Wednesday, Nevember 6, 1844

The Election.

The struggle is over in Pennsylva nia. The great battle for the Presiden cy, so far as this State is concerned has been fought. The greatest and most important, in its bearings upon the destinies and liberties of this country, that has ever agitated the Republic. Never before were the elements of Federalism combined in so formidable an array. Never before was the MON-EY POWER, so clearly and boldly arrayed against the people. The contest has in very truth, been between the democracy, and the monied interests of the country; the former struggling to uphold the great and fundamental doctrines upon which rests the very foundations of liberty, Equality of Rights; the latter fighting for the perpetuation of a system of monopoly; and special privileges, at war with republican institutions, and fatally subversive of the rights and liberties of the people. We know not to which side victory inclines, but we trust that the issue is favorable to the hopes of the patriot and philanthropist. We trust that the ark of our liberties, is yet safe from the Philistine hands of the ruthless, and corrupt Money Power, a power more insatiate in its demands, and more unsparing in its tyranny, than the most hateful tyrant that ever bore sway over an oppressed and enslaved people. I the days of the Republic are numbered, and this fair land is to become like the rest of the earth, the spoil and prey of the oppressor, may God in his mercy, spare us from the tyranny of the money power. Of all the forms of tyranny, it is the most hateful, most oppressive, the most accurst. The despot, who rules with a rod of iron, may become satiated with blood; you can surfeit his appetite with gold; he sleeps, and for a time the work of oppression is stayed. The money power is never satisfied; its voracious jaws are ever open, and its appetite increases with what it feeds on. May Heaven preserve the children of this Republic from the fires of the Money Molock,

The majority in this county has been greatly reduced from what it was on the 8th of October. We scruple not to say, that ithas been done by the most vile and accursed influences, that were ever of the boat were destroyed, and of brought into requisition by unscrupulous men. Our voters have been made to feel the tyranny of money and its unholy and wicked exactions. The rich have forced the poor to retire from the polls. or cast their ballots for the candidate of the Money Power. We know what we say, and we intend to follow up the subject hereafter with the names of the men (humanity blushes to own them) that have thus trampled upon the most sacred and holy right of freemen. We wish our friends in every election district, to collect accurate information of every case in which influences of the character such as we have alluded to, have been employed, and we will hold up the men to the scorn and and contempt of the honest of all parties.

MELANCHOLY ACCIDENT. -- We learn from the Wilkes-Barre Farmer, that Mr. George W. Carmer, lately of this place, came to his death in a melancholy manner. He was engaged in hunting with Mr. Jacob Kutz, of Wilkes-Barre, and while resting on a fence, a the ground—the shock breaking his arm. The pain of the fracture being all directions. Very fortunately, no intense and disabling Mr. K. from walkneighboring hause and procured a wagon in which to carry him. After placing Mr. K., in the wagon, Mr. Carmer, in raising his gun by the muzzle, caught the lock in some part of the iron work of the vehicle, by which it was discharged and the whole contents entered his head beneath the chin, killing him instantly. Mr. Carmer was the son-inlaw of Mr. Kutz, recently married, and in every respect a most worthy, estimable and amiable citizen. His death urder the circumstances, has fallen, with a grievous affliction upon two families and upon a large circle of friends, to whom he was endeared by the modesty, uprightness and manliness of his character.

Dreadful Steamboat Accident!

Explosion of the Lucy Walker!-Sixty to Eighty Killed and Wounded! It is with feelings the most acute and painful that we copy from the Louisville Courier, Out. 23d, the following fearful disaster, and the loss of so many valuable lives. The steamboat Lucy Walker, Capt. Vann, left this place for New Orleans yesterday, crowded with passengers. When about four or five miles below New Albany, and just before sunset, some part of her machinery got out of order, and the engine was stopped in order to repair it. While engaged in making the necessary repairs, the water in the boilers got too low; and about 5 minutes after the engine had ceased working, her three boilers exploded with tremendous violence, and horrible and terrific effect. The explosion was upwards, and that part of the boat above the boilers was blown into thousands of pieces. The U. S. snag boat Gopher, Captain L. B. Dunham, was about two hundred yards distant at the time of the explosion.-Captain Dunham was immediately on the spot, rescuing those in the water, and with his crew randering all the aid in his power. To him we are indebted for most of our particulars. He informs us that the Lucy Walker was in the middle of the river, and such was the force of the explosion, that parts of the boilers and the boat were thrown on shore. Just after the explosion, the air was filled with human beings and fragments of human beings. One man was blown up fifty yards, and fell with such force as to go entirely through the deck of the boat. Another was cut entirely in two by a piece of the boiler We have heard many of such heartrending and sickening incidents.

