

Miscellaneous.

A Burning Forest.

The following account of a burning forest, was given to Audubon, the American ornithologist, by a hunter in the back woods, at whose cabin he passed the night.

It is a difficult thing, sir, to describe; but I will do my best to make your time pass pleasantly. We were sound asleep one night, in a cabin about a hundred miles from this, when about two hours before day, the snorting of the horses and lowing of the cattle, which I had ranged in the woods, suddenly awakened us. I took my rifle and went to the door to see what beast had caused this hubbub, when I was struck by the glare of light, reflected on all the trees before me, as far as I could see through the woods. My horses were leaping about, snorting loudly, and the cattle ran among them, with their tails raised straight over their backs.

On going to the back of the house, I plainly heard the crackling made by the burning brushwood, and saw the flames coming towards us in a far extended line. I ran to the house, told my wife to dress herself and child as quickly as possible, and take the little money we had, while I managed to catch and saddle the two best horses. All this was done in a very short time, for I guessed that every moment was precious to us.

We then mounted and made off from the fire. My wife, who is an excellent rider, stuck close to me; my daughter, who was then a small child, I took in one arm. When making off, as I said, I looked back and saw the frightful blaze was close upon us, and already had laid hold of the house. By good luck, there was a horn attached to my hunting clothes, and I blew it to bring after us, if possible, the remainder of my livestock, as well as the dogs. The cattle followed for a while, but before an hour had elapsed, they all ran as if mad, through the woods and that, sir, was the last of them. My dogs, too, though at all other times, extremely tractable, ran after the deer, that in herds sprang up before us, as if fully aware of the death that was so rapidly approaching.

We heard blasts from the horns of the neighbors, as we proceeded, and knew that they were in the same predicament. Intent on striving to the utmost, to save our lives, I thought of the large lake, some miles off, which might possibly check the flames; and urging my wife to whip up her horse, we set off at full speed, making the best way we could over the fallen trees, and brush heaps, which lay like so many articles placed on purpose, to keep up the terrific fire that advanced with a broad front upon us.

By this time we could feel the heat and we were afraid that our horses would drop every instant. A singular kind of breeze was passing over our heads, and the glare of the atmosphere shone over the daylight, I was sensible of a slight faintness, and my wife looked pale. The heat had produced such a flush in the child's face, that when she turned towards either of us our grief and perplexity were greatly increased. Ten miles, you know, are soon gone on swift horses; but notwithstanding this, when we reached the borders of the lake, covered with sweat, and quite exhausted, our hearts failed us. The heat of the smoke was insufferable, and sheets of blazing fire flew over us in a manner beyond belief. We reached the shore; however, coasted the lake for a while, and got round on the lee side. There we gave up our horses, which we never saw again. Down among the rushes we plunged, by the side of the water, and laid ourselves flat to await the chance of escaping from being burned or devoured. The water refreshed, us and we enjoyed the coolness.

On went the fire, rushing and crashing through the woods. Such a sight may we never see again! The heavens themselves, I thought were frightened, for all above us was a red glare, mixed with clouds of smoke, rolling and sweeping away. Our bodies were cool enough, but our heads were scorching, and the child, who now seemed to understand the matter, cried so as nearly to break our hearts.

The day passed on, and we became hungry. Many wild beasts came plunging into the water beside us, and others swam across to our side, and stood still. Although faint and weary, I managed to shoot a porcupine, and we all tasted its flesh. The night passed, I cannot tell you how. Smouldering fires covered the ground, and the trees stood like pillars of fire, or fell across each other.

It would be both ungrateful to him, and unmanly to despair now. Hunger once more pressed upon us, but this was easily remedied. Several deer were still standing in the water up to the head, and I shot one of them. Some of its flesh was soon roasted; and after eating it we felt wonderfully strengthened.

By this time the blaze of the fire was beyond our sight, although on it, the ground still burning in many places, and it was dangerous to go among the burnt trees. After resting awhile, and trimming ourselves, we prepared to commence. Taking up the child, I led the way over the hot ground and rocks; and after two weary days and nights, during which we shifted in the best manner we could, we at last reached the woods, which had been free of the fire. Soon after, we came to a house, where we were kindly treated for a while. Since then, sir, I have worked hard and constantly as a lumberer; but thanks be to God, here we are, safe, sound and happy.

