A SUCCESSFUL RAID

Made by the Bears After the Shorts Are Made to Cover.

TALK OF MORE GOLD FOR EXPORT Causes Quite an Outpour of Feth Long and

Short Stock. READING AND CHICAGO GAS MOST ACTIVE

NEW YORK, Nov. 29.-The stock market was dull during the greater part of the day. At the opening a firm tone prevailed and fractional advances were scored for the leading shares, owing partly to moderate purchases for London account, but chiefly e buying to cover short contracts. Reading was one of the leaders in the upward movement, being taken in round amounts by a firm credited with being short of that and other stocks for a well known operator. Louisville and Nashville sold up 36 to 71%, the greatest advance of the day in the railway list. Following the partial elimination of the short interest, dullness set in and the fluctuations were quite insignificant until the last hour when the bears made a vigorous and successful raid. The market closed weak; railway bonds continue irregular. The sales amounted to \$1,146,000. The Reading's were firmer on the favorable October statement.

the favorable October statement.

There seems to be no doubtabout the shipment of gold on Saturday next. The only question now is, How much will go out? With sterling exchange at \$4.80 on the pound and no commercial bills in sight such an outcome is inevitable. Wall street realizes the fact and this afternoon's outpour of both long and short stock furnishes convincing proof of the danger. Outside of this the market had little to move it. Even the industries were neglected, and though the October statement of the Reading Company produced a favorable impression it could not stem the tide of bearish seeling which swept over the "street."—From Sproul & Co.'s market letter.

The main cause of to-day's weakness was the prospect that by Saturday's steamers about \$3,000,000 gold will go out; exchange is very; rong, and unless Europe buys any quantity of stocks the shipments abroad will be enough to increase the uneasy feeling. When it comes to any great shipment of gold it matters little whether railroad earnings are good or not, as the money market stiffens up and weak holders are forced to sell. This is the true position of the market at present, and conditions are decidedly against the buils. We look for still lower prices, and advise our rriends to sell on every raily, on any decided break, however, the market is always good for a raily. The news from the silver conference was such as to not show any encouragement, as the proposition of Mr. Rotuschild that we should coin \$4,000,000 ounces and all Europe 25,000,000 ounces annually is considered in Wall street as ridiculous.—J. S. Bache & Co. to Oakley & Co.

Government bonds were firmer; close of

Mining shares closed as follows:

The total sales of stocks to-day were 287, 000 shares, including Atchison, 9,510; Chicago Ga., 20,130; Erie, 6,550; Lousville and Nashville, 6,690; Northern Pacific preferred, 5,151; New England, 16,330; Reading, 74,325; St. Paul, 10,875; Western Union, 3,000.

The following table shows the prices of active stocks on the New York Stock Exchange, corrected daily for THE PITTSBURG DISPATCH by WHITNEY & NTEPHENSON, oldest Pittsburg members of the

HIGHER PRICES

Established at the Opening, but Not All the Gains Are Sustained.

CHICAGO, Nov. 29 .- A meteoric display of high prices in the provision pit fascinated the bears into temporary stupor for a time to-day. To-night, however, compared with last night, quotations for grain and nearly everything else show a loss. Wheat is down about %c and corn %c.

There was not much activity in wheat.

Cables were dull and easy, and the English Cables were dull and easy, and the English market was represented as in a seriously demoralized condition, with prices so low that farmers were inclined to feed their wheat to stock rather than market it at the low prices, which are equal to 84s for the average of the farmers' product. Minnesota patient flour was said to be selling in the interior towns of England for \$5 per barrel. The amount of wheat and flour on passage increased 1,680,609 bushels during the last week and the receipts in the Northwest were again large—or \$40 cars against 775 cars for the same day last year. The English visible supply was also said to show an increase of 108,000 bushels. The contract wheat in Chicago elevators is 200,000 bushels maye than a week ago. These conditions wheat in Chicago elevators is 200,000 bushe is more than a week ago. These conditions with good selling gave the market a weak undertone, but the excitement in the provision pit and the sharp advances scored there helped to hold wheat pretty steady, even in the face of so much that was bearish. Late cables reported a decline of \(\frac{1}{2} \) did and the heavy feeling locally became more pronounced, last prices being at the bottom for the disc.

pronounced, hast prices being at the bottom for the day.

Corn was inclined to weakness but on the excited feeling in hog products developed strength temporarily. The chief bull item of the day was the decrease of nearly 900,000 bushels in local stocks. The light out inspection of 120,000 bushels and the increase of about 300,000 bushels on ocean passage

were on the bear side. The close was flat at bottom prices, as a result of the depression

bottom prices, as a result of the depression in wheat.

