I have had only two spells of this vomiting since beginning their treatment, while be-fore it was constant every morning. "My trouble with the heart has also about stopped, the throbbing almost removed, and has become more natural. I had doo-tored for this heart trouble for about two years without receiving any benefit. My head and throat trouble is entirely well. "Trepret that I did not consult Drs. Cope-land, Hall and Byers at first, as I am satis-fied I would have been saved much suffer-ing and considerable money. Their success in my case proves the correctness of their theory that the stomach and heart trouble was dependent upon the catarrhal secretions dropping down into the stomach, poisoning and nanseating it, so that its proper func-tions were interiered with and that the ac-cumulation of gas pressed hard up against the heart and lungs causing the ablitation and shortness of breath which annoyed me so much. I certainly approve of and rec-ommend to all my friends and the public Drs. Copeland, Hall and Byers' treatment in such cases as mine. I am satisfied they un-derstand all these long standing obscure cases theroughly, and that they are curing by their method of treatment many cases here-tofore considered incurable." 00.33