THE WHITE HOUSE IN 1784.—A Mr. Wanseey, whose published notes of a tour in this country in 1784 have recently been the subject of notice in the American papers, gives the following description of a breakfast at the White House. "Mrs. Washington herself made tea and coffee for us. On the table were two small plates of sliced tongue, dry toast, bread and butter, but no boiled fish, as is the custom. Miss Custis, her grand daughter, a very pleasing young lady, of about sixteen, sat next to her brother, George Washington Custis, about two years older than herself. There was but little appearance of form; no livery. A silver urn for hot water was the only expensive thing on the table. Mrs. W. appears to be something older than the President, although born in the same year, short in stature, rather robust, very plain in her dress."

PRICES OF WOMEN, COLD AND WARM.—A lovely female slave, warm from the mountains of Circassia, and warranted not to be second-hand, may be bought at Constantinople for three hundred dollars. A lovely female statue, cold from the marble mountains of Carrara (and spotless as the snow, without a doubt.) was lately sold for three thousand dollars! Something would seem to be wrong here—the "clay tariff," or the Ottoman "protection," or something. Various questions arise: Is an original woman a favorite article? Is the imitation, by Power, of the fabrics of Nature & Co., an improvement upon the model? Is the presence of the faculty of speech in the cheaper article any special indication of a preference that can be relied upon in the buyer? Perhaps some extensive dealer in both articles will oblige us with a solution of this mercantile problem.—Willis' Evening Mirror.

A LEFT-HAND COMPLIMENT.—The Leicester (Eng.) Chronicle relates an anecdote, connected with the too common practice of complimentary toasts, which is well worth the smile its record produces. It seems that in the list of toasts to be proposed at a recent dinner in a town in Nottinghamshire, was the health of a certain country gentleman, with thanks for his attendance. Some circumstances intervened to prevent the worthy squire dining with his neighbors and tenants, and of course the toast required slight alteration. The person into whose hands the toast was given, thought it would not do to propose it without some thanks, and considering that so powerful a neighbor should be thanked for almost every thing he did, proposed—"The health of —, Esq., and thanks for his non-attendance!"

NO GOING UP IN UNPLEASANT COMPANY.—Among the many foolish freaks of Millerism, one circumstance is related as having occurred in Portland, on the 23d, which resulted in the conversion of at least one sister from Millerism to common sense. The story runs thus: "This weak sister, with her weaker spouse, had repaired to the grave yard near Munjoy, to await the looked for moment; and while waiting, the husband proposed to his wife (it seems she was a second wife) to assist him in disintering the body of his dear first wife, that she might accompany them upward. The wife stared, and then putting her lips at him, said, "No! If you want your wife to go with you, take her and be hanged; I won't go with her, that I won't."

CUNNING.—Cunning is the art of concealing our own defects, and discovering other people's weaknesses.—Or it is taking advantage of others which they do not suspect, because they are contrary to propriety and the settled practice. We feel no inferiority to a fellow who picks our pockets though we feel mortified at being over-reached by trick and cunning. Ye there is no more reason for it in the one case than in the other. Any one may win at cards by cheating, till he is found out. We have been playing against odds. So any one may deceive us by lying, or taking an unfair advantage of us, who is not withheld by a sense of shame or honesty, from doing so.

Those who possess any real excellence, think and say the least about it.

GREAT ATTRACTION At No. 1, Brick Row.

RECENTLY FROM ELMIRA, are now receiving and opening a splendid assortment of Drugs, Medicines, Paints, Oils & Dye Stuffs, & in addition a full and complete assortment of FAMILY GROCERIES. The stock consisting in part of the following:

December 20, 1844. HATS for sale, and also the best assortment of CAPS in town at BAIRD'S, September 30. No. 3, Brick Row.

Wright's Vegetable Indian Pills. IF, during during the continuance of Storms, Floods, and the channels of our mighty rivers become so obstructed as to afford an insufficient outlet for the superabundant waters, we can expect nothing less than that the surrounding country will be OVERWHELMED WITH THE FLOOD. In a like manner with the human body—if the Skin, Kidneys, and Bowels, (the natural outlets for USELESS AND CORRUPT HUMORS) become so obstructed as to fail in affording a full discharge of those impurities which are in all cases THE CAUSE OF SICKNESS: we surely can expect no other result than that the whole frame will sooner or later be OVERWHELMED WITH DISEASE. As in the first place, if we would prevent an inundation we must remove all obstructions, to the free discharge of the superabundant waters. So, in the second place, if we would prevent and cure disease, we must open and keep open, all the Natural Drains of the body.