The oats trade, which was most active around the high prices of the day, was largely of a scalping nature. The close was at is decline from last night.

The provision trade had a continuation of the squeezing operations which have so frequently of late made the shorts' lives miserable. Cudahy's and Wright's brokers appeared to have had instructions to take everything in sight at the opening, and prices jumped skyward. When the shorts had taken their medicine the price worked back to where it had closed on the previous evening except lard, which retained the greater part of the day's gain to the end and left off at 22% chicher than it did yesterday for January delivery. At the top, pork was 37% higher than last night; lard, 32% and ribs 17%c.

Freights were slow at 2%c for corn to Buffalo.

Cash outstions were as follows:

Freigi Buffalo. Buffalo.

AND THE PARTY OF T

GAS SHARES WEAKER.

Philadelphia Company Drops Back Close to the 20 Line.

NEARLY EVERYTHING IS WEAK.

Support Is Lacking at All Points and Trading Is Light.

TUESDAY, Nov. 29. Another decline in Philadelphia Company was the bulging feature of the local stock market to-day. The stock did not show special weakness until the last few minutes of the closing call, when it sold at 20% @20%, and closed looking weak at 20% @20%. These figures apparently brought

out some stop orders, or else some stock was

thrown on the market through the failure of someone to respond to a call for margins, as, immediately after the gong sounded for the close of the call, it came out rather liberally at 2014, and then at 2014, and closed firmly at 201/2 bid. Sproul & Co. and W. J. Robinson were the chief sellers, and the buying was distributed among G. B. Barbour, Fred Rinehart, Lawrence & Co., R. J. Stoney, Jr., Hill & Co., and C. L. McCutcheon. The cause of the weakness of the stock is inex-Hill & Co., and C. L. McCutcheon. The cause of the weakness of the stock is inexplicable. So far as can be learned, it is worth just as much now as it was when quoted at 23. It had to have a break, seemingly, and now that it has had one it may be we will see a better market for all the gassers, Phillie in particular. The stock is certainly worth more intrinsically than it is selling for, and there is bound to be a reaction. It looks very much as if it had touched bottom. Considerable uncasiness was created in the East to-day by the announcement that several millions of gold would go out by Saturday's steamers, and it may be that the uncasiness was reflected here. There was certainly a disposition at the close to let go of stocks likely to suffer in the event of tight money.

Besides the sales of Phillie, Union Switch and Signal preferred sold at 33, one share of Lustre Mining Company at 9 and \$1,000. P. & B. traction 5s sold at 100, which was the extent of the business on 'change. The quotations made throughout the list, however, indicated a generally weak tone. The tractions were all easy, with one or two of them lower, and the same description is applicable to any one of the other groups of stocks. Electric second preferred was offered down to 36% here and at 35 in Boston.

The uglisted street railways closed as fol-Boston.
The uglisted street railways closed as follows: P. & B. traction, 24% bid; Duquesne traction, 278,271%; P., A. & M. traction, 44 asked.

McCandless and Coinsurance. President McCandless, of the Pittsburg Board, was in town Saturday, says the New York Bulletin, and talked to the Bulletin regarding the coinsurance question at Pittsourg as follows:

"It was never up before the Pittsburg

burg as follows:

"It was never up before the Pittsburg Board in any manner, shape or form, and, consequently, could not have been squelched as stated by 'Iron City' in his communication of November 18. The whole matter is being carefully considered by the Executive Committee of the board, and in my opinion, it is only a question of time when the best coinsurance system will be adopted. How long a time that will be, it is hard to tell. We meet once a month, and our regular meeting has just passed."

President McCandiess, on being asked whether the W. G. McCandless, W., L. Jones and Edwards & Kenney agencies, which control much business there, are in favor or against coinsurance at Pittsburg, says: "They have no more voting power than other agencies. I am not prepared to say which are for and which against coinsurance, but I believe a majority of the Pittsburg Board will prove favorable to the measure when properly presented. I cannot fix any time when it will be, although we are liable to see it done early in the coming year."

On being asked what would postpone the needed action until 1883, Mr. McCandless says: "We have only one meeting before next year. It requires labor and time to get data from other cities. Then, too, the holiday season comes in. We are not afraid to bell the cat.' One of the most serious objections that we meet with is the fact that New York and foreign companies will persist in writing over the heads of their agents at less than board rates." Regarding the bearing of this on coinsurance. Mr. McCandless says: "The higher the rate, the greater the opportunity. The adoption of coinsurance is practically an advance in rates. It means more premium, or the companies would not advocate it."

