WHAT A LITTLE WILL DO

A Few Suggestions as to the Great Effects of Little Things. A little care will save you much annoyance. A little neglect of some simple duty may lead to a disaster which would impair your life.

A little kindness to a fellow creature may cause you little effort and may result in untold good.

A little attention to the right thing at the right time may result in great things to you at the proper time.

A little effort may seem trifling, but it may be the first symptom of pneumonia, possibly of death.

A little prompt attention when you first feel chilly, is by all means the thing you should do, and do at once.

A little pure medicinal stimulant taken promptly will drive away the chill, restore the circulation and warm the blood.

A little reflection will show you that only a pure, medicinal stimulant will answer and that there is but one, which is Duffy's Pure Malt Whiskey.

A little firmness when the druggist or grocer tries to sell you some so-called whiskey which has no merit, will save you much annoyance and perhaps preserve your health.

A little constant use of this pure medicinal stimulant will tend to help your health and keep you in a condition to resist the sudden changes of the season.