Before Captain Dunham reached the place where the Lucy Walker was, he saw a number of persons who had been thrown into the river, drown. He however saved the lives of a large number of persons by throwing them boards and ropes, and pulling them on his boat with hooks. Immediately after the explosion, the ladies' cabin took fire, and before it had been consumed, sh sunk in 12 or 15 feet water. Thus is presented the remarkable circumstance of a boat exploding, burning, and sinking, all in the space of a few minutes. The screams and exclamations of the females and those who were not killed, is represented as having been distressing and awful. We believe none of the females on board were injured-some however may have been drowned. The books course it will be impossible ever to ascertain the names of or the number of those killed. There were at least fifty or sixty persons killed and missing, and fifteen or twenty wounded-some -seriously. Captain Dunham left the wounded at New Albany, all of whom were kindly and well cared for by the hospitable and humane citizens of that

The Reading Gazette states that another explosion occurred on the Railroad, near Port Clinton, a few days ago, under precisely similar circumstances with the one which occasioned the disastrous loss of life on the 2d of September last, and which Dr. Lardner, in a very laborious report, attributed to the effect of lightning. The engine had taken in its supply of water, and had a very heavy pressure of steam, when the engineer discovered, by a peculiar hissing, that an explosion was about to take place, and at once leaped from it and passed down the embankment. He rail broke and precipitated Mr. Kutz to had scarcely done so, when the engine exploded, scattering the machinery in one was injured. An examination of ing home, Mr. Carmer proceeded to a the cause, attributes the explosion to the weakness of the stays across the fire box being too light to bear the pressure of steam required. The engine was built by Mr. Baldwin, and had previously worked well. The company have taken measures to examine all their engines, and guard against future accident from the same cause.

U. S. SENATE .- The terms of seventeen U. S. Senators expire on the 4th of March next, thirteen of which are Whigs and four Democrats. The Whigs in the recent elections have secured the Senators in Vermont, New Jersey, Maryland, Virginia. Indiana, and Ohio, by the election of a majority of the Legislatures of these States. In Connecticut a Whig Senator has already been chosen for the next six years, and there is no doubt that Whigs will be chosen in Massachusetts and Rhode Island. The whigs are sure of nine out of the seventeen Senators embraced in the class of 1845, and have a chance in some of the other States. Of the Senators who hold over, sixteen are whigs; to which add nine, as above, and the whigs have twenty-five, being only one short of half the whole number. Two more will give them a majority. The other States in which Se nators are yet to be chosen are Maine, Pennsylvania and Missouri. (each of which have elected Democratic Legislatures,) New York, Delaware, Mississippi, Tennessee and Michigan.

A FEMALE EXTATIC.—In the Midnight Cry of Thursday last, is an account of Sister Matthewson, an extatic who lives in South Conventry, Connecticut, and is visited daily by multitudes, and who died one day of lingering disease (her physician, it is said in parenthesis, being "an infidel.")-Previous to her death her spirit was caught up into Heaven, and then a voice, " which she supposed to be that of the Savior," told her she must return to earth. She then died-revived in about half an hour, and has ever since—about eighteen weeks—been proclaiming to all who will hear. " that the time is short." She takes no food whatsoever, except two cups of tea with milk and sugar daily !-exhorts sinners all day; and at night converses and sings, as she says, with the angels, whose forms encompassing her bed she

ONE THE GOOD EFFECTS OF MILLER- ter. 18M .- The Secretary of the Treasury acknowledges the receipt of five dollars from some unknown person, with the following note:

Sir: "I am indebted to the revenue of the United States the amount enclosed, \$5. I wish you to understand the reason of my doing this, is to make me at peace with God and my fellow men. The Lord is coming this month, and on the 22d day of it I think, to "Judge between him that serveth God, and him who serveth him not, and to lay righteousness to the line and Judgment to the plummet." The Lord help us to be prepared to stand the fiery trial, "when the Lord ariseth to shake terrible the earth. Yours, &c.