Upon this interview a New York insurance man comments as follows: From the

Upon this interview a New York insur-Upon this interview a New York insurance man comments as follows: From the McCandless interview I judge that the agent-brokers at Pittsburg are trying to postpone the question till the storm blows over, and then shelve it. W. L. Jones is opposed to coinsurance very positively, and is unlikely to be instructed from his home office. McCandless and Edwards & Kenney do not favor the reform for fear they may lose some of the accounts they control. The "agent for the assured" is very numerous and bold at Pittsburg. With the example of how the companies conquered the rebellious and bold at Pittsburg. With the example of how the companies conquered the rebellious Virginia agents before us it is fair to assume that, smarting under the heavy losses, agency managers will soon commence settling the Pittsburg question unless the local agents act speedily themselves. The brokeragent is as much of an evil factor at Pittsburg as he is at Baltimore.

Reading's October Earnings. The statement of the Philadelphia and Reading Railroad Company for the month of \$2,248,318 18, traffic expenses of \$1,085,656 25, profit in operating of \$1,152,562 72, receipts from other sources of \$76,868 87, leaving a profit in operating of \$1,152,562 72, receipts from other sources of \$76,868 87, leaving a profit for the month of \$1,229,401 49; against this is charged \$13,567 88 for permanent improvements and \$625,000 as one-twelfth of the current year's fixed charges, thus showing a surplus for the month of \$593,833 37. The surplus for the month of \$693,833 37. The surplus for the month of coober, 1891, was \$553,104 09. The surplus for 11 months of the current fiscal year is \$3,75,687 50, an increase of \$812,208 10 compared with the corresponding period in the last fiscal year.

The statement of the Philadelphia and Reading Coal and Iron Company for October, 1891, shows gross receipts, \$2,067,884,44; gross expenses, \$1,775,843 10 (including operating expenses of \$1662,404 67, colliery improvements of \$86,300 64, and expenditures for permanent improvements of \$992 48, leaving profit from mining \$311,015 75. From this is deducted \$68,000 as one-twelfth of the current year's fixed charges, thus showing a surplus for the month of \$233,014 85, an increase of \$88,664 77 compared with October, 1891, For 11 months of she current fiscal year there is a surplus of \$117,145 12. For the same period in 1891 there was a defict of \$477,800 98.

The result of the operation of the Philadelphia and Reading Railroad Company, lessee of the Lehigh Valley Bailroad, for the month of September, 1892, shows: Receipte,

\$1,580,945 26; expenses, \$1,993,671 65. For 10 months ending September 30, 1892, earnings, were \$3,747,483 89, an increase of \$872,215 41 compared with the same period in 1891.

MONETARY.

There is little or no change in local conditions. There is a somewhat firmer feeling, if anything, but there is an ample supply of idle funds and rates are unchanged at 5@6
per cent on call and time loans. Eastern
exchange and currency are trading even.

A WELL ON THE STIRLING.

The Forest Oil Company's No. 2 Is Making From 12 to 15 Barrels an Honr-Locat-d Southwest of Oakdale-Dry Holes Below Sistersville.

There was one good well reported yester-day in the McDonaid field. It comes in the nature of a surprise as it is located almost in the midst of a circle of small wells or dry holes. The well is the Forest Oil Company's No. 2 on the Stirling farm and it is making from 12 to 15 barrels an hour. It is about half mile west of south from Oakdale. It joins the famous Marshall farm, which It joins the famous Marshall farm, which Greenlee & Forst developed on the south. The Fo est Oil Company's No. 1 on this farm, which was drilled nearly a year ago, was dry in all sands, but considerable gas was found in the fourth sand, and some in the fifth. Jennings & Co. and the Florence Oil Company both drilled light wells in this vicinity, and the Forest's well was almost entirely unexpeced. It may lead to more drilling, but as the sand has already been proven to be spotted, there are few who would care to take a chance at it.

Jennings & Co.'s well on the Sproul farm was reported last night to be drilling in the fifth sand, but according to the latest reports no pay streak and been reached.

The Wheeling Gas Company was on top of the fifth sand in its No. 2 Kelso, east of the Scott farm wells, last evening, and they were expecting the rook at every bit.

