

Mr. Wright's Speech.

labor will be benefited. Here (alluding to the village of Watertown) are manufacturers, I believe, of cotton and wool, and all about you are farmers raising grain, beef, pork, and making butter and cheese. Now, the manufacturers are protected by a duty of say 30, 40, 50, 60, per cent on these articles—

ence. There the thing has been tried. And now they have got to the point which is unchanging, so long as the agricultural interest can control. Let me add a word which may be relevant to a state of things with us. How is it that the agricultural interests of Great Britain, composing seven per cent of its population, is able to command the legislative policy of that great country? It is because the government, in the course of the pursuit of this policy, has built up a debt resting on the land of the country—the stock held by the landholders and landlords of the country—which the government can't pay—and through its credit and its debt, the landed interest commands and must command, while monarchy exists, its legislative policy. And it can command protection to its wheat and beef and other production while the laborer starves at his loom and spinning jenny. Do we, fellow-citizens—and I am sure I address a people a large majority of whom are farmers—do we desire any monopoly to the agricultural interest?

Clay on the Tariff. Henry Clay, says the cotton papers, is the father of the American system. His whole life has been spent, continues those papers of truth, in advocating the doctrine of protection. What is the evidence? What other evidence have they than Henry Clay is the father of protection, than that he voted for the Compromise bill. Recollect that he voted against the bill of 1828, and pronounced it a bill of abominations. Recollect farther, that he voted against the bill of 1832, because it was merely a modification of the bill of 1828, and too high for him. And finally recollect, that to conciliate and allay southern feeling, he then bro't forward the compromise bill, for which he voted, and for which, and which only, he is now styled the Father of the American System.

stand of fall; I do not believe even all the whigs have become thus abandoned. Now is the time to pause and reflect, now is the time to pursue the virtuous path, to gird on the armor of democracy, which lit up a glow of cheerfulness in the bosoms of our forefathers in the American revolution. Now is the time to be as determined as that noble son of liberty, Patrick Henry, who exclaimed "give me liberty or give me death," yes fellow-citizens, our liberty is at stake at this time, and calls forth our energy to maintain it. One of our number, namely, Governor Dorr, of Rhode Island, is now incarcerated in a States prison, for no other offense than taking a part for the people, and we know not how soon it may be our lot to fall a victim to the same tyrannical party. Then arise, arise I say, and hurl from power that lying band,—let Polk, Dallas and Shunk be waved on every flag, with a streamer that shall reach from Maine to the utmost bounds of Texas, exclaim to the world we will be free.

