."

The act of July 14, 1890, is known as the Sherman law and makes obligatory the purchase of \$4,500,000 of silver bullion by the Treasury every month. It will be recalled that Senator Sherman himself at the last session introduced a bill calling for the repeal of the law on the ground that it had not worked advantageously. It will thus be seen that if the Democrats of the House introduce a bill at the coming session for the repeal of the law, even though the Senate is Republican, there is a probability that the bill would reach President Harrison. Just what the President would do with it then is the question. But, if the attitude of Republican bankers in New York is any criterion, it may be interred that the President would sign the bill repealing the law. The Chamber of Commerce of New York, which is dominated to a great extent by the Republican bankers and merchants, is opposed to the Sherman law, and has so expressed itself, formally and officially, to Secretary Foster, of the Treasury Department. roduce a bill at the coming session

Forty Tons of Explosives Brought to the Scene of Action—Great Expectations From the Rossellite Powder-Two Capitalists Have Put Up \$10,000.

SAN ANTONIO, TEX., Nov. 12 -[ Special. -The Government raismakers under the eadership of General R. T. Dyrenforth, Prof. John T. Ellis and Dr. C. A. Rosselle, special agents of the Agricultural Department, will begin a series of experiments here next week. The steamer having on board 40 tons of explosives to be used in the work arrived at Galveston from New York to-day, and will be immediately transported to this city. General Dyrenforth and a large corps of expert assistants arrived by the same steamer and will reach here to-

John W. Dickinson, a prominent capital-ist of Chicago, and John H. King, of Wash-ington, D. C., arrived here to-day. They are both extensively interested in lands in South Dakots and Kansas and contributed \$10,000 to be expended here in the proposed experiments. They state that the Government appropriation of \$5,000 will also be used and an exhaustive test of the artificial

used and an exhaustive test of the artificial rain production thoroughly made.

Among the equipments that will be utilized are several hundred balloons, mortars and various other implements for explosives. The Rossellite powder will be used, and it is said that it will give much better results than that used in the experiments a year ago. In addition to the corps from the Agricultural Department, a detachment of army officers and soldiers from Fort Sam Houston in this city will be detailed to assist in conducting the experiments.

mmigrant Inspector Layton Says He Has a Case Against the Glass Blowers.

NEW YORK, Nov. 12 -- Contract Labor Inspector R. J. Layton, of Pittsburg, and President Eberhart, of the Window Glass Union, of Pittsburg, spent several hours to day at Ellis Island examining the 30 Belgian glass blowers, said to be contract laborers who arrived here Wednesday from Ant werp. One of the men, Louis de Dande. who was accompanied by his sister, was

discharged. He is not a glass blower. Inspector Layton said he had a good case of it, and that the affair was an important one to the labor world. He said the mer had been well coached by Emil Frank, the ex-foreman who went from Pittsburg to Belgium for them. The men denied that they were glass blowers. Inspector Karowski says that Wednesday he heard the officers on the Friesland asking the men if they "had their story all ready," and they answered that they had. The examination will be continued Monday.

An Inter-State Commerce Decision PHILADELPHIA, Nov. 12 -[Special.]-An opinion was to-day filed by Judge Dallas in the United States Circuit Court of Appeals, deciding that Frank W. Fowkes, second assistant general freight agent of the Philadelphia and Reading Railroad Company, need not go to St. Louis to stand trial for an alleged violation of the inter-State commerce law.

EXCITING INCIDENTS ON THE FIELD

It was no enthusiastic crowd that poured out of A. A. A. Park yesterday afternoon

day the game between the A. A. A. and P. A. C. elevens was the sole topic of conversation on the streets and great preparamake the welkin ring for the victors

whoever they might be. As the time for the game drew near, however, the lowering sky let down a sprinkle that dampened the ardor of many and prevented the attendance of several thousand. The fervor of the 3,000 who braved the elements and filled the boxes and the grand

stand was further dampened-almost extinguished by the things that happened when the teams lined up. Not even the playing of the great Heffelfinger or of Sport Donnelly could bring out a cheer There were the gaily-decorated four-in-hands of the P. A. C. shouters filled with

jubilant, spirited young men on one side, with the A. A. A. shouters at the center in their tally-ho, and near by were the

Fashion and Beauty Were Present. Above the grand stand the long row of boxes, each holding from seven to a dosen, was filled with representatives of the wealth and fashion of the city. Below in the reserved seats fair maidens displayed the colors worn by the team they hoped would win. On the field, outside the ropes, were hundreds of men anxious to get as close to the players as possible.

The P. A. C. players were the first to arrive on the field, and as the men disembarked from the omnibus the A. A. A. eleven filed out of the dressing room. There had been hints that "ringers" would be played on both sides, but nobody expected that such men as Heffelfinger or "Sport" Donnelly or Malley, all of the great Chicago team and each with a national reputacago team and each with a national reputa-tion, would honor Pittsburg with their presence. But they did, and therein lay the cause of the trouble that commenced as soon as their presence became known. Where the Kick Came In.

Manager Barbour and Captain Aull, of the P. A. C.'s, refused to go on with the game if the Chicago men were played, and

after some argument, in which it was urged that the P. A. C.'s had no right to expect anything else for having played Read, of the State College, under an assumed name, in the Columbus Day game, the P. A. C.'s left the field and entered their omnibus The A. A. A.'s also charged the P. A. C.'s with having "ringers" on their team, point-ing out Lomax and S. Martin as players from out of town.

Then the referee, after waiting the pre-

scribed time, gave the game to the A. A. A.'s by a score of 6 to 0. Manager Barbour, of the P. A. C.'s, finally announced that his team was willing to play if the bets that had been made were declared off, and this proposition was accepted and the two teams lined up and started to play 30-

minute halves.

Sport Donnelly took the left end for the A. A. A.'s; Malley was the left tackle, and Heffelfinger the left guard, with Trees, of the W. U. P., at center, Coates as right guard, Blunt as right tackle and Floy as guard, Blunt as right tackle and Floy as right end. On the P. A. C. side Lomax, formerly of Cornell, played the left end, and the only other new man was Simon Martin, formerly of Lehigh, at center. Bert Aull was moved from the end to "Buck" Martin's place at right half back. Messrs. Coulter and Fomtwangler, of Greensburg, acted as referee and umpire. A Great Exhibition Game,

A Great Exhibition Game,

It was an exhibition game, but a very pretty one, though the Chicago men didn't make so good a showing as was expected, and Donnelly was guilty of dirty work! Heffelfinger only made one run and then he scored a touch down, the only one made during the game. He got the ball on a fumble from one of his own team, and had a clear way down from the 15-yard line to the right corner behind the goal line, where he was pulled down in quick greer by Dibes.
