Miscellancous.

Mrs. Caudle's Curtain Lectures. Mr. Candle has been whispering with the Maid. Hes. C. jealous and indignant.

A pretty pass things have come to, Mr. Caudle. Men won't know who are their own wives, by and by. So, your good character, nor well trained and Skylarks are not enough to take your attention from your wife, but you must be saying soft things to our maid of all work! You say you didn't? I say you did. families. Their sons are growing up You need nt think to deceive me, Caudle. I see it all. I know you too well h's a burning shame, so it is, that you, the father of a lovely family, and the husband of a devoted wife, should whisper to the maid. But you did, Mr. Caudle. 1-say-you-did! You didn't? Was ever a man so deceiful? What is your word worth, Mr. Caudle, when you lie right into my face! But the maid shall budge. I won't keep her another day. She shall go bag and baggage, if I have to do all her work myself. Lord knows I work hard enough as it is. But I won't have that wench about the house. Poor girl, you say? Well, there now, that is as much as to own it. You would'nt say poor girl, Mr. Caudle, if you was'nt in love with her. It's no use. I see how it is. Poor girl, indeed! I should like to know who is to support poor girls, who don't know where they belong, or how to behave themselves. We women work and drudge, just to see our maids of work do nothing but whisper with our husbands. But I'll not endure it, Caudle. You say hold my tongue? No I'll not hold my tongue! A pretty figure I should make holding my tongue, and you whispering all the time with my maid.

I tell you again, it's no use for you to deny it. I see the guilt in your face; or I should see it if there was a light in the room. The more shame for you, for blowing out the candle so long before you got into bed. Men dont't blow out candles unless they have something to ashamed of. But I'll not endure it. I'll go home to my mother, Mr. Caudle, No, I won't. I'll discharge that maid first. Poor girl, again! Do you say that, Caudle? you would provoke a saint. But I'll have my revenge. I'll tear the house down aboutyour ears. We'll see ry favor; for requital may be difficult, then who'll whisper to the maid. No- and the thoughts of it are afflicting. thing good comes of whispering. I should like to know what honest folks have to whisper about. I don't whisper? wake all sleep out of you.

And next we shall have an elopement. dle, Esquire, gone off with his servant wife and three children. 'The maid not handsome, either. I say not handsome. story for the rising generation to read? rould take more than one province with-You say you will clope if I don't hold out a reinforcement. my tongve? I say you shan't elopeand I won't hold my tongne. It's not often that I use it, goodness knows. I'll watch you. I'll follow you to the ends of the earth, like a poor, patient, abused wife as I am. But you shan't go. I'll tear the girl's eyes out first. And you phis?' Ye shau't go to sleep, either. You only make me believe your asleep. I know when a man's as'eep. You need'nt with desperate speed, for the bell was snore so, for I don't hear it. I don't then loudly ringing. snore. I do-nt sn-sno-re-

Here Mrs. Caudle's clam-shell closed from very weariness.

Scoiding.

It has neither reason, religion, common sense, nor experience, to recommend it. While there are reasons many and mighty to justify its total and immediate abolition. It sours the temper of the children; so that one thoror three more. It sours your temper provided it is sweet, which is a question if you are prone to scold; and thus the more you scold, the more you have become crosser, and your children and it will turn from you. likewise.

Scolding alienates the hearts of your children. Depend upon it, they cannot love you as well after you have berated them as they did before. You may reproach them with firmness and decision, you may punish with severity adequate to the nature of their offences, and they will feel the justice of your conduct, and love you notwith-standing all. But they hate scolding. in their estimation. Especially at night, when they are about to retire. their hearts should be melted and moulded with voices of kindness, that souls, and whispering peace.

ing with Wilberforce in his veranda," says a friend, " watching for the opening of a night blowing cereus. As we stood by in expectation, it suddenly burst wide open before us. "Itreminds me," said he, as we admired its beauty. "of the dispensations of Divine Providence first breaking on the glorified eye, when they shall fully unfold to the view, me to thee," as the horse said when he and appear as beautiful as they are kicked off his traces and ran away from the planet."

The Idolatry of Wealth.