Wright's Vegetable Indian Pills. IF, during the continuance of the cholera and Floods, the channels of our BOWELS become so obstructed as to afford an outlet for the superabundant waters, we expect nothing less than that the country will be OVERWHELMED WITH THE FLOOD. In a like manner with the human body—Skin, Kidneys, and Bowels, (the natural outlets for USELESS AND CORRUPT HUMORS) become so obstructed as to fail in affording full discharge of those impurities which in all cases THE CAUSE OF SICKNESS: we surely can expect no other result than the whole frame will sooner or later be OVERWHELMED WITH DISEASE. In the first place, if we would prevent the free discharge of the superabundant water and cure disease, we must open and keep open all the NATURAL Drains of the body. WRIGHT'S VEGETABLE INDIAN PILLS. Of the North American College of Health, will be found one of the best if not the very BEST MEDICINE IN THE WORLD for carrying out this beautiful and simple theory; because they completely cleanse the Stomach and Bowels from all Bilious Humors and impurities, and at the same time produce healthy discharge from the Lungs, Skin, Kidneys; consequently, as all the Natural Drains are opened, Disease of every name is literally driven from the Body. Caution—As the great popularity consequent demand for Wright's Indian Vegetable Pills has raised up a host of counterfeiters, country agents and storekeepers will on their guard against the many impostors who are travelling about the country selling an unsuspecting a spurious article for the genuine. It should be remembered that all authentic agents are provided a Certificate of Approval signed by WILLIAM WRIGHT, Vice President of the N. A. College of Health. Consequently, those who offer Indian Vegetable Pills, cannot show a Certificate, as above described, will be known as impostors. The following highly respectable Storekeepers have been appointed Agents for the sale of WRIGHT'S INDIAN VEGETABLE PILLS, and of whom it is confidently believed the genuine medicine can with certainty be obtained. BRADFORD COUNTY, PA. J. D. & E. D. Montanye, Towanda. D. Brink, P. M., Hornbrook. S. W. & D. F. Pomeroy, Troy. Lyman Durfee, Smithfield. J. J. & C. Warford, Monroeton. Wm. Gibson, Ulster. Ulysses Moody, Ashtam. John Horton Jr., Terrytown. Corryell & Gee, Burlington corner. Benjamin Coolsbaugh, Canton. L. S. Ellsworth & Co., Athens. Allen & Storrs, Sheashequin. Guy Tracy, Milan. A. R. Soper, Columbia Flatts. Offices devoted exclusively to the sale of the medicine wholesale and retail, 228 Green Street, New York, No. 198 Tremont Street, Boston, and 169 Race Street, Philadelphia. BEWARE OF COUNTERFEITS.—The pills are respectfully informed that medicine purporting to be Indian Pills, made by one F. Falck, are not the genuine Wright's Indian Vegetable Pills. The only security against impostors is purchase from the regular authorized agents, and in all cases be particular to ask for Wright's Indian Vegetable Pills. IMPORTANT INFORMATION. IT is a prevailing opinion among the enlightened Physicians of our country, that Cancer is a mass of living animals, which have taken up their abode in the human system. No matter how small, or how low in the scale of animated nature, the individual composing Cancer may be, they were so tenacious of existence, that the knife or the most powerful caustic, are the only means by which they can be removed. When permitted to remain, they never fail to multiply and spread to neighboring parts, committing the most frightful depredations, until death comes to the relief of their victims. Worms in children, may be considered somewhat analogous. If they are less bad, they are infinitely more common; and if allowed to remain, produce consequences scarcely less alarming. If the testimony of medical writers is to be relied upon, they often produce mania, apoplexy, epilepsy, palsy, convulsions and many other diseases equally dangerous, and often fatal. But here the parallel stops, Cancer being one of the most obdurate diseases, with which physicians have to contend, while worms are easily dislodged by proper remedies. MERRICK'S VERMIFUGE, has proved one of the most valuable medicines ever offered to the public for destroying worms in children. Hundreds of cases might be enumerated, where it has produced the happiest results. It is a syrup, and therefore easily administered to children. Price 25 cents per bottle. THE POCAHONTAS PILL. In the present age, when "Patent Medicines" are so numerous, and their properties unblushingly eulogized by their respective proprietors, it becomes necessary for the public (to guard against imposition) to require some authentic evidence of their sanative properties. The Pocahontas Pill is not offered as an antidote for all the diseases to which flesh is heir. We merely purpose to show, by the successful publication of certificates, voluntarily offered, that their present popularity is well founded, and that as a purgative medicine, they have proved pre-eminently beneficial. These Pills are compounded according to the rules of medical science, are entirely vegetable, and may be safely given to cleanse the stomach, purify the blood, remove inflammation, and correct the morbid secretions, without regard to age, sex or condition. Certificate of Mr. Wm. Follmer, of Tipton, Northumberland county, Pa., says—"For many years past, I have been suffering from a severe and alarming disease of the liver. Several Physicians had prescribed for me, and I had taken many articles highly recommended in the papers, without any benefit. About twelve months ago, I began using the Pocahontas Pills, and am happy to say, that in a few weeks I found my disease entirely removed; since which I have been free from cough and pain in the side, and consider my malady radically cured." Price 25 cents per box. Agents for the sale of the above medicine in Bradford County: A. D. Montanye, Towanda. J. J. & C. Warford, Monroeton. A. Dewing, Warrenham. Guy Tracy, Milan. George A. Perkins, Athens. Wm. Gibson, Ulster.

