DISPATCH. SATURDAY, NOVEMBER 19, 1892. THE PITISBURG

6

NO MORE FOREIGNERS NEEDED.

He Shows the Frrors of Overcrowding the United States.

HIS WORDS CAUSE GREAT ENTHUSIASM

Considerable enthusiasm was evinced by the University boys yesterday afternoon when Hon. W. A. Stone appeared to deliver a lecture on "The Evils of Unrestricted Immigration." Dr. Holland, who accompanied Congressman Stone to the chapel, introduced the lecturer.

Congressman Stone opened with a brief explanation of how this country was settled and where the new people secured their laws. "You remember the Declaration of Independence," continued the speaker, "which established our freedom. After this there came a period in which we tried to govern ourselves. Two cvils were then born. They were State sovereignty and slavery. Seventy-seven years passed without any marked change when we had a civil war. The country finally came out of this triumphant with our Government es. tablished and the shalition of slavery. We then extended an invitation to everyone to locate here. This was accepted about 1870. and from that time until 1890 about ten or twelve million people came here. We welcomed gladly all who came.

Too Much of a Good Thing.

"There is such a thing as getting too much of a good thing. It is like wellcooked porridge, with too much salt. It is spoilt. As long as we were getting people from England, Ireland, Scotland, Wales and Germany we were content, but now we have opened our doors so wide that every one can come in, and many of these are trying to influence our old custom, and laws. Suppose, for instance, 100 new students came into the Western University and 60 of these were Chinese, how long would it be before all were Chinese? My idea is a restricted immigration, not a cessation. During the cholera scare last summer there was a cessation of immigration, but now that is over, the influx continues at the rate of 50,000 every month.

"For the month of April 90,000 people came into this country, and no one made any inquiries. The danger from this is that our nationality will be influenced by these people."

Throughout his entire address Congress man Stone furnished arguments and statistics and cited examples showing how the American people were suffering from this great influx of foreign emigrants. He said: "Labor is governed by the same law of supply and demand as flour, pork and other commodities. If manufacturers make more pig iron than there is a demand for the price goes down. If there is more labor in the country than there is any need for the price also goes down. The law does not protect labor."

They Never Would Be Missed.

Congressman Stone also spoke of the restriction placed upon Chinese emigration, and hinted that it was a good thing, as the Chinese Gov-ernment could easily send over 6,000,-000 of their people here who would never be missed. He further said this country had sufficient work for its own people at good wages, but it could not surply the entire world with employment. The balance of the lecturer's remarks were devoted to

to the custom of foreign associations en-couraging emigration to this country. In connection with this he said in olden times when the population became too large in several European countries war was de-clared, but now the surplus, often consist-ing of panpers, is sent here. The speaker closed his remarks by saying: "I want the closed his remarks by saying: "I want the boys of this institution to give this matter thought. Discuss it. Talk of it in your debating societies. You are all young peo-ple and the rising generation must in a short time take the places of our prominent lawyers and doctors as well as our clergy-men, senators and other heads of the Gov-ernment. As the precedent has been es-tablished of restricting the Chinese you tablished of restricting the Chinese, you will have to grapple with the great problem f restricting the other nations."

CHANGE UNDERWEAR.

If You Haven't Done So, Here's the Chance to Buy Good Underwear Cheap_P. C. C.

Everything Indicates Its Speedy Approach What the Indications Are Concerning It

Reports from Europe which are appearing in the papers show that the grin has broken out in a most violent form in England, and the indications are that it is commencing its fourth annual tour of the world. The phy-

Before 8:50 P. M. Other wise they will be too late to pure medicinal stimulant known to the medical world or the American people. That stimulant has been before the public for years, and it is exceedingly popular with both men and women. It is Duffy's Pure Malt Whiskey. It is not an ordinary whiskey, but a pure medicinal one. Its pop-ularity is wonderful, and it is due entirely to the fact that it is so superior in every way. For preventing the coming of the grip it is unequaled, for it fortifies the system to withstand its attacks. Care should be taken

Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the sys-

tem effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and ac-ceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it

to all and have made it the most popular remedy known. Syrup of Figs is for sale in 50c

and \$1 bottles by all leading drug-gists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any

SAN FRANCISCO, CAL. LOUISVILLE, KY. NEW YORK, N.Y.

IS THE GRIP COMING?

Abroad.

the indications are that it is commencing its fourth annual tour of the world. The phy-sleians here in America report many people suffering from symptoms which indicate the coming on of this terrible scourge. While there may not as yet be an epidemic, there are enough cases and enough serious cases to demand the greatest care and cau-tion. The proverb, "In time of peace pre-pare for war," is one of the most valuable sayings ever utered. The grip, with all its unpleasantness, with all its seriousness, with all its danger, can be prevented, if taken in time, and if people properly prepare for it. There is but one way to prepare for the coming on of the grip and that is to tone up the system, build up the energies, strengthen the life, and thus avoid its attacks by being thoroughly prepared for them. This can-not, however, be done except in one way: That way is by the use of some pure stimu-lant, which will help the vital forces, in-crease the circulation and strengthen the life generally. There is, however, but one pure medicinal stimulant known to the medical world or the American people. That stimulant has been before the nublic for

the increased percentage of foreigners who voted in the different States and cities and voted in the different States and cities and in the state of the increased percent states and cities and in the state of the