This insane and insatiable passion for accumulation, ever ready, when circumstances favor, to seize upon the public mind, is that "love of money which is the root of all evil." that " covetousness which is idolatry." It springs from an undue, an idolatrous estimation of the value of property. Many are feeling that nothing, nothing will do for them, or their children, but wealth; not a well executed faculties, not virtue, not the hope of heaven-nothing but wealth. It is their god, and the god of their to the same worship of it, and to an equally baneful reliance upon it for the future; they are rushing into expenses, which the divided property of their father's house will not enable them to sustain; and they are preparing to be, in turn and from necessity, slaves to the same idol. How truly is it written, that "they that will be rich, fall into many temptations and a snare, and fall into many foolish and hurtful lusts, in. This perspiration flows uninterruptedly which drown men in destruction and when we are in health, but ceases when we are perdition!" There is no need that sick. It should be the care of every one to see rich. All the noblest functions of life ed without it. It is thrown off from the blood may be discharged without wealth, all this means, of nearly all impurities within use. its highest honors obtained, all its purest The blood by this means only, works itself pleasures enjoyed; yet I repeat it, no-thing will do but wealth. Disappoint blood is the life." If it ever becomes impure, a man in this, and he mourns as if the it may be traced directly to the stoppage of the a man in this, and he mourns as it the insensible perspiration. It never requires any highest end of life were defeated. Strip internal medicines to cleanse it, as it always him of this, and this gone, all is gone. Strip him of this, and I shall point to no unheard of experience, when I say, all the offending humors, through the insensible he had rather die than live. he had rather die than live.

The officer said he would try, and set about executing it! but remarked. Mr. Caudle, Would'nt that be a fine that he would be d-d if he thought he | quences are generally fatal.

> IMPORTANT INFORMATION .- ' Hallo!' pared a locose steamboat going into a stranger's berth and giving him a tremendous shake. 'Hallo, don't you want to go ashore at Mem-

'Yes, yes, to be sure !' said the man, jumping up and dragging on his boots

'Well, we are just at Natches now,' replied the other, 'I thought I'd let you know.' He then closed the door and walked off.

Don't GRUMBLE !-He is a fool that grumbles at every mischance. Put the best foot forward, is an old and good best foot forward, is an old and good physic to unstop the pores? Or would you maxim. Don't run about and tell acapply something that would do this upon the quaintances that you have been unfor-surface, where the clogging actually is? Would quaintances that you have been unfortunate. People do not like to have unough scolding prepares the way for two fortunate men for acquaintances. Add to a vigorous determination, a cheerful spirit; if reverses come, bear them like of doing it. Under these circumstances, I prea philosopher, and get rid of them as will have to scold, and because you panther-look it steadily in the face,

> The following toast was recently given at Ogdensburg, New York:

Woman .- A mother, she cherishes Woman.—A mother, she cherishes power to penetrate the lungs, liver, or any part off to the surface. How easy and how natural and corrects us; a sister, she consults and counsels us; a sweetheart, she conquests and conquers us; a wife she consults of the human system, and to act upon them, if they be diseased, by separating the inflamed ple and fallosophical.

Sore Lips, Chapped Hands 4c.—I sell a conquests and conquers us; a wife she morbid particles therefrom, and expelling them comforts and confides us; without her what would become of us?

EMENDATION BY A BACHELOR .- A mother, she scolds and spanks us; a It stirs up the bad blood, while it dis- sister, she tells of and pinches us; a closes your weakness, and lowers you sweetheart, she coquets and jilts us; a cutire cuticle to its healthy functions. wife, she frowns, pouts, frets, cries, and It is a remedy that forbids the necessity of face is fee from any matter that may be lodged torments us; without her what would so many and deleterious drugs taken into the under the skin and frequently breaking out to wife, she frowns, pouts, frets, cries, and there be to trouble us?

To PRESERVE EGGS, dip them in a they may go to their slumbers with strong solution of lime, thick whitethoughts of love stealing around their wash; after letting them dry, pack then away in plaster of Paris. It is BEAUTIFUL THOUGHT .- "I was walk. | said the Germans practice this method successfully.

> To Preserve Milk.—In very warm weather, put two tablespoonsful of salt in to every pail of milk before straining; it will greatly improve the quality and quantity of butter.