Greenlee & Hartman struck a vein of gas yesterday in the bottom: of the Big Injun sand, at their No. 3 on the Potter farm.south of the Meise pool. It is located 809 feet southwest of their No. 1 which was a good

sand, at their No. 3 on the Potter farm. south of the Meise pool. It is located 809 feet southwest of their No. 1, which was a good Gordon sander, and they are looking for a good producer at this well. Their No. 2 Potter, which is a small well, is located 400 feet east of No. 1.

Greeniee & Forst's No. 1 on the Rough farm, near Chartiers, was drilling in the top of the fourth sand yesterday. They expect the oil at 28 feet in the sand.

The Tidal Off Company, which has been delayed at its No. 10 on the Marshall farm, south of Noblestown, on account of having to drill out a bailer in the Gordon, will be in the fith this week. Their No. 8 Marshall is also due in the fith within a few days.

The New Undercliff Sand.

The New Undercliff Sand. Underchipp-The information published in THE DISPATCH yesterday relating to Rosenzi's well at Wittmer station created considerable comment among the oil operators. It was not drilled any deeper yesterday, and is still standing with 400 feet of oil in the hoie. The tools may be run to-day. The sand is found at 1,300 feet.

John M. Patterson, the well-known operator, who is thoroughly conversant with the sands in that locality, asserts that it is a sixth sand, as it is 175 feet below the top of the fifth sand. enzi's well at Wittmer station created con-

the fifth sand. s. D. Robison, who drilled a well within a few hundred feet of Rosenzi's well, stopped at about 1,905 feet. He now intends to drill his well on down to the new sand.

Dry Hole Below Sistersville SISTERSVILLE-Guffey, Robbins & Co.'s well on the Johnson farm, 12 miles below this place, on Middle Island creek, is dry in the Big Injun. It will be drilled to the Berea Grit, which is 400 feet below the Injun. The Gauges Yesterday.

production of McDonald was 20,000 vesterday, the same as the day before: yesterday, the same as the day before; Woodland Oil Company's No. 2 Scott, 65 per hour; Knox & Co.'s No. 2 Scott, 30 per hour; stock in field, 46,500.

The runs from the Sistersville field were 17,760 barrels on Tuesday. Runs and Shipments Monday.

The runs of the National Transit Company were 35 440; shipments, 44,589; Southwest runs from McDonald were 12,816; outside of McDonald, 3,428; total, 23,244; Buckeye Pipe Line runs from the Macksburg field, 7,806; shipments, not in; Buckeye runs of Lina oil, 55,410; shipments, 34,897; Eureka Pipe Line runs, 17,905; shipments, 1,791; Southern Pipe Line shipments, 23,802; New York Transit shipments, 28,804. In Osborn Borough Sells for \$1,250 Per Acre-Another Successful Meeting in the Interest of a Real Estate Exchange -Late Sales.

TUESDAY, Nov. 29. An acreage tract in Osborn borough has just changed hands at a very good price and shows that realty in that section has taken an upward turn. Joseph P. Rankin & Co. sold the tract containing eight acres known as the Hays property for George S. Fleming to James B. Haines, Jr., for a price approximating \$10,000, or \$1,250 per acre.

A small acreage tract situated in the East End, near Highland avenue, also changed hands to-day, James M. Wilkinson selling the property to a land company for \$35,009.

The Real Estate Exchange.

At the meeting of the real estate brokers regarding the organization of a Real Estate Exchange, which was held to-day at the Chamber of Commerce, a large and enthusiastic audience was present. As on Saturday nearly every real estate office in the city was represented. At the suggestion of A. Leggate the following officers were elected temporarily: Samuel W. Black, Chairman, and Franklin Brown, Assistant Secretary of the Fidelity Title and Trust Company, Secretary. Very interesting addresses were made by Messrs. J. L. Marshall, J. R. McCune and D. P. Black, explaining the operations of real estate exchanges in the cities of New York, Philadelphia, Chicago and other large cities, and the benefits derived from them. After a discussion participated in by all parties present a resolution was unanimously adopted providing that a committee of three, with the Temporary Chairman at its head, be appointed to draw up a pian of organization and draft constitution and bylaws for government of the institution, after which the meeting adjourned to reassemble at the call of the committee. represented. At the suggestion of A. Leggate

Building Permits.

The following permits were issued to-day: George B. Kelly, a two-story frame dwelling, Fifth avenue extension, near Frankstown avenue, cost, \$2,800. Home Dressed Meat Company, a brick addition, Twenty-first street, above Josephine street; cost \$2,500. Martin Foley, a two-story frame dwelling, Morton avenue; cost \$1,600. J. Blattau, a frame addition, Station street, near Larimer avenue; cost \$170.

