GENERAL SPORTING NEWS OF THE DAY

The annual meeting of the stockholders of the Homewood Driving Park Association was held yesterday and the directors for the next 12 months elected. It is some time since such a pleasant and satisfactory meeting has been held in connection with this association. Everybody was happy over the management and the results of the

The report of Secretary McCracken was decidedly satisfactory, as he pointed out that the financial balance for the year was heavily on the right side.

The following Board of Directors was elected ununimously: T. R. Kerr, G. T. Rafferty, L. S. Gunningham, J. A. Mc-Cracken, J. B. Hyndman, H. Darlington, T. M. Marshali, Jr., J. K. Lanahan and Charles Donnelly, As will be seen, the board is a thoroughly representative one of the business interests of Pittsburg, and each member is a very prominent citizen. It is certain that when the directors meet they will again appoint Captain Kerr President, an office he has filled very well for

several years.

Speaking of the association's affairs after the meeting Secretary McCracken said: "We are all well satisfied with the season's showing although bad weather in-terfered considerably with our fall meeting. Our summer meeting was the best in the grand circuit and we made a good profit. Our association is in excellent condition Our association is in executed condition now and I think that in 12 months' time it will be 50 per cent better. We have great intentions for next year and if things go as we anticipate we will have the best racing next season in this city ever seen in Pennsylvania. We have the confidence of the horsemen and the public, because any purse we advertise is genuine. We in-tend to stick to this principle at all

"Pittsburg is a racing community and owners of good horses know it; they are, therefore, always ready to come here. Our stakes and purses next season will likely be bigger than they ever have been, and it may be that we will have a sensational feature or two at our summer meeting. It is also our intention to give greater inducements than ever for local horsemen to race their horses. There will be more stables of horses located at Homewood next year than ever before, and among the notable addi-tions will be the Adams stable from Youngs-

A CHICAGO WAIL

Charges That the Baseball Magnates Are Not Fair Dealing Men.

CHICAGO, Nov. 15 .- For the first time in its history the National League will holds its annual meeting in this city. To-morrow, during the forenoon, the Board of Di-rectors will hold a session. The League will be called upon to settle questions of the greatest import. Not since the early '70's has the game been at so low an ebb. At the peace meeting in Indianapolts last winter both Chicago and New York were shamefully treated. The Chicago club applied for players, but in no case was any attention paid to its demands. New York was "turned down" in the same way. As a result both Chicago and New York had poor teams. Owners of winning teams, like the Bostons and Clevelands, will make decided opposition to parting with any of their star players. Washington, St. Louis, Baltimore and other cities will make their demands just the same. Since 1890 the League has paid little attention to playing rules, but they will be discussed and probably amended, especially those relative to pitching and batting. It is certain that I clubs will constitute the League next year. The playing season, however, will be shorter, and the opening games will be scheduled for the last Thursday in April. The talk of separate Eastern and Western organizations is bosh. winter both Chicago and New York were

COLUMBUS. Nov. 15.—['peciol.]—A meeting of the Ohio League of Republican Clubs has been called to convene in this city on Thurs-

cail."

"The meeting," said one gentleman, a member of the organization, "is for the purpose or finding out where are weat, what happened and how it was done." The meeting will probably be held at the Lincoln Club rooms. Arrangements for the annual Lincoln banquet will also be made at this session.

now the only man who gives the Princetonians much concern. He is in bad shape, and there is no good substitute for full back in the college. Every one here is convinced that Pennsylvania was acquainted not only with the Princeton general style of playing, but with the code of signals used in the game. They do not accept Saturday's game as a just criterion of the comparative strength of Yale and Princeton. Most of the students here believe that Princeton will furnish Yale with as close a game from line up to finish as the Quakers put up in the last ten minutes.

A Coming Sprint at Braddock.

Braddock, Nov. 15.—[Special.] — Arthur Fart, of this city, has been matched to run a 190-yard race with William Bennett, of

Homestead, on the afternoon of Saturday,

becember 10. Forfeits of \$100 a side have been posted, and the stakes will be \$300, to remain open until the day of the race so that either party may raise them to \$500 if desired at any time prior to the start. The latter sum will probably be posted.

HACKING AT ASSESSORS.

Three Appeals on Their Valuations Investi gated-Cenflict of Opinion as to Worth of Downtown Lots - Details Consume Time and Slow Progress Made.

The attorneys in the city assessment suits got down to business yesterday, but so much detail was followed in the examination of witnesses that only three appeals were taken up. Commissioner Beal catled the meeting in City Hall to order at 11 o'clock and it continued until nearly 6 in the even-

Paul Hacke's appeal was the first, being on the question of valuation. His property on Market street is assessed at the rate of \$3,300 per front foot; with buildings and all the valuation is fixed at \$437,080. On the witness stand Mr. Hacke was asked to fix the actual cash value of the ground. For reply he said the lot adjoining them on Market street had been sold to David Gregg at \$2,700 a front foot, and he valued his at the same figure, adding 10 per cent for the corner lot. He thought lots on Fifth wenue were no more valuable than his Market street property. He declined to fix a selling price on his property, saying he had no desire to retire from business. D. P. Reighard, in support of Mr. Hacke's appeal, testified that he had purchased the Schmertz property on Fifth avenue for \$145,000, with the intention of building block. building a large modern building block thereon. The lot is 23x240 feet, with a

thereon. The lot is 23x240 feet, with a four-story brick building. He was willing to sell it at that figure, adding taxes and other expenses incurred since the purchase.