News from all Nations.

Samuel Y. Atwell, Esq., 2 distinguished member of the Rhode Island Bar, died at his residence, at Chepatchhave a LARGER majority than Shunk !! | et, at 12 o'clock, Friday night, in his 49th year.

There is a curiosity at the New York Fair well worth seeing-a boat containing the original Engine and Boiler of the first boat that ever navigated the Hudson river.

A project is on foot at New Orleans to build iron steamers, to run between that port and New York, at an estimated expense of \$110,000 each.

A young man supposed to be named Andrew McDilley, hung himself in a barn in Columbus township, Ohio, the other day.

The Hong Kong Gazette asserts that the lower classes of the Chinese at Canton are hostile to Americans and all others foreigners.

Sidney Rigdon now says the Nauvooites are worse than Sodomites.

Indians from the United States have made an incursion into Northern Texas, on the Louisiana border. The military around Natchitoches have been ordered out to defend the neighborhood,

The Connecticut Courant, published at Hartford, Conn., the oldest paper in the Union with one exception, completed its 80th year, Oct. 29.

An election for Congressmen to fill vacancies in the 1st, 4th and 5th districts of Maine, is to take place on the 11th November, the day of the Presidential election.

Joel B. Sutherland, Esq., is talked of as the successor of Mr. Janifer at the Court of Vienna, and Mr. Walker, Senator from Mississippi, as Judge of the U.S. Court.

It is now ascertained that the present Senators in Congress from South Carolina, the Hon. Messrs. Geo. Duffie and D. E. Huger, will continue to hold the seats they fill in the Senate.

The steamer James L. Day has made the passage from Mobile to New Orleans in 12 hours and 20 minutes.— She is the most rapid boat that ever ran between the two cities.

On the 16th of this month, ripe strawperries were gathered, in the garden of Dr. Stryker, of Somerset, N. J.

Louis Phillippe accomplished his 71st year on the 5th of this month.

William F. Comings, under sentence of death, at Haverhill, N. H., for murder, has by proclamation of Gov. Steele, had the execution of his sentence postponed to the 29th of December next.

At Cork, lately the brother of a young lady publicly horsewhipped an officer of a regiment stationed there for having. after paving the most marked attention to his sister, abruptly discontinued his

Dr. Arnott, of England, has invented an air pump, with which it is proposed to supply a draught to furnaces. superseding the necessity of funnels in steamboats and costly chimneys in engine houses.

If you bathe in the Dead Sea, the evaporation caused by the sun will leave your body encrusted with sulphate of magnesia (Epsom Salts) in a few moments after coming out the wa-

The Barnstable Patriot says a man at Edgartown, a short time since shot a peck of cow-birds at one shooting.

The Maryland election takes place on the 4th, and not on the 11th, as has been erroneously stated.

James C. Crook, Esq., a respectable citizen of Columbus, Geo., was killed a few days since, by his horse taking fright, and throwing him violently

against a tree.

A survey is now being made made for a railway through South Wales, from east to west, with steamers to run from the termination at Fishguard and Pembroke, to join other railways projected in Ireland. English capital invested in her soil would be productive of vast benefit to Ireland.

The Government Deposite Banks in N. York, now hold a balance of about six millions of dollars. This amount will probably continue to increase until January, when the Government will have to pay off five millions of dollars.

The Gateshead Observer publishes the details of eight colliery explosions in Durham and Northumberland since under 50 each.

143676 144019 160403 156114 Add 6th word Northern Liberties, not returned,

160511 HUZZA FOR ATHENS!-Athens has nobly won the banner, and she certainly deserves it. Her vote shows an increase of SEVENTEEN. And this too in a township where the most important and numerous changes were, and where no money or exertions were spared to make it give a federal majority. We know that certain men, under a belief in their own consequence, had pledged 20 majority for Clay. Her noble and true-hearted democracy deserve the thanks of the whole party.

DISTRESSING ACCIDENT. John Story, residing a short distance from Newtown Borough, Bucks Connty, was ou Tuesday afternoon, last, burned so bad ly as to cause his death in a few hours Mr. Story had been confined to his bed for some time by sickness, and on the afternoon alluded to, the bedelothes caught fire, and were not discovered until too like to save him from his own unhappy end.

