GENERAL SPORTING NEWS OF THE DAY

NEW YORK, Dec. 21.—Capt. Williams, of the Crescent Athletic Club, states that he has heard from his club and that they will offer \$30,000 for McAuliffe and Burge to fight for. The battle of pugilistic diplomatists now going on here is beautiful to contemplate. The Coney Island outfit has tied up Burge to a purse offer of \$20,000, but they must fasten McAulifie too, and before 10 P. M. Saturday next. Burge goes free by reason of their failure to do so. Meanwhile, the Crescent City Club are hustling to keep McAulifle away from the books of the Coney Island people until after 10 P. M. Saturday. Then both men will be free-Burge as well as McAuliffe,

and a new abuffle may be made. Incidentally it transpires that for the present, at least, the friendly relations that have existed between Dick Burge, England's lightweight champion, and George McDonald, his trainer, are strained. McDonald will no longer have anything to do with Burge and the latter, according to a story that has been going the rounds, has discharged McDonald and taken up Jimmy Carroll, who will look out for the English-

mau's interests in the future, It is said that McDonald will train Jack McAuliffe for his fight with Burge. Thus, McAuliffe, trained by a man who knows all Burge's tactics, may gain an advantage such as Corbett enjoyed when trained to meet Sullivan's methods of fighting. McAulifle is reported to have had a streak of luck the other night at fare, and it is said he won

Jack McAuliffe was seen this afternoon by a reporter and explained why he preferred to fight Burge in New Orleans rather than at Coney Island. He said that the climate was so much milder than in the North that he could more readily reduce his weight. He said that he was very fat and that he must train off a lot of flesh in order to be in better fix to defeat Burge. Judge Newton said this afternoon that he will not go higher than \$30,000 in order to have McAuliffe and Burge fight at Coney Island.

\$45,000 FOR A FIGHT.

New York Outbids New Orleans for the McAuliffe-Burge Mill.

NEW YORK, Dec. 21 .- One of the largest surses ever offered for two pugilists since the days of the celebrated fighter Figg was up to-night for Jack McAuliffe and Dick Burge by Judge Newton, of the Coney Island Athletic Club. The sum offered is \$45,000. This latest bid completely overtops the \$30,000 purse which Captain Williams, of the Crescent City Athletic Ciub of New Or-leans, made for the fighters Wednesday

The purse was extended for the two light-ights acceptance in the cafe of the St. mes Hotel to-night. The only persons event at the conference, were McAniffe, idle Stoddard, his trainer, Judge Richard Edd e Stoddard, his trainer, Judge Bichard Newton, representing the Coney Island Ath-letic Club, Phil Dwyer and Frank Williams of the Crescent City Athletic Club.

He is training at Coney Island. He shows wonderful vim and agility in his work of punching the bag, etc. Reports from the high-lands of Navesink, where McGrath is doing his work, are very tavorable. His trainer, Martin Murphy, says that McGrath is a giutton for work, and that he is the most willing man he ever trained. He adds that Plimmer will have to punch harder than he ever did before if he intends to retain the championship.

TO-DAY'S BIG MATCH.

Messrs, Fulford and Eiliott in Town Ready

for To-Day's Shooting Contest. Messrs. Fulford and Elliott will shoot off the third of their series of five matches today at Exposition Park. These two experts, in fact champions, undertake to shoot a series of five matches at 100 live pigeons each, per match, for the championship of the United States. The contest will commence to-day at 1 o'clock. The pigeons are furnished by a gentleman who guarantees that better birds never-lefte trap than those that Elliott and Fulford are to shoot at to-

day.
Yesterday afternoon Mr. Fulford said:
"This contest is to me one of glory. I am
going to try and beat Elliot to-morrow just
as sure as I'm alive. I think that I can beat him and I think that I may beat him in all the five matches. We will contest them all as far as I am concerned. We have good as far as I am concerned. We have good birds. Don't make any mistake on that point. I am ready and I suppose Mr. E'llott is also ready to kill a reasonable number of pigeons under limited con ititions if the bet is big enough to prompt our slaying for a day. Depend upon it our birds are all right." Regarding the above contest a local sporting man called at this office last evening and left the following communication: "Will Mr. Elitott or Mr. Fulford undertake to kill 25 pigeons that I will trap for them? I will give them 25 pigeons at 21 yards rise, and I want either of them to name how many birds either of them can kill out of 25 that are in my estimation good birds. If either Mr. Elliott or Mr. Fulford will say how many pigeons they can kill out of 25 we

how many pigeons they can kill out of 25 we will put in the traps, the matter will be settled."

There is a great deal of local interest in to-day's contest. The birds will be in the traps at I o'clock.

He con-siders the chances very good for the best races ever sailed for the cup

EXPLANATION.

CPARTLY CLOUDT. Arrow files with wind.

First figures at station indicate temperature; next figures indicate change in temperature; and figurs underneath, if any, indicate amount of rainfall or melted snow in hundreths of an inch during past 12 hours; T indicates trace of precipitation; isobars, or solid black lines, pass through points of equal pressure; isotherms, or dotted lines, Storms generally move from West to East in atmospheric waves, of which the crests are

narked "High" and the oval trough, or depres-tion "Low." These waves move Eastward on an sion "Low." These waves move Eastward on an average of 500 miles per day.

High winds, rain or (if cold enough) snow, Southerly winds, and consequently high temperature, usually precede "Lows" across the country. When the "Low" passes East of a place the wind changes to North, bringing lower temperature, clearing skies, and often cold waves and Northers. The high area brings sunshine.