Reported by the Agents. J. H. Coleman & Co. sold for Hannah Schultz to A. and J. Charles Wilson a house and lot on Julius street, East End; size of lot, 25x100; for \$2,350. Black & Baird sold for Marcus and Jacob

Sherman to John B. Milliken lots Nos. 5 and 6, in Heywood plan, Herron Hill, together fronting 48 feet on Madison avenue by 100 in depth to an alley, for \$1,350.

McCune & Coulter report the sale of lot No. 14 in their Dean Park plan, Twenty-first ward, to 8. Bovard, for \$700.

John F. Sweeny sold for C. H. O'Donnell, of Claybourne street, East End, a lot in Alken plan. Twentieth ward, naving a frontage of 25 feet on Claybourne street and extending back 150 feet to a line, for \$1,000.

Reed B. Coyle & Co. sold for the Fidelity
Title and Trust Company lot No. 223% in the
Boston Place plan, Tenth ward, Allegheny,
ironting 50 seet on Natchez street by 125 feet

irouting 50 test on Natchez street by 125 feet deep to Modoc street, for \$700.

E. T. Schaffner, the Hill-top real estate agent, sold the following property for Lambert Schuckert: A new irame house of four rooms, with a lot 44x75 feet on Morton street, in L. Schuckert et al's plan, to Fred Graul, for \$1,425; a new trame house of four rooms, with a lot 44x75 feet on Schiehl street, in L. Schuckert et al's plan, for \$1,425, to Robert Knied.

BUTTER IS FIRM.

But No Change in Price Is Established in Elgin-Coffee Another Very Strong Point of the Markets, and a Higher Range of Cost Is Probable-Fresh Eggs Scarce and Firm. TUESDAY, Nov. 29.

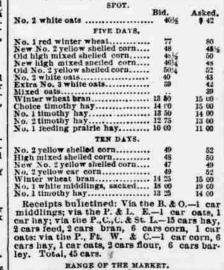

Sales on the Elgin butter board yesterday vere made at last week's prices, so that no change in quotations on creamery butter will be made in this market this week. The

will be advanced again this week. Intelligent opinions in the roasting and grinding trade are to the effect that the only way that the present decidedly upward tendency in coffees can be checked is for the retailers to put up prices in following with what prices have advanced within a year on raw coffees. This putting up prices, instead of trying to cheapen the coffee, would tend to greatly check the consumption of coffee, and thereby the chief cause of the advancing market would be removed—the small stocks and the lessened production. The Rio and Santos spot markets are strong, active and higher. A heavy business is being done in afleats and spot coffees at an advance of ½ per centover inst week's prices. The latest cables from the primary markets report advancing prices, with large shipments being made to Europe and the United States. Planters' agents estimate the next Rio crop at only 2,700,000 bags. In New York, as well as other markets, there was a heavy business last week, the warehouse deliveries averaging 15,000 bags a day. There is also a lack of desirable stocks to select from. Almost the entire stock of spot coffees consists of mecoffees. This putting up prices, instead of entire stock of spot coffees consists of me-dium grades, high and low grades being very scarce. In Maracaibo and Central dum grades, high and low grades being very scarce. In Maracaibo and Central American coffees the market is very firmly held, owing to the small stocks, and scarcity of desirable grades.

Grain continues to show great strength here, and as will be noticed outs have again been marked up.

been marked up.
The egg market remains firm at the advanced prices, the receipts and supplies being very small. The bulk of the offerings is cold storage stock.

Grain, Flour and Feed. Sales on call at the Grain and Flour Exchange to-day: one car sample oats, spot, 40c; one car new No. 2 yellow shelled corn, spot, 48%c; one car No 2 timothy hay, spot, \$12 6234; one car No. 1 white middlings, sacked, ten days, \$18 00. Bids and offers:

REMOVED TO CLEVELAND.

The Queen and Crescent Boad Transfers Its

Local Passenger Office. The passenger office of the Queen and Crescent road in Pittsburg will be transferred to Cleveland to-morrow. It was recently removed from Columbus to this city. Traveling Passenger Agent C. A. Baird went to Cleveland yesterday to open his office at 155 St. Clair street. He says Cleveland is a good location for winter business. Mr. Baird, however, intends to spend a good deal of his time in Pittsburg. The indications are that an office will be established here in the spring, and both with a spring of the says of cities will be represented.

YOUR rooms will not long be empty if you advertise them in THE DISPATCH, cent-a-word adlets.

Turpentine.