"The last link is broken that bound in the second

FIGHE preceding figure is to represent the INSENSIBLE PERSPIRATION. It is the great evacuation for the impurities of the body. It will be noticed that a thick cloudy mist issues from all points of the surface, which indicates the wonderful process going on with-

they should be rich, but they still be that it is not checked. Life connot be sustainpurifies itself by its own heat and action, and throws off all the offending humors, through ry when the blood is stagnant or infected, is to Counsels and Cautions .- Do not open the pores, and it relieves itself from all impurity instantly. Its own heat and vitality are sufficient, without one particle of medicine, except to open the pores upon the surface .gave all diligence, who speaks that nal remedies. All practicioners, however, di-wicked word. piration, but it seems to be not always the proper one. The Thompsonians for instance, steams, the Hy ropathist shrouds us in wet blankets, the Homopathist deals out infinitissimercury, and the blustering quack gorges us with pills, pills, pills.

But one object only is in view, viz: to re-

store the insensible perspiration. If this can be done, they say, we will take care of the rest. It will be seen, therefore, that all physicians understand alike what is necessary to a recovery, how much they may differ as to the mode of obtaining it.

To give some idea of the amount, and consequently the importance of the insensible perspiration, we will state that the learned Dr. Lewenhock, and the great Boerhaave, ascertained that five-eights of all we received into the stomach, passed off by this means. In other words, if we eat and drink eight pounds per day, we evacuate five pounds of it by the insensible perspiration.

This is none other than the used up particles of the blood, and other juices, giving place to the new and fresh ones, by carrying with it all the impurities within, up to the surface: To check this, therefore, is to retain in the system five eights of all the virulent matter that nature demands should leave the body. And even when this is the ease, the blood is of so active a principle, that it determines those particles, to the skin, where they form scabs, pimples, ulcers, and other spots; but if it is directed in-wards, and falls upon the lungs, the conse-

By a sudden transition from heat to cold, he pores are stopped, the perspiration ceases. and disease begins at once to develope itself .-Hence, a stoppage of this flow of the juices, originates so many complaints. It is through the surface that we imbibe nearly all our ills. It is stopping the pores, that overwhelms mankind with coughs, colds, and consumption.

Nine-tenths of the world die from diseases induced by stoppage of the insensible perspiration. It is easily seen therefore, how necessary is the flow of this subtle humor to the surface, to preserve health. It cannot be stopped; it cannot even be checked, without producing disease. The blood and intestines must relieve themselves of all their worn-out particles, and

poisonous humors, and they must go through

the pores as nature designed. Let me ask now, every candid mind, what course seems the most reasonable to pursue, and unstop the pores, after they are closed and let the perspiration flow, that the blood may relieve itself of its impurities? Would you give not this be common sense? And yet I know of no physicisn who makes an internal application to effect it. The reason I assign is, that any internal remedy will cure one. no medicino within their knowledge, is capable

to the surface.

It has power to cause all external sores, scroto discharge their putrid matter, and then heals It acts like a charm in these complaints. Two

It is a remedy that sweeps off the whole catalogue of cutaneous disorders, and restores the

. It is a remedy that neither sickens, gives inconvenience, or is dangerous to the intestines. This remedy is probably the only one now known, that is capable of producing all these great results. Its great value is in restoring at

once, the circulation of the juices when checked, or disarranged by cold or other causes. It preserves and defends the surface from all derangement of its functions, while it keeps open the channels for the blood to avoid all its impurities and dispose of all its useless particles.-There is a connection, harmony, and feasibility in all that defies contradiction. It is a simple, but wonderful principle that preserves in healthy operation the entire machinery of our being. It indissolubly holds together the surface and the internal viscera, the internal viscera

of openings to relieve the intestines. Stop up these porce, and death knocks at your door,-It is rightly termed All-Healing, for there is scarcely a disease, external or internal, that it will not benefit. It will be found the most useful as well as the cheapest family medicine in the world. I have used it for the last fourteen years with success without a parallel. I have used it for all disease of the chest, consumption, liver, and the most dangerous of internal mala dies. I have used it in cases of extreme perd and hazard, involving the utmost danger and responsibility, and I declare before Heaven and man, that not in one single case has it failed to benefit, when the patient was within the reach

of mortal means. I never, to my recollection had more than five or six among the thousands who have used it, say that it was not favorable to their complaint. On the contrary I have had hundreds return voluntarily, and in the warmest and most pathetic language speak in its praise. I have had physicians, learned in the profession; I have had ministers of the gospel, Judges on the bench, aldermen and lawyers, gentlemen of the highest erudition and multitudes of poor, use it in every variety of way, and there has been but one voice, one united, universal voice saying "McAllister your ointment is good."

