GENERAL SPORTING NEWS OF THE DAY

[SPECIAL TRLEGRAM TO THE DISPATCH.] NEW YORK, Nov. 14 .- If the struggle for the inter-collegiate football championship ends, as is now quite generally anticipated, Yale will be the victor and the University of Pennsylvania will carry off second ionors. Yale has won from Wesleyan and Pennsylvania; the latter has won from Princeton and lost to Yale, while Princeon has won from Weslevan and lost to Pennsylvania. It seems quite probable hat Pennsylvania will defeat Wesleyan, and if the expectation of Yale's triumph over Princeton is realized the standing at ne close of the season would be as follows: Won. Lost.

Pennsylvania Princeton Wesleyan

Providing the results are in this way the Pennsylvanian would be entitled to play Yale in New York on Thanksgiving Day, 1893. That would break off the long established struggle between Yale and Princeton on Thanksgiving Day and be a severe disappointment to Yale, which does not relish the entrance of Pennsylvania into the charmed circle heretofore occupied exclusively by Harvard, Yale and Prince-

To lose the Thanksgiving Day game with Yale will be a crushing blow to Princeton, for, according to the constitution of the association the net receipts of that day are equally divided between the contesting col-leges, and the yearly contest at New York has been a rich financial plum. Providing Princeton defeats Yale and Pennsylvania vanquishes Wesleyan, the standing of the clubs would be as follows: Yale, won 2, lost 1; Princeton, won 2, lost 1; Pennsylvania, won 2, lost 1; Wesleyan, won 0, lost 8. It will be seen that Yale, Princeton and Pennsylvania will be tied for first place, and there is nothing in the rules covering

YALE'S GOOD POINTS.

Some Causes Which Make the New Haven Men Formidable Players.

An Eastern football authority says: "Yale's pre-eminence in football is due to a variety of causes. New Haven men dearly love their college and look upon the name Yale as almost sacred. They go into a game of football as though their very life de-

pended upon the result.

"The New Haven men have also better coachers than the other collegians. Year after year the Alumni of Yale come to New Haven and devote all their time and labor to the advantage of the Yale teams.

## THE MAGNATES' MEETING.

Janager Buckenberger Will Leave This Evening for the Gathering at Chicago. Manager Buckenberger, of the local basepall club, will leave for Chicago this even ball club, will leave for Chicago this evening to attend the annual meeting of the
2-club League. He anticipates that some
important questions will be discussed, almough he was not prepared to definitely
iame the questions. He is of opinion that
he 12-club arrangement will continue
for another year, because of the financial
bligations that each of the dozen clubs is
point. He also thinks there will be some prier. He also thinks there will be some trie changes made in the playing rule It is admitted to be a fact that if the debt It is admitted to be a fact that if the debthich now burdens the League had not exted there would have been no more of the delub League system. All thoughtful and ntelligent patrons of the national game are any convinced that it is the greatest failer and most despotic arrangement that has ver characterized basebail. The monopoly so close that dozens of players have been estematically robbed with impunity and the full concurrence of persons who a stematically robbed with impunity and ith the full concurrence of persons who a car or so ago were ruining the game by seir blatant cries about the unjust treatent of players. Then the latter were better off than they ever had been and probably ver will be. At present this trust and its ery questionable methods is defended not heartily by the disrupters referred to. It is likely that the question of the to-beront-to-be of the big compact will be disussed at the meeting this week. Public entiment is strongly against the system. What is known as the "kite-shaped" inmond, a very foolish notion, also advocated by the organ of the magnates, may lso be talked about, but not seriously. The neeting may also fully discover that several clubs are in a very bad financial condition.

"It seems to me," said Jackson to-night, that puglism has given way to acting in his country. Corbett is an actor, and a recty good one, I am told. So is Sullivan, might take to the stage if nothing else was sit for me to do, but I doubt if there would easy money in playing "Othella." ## BELF-GOVERNMENT FOR COLONIES.

An Imperial Council Suggested by the Federation League of Great Britain.

HIS POINTS ARE OVERRULED.

CINCINNATI, Nov. 14.—The trial of Prof. Henry Preserved Smith, of Lane University, on charges of heresy commenced here to-day. The summary of the charges,

Charge 1, That Smith taught in articles published in the New York Evangelist of March 27 and April 7, contrary to the rules and regulations of the church, abandoning the essential features of the doctrine of the Charge 2, That he taught, in a pamphlet

Charge 3, That in the same pamphlet, while alleging the Holy Scriptures are in-spired in an infallible rule of faith and ractice, he denied in fact their inspiration in which inspiration is attributed to the Scriptures by the Scriptures themselves, and by the Confession of Faith."

The trial is held in the First Presbyterian Church, the oldest church organization rian Church, the oldest church organization in the city. It was this church that pl anted the first seed of Presbyterianism in the valley of the Ohio. Inasmuch as the charges rest up on papers published by the accused it is more than likely that the opinion formed by the members of the Presbytery from a reading of his papers will hardly be greatly modified by the professor's own argument in defense of his position. The Rev. Dr. Lyman Beccher, father of Henry Ward Beecher, was brought to trial in this church.

Upon a motion by Rev. Frank Monfort that Prof. Smith's objections to the organi-zation of the court be not custained, a large majority voted in the affirmative.

The professor began then, in a calm way, devoid of feeling or passion, to present his case. He first argued against the regularity of this proceeding, claiming that the Committee on Erroneous Teaching had no right to inquire into the ministerial standing of individual manager. individual members. That was a judicial process. He further charged that the committee was prejudiced, appointed to represent one opinion only. This, he declared, was avowed in open Presbytery by the Moderator in making the appointment, and it was further evident from the form of the

He further declared that it was irregular, because this judicial proceeding was taken without the distinct inquiry on the part of the Preabytery whether it be necessary for the ends of discipline to investigate the alleged offense. This violates that provis-ion of the book of discipline which de-elares that effort should be made by private conference with the accused to avoid, if possible, the necessity of actual process. This had not been done in his case. The committee had only sent him a demand that he retract what he had written. But as these objections had already been virtually overruled he simply put them in the record for such use as may be possible hereafter. He then proceeded to remind the court of the necessity for extreme caution in determining the questions presented to not let previously formed opinions overrule the

"Those familiar," he said, "with the re-cent history of our church must realize that

"The charges of the committee allege certain facts; they allege further, that these facts constitute an offense against the Presbyterian Church. Whether the average facts are true is a question of evidence to be proved in the trial itself. Whether, even if they be as alleged, they constitute an offense is a question not of testimony but of law. In other words an indictment ust be sufficient in law before it can be pleaded to and tried upon the evidence. He then took up the charges against him one by one and raised objections to their sufficiency. On these grounds he asked that the charges referred to be stricken out. At this point the Presbytery adjourned.

LONDON, Nov. 14.—The special committee appointed by the Council of the Imperial

appointed by the Council of the Imperial Federation League to consider definite proposals for a federation of the self-governing bodies of the British Empire has presented an exhaustive and very important report. The committee suggests the formation of an Imperial Council which should consist of members appointed by each of the various self-governing colonies, together with the British Prime Minister, the Secretaries of State, Foreign Affairs, War, the Colonies and India, the First Lord of the Admiralty and the Chancellor of the Exchequer.

The method of raising funds at the outset should be left to the choice of the self-governing States, but a uniform principle might atterward be found and substituted. The committee proposes that an imperial conference be summoned to consider the question, the conference, if it is deemed necessary, to be preceded by a royal commission. The committee closes its report with a strong appeal to the Ministry to take action in this direction.
