Later from Hexico.

The British frigate Eurydice, arrived off the Balize, at New Orleans on the 1st inst., bringing information from Vera Cruz of a date as late as the 22d ult. It appears that the Mexican Government finds itself in a dilemma regarding the treaty between Texas and Mexico, which precipitate action might render dangerous. They have raised a war spirit which they discover they cannot quell, and which ren to conciliate appears to be hazardous .-Notwithstanding the large majority which the treaty or the authority to treat, obtained in the Mexican Congress, having passed the chamber by a vote of 43 to 13, and the Senate by 39 to 6, the measure is exceedingly unpopular with the people. The adherents of Santa Anna. and malcontents of every hue and kind. encourage all forms of opposition to the existing government. Knowing the inability of Mexico to engage with the United States in a war, and confident that she cannot rely upon England for assistance, they represent to the igiorant multitudes the invasion of this country is a task of easy accomplishment; and that the British government only waits the word to join them against us. The people are therefore madly in favor of war, and the adoption of any course by the existing government having peaceful tendency, will more than probably result in its overthrow. The friends of Santa Anna and the opposition generally stimulate this warlike spirit to the utmost, and one or two things is rendered almost certain, either that the existing government will declare war against the United States, or that a new revolution will speedily break out and sweep it from existence.

No attemps are made in Mexico to disguise the deep and active interest which Great Britain takes in every thing calculated to prevent the effectuation of the annexation measure. It is said that to accomplish her ends she offers is said that to accomplish her ends she others of to pay the debts of Texas, and to assume for Mexico ten millions of her English bonds. guaranteeing independence to the one, and security from the inroads of the United States to the other.

The Texan or English commissioners, whose name is never heard," was to leave Vera Cruz on the 23d inst. for Galveston, in the French brig-of-war Penur.

Gov. Shannon arrived a few days previous to the sailing of the Eurydice at Vera Cruz, and would leave in a short time for the United States.

Business in Vera Cruz is very dull. This is attributed almost wholly to the prohibitory tariff regulations now in force. It is confidently asserted that Congress will adopt a new tariff before it adjourns.

MELANCHOLY SUICIDE .--- Yesterday morning about 8 o'clock, Mrs. Sarah Maria P. Allen, wife of Mr. John Allen, formerly a Universalist minister, and more recently editor of the Social Reformer, committed suicide by cutting her throat with a razor at the Graham House, No. 23 Brattle street. The unfortunate woman had been for several months laboring under intermissive fits of insanity induced by over excitement of parental sentiment in consequence of the illuess of her little boy, and during Saturday night she made several attempts to throw herself from the chamber window upon the pavement. In the morning she told her husband that she should feel better if she had something to do, and accordingly went about arranging the room. Having made up the bed she requested him to turn t up-it was a torn-up bedstead—and while he was so engaged she went to a drawer, took a razor, stepped into a side room, and before he could reach her inflicted a fatal wound upon her throat; her husband cut his hand severely in getting the instrument of death from her grasp.-Boston Bee.

She had endeared all hearts to her by her kindness, and affection, and well may we pause and drop a tear to her memory.
