\$200,000 FOR 186 ACRES.

The Irvin Property, Adjoining Millvale,

Secured by an Eastern Syndicate-The Land Will Be Improved-Other Trans

actions-Building Permits and Gossip.

One of the largest deals in acreage property that has occurred in this vicinity for

quite a while was practically closed to-day.

For some time past a party of Eastern cap-

italists have been negotiating, through Messrs. Lamb & Dixon, with Mrs. Irvin

for the purchase of that large tract of land

which bounds the borough of Millvale on the north, containing 186 acres, but not

until to-day were they successful. Messrs. Lamb & Dixon to-day secured an option on the property until April 1, 1893, which virtualif means the sale

1893, which virtualif means the sale of the realty, as this option was merely obtained so that the property could be held until the intending purchasers complete the formation of a land company, which is being organized expressly for the purpose of purchasing this land for speculative purposes, which will be but a few days, as Mr. Lamb, of the firm of Lamb & Dixon, has received word from the syndicate that its representative will be in the city next week to make arrangements for improving the property.

arrangements for improving the property, and to have the final papers passed. The consideration will be \$260,000.

Current Gossip.

A meeting of the committee appointed to

prepare a plan of organization and draft constitution and by-laws for the contem-

plated Real Estate Exchange was held yes terday afternoon at 4 o'clock in the Fidefity Title and Trust Company building. The fcl-lowing gentlemen compose the committee: Samuel W. Biack, Chairman; Alexander Leggate, D. P. Black and Thomas Liggett.

Leggate, D. P. Black and Thomas Lingett. The committee expects to complete its work within a week, and will then call a meeting of the body.

It is rumored that the Wabash and Reading Railroads, which, it is said, are to extend their lines to Pittsburg, have purchased several pieces of property in the vicinity of Second avenue and Try streets, upon which sites they will erect depots.

Realling Parsits.

Building Permits.

THE BEARS ASSAULT THE LIST.

But After a Slight Wavering the Market Moves Steadily Upward.

A STRONG CLOSE ON THE ADVANCES

NEW YORK, Dec. 2.-Considering the death of the most active manipulator of campaigns in the stock market in the annals of Wall street, the stock exchange today was singularly free from excitement. Not only were the fluctuations in prices comparatively small, but the volume of business transacted was less than that often transacted when there are no special events or influences to stimulate trading. It has been claimed all along by a certain contingent of Wall street speculators that the death of Mr. Gould would throw the market into a state of panic, or that the markets for securities would at least be violently perturbed. Exactly the contrary occurred to-day. The market wavered for a time and the bears made several attempts to get prices to a lower level, but on all the reactions buying orders ap

but on all the reactions buying orders appeared for large amounts and each decline was followed by higher quotations than those previously current. Even the so-called Gould stocks yielded but slightly. Missouri Pacific ran off 1%, but Western Union, Manhattan, Union Pacific and Wabash yielded only fractionally and quickly recovered.

In the general list American sugar declaned 13%, but as a rule the losses were small. This was all the more surprising because of the engagement of \$1,600,000 gold for shipment to Europe by to-morrow's steamer. It was learned subsequently that \$200,000 had been withdrawn. During the afternoon a much firmer feeling prevailed, and as the day drew to a close speculation became almost buoyant. The market closed strong on the advance. The sales aggregated 365,071 listed and 61,764 unlisted shares.

Kailway bonds were generally firm. The sales amounted to \$1,233,000.

It was known a good while before the opening of the market, and in time to telegraph the news all over the country, that Mr. Gould had passed away, and at the opening the interest centered in his stocks, especially Missouri Pacific. There was litespecially Missouri Pacific. There was little stock for sale by commission houses, but
it was surprising to see how very little stock
came on the market. It showed conclusively
that the public at large did not hold any
large quantity of stocks on speculation, but
that the big people carry the bulk of the
holdings. Missouri Pacific was the only
weak stock of the group and this was sold
down on what appeared to be matched orders. White the process of marking down
Missouri Pacific was zoing on the bears were
buying the general market, but were not
able to accumulate any large amount. During the afternoon the shorts made a heavy
attack on the whole list, throwing over all
the stocks they had previously bought, and
made quite an impression on prices, but decided buying of New England closed prices
at the best of the day.
We understand that a deal between New
England, New York and Northern is near

We understand that a deal between New England, New York and Northern is near being consummated. President McLeod and the Boston and Maine people are working hard to bring it about. The rise in New England was very sharp, but we think it will ultimately sell a good deal higher. There is no reason in the world why the death of Mr. Gould should affect prices one way or the other; his affairs have been in the hands of his sons George and Eddle for some time, and they will no doubt adopt the same policy as their father.

