Jan. 24. fined \$4000 by Judge Hall for opposing a habeas corpus issued by said Judge during existence of Martial Law, for the release of Louillier arrested by Gen. 1845.—Died at the Hermitage near Nashville, June 8th, at about 5 P. M., at peace with God and man—forgiving his enemies, praying for his country, and ripe for immortality.
ANOTHER VICTIM.—The Baltimore Sun announces the death of Mr. Francis Nowlan, who perished in the explosion of the steam boiler of the tavern in which Paul Ronx was murdered by Henry M'Curry. He came in for a share of suspicion of being engaged in that murderous operation, but subsequent developments have proved that suspicion for the time being was such as to bring him to a bed of sickness, and he has been declining from that time, and death relieved him.
There is scarcely one individual, if indeed there is one, in this community, who believes he had the slightest cognizance of that transaction. He died an innocent man. We hold that he spoke to his friends up to Friday; when the published confession of M'Curry was read to him, he felt that injustice done to him by the murderer on the gallows, and he spoke no more, but breathed his last, without uttering a syllable. He is gone, and in his death there are but few indeed, who do not deem him another victim of that atrocious murderer, M'Curry.
WHEAT IN MICHIGAN.—The Grand Rapids Quaker says that in the county of Ionia Michigan, there is this season over 20,000 acres of wheat, all in first-rate order, furnishing assurances of a large crop. Ionia county said to be one of the first agricultural districts in the State; and it possesses in the navigable streams which penetrate its territory unequalled facilities for getting to market. Water transportation can take the surplus productions of country from the fields of their growth to market of New York.
FOOT RACE.—A Foot Race, in which there were 14 competitors for a purse of \$500, came off in the Cambridge (Mass.) trotting course on Friday 17th ult., in the presence of an immense number of spectators. John Gilliver of New York, took the prize, running 10 miles in 57m. 10s. Michael Cavenagh of Connecticut came in second, taking a purse of \$50, and G. Desmond of Boston came in third, with a prize of \$50.

Carlous Law Case arising out of Millerism.

A case of very novel character, and of considerable interest, will be brought to a hearing at the ensuing term of the United States Court in the city of Boston. The case grew out of the Miller delusion and its history is in the main as follows: A gentleman in one of the larger towns in this State, a manufacturer, engaged in a large and profitable business, became impressed with a conviction that the world was about to come to an end, according to the prediction of Miller. For a time he conducted his business as before, but soon began to see the folly and wickedness of bestowing time and attention upon worldly affairs, when the end of all things was near at hand. He wished to divest himself of his property, retaining only enough for his support till the coming of the great day. His family and friends presented him from throwing away his estate, and at last out of deference, as he said, to their feelings, he disposed of it as he would have done by will, in case of his death. To his oldest son he conveyed all his property, binding him to pay to the rest of the other children their proportionate shares, and taking for himself one thousand dollars, to defray his expenses for the short time the world had then to endure. Having thus arranged all his temporal affairs, he set out in the beginning of 1843, a few months before the time appointed by Miller for the great Conflagration, on a mission through the country, preaching the doctrine of Millerism, and exhorting all to leave their homes and land as he had done, and prepare for the coming of the Lord. He continued his mission till the appointed day had passed. Then his zeal began to abate, and gradually weakened till some months since he came to the conclusion that he had been the victim of a cruel delusion. He engaged again in business of some kind and it is said, required his son to furnish him with more means than he thought it safe to entrust him with, or than he could conveniently spare. Not being able to obtain money in this way, he has commenced a suit against his son for the recovery of his whole property. His plea is that at the time he made the sale, he was laboring under a delusion, and was not therefore in a sound state of mind. The case will excite a great deal of interest, able counsel are employed on both sides. For the plaintiff Messrs. Webster and Choate, and for the defendant Judge Warren and others. The result will be full of importance to hundreds of poor Millerites, who sold or gave away all their possessions, and should the sale in this case be annulled, our lawyers will have rich pickings from the numerous similar suits that will follow.

MONUMENT TO JACKSON.—The citizens of Baltimore have already commenced a monument in reference to the erection of a monument to the memory of Gen. Jackson, in that city; and judging from the enterprise and liberality of the monumental city, there can be no doubt of the accomplishment of this patriotic undertaking; a square of ground on Fairmount Hill having already been given for that purpose, as a donation to the city, provided the structure shall be commenced within two years after the death of that illustrious man.

THERE 'TIS AGAIN.

JUST as they told us on the 10th June. Them confounded BAIRD'S have got New Goods again. In the language of Mrs. Caudle, "Things have come to a pretty pass when them Baird's can go to New York and buy goods just when they please." Yea, Fellow Citizens, they have guessed it exactly; even Henry Sheldon & Co., backed up by our neighbors over the way, can't stop our buying and selling Goods. It is with us as it was with the boy who said "if I had half a dollar, I would find my way into our store at No. 3, and I would find the good people of Bradford County just as they are, and take them out." We now have the pleasure of informing our old friends and the public generally, that we are this day receiving from the city of New York a splendid assortment of our former stock of goods, which have been purchased in the city by one of our firm in person, with "ready funds" and will be sold positively cheaper for cash than goods have ever been in Towanda. We are often asked the question, how it is we can sell goods so much lower than some of our neighbors? We will give you a few of the reasons. First.—We use our own capital, and consequently have no interest to pay. Second.—We occupy our own building, and consequently have no rent to pay. Third.—We have other business on hand which is ample for our support, and consequently need not take our customers for the purpose. Fourth.—We buy 20 goods of Henry Sheldon & Co., and consequently can sell at a cheaper rate than those who do. Now, Ladies and Gentlemen, in order to satisfy yourselves whether you can buy cheaper at No. 3 Brick Row, than at any other place in the world, you have only to continue to do up as you have been doing for nearly three years past. Just drop in before you buy; inquire the price, and examine the qualities of our goods. We know you will be satisfied, and we also know that having looked, you will buy, as you must be satisfied it is your interest to do so. Our new stock consists of DRY GOODS, GROCERIES, HARDWARE, Family Medicines, paints & Oils, and in fact every thing except "Fresh Salt." We leave the printer to inform you of the particulars of this advertisement, to entreat you to visit our store, and call and take a look. "Don't forget the place—NO. 3 BRICK ROW—way above the "Shavin's Bank," a considerable distance from the "Old Arcade, the Hay Scales and the Slaughter-house," but close along by the side No. 2. W. H. A very heavy stock of Groceries, Hardware, Crockery &c. &c. We are prepared to sell at wholesale or retail, and will do so as low (if not a little lower), than the same quality can be bought at any store within 100 miles of this place, for ready pay. And by way of encouraging the honest and industrious "tillers of the soil," we will exchange any of our goods for Good Butter, or Produce of almost any kind. Those, therefore, who have wisely come to the conclusion that it is not good policy to get in debt to the merchant, will be enabled to exchange the produce of their labor for all articles necessary to their comfort and convenience. Yours, in haste, W. H. BAIRD & CO. Towanda, May 5, 1845.