A HORRIBLE FATE .- Tschech, the man who fired a pistol at the King of Prussia, a short time since, has been sentenced to be broken upon the wheel.

KILLEN.-James K. Cook, Esq., a highly respectable citizen of Columbus, Georgia, was killed on the 22d inst., by being dashed out of his carriage against a tree.

Arrival of the Acadia

The steamer Acadia has at len rived. She left Liverpool on the inst, and arrived at Boston abo o'clock on Sunday afternoon. have, through the attention of Met Adams & Co's Express agent, a co of Wilmer & Smith's European Tu up to the day of sailing.

The intelligence appears to little general interest, if we excen rumor of a treaty having been negr ted by the American minister with Chinese, said to be of a most adva geous character.

Stocks and Securities were imp ing in England. Particularly Am can stocks were looked for by can ists for investment.

There was a depression in the ton market, but no actual decline. Rumored Treaty with Brazil. mors have been current for some that a new treaty has been recently tered into between Brazil and the tish Government. Nothing positi known as the terms, and in the abse of definite information, speculation peen very rife.

Dreadfulloss of life near Sunder -Accounts from Sunderland give account of an explosion in a coal p Haswell colliery, about ten miles Sunderland, which has caused the struction of ninety-six human bein It is said, that at the time of the accid there were a hundred persons in pit and that only, three or four ! been saved.

The Queen's visit to Scotland Since our last the Queen has been joying, in rude health, the pleasure her mountain residence in the H lands of Scotland. The splendid se ry, the bracing air, the invigorating ercise, and the early rising at B Athol, can be traced, we are told the stordy chroniclers for the da press, in her Majesty's person and of her consort. The physical improment is marked and palpable. Et movement she has made in her rom tic retirement appears not only to he been witnessed, but minutely record by the prying and indefatigable me bers of the "fourth escape." The accounts of her personal habits creditable to the tastes and feelings the woman and the sovereign. Inc the facility with which she can div herself of the stiffness and trammels royalty, appears to have won the he of the unsophisticated people ame

whom she has been thrown. In exploring the scenes in the He lands, frequent opportunities have curred for eliciting traits of chang that the atmosphere of a court, with accompanying pageantry, could have drawn forth; and, in all the the good humor, the kindly feeling, self-possession, and the practical she ness of the young and buoyant fem appear to more advantage than even glare and splendor of the sovereign No crowned head of recent days shown the same satisfaction in b at home amongst the people, and result is that the feeling is reciprocate for while there is no sacrifice, no di inution of dignity, on the one there is an increased amount of resp and attachment on the other. But Queen's doings in the north have escaped observation in London. cause she attended the Firk of Scotle on two succeeding Sabbaths, has by attacked with some acrimony by a servative paper—the Morning Pos that represents the feelings and in ests of the exclusively aristocratic tion of society. Whether to sile cavil, or to prevent a repetition of so annoyance to which she was subject on her second attendance at the vill church of Blair Athol, we know but her devotions, on the third Sand were confined to the walls, it is s of the Castle, and the service was of the Church of England.

America and China.-The prominent feature in the intellige from China is, that a treaty had b concluded between the United Sta and the Celestial Empire, based a the same principle as dictated that tween England and China-in wi America will enjoy all the advanta which Great Britain, by her arms, cured, after an immense outlay of b and treasure. This can hardly fa be gratifying in America. Every interested in the United States, will delighted at the result. The comnication between the United States China, will doubtless, from this forward, be more direct and continu and the success which has accomp American diplomacy, must still our transatlantic neighbors to free ergy, and, necessarily, to future 20 ments. The substance of this has been received, we ought to pro through the medium of a private ! to which we have had access.

A Girl's Leg Amputated while Mesmeric State. - Last week, 2 who was affected with a swell her knee, had her leg taken off surgeon while in a mesmeric slee There is no doubt about the fact. surgeons were present-one ope one assisted, and one watched the They all agree as to the fact, but of them assert that she suffered as there were twitchings of the &c. She, herself, is unconsci-

having suffered any pain. IRELAND, The Great Repeal quet to O' Connell and the other