WRIGHT'S INDIAN VEGETABLE PILLS. Of the North American College of Health, will be found one of the best if not the very BEST MEDICINE IN THE WORLD for carrying out this beautiful and simple theory; because they completely cleanse the Stomach and Bowels from all Bilioous Humors and other impurities, and at the same time promote a healthy discharge from the Lungs, Skin, and Kidneys; consequently, as all the Natural Drains are opened, Disease of every name is literally driven from the Body. Caution.—As the great popularity and consequent great demand for Wright's Indian Vegetable Pills has raised up a host of counterfeiters, country agents and storekeepers will be on their guard against the many impostors who are travelling about the country selling to the unsuspecting a spurious article for the genuine. It should be remembered that all authorized agents are provided a Certificate of Agency, signed by WILLIAM WRIGHT, Vice President of the N. A. College of Health. Consequently, those who offer Indian Vegetable Pills and cannot show a Certificate, as above described, will be known as impostors. The following highly respectable Storekeepers have been appointed Agents for the sale of WRIGHT'S INDIAN VEGETABLE PILLS, and of whom it is confidently believed the genuine medicine can with certainty be obtained: BRADFORD COUNTY, PA. D. & E. D. Montanye, Towanda. D. Brink, P. M. Hornbrook. S. W. & D. F. Pomeroy, Troy. Lyman Durfy, Smithfield. J. J. & C. Warford, Monroeton. Wm. Gibson, Ulster. Ulysses Moody, Asylum. John Horton Jr., Terrytown. Coryell & Co., Burlington corners. Benjamin Coobaugh, Canton. L. S. Ellsworth & Co., Athens. Allen & Stora, Shekephens. Guy Tracy, Milan. A. R. Soper, Columbia Plains.

OFFICES devoted exclusively to the sale of the medicine wholesale and retail, 225 Greenwich street, New York, No. 198 Tremont street, Boston, and 169 Race street, Philadelphia. DAWAR & CO.—The public are respectfully informed that medicine purporting to be Indian Pills, made by one V. O. Falck, are not the genuine Wright's Indian Vegetable Pills. The only security against imposition is to purchase from the regular advertised agents, and in all cases be particular to ask for Wright's Indian Vegetable Pills. [no. 6m] IMPORTANT INFORMATION. IT is a prevailing opinion among the enlightened Physicians of our country, that Cancer is a mass of living animalcule, which have taken up their abode in the human system. No matter how small, or how low in the scale of animated nature, the individual composing Cancer may be, they were so tenacious of existence, that the knife or the most powerful caustic, are the only means by which they can be removed. When permitted to remain, they never fail to multiply and spread to neighboring parts, committing the most frightful deprivations, until death comes to the relief of their victim.—Worms in children, may be considered somewhat analogous. If they are less fatal, they are infinitely more common; and if suffered to remain, produce consequences scarcely less alarming. If the testimony of medical writers is to be relied upon, they often produce mania, apoplexy, epilepsy, palsy, convulsions and many other diseases equally dangerous, and often fatal. But here the parallel stops, Cancer being one of the most obdurate diseases, with which physicians have to contend, while worms are easily dislodged by proper remedies. HERRICK'S VERMIFUGE, has proved one of the most valuable medicines ever offered to the public for destroying worms in children. Hundreds of cases might be enumerated, where it has produced the happiest results. It is a syrup, and therefore easily administered to children. Price 25 cents per bottle.

THE POCAHONTAS PILL. In the present age, when "Patent Medicines" are so numerous, and their properties so unblushingly eulogized by their respective proprietors, it becomes necessary for the public (to guard against imposition) to require some authentic evidence of their sanative properties. The Pocahontas Pill is not offered as an antidote for all the diseases of which flesh is heir. We merely purpose to show, by the successive publication of certificates, voluntarily offered, that their present popularity is well founded; and, that as a purgative medicine, they have proved pre-eminently beneficial. These Pills are compounded according to the rules of medical science, are entirely vegetable, and may be safely given to cleanse the stomach, purify the blood, remove inflammation, and correct the morbid secretions, without regard to age, sex or condition. Certificate of Mr. Wm. Follmer, of Turbet, Northumberland county, Pa., says—"For some years past, I have been suffering from a severe and alarming disease of the liver. Several physicians had prescribed for me, and I had taken many articles highly recommended in the papers, without any benefit. About twelve months ago, I began using the Pocahontas Pills, and am happy to say, that in a few weeks I found my disease entirely removed; since which I have been free from cough and pain in the side, and consider my malady radically cured." Price 25 cents per box. Agents for the sale of the above medicine in Bradford County: A. D. Montanye, Towanda; J. J. & C. Warford, Monroeton; A. Dewing, Warrenham; Guy Tracey, Milan; George A. Perkins, Athens; Wm. Gibson, Ulster. 12—m6