Consumption.—Of all diseases, we find this

the most important, and concerning which we meet with the most opposition. It can bardly be credited that a salve can have more effect upon the lungs, seated as they are within the system. But we say once for all, that this ointment will reach the lungs quicker than any medicines that can be given internally. Every body consents to the fact that if healing medicine could be applied on the lungs, there would be great hopes of recovery. The diffi-culty is to get the medicine there. Now the Salve has the wonderful virtue of extracting the putrid humors from all external scree by causing them to discharge. In like manner it operates upon internal affections by driving all the impurities through the pores to the surface. Thus with consumption, if placed upon the chest, it penetrates directly to the lungs, separates the poisonous particles that are consuming them and expels them from the system.

It is the simplest and most rational proces n creation, if one has the medicine capable of doing it. The All Healing Ointment possesses this power to the fullest extent. I need not say that it is curing persons of Consumption continually, although we are told it is foolish-ness. I care not what is said, so long as I can cure several thourand persons yearly. If this medicine was in the hands of some patent medicine brawlers, they would make an uproar through the country that would be insupporta-

Scrofula or King's Evil .- This disease is really inveterate, and hard to be subdued. It is generally seated in the sides of the neck, behind the ears and under the chin, yet scarcely any part of the tody is exempt. It sometimes falls upon the lings and produces consump-tion. It is a deadful circumstance, that this disease is transpitted from parents to children.

The Salve will extract all the morbid matter by causing the sores to discharge; and then let then the Sohr Tincture be used to drive it to one point, which done, a continuance of the Ointment will completely remove this disorder. This is the safest and most effectual of any method. It should be adopted without a moments hesitation.

Erysipelas -This complaint arises from impurities being criven out to the surface by means of the insensible perspiration, and lodging in the cuticale, forms sores, pimples &c., it being of a caustic, acrid putrifying nature. It only requires that it should discharge its virule particles through the skin, and the difficulty will past off, If suffered to remain, and driven inwards it is frequently fatal.

Let the salve and Solar Tincture be used as

n scrofula and the patient will soon get well. Salt Rhum.-This is another obstinate disease but can be cured effectually as the scrofula. There is no difficulty in this disease.

Head the, Ear ache and Deafness .- The Salve hadcured persons of the Head-Ache of 12 years standing and who had it regularly every wek, so that vomiting often took place. ife of a man v face for proposing such a cure, and who now would fot be without it for the best farm in the State. If any one will take the trouble to call I will give his name.

Dedness and Ear-Ache are helped with the

like siècess as also Ague in the face. Cod Feet .- Consumption, liver complaint, pains in the chest or side, falling of the hair, one or the other always accompanies cold feet. It is a sure sign of disease in the system to hard cold feet. Some persons are totally una-ble to get them warm, and endure much suffering thereby.

The salve will restore the insensible perspiration and thus cure every case. It is infalli-

Asthma, Tightness of Breath.-If this disese is not bereditary and produced by the malfirmation of the chest, the salve will cure it. Dyspepsia.—One would suppose a salve vould not glect this disease much but the All-Realing Oittment will cure two sooner than

Sore Eyis .- The inflamation and disease always lies bick of the ball of the eye in the socksent to physicians and to all others, a prepara- eu Hencethe utility of all remedies that are soon as you can. Poverty is like a tion that has this power to the fullest extent— used upon he lids. The virtue of any medinanther—look it steadily in the face. It is McAllister's All-Healing Ointment or the cine must each the scat of inflation or it will World's Salve. It has power to restore perspi- do little good. This salve if rubbed on the ration on the feet, on the head, around old sories, upon the chest, in short, upon any part of the body, whether diseased slightly or severely. When the perspiration is restored, it has will be created and the disease will soon pass

> great dea of salve to Seamen, who say it is the It has power to cause all external sores, scrol only thing they can depend on to cure their fulous humors, skin diseases, poisonous wounds raw hand, when exposed to the weather at sea.

or three pplications cures.

