RETAKEN.—Peter Shear and Mordecai Corsaw, who broke jail in this village on the night of the 1st July, were re-taken in Wilkesbarre, Pa. on the morning of the 9th inst., brought safely back on the 10th, and are now occupying their old quarters. They were captured by Charles Marsh, formerly of this village, who knew them, and Maj. Puterbugh of Wilkesbarre, who share the reward offered for their apprehension between them. Shear and Corsaw would seem not to understand geography very well. On gaining the outside of their cell, according to the account they give, they betook themselves to the bank or the Susquehanna and followed it through all its devious windings to Athens and Towanda, where they bought clothing and trunks, and proceeded under assumed names to Wilkesbarre, arriving there on Tuesday afternoon, one week from the time they made their escape. They then supposed they were two or three hundred miles from Binghamton. They booked themselves for Philadelphia in the next morning's stage, but meanwhile, Marsh got his eye on Corsaw and knew him, and at once suspected he had broken jail. By some means the handbills which were sent in all directions from this place, had failed to reach Wilkesbarre: but Marsh knowing Corsaw had been in confinement, and perceiving that he was shy and anxious ro avoid him, at once set about seeing what discoveries he could make. He soon found that Shear was at one of the taverns, and that it was the design of the two to remain over night. A close eye was kept on them, and the following plan laid to discover whether they were really jail birds or not. They were permitted to get on board the stage in the morning and start off, when Puterbaugh, personating a Sheriff, for the occasion, with Marsh and others, stopped the coach and charged them with being fugitives from justice. This took Shear and Corsaw by surprise; they made an effort at denial—but soon owned who and what they were, suffered themselves quietly to be ironed and to be returned hither. But few dollars in cash were found upon them; and what has become of the four hundred they are supposed to have obtained at the robbery of Mr. White's house, still remains a mystery,—*Binghamton Courier.*

THE HARRISBURG FURNACE.—The large Anthracite Furnace of Messrs. Porter and Burke, at this place, was put in blast on Wednesday last, and so far as the Furnace part of the establishment is concerned, promised to work well. The engine, however, being of a delicate structure, for such heavy service, gave way in some of its parts, one of the blowing cylinders burst out its head, the pumps to raise water, for the purpose of elevating the stock proved defective, and it has become necessary to blow out the furnace, to repair machinery that ought to have been perfect before starting. The proprietors are making every exertion to have the machinery put in good condition in the least possible time, and we trust they may meet with success. The iron already made is said to be of excellent quality, and we understand that Mr. Perry, the gentleman engaged to put the Furnace in blast, gives it as his deliberate opinion, that, with a sufficient engine, she will yield one hundred tons of metal per week.—*Harrisburg Union.*

AARON BURR AND JACOB ASTOR.—Many years since, when Aaron Burr was about to leave for England, he sold his mansion and about twenty acres of pasture and woodland, to Mr. Astor, for $50,000, subject to redemption on his return, by paying the interest.—Burr was Astor's lawyer. Years elapsed, and he came back. In the meanwhile, it had been graded, streets laid out, many improvements made, and consequently the property was greatly enhanced in value. Burr told Mr. Astor he proposed to take the property and refund the money with interest, to which Mr. Astor of course, objected. The writings were examined, and the stipulation struck Mr. A. with surprise. The matter was compromised by paying Burr an additional $50,000. The same property is now worth many millions of dollars.

ANECDOTE OF FRANKLIN.—When Dr. Franklin's mother-in-law first discovered that the young man had a hankering for her daughter, the good old lady said she did not know so well about giving her daughter to a printer—there were already *two* printing offices in the United States, and she was not certain the country could support them. It was plain young Franklin would depend for the support of his family on the profits of the third, and this was rather a doubtful chance. If such an objection was urged to a would be son-in-law when there were but two printing offices in the United States, how can a printer get a wife now, when the last census shows the number to be 1,557?

DEATH OF A CHILD BY EXPOSURE.—Coroner HILLSON held an inquest on Sunday last, upon the remains of an infant, apparently six weeks old, found dead in the woods near Van Wie's Point. A well dressed female was seen by two persons passing down, ten days before, with a child in her arms, under a shawl, and the same person was seen returning without the child. The female was supposed to be 18 or 19 years old. The child is supposed to have been left there to starve. The ground upon which it lay showed indications of its struggles. The verdict was in accordance with the facts disclosed.—Evening Journal.

MISS BLANCHARD.—We see that the papers, all over the country, are killing Miss Henrietta Blanchard, the young woman who shot her seducer at New Orleans. The story is that she died the next day, either of grief or poison. It may be so, but the New Orleans papers have never said anything of the kind, so far as we have seen, and we have examined them with some attention.