Clerk Rafferty, of the Assessor's office, in rebuttal, testified that he knew of \$4,000 a foot being offered for ground in the vicinity of the Hacke and Reighard lots. E. S. Guturie, owner of a lot at Fifth avenue and Master's alley, testified he had paid \$50,000 for 21x33 feet last spring.

The appeal of John R. & A. Murdoch was next taken up. Their property, 19x60, is at next taken up. Their property, 19x60, is at No. 508 Smithfield street, and was valued at \$2,500 per foot front. George Kappel did not think this above the Jeal value and P. E Zoch considered the property worth at least that, if not more. Messrs. Murdoch were not present. City Attorney Carna-han asked for them, but their attorney

refused to produce his clients, saying if Mr. Carnahan wanted the gentlemen he could issue a subpœna. James P. Quinn's appeal was next. He appeals on the assessment of four pieces of property on Fifth avenue, between Grant and Wylie, at Fifth and Grant and on Grant between Fifth and Webster. The balance of the session was consumed in examination of the books of the assessors to show they had originally assessed Mr. Quinn \$115,000, had then reduced it to \$101,200 and then increased it to \$104,000. The hearing closed with this case unfinished.

The Scott No. 2, of the Woodland Oil Comunshine on a dreary day to the operators in

The Forest Oil Company's No. 1 on the Robert Wallace tarm, which is located half a mile northeast of the big Gordon sand wells in the Meise hollow, was reported yesterday to be almost through the fifth sand and dry. It was dry in the Gordon also. This would seem to be a thorough test of the pool in a northeasterly direction, and consequently no more wells will likely be started in that vicinity.

The Philadelphia Company's well, on the Martin Clever farm, is in the bottom of the Fifth sand, and shut down on account of a break in the machinery. Tankage has been ordered, and the owners confidently expect that they will yet get a producer. It is 1,000 feet north of west from the Forest Oil Company's big Clever well.

The only thing that was reported yester-day as in any way resembling a well was at the Forest Oil Company's test on the A. P. Clever farm, which they have been drilling clever farm, which they have been drilling down to the fifth sand. When eight feet in that formation the hole suddenly filled with oil. The sand above that point had been hard and dry, and they had slight hopes of getting a producer.

In the Chartiers district Greenlee & Forst are in the 10-foot sand, at No. 1 Rough, and are down 1,550 teet in No. 2.

They are starting a rig on the Shaner farm, a mile south of the Potter farm, and about 1,000 feet north of the Florence Oil Company's well on the Miller, which is making 80 barrels a day from the fourth sand.

The second storm has remained nearly stationary north of Montana, diminishing in intensity. The clearing condition has moved from the Nova Scotia coast to Newfoundland. Steep barometric gradients between this and the storm will cause severe eastern gales on the North Atlantic coast. A second clearing condition is central off the Middle Pacific coast, and light rains in the Lower Lake regions. The tem perature has risen in the Mississippi Valley, the lake region and New England and has generally fallen elsewhere.

marked "High" and the oval trough, or depression, "Low." These waves move eastward on an average of 600 miles per day.

High winds, rain or (if cold enough) snow, south-

erly winds, and consequently high temperature, usually precede "Lows" across the country.

When the "Low" passes east of a place the wind changes to north, bringing lower temperature, clearing skies, and often cold waves and northers.

Few Suggestions as to the Great Effects of Little Things.

A little care will save you much annoyance A little neglect of some simple duty may lead to a disaster which would impair your life.

A little kindness to a fellow creature may cause you little effort and may result in untold good. A little attention to the right thing at the right time may result in great things to you at the proper time.

A little chill may seem trifling, but it may be the first symptom of pneumonia, possibly of death. A little prompt attention when you first feel chilly, is by all means the thing you should do, and do at once.

A little pure medicinal stimulant taken promptly will drive away the chili, restore the circulation and warm the blood. A little reflection will show you that only a pure, medicinal stimulant will answer and that there is but one, which is Duffy's Pure Malt Whiskey.

A little firmness when the druggist or grocer tries to sell you some so-called whis-key which has no merit, will save you much annoyance and perhaps preserve your health. A little constant use of this pure medicina stimulant will tend to help your health and keep you in a condition to resist the sudden changes of the season.

The Great American Hog

Is welcome abroad once more, and abroad he may go. As long as Lard was a requisite in every kitchen, the Great American Hog was highly esteemed at home; but now that modern science has introduced

COTTOLENE

the new vegetable substitute for Lard, poor Piggy's occupation's gone.

The reason for this is threefold. COTTOLENE is cleaner, healthier and much more economical. A trial has convinced thousands as to this. It will convince any "convincable" person. Will you be convinced? At leading grocers.

THE RACE.

TRUTH wins every time. A plain, truthful advertisement is so rare an article that when discovered it ought to command a premium.

THE newspapers fairly groan under the weight of bold, base fabrications.

BRAGGADOCIO, bombast, bosh and bluster are plentiful in this glorious Nineteenth Century. Why, the ordinary clothing advertisement is enough to paralyze the average American citizen. However, be this as it may, we have not yet lost faith in humanity. We firmly believe that sensible people prefer good common-sense talk. That is evidenced by the result we receive from our truthful announcements. We are selling this week splendid warm Chinchilla Overcoats as low as \$7.50-big value. Fine Cheviot, Melton, Kersey or Beaver Overcoats at \$10, \$12 and \$15. This is as certain as truth. Truth wins - win something for