About \$1,500,000 gold will go out by to-morrow's steamer and we understand that some more will go next Tuesday. It looks to us as if a little further rally would set in, but insamuch as we will have to export a good deal of gold this month, and as this will no doubt make higher rates for money, we advise our friends to sell on rallies and buy on declines.—J. S. Bache & Co. to Oakley & Co.

NO PANIC IN STOCKS the market yielded under their selling and the selling by trade generally, they rushed the selling by trade generally, they rushed in and bought May again, and frightened the other sellers to covering a loss in a hurry. This maneuver was repeated three times to This maneuver was repeated three times today. The close was at top figures. The
small stock of provisions, the advance in
hogs to the high point of the year and the
lack of nerve on the part of sellers of all
products, made it easy for the manipulators.
Wheat started about steady and for a time
held rather firm on some good local buying.
Exgleston, Schwartz, Dupec, Kennet-Hopkins and other prominent operators being
well represented. But there seemed to be
little outside demand, on which the strength
was based, and the improvement was not
held. Fluctuations were confined to a
range of 3%.

range of %c.

Corn was weak in sympathy with wheat.
The range was %@%c and the close was at %c recovery from the lowest prices.
In eats a number of buying orders held the market steady for a time: after they had been filled prices declined %c, but regained %c of it.

been filled prices declined 3/c, but regained 3/c of it.

TRACTIONS ARE DULL AND WEAK. The Market Quite Narrow and the Volume

of Trading Light. ALL THE LATE FINANCIAL NEWS

FRIDAY, Dec. 2 As was intimated in this column would likely be the case, Philadelphia Company recovered a fraction more of its late loss to-day. It opened quietly at 20% sales, ruled dull until the last board and then moved up to 2014 sales under a good demand, closing apparently quite strong at 20%@20%. While the stock appeared to be quite firm the street sentiment was unquestionably somewhat unsettled, and will doubtless remain so until something official regarding that already famous compromise is known, together with something definite regarding the company's financial and physleal condition and prospects. This will probably not be until the statement for the current quarter is issued. Regarding its financial condition, however, a gentleman connected with one of the Westinghouse companies stated to-day that the Philadelphia Company had not a dollar's worth of paper outstanding. As illustrating just how much

standing. As illustrating just how much the street understands about the exact terms of the compromise one of the brokers, at the last call, offered to bet that they were better than indicated by any figures yet printed, and another expressed a desire to bet they were worse.

Aside from Philadelphia Company the market was again quiet and comparatively featureless. There was a sale of Enterprise Savings Bank of Allegheny at 81, a small transaction in Standard Underground Cable at 75, and a little trading in Luster Mining Company at 94/2014, which, with a little firmness in Union Switchtand Signal and Aithrake and continued quietude and weakness in the tractions, was all that developed worthy of special mention.

worthy of special mention.
Unlisted street railway securities were quoted as follows: P. & B. traction, 24%@ *24%; do 58, 99% asked; Duquesna traction, 27@27%; P., A. & M. traction, 44 asked; Central traction 58, 104% bid. Westinghouse Electric.

The Westinghouse Electric and Manufacturing Company has, pursuant to its former announcement, fixed its prices for the new two-part lamps, the manufacture, sale and ase of which does not infringe the Edison patents. The list price will be 35 cents for 25 and 20 candle power lamps, and 30 cents tor 16, 10 and 8 candle power lamps. The discounts will be from 234 to 10 per cent, according to the quantity ordered at one time, and 10 per cent regularly to its central staand 10 per cent regularly to its central stations. The allowance for the delivery at its factories of the glass parts of such lamps will be 10 cents each, so that the net price of the 16, 10 and 8 candle power lamps, which form nine-tenths of those used, will be 17 cents each, about half of the Edison prices and about 30 per cent of the net prices of the Thomson-Houston Company for lamps of equal candle power lamps.

the Thomson-Houston Company for lamps of equal candle power lamps.

The net prices for the 20 and 25 candle power lamps will be 21% cents. It is estimated that the saving to a central station by the return of the glass parts of the lamps and the low prices of the new lamps will equal nearly 1 per cent dividend on its capital stock.

