GENERAL SPORTING NEWS OF THE DAY

While there is in Pittsburg a general opposition to the 12-club league and its conrolling combine, there is still a great admiration for the local ball club and its team. This admiration is to a great extent built on the safe hope of the local team at no very distant date being a member again of the National League. The prospects of the club are exceedingly good and Manager Buckenberger is more hopeful than ever about the good qualities of the team he exects to have next year. During a conver-

sation yesterday afternoon he said:
"It is not our intention to carry more than 14 men next season. We will have a large number to choose from, and I feel just as confident as I can possibly be that we'll get 14 very good men. It may be that we'll take every man we have on our list to Hot Springs in the spring, so as to see what each looks like by comparison. Every player will have to work his hardest in get ting into condition. There will be no mis-

At all hazards discipline is to be enforced next year, as the club officials are satisfied that the loose conduct of the players under the Burns management caused many games to be lost that should

A local gentleman who was once a pro fessional player and who has been interested in the national game for years, expre-sed the following opinion yesterday afternoon: "Let me go on record as saying that if the 12-club league lasts to the end of next season that will be the last of it. Nobody but a few pluggers for second and third rate clubs want it. I know whereof I weak when I say that as soon as the present ebt of the League is paid we will have a National League again. Baseball will then likely be again benefited by the advice and counsels of A. G. Spalding and will not be guided by the miserable clique that now ontrols it. CZAR OF GLOUCESTER.

The Imperative Authority of Billy Thomp

son on the Race Track. NEW YORK, Dec. 10 .- [Special.]-From all Gloucester track, is a veritable Czar. Yesterday he caused M. M. Colvin to be ruled off the turf because, in Thompson's language, 'He is a disgrace to the turf." Colvin own the race horse Picket. The horse was started recently and Colvin induced a moneyed friend to bet \$700 on him. Picket lost, and friend to bet \$700 on him. Picket lost, and in a letter explaining the horse's defeat, colvin, it is alleged by Thompson, asserted that he (Thompson) ordered Colvin to see that Pickot was not one, two, three in the race in question. Thompson was informed of the contents of the letter and Colvin's expulsion from the turf was the direct result. It was recently stated that a horseman now at Guttenburg was credited with saying that he was instructed to take his horses from Gloucester because Thompson bet on one of his horses that insiled to win. It appears that this statement was not made by the horseman, who was peremptorily ordered by the Czar of Gloucester to at once he horseman, who was peremptorily ordered by the Czar of Gloucester to at once deny that he had made any such statement reflecting on Thompson or his race track.

TURF PATRONAGE DECREASING

Attendance at the Eastern Race Meetings

Growing Considerably Less. The attendance at the races this year show a decided falling off from that of 1891. The sworn statements of the treasurers of the New York and Coney Island Jockey Clubs are interesting study for racegoers. The State tax applies to the gate receints alone, so that the clubs derive a hand-ome revenue from the club members, who pay by the year. It has been frequently declared that the membership of the New York Jockey Ciub exceeds 2 500, so that the club derives at least \$50,000 a year from that source. The sale of boxes also increases the evenues of the club, and is not included in the statements made to the Albany officials. The returns from the Brooklyn Jeckey Club and the Brighton Beach Racing Association and the Brunton Beach Racing Association liave not arrived. How the receipts of the latter association will compare with the Board of Control tracks remains to be seen. If the reports about the mees run at Brighton Beach are correct, Brighton, with an admission fee of only \$1, should easily head the lists of tracks in the amount paid to the State.

The Jockey Club's reports show that the great attendance on days when big races are decided, does not represent such a large amount or gate money. On Decoration Day, at Morris Park, the receipts were \$23,160. On June 4 the Withers Stakes caused \$5,431 to be at Morris Park, the receipts were \$23,160. On June 4 the Withers Stakes caused \$4,431 to be paid in at the gate. The total for the 17 days of the spring meeting was \$71.872. At the fall meeting there was a still ligarer attendance. The largest amount taken at the pate on one day was \$3,253, a. d the total for the meeting of 13 days was \$2,504 39; a total or the 30 racing days of \$104.283 50, of which the percentage paid to the State was \$5,29 17.

The Concy Island Jockey Club's membership is much smaller than the New York Jockey Club's. The average attendance was genter. On Suburban Day, June 18, \$19,707 was the amount taken at the sate. On Realization Day, July 2, \$7,290.50 was the sum reported. The total receipts of the apring meeting were \$11,514. At the fall meeting the greatest receipts were on September 5, Labor Day, when \$11,700 was taken at the gates. The recaints on Futurity Day, August 27, were \$9,208.50. On the last day of the meeting the four-mile race attracted \$5,742 to the treasury of the club. The total receipts for the meeting were \$7,888, making the total receipts for the year \$12,462, of which the percentage paid to the State was \$6,474 to. year \$129,482, of which the percentage paid to the State was \$8,474 10.

The members of the Board of Control say that something must be done to keep up the attendance or they will be compelled to reduce the amount of added money to the stakes, and to make a reduction in the overnight races.