Pimpts on the face freekles, tan, masculine skin, gres surface.—Its first action is to expel all hums. It will not cease drawing till the comes a soft and delicate as a child's. It throws a freshres and blushing color upon the now white tensparent skin that is perfecily enchanting. cometimes in case of Freckles it will first start on those that bave lain hidden and seen but selpm. up matter within. It is pierced with millions I fill a book. I suppose there is not a family in | althe United States, that would consent to be without this salve a single day if they know its balm in healing Burns alone. It extracts the pain and leaves the place without a scat, and Quinsy sure throat, Influenza, Bronchitis

"There is not an internal remedy in existence that will cure these disorders as quick as the salve. It opens the pores on the neck and draws off all the inflammation and impure jui ces, and a few days will see the patient well.

It is sovereign in these cases.

Piles.—The salve acts upon the piles as up on sore eyes. There is an inflammation which must be drawn from the parts. The salve does

Hernia or Rupture .- This salve has cured some very bad cases of rupture, and although it might not all, yet it would be wise to try it.— It is a pecular complaint, but it may be helped ome, if not cured entirely. I have not the shadow of a doubt that it would cure thousands if the trial was made, who believe no medicine of the least benefit.

Two shillings worth would satisfy any one. whether if would do good or not.

Worms:—If parents knew how fatal most medicines were to children taken inwardly, they would be slow to resort to them. - Especially "mercurial lozenges," called "medical lezen-ges," "vormifuges," pills, &c. Even were it possible to say positively that worms were pre-sent, it is not safe. The truth is, no one can tell, invariably, when worms are present. Of course the remedy is not applicable to the complaint. Now let me say to parents, that this salve will always tell if a child has worms.— Let it be rubbed on the neck and chest, to keep them from going up, and then down on the bowels and they will soon leave. It will drive every vestige of them away. This is a simple and safe cure. No injury can come of it in any way. But should it be cholic, inflation of the bowels, or gripe of the intestines, it will ef-

fectually cure them as the worms. There is probably no medicine on the face of the earth at once so sure and safe in the expul-

sion of worms. It would be cruel, nav wicked, to give internal doubtful medicines, so long as a harmless certain, and effectual external one could be had.

Cholic, Pain, or Inflammation of the Bow-els.—Let the salve be rubbed in and heated with the fire or hot flat irons, and all pains and difficulty will soon cease.

Swellings of the joints, or weakness, or any affection of the bone, nothing is so good for as Poisons.—I never knew anything so good as

this salve. It causes the poison to discharge immediately, and leaves not the slightest cause of alarm. Poisons by nails, bites of animals, burns, it removes when nothing else will. Toilet .- I have it done up in fine order for

the dressing case. Although I have said little about it as a hair restorative, yet I will stake it against the world! They may bring their oils far and near, and mine will restore the hair two cases to their one. These are no idle words for I am ready to back it with any reasonable

Old Sores, Mortification, Ulcers, &c.—There is no effectual way of curing these, but drawing off the putrid matter. To merely, dry it up would only endanger one's health more." some sores are an outlet to the impurities of the system, is the only reason, because they cannot pass off through the natural channels of the In ensible Perspiration If such sores are healed up, the impurities must have some other outlet or it will endanger life. This is the reason why it is impolitic to use the common salves of th day in such cases. For they have no power to open other revenues, to let off all this morbid matter, and the consequences are always fatal. This salve will always provide for such emergencies. There need be no fear. It is perfect

Broken Breast .- Persons need never have a broken bresst. The salve will always prevent

t. if used in season. Liver Complaint .- Personshaving this complaint frequently have eruptions of the hands, ace and other parts, and never once this k that it arises from the liver. Their atter inability to remove these irruptions, proves their misapprehension of the disorder. Such must use it first on the feet, then wear it on the chest, and the

Illiac Passion or Griping of the Intestines.
-This disease caused the death of the late H. S. Legare, Attorney General and acting Secretary of the United States It is the stopping up of the smaler intestines, and sometimes the twisting of them. It is brought on by a neglect of the daily evacuations, or from incarcerated Hernia. The pams are awful, and unless

help comes speedily, the sufferer soon dies. The All-Healing Ointment would have saved the life of Mr. Legare and all others under similar circumstances.