Boston advices say the second preferred was unusually active Thursday, and scored

Boston advices say the second preferred was unusually active Thursday, and scored a net advance of three points. The principal buyers were Messrs. Clark, Ward & Co. and Charles Head & Co., who seem to have unlimited buying orders. The talk in well informed circles is that the company is earning 12 per cent on the second and first preferred stock, and predictions are confidently made that 7 per cent will be paid on the former next year. The point now is that the second preferred is going to 52.

The Garrison alley works are running day and night and the Allegheny works are busily engaged on the World's Fair con-

December Disbursements. The amounts to be disbursed this month small, says the Stockholder, when com with those of the previous month, yet they aggregate \$28,109,441, being but slightly greater than the December disbursements of last year. Of the total, \$18,247,137 is payable on account of interest disbursements and \$9,862,304 on account of dividend payments. The December disbursements of the character indicated and the amounts on which payments are to be made compare as follows:

1888. 1891. Bonds. \$533, 463, 455 \$650, 622, 288 \$672, 289 \$672, 289 \$672, 289 \$672, 289 \$672, 289 \$672, 289 \$672, 289 \$672, 289 \$672, 289 \$672, 289 \$672, 289 \$672, 289 \$672, 289 \$672, 289 \$673, 189 \$736, 589 \$692, 2892, 289 \$736, 581 \$9.862, 289 \$736, 581 \$9.862, 2892, 1892. This amount will be augmented by the payments on account of State and city disbursements and a few trust and industrial corporations which do not report their disbursements for either of these accounts. The amount to be disbursed may be safely counted as reaching the total of \$30,000,000.

Financial Notes. Hill & Co., Lawrence & Co. and McCutches were the principal sellers of Philadelphia Company. H. M. Long also sold early, but his purchases later largely exceeded his early sales. Hill & Co. also bought during the closing moments of the last call and were responsible for the strong close.

Kuhn Bros. sold Luster to Hill & Co. and

were responsible for the strong close.

Kuhn Bros. sold Luster to Hill & Co. and the latter bought Enterprise Savings Bank from H. M. Long.

J. B. Barbour and R. J. Stoney, Jr., were on the buying side of Phillie.

After the close Citizens traction was offered at 62% and Luster at 9%.

During two last call Rinehart offered to bet Luster would sell up 5 before down 3, and H. M. Long offered 2 to 1 that Union Switch and Signal would win its case against the Johnson Company.

The Central District Printing and Telegraph Company gives notice to holders of dividend scrip issued by the company and dated February 1, 1882, and July 15, 1882 that the scrip will be redeemed on the 31st inst., and that interest will cease on and after that date.

The imports of drygoods at the port of New York for the week were \$1,665,197 and the amount maffected \$1,673,063.

The Allegheny Foundry Company, of Allegheny, capital \$20,000, was granted a charter to-day. The incorporators are U. A. Andrews, W. J. Hitchcock, J. R. McCreery, Frank Hitchcock and Elliott Rodgers.

An Associated Press dispatch from New York says: The Fidelity Insurance Trust and Safe Deposit Company will distribute through the Central Trust Company, of New York, on and after December 21 to the holderaof certificates in the stocks of the Chicago Gas Company of record December 10 and reopen December 22.

to-day were \$16 898,933 and balances, \$2,574,899. Money 5 per cent.
St. Louis, Dec. 2.—Bank clearings, \$6,717,504; balances, \$155,285. Money quiet at 6@7 per cent. Exchange on New York 25c discount.

POULTRY UNUSUALLY CHEAP. Held Stock Excessive and Moving Very Slowly at Buyers' Prices and Fresh Receipts Meet With Slow Sale at Reduced Quotations, FRIDAY, Dec. 2.

The bright weather to-day brought out an unusually large number of buyers from city and nearby points, and distant dealers in this market were fairly well represented by mail, but trading was rather slow than otherwise and no fresh features of consequence came so the surface. The most noiceable thing, perhaps, was the demoralization of the poultry markets. Receipts of fresh stock were large, and with held stock fresh stock were large, and with held stock practically unsalable, the market was slow and prices low. On this subject the head of a leading commission house talked as follows; "There were signs of a little improvement yesterday, but they have entirely disappeared. Held stock is not moving, even at buyers'-prices, and of course this fact hurts the market for fresh receipts. If shippers would only hold off for a few days and give us a chance to clean up a little I believe we would then be able to do better for them." Old stock sold to-day at almost any price anyone was willing to pay—chickens, 4@Sc per Ib; turkeys, 7@Sc, and other descriptions proportionstery low. The quotations given under the regular heading are considerably above these figures, but they are for fresh, attractive receipts.