Our First Great Duty. There is much good sense in the following remarks from the Jefferson Democrat. We commend them to our Democratic friends in this county: "We must take care not to waste our energies in large gatherings. They are very proper in their places; but we should not let them interfere with the higher duty of organization—organization in the different wards, townships and boroughs, of the several counties—organization by registry, by documents; by canvassing. We call upon the active men of the county to be up and doing. We call upon the committees to go to work. Meetings are well enough; but too many may be injurious. Let us remember that it is only when we have been organized that our victory has been complete. Where there is as much enthusiasm and confidence among the people as are now displayed by the Democrats, organization is easy. But do not let us neglect it. We hope to see the township committees at work in this important business. We hope to see the active men at work. Let us not lose precious time in speeches; but let us devote a portion of the time to a registry of our forces—of the forces of both parties—in every township, ward, and borough. Let us give some of the time to a circulation of the documents, by which the current misrepresentation of the federalists may be corrected, and the true faith properly vindicated, on all the great questions of the day. These are very high duties; and we repeat our trust that they will not be neglected.

Who are they that are guilty of this charge; yes you modern whigs who are now circulating the base falsehood, that James K. Polk is a Roman Catholic. Are you not really chuckling yourselves that you will deceive a few honest men, and gain a few votes to your sinking cause by this falsehood, were you never taught "thou shalt not bear false witness against thy neighbor," or have you become so accustomed to reporting falsehoods, that you have no conscience left to check you. What minister of the gospel is he, residing not many miles from the centre of Bradford County, who regardless of the principles of religion, busies himself while attending on his circuit in publishing the above falsehood? Shall I call you by name, that the public may see your cloven foot? I spare you at this time,—cease then you vile slanderer—retrace your steps and undeceive the people. If you have become a little whiggish, remember that lying even in political syllables does not become a minister of the gospel. Ye modern whigs, I do not charge this falsehood upon you, thinking it a crime to be a Roman Catholic, for there are both good and bad men among all denominations of religion; but to put in circulation a falsehood of this kind against a native-born American, and one too who is a member of a protestant church, and whose ancestors nobly fought to gain the American Independence, is not only dishonest, but downright knavery, and justly deserves the sentence of the people of wilfully breaking one of the most solemn commands of God, "thou shalt not bear false witness against thy neighbor." Desperate is the cause that requires a course of lying to maintain it, and tyrant is the man who would thus gratify his revenge against democracy. You may deceive a few honest men, and thus gain their votes, but the God of Heaven will defeat a party, who will so forsake his righteous laws. To the people I now address myself, yes to the people, who are the only sovereigns and have a right to rule; with you our republican institutions must

So much for the great "Clay Victory." SCENE IN A DOWN EAST PRINTING OFFICE.—"Jim what are you doing there on the floor?" "Why, sir, I've had a shock." "A shock?" "Yes, sir." "What kind of a shock?" "Why, sir, one of our subscribers came in during your absence, and offered to pay a year's subscription, which produced such an effect upon me that I have been perfectly helpless ever since." "No wonder, Jim; but cheer up, if you survive this you are safe, as there is little prospect of another such a catastrophe in this office." GOVERNOR DORR.—We were informed on Monday, says the Providence Herald, that this victim of Algerine oppression was suffering under a severe and aggravated attack of rheumatism, and that his friends had applied to the committee who visit the prison, for such a relaxation of prison discipline as might permit him to take such exercise in the open air, as the circumscribed limits of the walls of the yard would permit, and that the request was coldly and unfeelingly refused. A SIGNIFICANT SIGN.—The Westminster (Pa.) Intelligencer, the organ of Joseph Markle, republishes an article, favorable to the Election of Henry Clay, from the London Atlas! The British Red coats are all for Clay, of course, as he comes nearest their Tory views. AN ANNOUNCEMENT.—The Madisonian, of Wednesday, announces as forthcoming for the press. "A series of essays, dissecting the character of Mr. Clay—republishes from the Madisonian of 1842 and '43—the production of a mighty mind." TEXAS.—A letter in the New York Sun says, there is no doubt of the election of Hon. Anson Jones (the Houston candidate) to the Presidency of Texas. A CHILD TO BOAST OF.—A farmer's wife, in speaking of the smartness, aptness and intelligence of her son, a lad six years old, to a lady acquaintance said—"He can read fluently in any part of the Bible; repeat the whole catechism, and weed onions as well as his father." "Yes, mother," added the young hopeful, "and yesterday I licked Ned Rawson, throwed the eat' in the well, and stole old Hinckley's gimlet."