Corns.—If the salve is used according to di creons, people need never be troubled with orns—especially cut out by some travelling mountebank who knows he is doing more mis chief than he can possibly repair. A little of this ointment put on now and then will always

keep them down.
Indeed there are few complaints that it will not benefit. It is a Family Salve of untold value. As long as the sky rolls over one's head and grass grows upon the earth, it will be sought after, used and valued. As there is no mercurial substance in it, but composed entirely of vegetables it gives no good ground for ap-

Wright's Vegetable Indian Pills

F, during during the continuance of Stor and Floods, the channels of OUR MIGHTY RIVERS become so obstructed as to afford an insufficien

pect nothing less than that the surroun country will be OVERWHELMED WITH THE FLOOD. In a like manner with the human body-if the Skin, Kidneys, and Bowels, (the natural on, iets for

outlet for the superabundant waters, we can ex-

USRLESS AND CORRUPT HUNORS). becom so obstructed as to fail in affording a full discharge of those impurities which are in all cases

THE CAUSE OF SICKRES: we surely can expect no other results than that the whole frame will sooner or later be

OVERWHELMEN WITH DISEASE.

As in the first place, if we would prevent an inandation we must remove all obstructions, to the free discharge of the supersbundant waters. So, in the second place, if we would prevent and cure disease, we must open and keep open, all the Natural Drains of the body.

WRIGHT'S INDIAN VEGETABLE PILLS. Of the North American College of Health, will be found one of the best if not the very BEST MEDICINE IN THE WORLD

for carrying out this beautiful and simple theory ; because they completely clense the Stomach and Bowels from all Billious Rumors and other impurity, and at the same time promote a healthy discharge from the Lungs, Skin, and Kidneys; consequently, as all the Natura Drains are opened,

Disease of every name is literally driven from the Body. Caution-As the great popularity and consequent great demand for Wright's Indian Vegetable Pills has raised up a host of cuontorfeiters, country agents and storekeepers will be on their guard against the many imposters who are travelling about the country selling to the

unsuspecting a spurious article for the gennine.
It should be remembered that all authorized agents are provided a Certificate of Agency, signed by WYLLTAM WRIGHT, Vice President of the N. A. College of Health. Consequently, those who offer Indian Vegetable Pills and cannot show a Certificate, as above described, will be known as imposters.

The following highly respectable Stors-keepers have been appointed Agents for the sale

WRIGHT'S INDIAN VEGETABLE PILLS. and of whom it is confidently believed the genuine medicine can with certainty be obtained BRADFORD COUNTY, PA.

J.D.& E. D. Montanye, Towards. D. Brink, P.M., Hornbrook. S. W. & D. F. Pomeroy, Troy, Lyman Durfey, Smithfield. J. & C. Warford, Monroeton. Wm. Gibson, Ulster. Ulysses Moody, Asylum. John Horton Jr., Terrytown. Coryell & Gee, Burlington corners. Benjamin Coolbaugh, Canton. L. S. Ellsworth & Co., Athens. Allen & Storrs, Sheshequin.

Guy Tracy, Milan. A.R. Soper, Columbia Flatts. Offices devoted exclusively to the sale of the medicine wholesale and retail, 228 Greenwich street, New York, No. 198 Tremont street, Buston, and 169 Race street, Philadelphia.

BAWARE OF COUNTERFEITS .- The public are respectfully informed that medicine purpor : ing to be Indian Pills, made by one V. C. Falck, are not the genuine Wright's Indian Vegetable Pills.

The only security against imposition is to purchase from the regular advertised agents, and in all cases be particular to ask for Wright's Indian Vegetable Pills. [nol.6m] Indian Vegetable Pills.
