A Church Charter Drawn Up to Meet Any Probable Emergency.

SUIT OVER A SIGNAL PATENT.

Law and Order Fines on Cigar Factory Girls Remitted by Court.

THE NEWS OF THE COUNTY COURTS.

Ex-Judge Bredin yesterday filed an application for a charter for the Grant Street Reformed Presbyterian Church. The application contains one clause which, in view of the recent troubles in the Reformed Presbyterian Church, appears rather significant. After setting forth that the corporation is formed for the purpose of supporting the faith, doctrine, etc., of the Reformed Presbyterians, it continues: "Resolving, however, to the congregation the right to enter into and dissolve relations with any Presbytery or Synod professing such faith, and to maintain an organization not connected with any Synod or Presbytery if deemed expedient, by a vote of two-thirds of the members of the congregation in good standing at a meeting called for the purpose of passing on said question."

APPEALS FROM THE L. & O.

Cigar Factory Girls Have Their Fines Remitted by the Court.

Judges Kennedy and McClung heard the appeals in seven Law and Order cases yesterday. Four were against H. A. Shaffer, one against J. R. Miller and three against the Union News Company's agents. The appellants were represented by J. S. Lambie and A. M. Brown, while William Yost held up the other end. The defendants had all been fined by Alderman Robe for selling Sunday papers. Law and Order Judges Kennedy, Horn and Stakely were assisted by Mr. Yost to strengthen his resistance against the appeals.

AN IMPORTANT PATENT SUIT.

Counsel Arguing Upon the Value of a Power of Attorney.

The suit of the Johnson Railroad Signal Company, of Rahway, N. J., against the Union Switch and Signal Company, of this city, for infringement is being argued before Judges Anerson and Buffington in the United States circuit court. The Johnson company brought suit in 1890 for an infringement of a patent signaling apparatus invented by Robert L. Sykes, of England. Sykes assigned the title to the invention to a countryman, Fred Cheswright, who obtained patents in the United States. In order to prosecute his business in this country, Cheswright gave D. M. Yeoman, an attorney, Yeoman, about 1882, gave the Union Switch and Signal Company the sole right to manufacture and sell the invention in the United States at a royalty of 4 per cent.

A WIFE SUES HER HUSBAND.

To Recover on a Bond Given Upon Their Separation. Mrs. Annie L. Fahnestock and her trustee, Frank Shearer, yesterday entered suit against Byron G. Fahnestock, her husband, and Benjamin S. Fahnestock, her father-in-law, to recover \$1,000. It is stated that on July 28, 1892, Mrs. Fahnestock, the plaintiff, and her husband, entered into articles of agreement whereby it was agreed they would live separate and apart from each other during the balance of their natural lives. It was further agreed that he was to pay her \$500 per year toward her support for the rest of her life. In pursuance of the agreement she has paid \$25 on account, but \$50 is still due on it, which she demands to be paid.

WORK CUT OUT FOR THE CONSULS.

New York, Nov. 29.—The Senate Immigration Committee, previous to adjourning, considered the following proposition, without, however, reaching any conclusion: All immigration, except from North and South American countries, shall be suspended for one year from March 1, 1893, the law to be so framed as not to hinder the free return of American citizens or the easy admission of visitors. It is probable that a vote will be taken at to-morrow's meeting, and there is good reason for believing it will pass.

LEFT AT THE WRONG DOOR.

A Deserted Babe Returned to Its Mistaken Mother. Laura Gass, who left her baby on the doorstep of the house of Miss McCleary on Veto street, Allegheny, last week, was given a hearing yesterday afternoon by Alderman Brincker. Mrs. Gass said that she had run away and was married last September a year. Last May her husband was drowned. Since then she has had a hard struggle to get along. When her child was born she was unable to care for it and attended to her work, and she thought she would leave the child with an acquaintance, who she had often heard say would like to have a child to care for. By mistake, however, the babe was left at the wrong door. She said she would take the child and provide for it and she was discharged upon payment of the costs. The child was brought down from the Poor Farm and turned over to its mother.

THE CORNER WILL INQUIRE.

Coroner McDowell yesterday received a letter from a chemist asking that inquiry be made as to the kind of stove that was in the room where Anthony Neilhouse was found asphyxiated by natural gas at the Carnegie Hotel at Munhall station. The letter says that while this is the first case of asphyxiation by natural gas the public is little aware of the danger of its use. The coroner will thoroughly investigate the case.

THE CORNER AROUSED.