Coals - How Catarrh Brought on a Train of Painful Disorders - Mrs. A specialist, whose observation covers a wide range of diseases, is often impressed with the frequency with which catarrh, eczema, rheumatism, stomach, neart, bowel and kidney disease, or some painful and an-noying blood trouble seem to go hand in The depleted condition of the blood is often due to a catarrial affection, which takes the direction of a blood or skin disease rather than the usual nature of such results. The case of Mrs. Hannah Frazier, residing at 559 Clawson street, may be used to illus "I had been troubled with a painful skin "I had been troubled with a painful skin and scalp affection for a long time previous to consulting Drs. Copeland, Hall and Byers," says Mrs. Frazier. "My head and scalp would break out like burrs and become so inflamed and painful, it was agontzing to cleanse my mee or comb my hair. My left ear was also inflamed, painful and swollen and crusted all over with the same disease. This trouble was particularly aggravated every month.

discuse. This trouble was particularly aggravated every month.

"Eleven years ago I suffered an attack of crysipeias, and as this skin and scalp affection came on shortly after an attack of la grippe about 18 months ago, I thought it was a return of the same trouble, but Drs. Copeland, Hall and Byers, whom I at last consulted, said it was due to a depleted or poisoned condition of the blood, as the result of la grippe and altendant catarrhal symptoms. toms.

"In addition to the skin affection I had frequent headaches over the eyes, ringing in the ears, a clogging up of the nostrils, with a dry condition of the throat. My stomach also troubled me, a feeling of a fullness or bloating, with palpitation or fluttering of the heart and dizzy or fainting spells. WOMAN'S TROUBLE.

General Weakness, Pain, Distress and Ex-

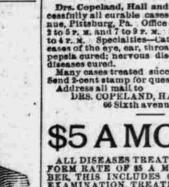

spells.
"I leel it due to suffering humshity and in justice to Drs. Copeland, Hall and Byers that I make a public statement of the beneficial results of their treatment in my case. My skin, scalp and car are entirely healed, the discoloration has disappeared, and the catarrhal and stomach troubles fast leaving, and all this change has taken place in only six weeks' treatment. I cannot begin to thank Drs. Copeland, Hall and Byers sufficiently for what they have done for me."

AN OPEN LETTER

"I also had frequent attacks of palpitation and fluttering of the heart with considerable pain in that region, which of the caused a smothering and sufficient and attacks of dizziness. My head troubled me a great deal, had a constant stoppage up of the nostrils, first one side, then the other, and the mucus dropped down into my throat, which caused me to hawk and spit considerable to raise.

"This was especially worse in the morning, and I think it was the hawking and spitting and gagging in my endeavors to rid my throat of the tough, sticky phiegm which gathered there that caused the sickness of my stomach. I felt tired all the time, did not care to work, and everything seemed a task to me. I had a pain across my nose, on top of my head and down the right side of my neck and right chest.

"I became so bad that the house had to be well heated before I got up in the morning, as when I came in contact with the cold air these symptoms became so aggravated I would have to go to bed. I must say that I No Matter What Your Trouble Is.

Mr. Lewis W. Alleman, Rochester, Pa. am well pleased with the treatment re-ceived at the hands of Drs. Copeland, Hall and Byers. It has done wonders for me, as I have had only two spells of this vomiting since beginning their treatment, while be-I have had only two spells of this vomiting since beginning their treatment, while before it was constant every morning.

"My trouble with the heart has also about stopped, the throbbing almost removed, and has become more natural. I had doctored for this heart trouble for about two years without receiving any benefit. My head and throat trouble is entirely well.

"I regret that I did not consult Drs. Copeland, Hall and Byers at first, as I am satisfied I would have been saved much suffering and considerable money. Their success in my case proves the correctness of their theory that the stomach and heart trouble was dependent upon the catarrhal secretions dropping down into the stomach, poisoning and nausenting it, so that its proper functions were interiered with and that the accomulation of gas pressed up against the heart and lungs causing the palpitation and shortness of breath which annoyed me so much. I certainly approve of and recommend to all my friends and the public Drs. Copeland, Hall and Byers' treatment in such cases as mine. I am satisfied they understand all these long standing obscure cases thoroughly, and that they are curing by their method of treatment many cases heretofore considered incurable."

Do you feel nervous, with palpitation or fluttering of the heart, and think you have heart disease? It is due to catarrh of the stomach. Consult Drs. Copeland, Hall and Byers and get rid of this distressing affection as Mr. Alleman did.

Statement-His Case Is the Most Typical

of a General Catarrhal Condition of the Whole System Ever Published. Mr. August Hood, a coal miner, in the emwest from Martin's Ferry, says: "I had been troubled off and on for several years, and doctored from time to time with little or no benefit, till finally I grew so bad I became seriously alarmed about my condition and felt that I would have to have immediate relief or give up my work. I ached all over nearly all the time, and my body felt as sore as if it had been pounded with a club. I had a constant pain over my eyes and through my temples, and my eye-balls ached and pained me away back into my head. I also had shooting pains through my chest to each shoulder blade, pain and soreness in the small of my back, over the region of the kidneys, and pain shooting down the lets to the knees, with at times a numbness and pricking sensation, as of needles jagging me. I had rheumatism all through my body, so had at times I could not go to sleep. benefit, till finally I grew so bad I became
