A SENATOR'S SARCASM. FHERE Friends of the Beaver Statesman Do Not Believe He Favors HARRISON'S NOMINATION IN '96. Postmaster McKean Anxious to Be Relieved From Office. THE DISTRIBUTION OF PATRONAGE The remarks of Senator Quay about Harrison which appeared in THE DISPATCH yesterday morning formed the principal subject for Sunday discussion among Republican politicians. The opinion seemed to

be that the Beaver statesman is either good at dissembling or else is a very generous man. The people close to the Senator see a great deal of quiet sarcasm in what he said, and they do not accept the interview literally. They laugh at the statement that Harrison would be renominated four years from now and the country would reverse itself. They believe there is no doubt about the latter result, but they think some other man would be the victor. An intimate friend of Senator Quay said

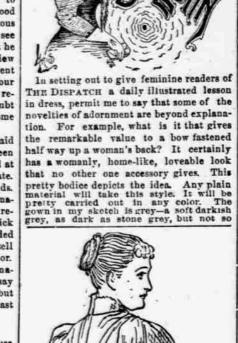

vesterday: "I know if Harrison had been re-elected he would have commenced at once to down the Senator in his own State. Quay is aware of this as well as his friends. Why, he hasn't spoken to John Wanamaker since last January. It will be remembered that while the Senator was sick In Florida the Postmaster General sided with C. L. Magee and Congressman Dalzell in support of George Miller for Collector. That produced the rupture between Wana maker and Quay. I don't mean to say that they don't speak as they pass by, but they haven't pulled together since last January.

Why Quay Opposed Harrison

"I want to add that Quay did not refuse to support Harrison at Minnespolis on personal grounds. He felt that the President could not be elected. He had no assurance from Mr. Blaine that had the latter been nominated and elected that he would have had the Pennsylvania patronage at his disposal."

The action of the Philadelphia senatorial delegation in indorsing Mr. Quay is ac-cepted by many in Western Pennsylvania to mean that he will have a walkover for re-

to mean that he will have a walkover for re-election to the Senate. It is hinted that you will not serve out the term, and those who claim to be posted say that he would not have been a candidate again had be not been so viciously attacked by the Demo-cratic press two years ago. Do you know there are more young men attending night school in the Y. M. C. A. of New York City than at Harvard or Yale. There are more attending our night school in St. Louis than any other educational institution in the State outside of the State University. The association is for sympathy. Not that kind of aympathy of sending flowers to a man about to be hanged, but sympathy for those who de-serve it. The report for the past year was read, and it marks a point in the growth of the asso-ciation never before attained. I think the delegation will control the heve Mr. Harrity will interfere. Randall was accused of being a dictator when Cleve-had was first elected, out that was a great mistake. I know that Charles Boyle, of Uniontown, and other Congressmen got what they wanted. Former chairmen, like of the offices in Connecticut, and tairin S. Brice did not inter ere in Ohio, though he may have something to say now. It is not democratic for our chairmen to interfere mach in the distribution of the offices. If Harrity were a Senator and inclined to be obstreperous, he could give Mr. Cleveland considerable trouble, and for this reason would have more influence. But I don't believe Mr. Harrity ever thought of inter-fering with the rights of the Congress-men.

"It seems to me the scramble for place be-"It seems to me the scramble for place be-fore the corpse is buried is premature. Kribbs, Sibley and Sipe will certainly have something to say about the pension agency and Internal Collectorship. Their districts are included, and they will probably decide who is entitled to the offices. The marshal has jurisdiction to Scranton, and, of course, Hines will want to be heard in the deter-mination of the appointment. The patron-mage of the Internal Collector-hip has been greatly reduced, and the office is not the power it used to be. The storekeepers are now doing the work of many of the gaugets. Weigning whisky has done much to simplify the business."

CAMPBELL GOES TO NEW YORK.

The Ohio Ex-Governor Concedes the Election of the Republican State Ticket.

Ex-Governor James E. Campbell, of Ohio, passed through the city last evening bound for New York. Mr. Campbell is feeling very jubilant over the Democratic victory. In most of the Cabinet slates he appears as the next Secretary of the Interior, and a more popular Democrat could not be selected for the place. Mr. Campbell said with a smile that he was going to the metropolis to look after some business interests, but the supposition is that he will have a con-ference with Mr. Cleveland about the future policy of the party. Just now the Demo-orats are trying to determine whether it is best to hold an extra session of Congress or not. The ex-Governor declined to express an eminon.

"I sm afraid," he said, "that the Republi-can State ticket in Ohio is elected by a small majority, but I believe we will have the elencoral rote with the exception of Dan-iord, Republican Elector at Large. You remember I predicted the result at the Chi-cago Convention." "What will be your reward," was asked. "Oh, we are all in it," he replied. "I guess there are offices enough to go around."

26 for each class, with a total of 3,883. The indications are that even these figures will be largely exceeded during the coming win-ter and threaten to rival the gymnasium as an attraction for young men. The Commit-tee on State and International Works has done its part. The subscriptions to this de-nartment during the past year were \$637.50. Each year the gymnasium becomes more complete. The daily attendance last year was li3 and the average of the classes was 17. To the gymnasium 110 new dressing boxes have been added. The course of the entertainments has also grown in popu-larity, the average attendance during last season reaching 1400. This increase in membership and growth tells its own eloquent story of the need of increased facilities. All that is needed to aid the work is tor some charitable person to erect a building ample in its appoint-ments and devote it to this purpose. The East Liberty branch is a striking illustra-tion of the expansion that takes place when proper facilities are provided. The im-provements in the gymnasium increased the membership from 189 to 401. The com-pletion of the new yads at Walls for the Pennsylvania Railroad and the change in the running of trains have caused the re-moval of most of the men from Twenty-eighth street where the rooms are located. The association doesn't expect much increase trom year to year in the work of the Lawrenceville branch as their equip-ment is the least satisfactory.