Sales on call at the Grain and Flour Ex change to-day: One car winter wheat bran, five days, \$14 25; two cars No. 2 white oats, December, 39c; one car sample oats, in elevator, 41c. Bids and offers: SPOT.

New York Metal Market.

THE MILLS ALL BUSY.

Everything About Steady to Firm and Prices Well Maintained.

STEEL BILLETS LESS ACTIVE. Prices Have Not Ruled as Low as an Alleged Authority Quoted Them.

CONSUMPTION EQUAL TO PRODUCTION

FRIDAY, Dec. 2.

Trade in raw iron and steel this week omewhat dull has been reasonably satisfactory in regard to certain articles. Buying has been on a smaller scale, but consumption is the real test, and up to the present date there is but little perceptible change from the weeks immediately preceding. The conditions surrounding the iron trade at present are such as to give the warrant of solidity to every symptom that counts for the better. The heavy demand in nearly every department of the market, beginning with raw iron, is still the leading factor. Actual orders are taking stock from furnaces about as fast as made and the hardening tendencies of prices continues. Bessemer pig is attracting attention for the demand furnished by the enormous consumption of soft steel and for the better prices sellers are able to secure. The fact that most of the leading secure. The fact that most of the leading producers have largely contracted for their output until after the beginning of the year clears the situation of any depressing effect which a slackened demand would otherwise have upon prices. There is no expectation that there will be any appreciable increase in demand until after the advent of the new year, but there is no fear that the consumption will not take care of all the output at the present rate of production and thus prevent any further accumulation of stocks. It is a well known fact that during the past two months the sales have been of the past two months the sales have been of such magnitude as to absorb the production, and, in addition, to draw liberally on the unsold iron on hand; but with the increase in the number of active furnaces there is a disposition on the part of buyers who have not contracted ahead to await the developments of the next lew weeks before purchasing much in excess of what is actually needed to cover immediate requirements.

Views of an Eastern Authority. A leading Eastern dealer says: "For the present the iron trade will not consider it any hardship to have a proposed new bar mill dropped at one point, a plate mill at another and blast furnaces still at other points, and the same principle will doubtless apply to many other interests beside those in iron and steel. Anything that was legistimately called for three months ago will doubtless be forthcoming in due season, while ventures that have only a speculative value are just as well to be left in the background. The manufacturing facilities in this country are already large enough to meet all possible requirements for the next two or three years, so that it is no loss to the genural community to have a breathing the general community to have a breathing spell in the matter of extension."

Reports from districts adjacent to Pittsburg continue favorable to furnacemen who report trade in a very healthy condition. Many furnaces have orders booked that will keep them employed for the next six months and others that extend to a still later period, the principal orders booked being for standard Bossemer.

The Closing Features. The market closed steady with a fair dedemand for most descriptions of manufactured iron. While there is not much new business, the mills are all busy and will be the remainder of the year, as most of them are sold ahead. The stoppage during July and August caused most of the mills to get and August caused most of the mills to get behind a good deal; it will require some time to catch up. Prices show no change. In soft steel billets the quotations in one of the leading from papers on steel billets for this and last week were very misleading. They have been very bearish on steel billets for some time back and have stated that steel has been offered and sold in Pittsburg at \$21.75 f. o. b. at mill. This price is \$1 per ton below the lowest prices lacely made and in the present condition of the market cannot but have a bad effect on new business.

WHEN PEOPLE DESIRE A good room they invariably read the To Let Room Columns of THE DISPATCH,

Drygoods.

New York, Dec. 2.-Demand for drygoods New York, Dec. 2.—Demand for drygoods was more moderate to-day; with the many cottons taken this week buyers have become fairly well supplied and the market sold further ahead than ever before. Prices will probably continue to advance in a way to even up the market, but the opinion begins to obtain that the movement of natives has nearly reached its climax. At any rate a halt is not improbable. There was no specially new feature to-day. Business in woolen fabrics was fair and interest in that direction is expected to increase. direction is expected to increase.

Cotton.