THE ASHES OF COMMODORE EDWARD PREBLE, which have remained undisturbed for thirty-eight years in the family tomb in the Eastern cemetery, Portland, were recently removed by the order of his son to a new tomb, above which he intends to erect an appropriate monument.

MELANCHOLY ACCIDENT.—On the night of the 4th, (the last night of the military encampment at Athens, near Lexington, Kentucky,) Mr. Thomas J. Watts, son of Mr. David Watts, of Fayette county, was shot during a sham-fight, and instantly killed.

STEAMSHIPS FROM ENGLAND. The Britannia and the Great Western are now on their passage from Liverpool. The former sailed on the 4th, and the Great Western on the 5th inst. Their news will likely reach New York on the same day—the 17th or 18th instant.

HON. SAMUEL G. WRIGHT, Representative in Congress from New Jersey, has had a relapse, and is now dangerously ill, at Merino Hill, his residence, near Allentown.

DISASTER AT WASHINOTON CITY.—The following melancholy accident, which took place on the evening of the 4th, on the Mall, in the rear of the President's house is described by the United States Journal:

After a number of rockets, and dazzling wheels had been ignited, a half dozen rockets, supposed to be top heavy, or disarranged on the frame, went off together, like so many fiery arrows. One passed the heads of two horses attached to a carriage, when the affrighted animals ran at full speed, separating the dense throng standing in the street, at the imminent peril of life. A black woman was struck by a rocket, the stick penetrating below the shoulder-joint, and in consequence of the wound has since died. Mr. Sutton Magee had his wrist dreadfully wounded, and his children were scorched.

But there was an occurence at the same time, which filled us with feelings the most painful—Mr. James Knowles, of Georgetown, who had been married but a short time, was sitting with his wife on the wall, far, as they supposed, from danger—the distance between them and the pyrotechnics being about a fourth of a mile—but one of the rockets after skimming along the heads of the crowd below, struck him on the left breast, directly over the heart. His wife discovered the calamity as she saw him falling from her side, and in a moment drew out the stick. He died instantly, without a struggle—The most piteous and harrowing lamentations filled the air from one thus, in a twinkling of an eye, reduced to widowhood; and she was led through the gravelled walks, with her white garment's stained with the blood yet warm. Her cries, "he is dead, oh! my husband he is dead!" caused a general out burst of sorrow from the thousands, who, with her, were hastily leaving the tragic scene. It was indeed a sad spectacle, one from which memory turns away with a shudder.

HYDROPHOBIA.—A horse belonging to Mr. Henry Dietrich, in Greenwich township, Pa., was siezed with hydrophobia last week, and exhibited the most horrible symptoms of this fearful malady. He tore the flesh from his bones with his teeth, and died in raving fury. He had been bitten by a mad dog 29 days before.

MORE DEATHS FROM HEAT.—The thermometer in New York keeps up to a high point. More than a dozen persons were carried to the dead house on Wednesday in that city; at least half of them are dead or will die. Most of them were sun stricken, but several were killed or seriously injured by drinking ice water.

## THERE 'TIS AGAIN.

JUST as they told us on the 10th June. Them confounded *BAIRD'S* have got New Goods again. In the language of Mrs. Caudle;—"Things have come to a pretty pass when them Baird's can go to New York and buy goods just when they please."

YES, Fellow Citizens, they have guessed it exactly; even Henry Sheldon & co., backed up by our neighbors over the way, can't stop our buying and selling Goods. It is with us as it was with the boy who said "*it whipt'd itself.*" Goods will find their way into our store at No. 3, and the good people of Bradford county will buy them and take them out.

We now have the pleasure of informing our old friends and the public generally, that we are this day receiving from the city of New York a splendid addition to our former stock of goods, which have been purchased in the city by one of our firm in person, with the "*ready rhino*" and will be sold *positively* cheaper for cash than goods have ever been sold in Towanda.

We are often asked the question, how it is we can sell goods so much lower than *some* of our neighbors? We will give you a few of the reasons.

FIRST—We use our own capital, and consequently have no interest to pay.

SECONDLY—We occupy our own building, and consequently have no rent to pay.

THIRDLY—We have other business on hand which is ample for our support, and consequently need not tax our customers for the purpose.

FOURTHLY & LASTLY—We buy no goods of Henry Sheldon & co., and consequently can sell a leetle cheaper than those who do.

Now, Ladies and Gentlemen, in order to satisfy yourselves whether you can buy cheaper at No. 3 Brick Row, than at any other place in the world, you have only to continue to do as you have been doing for nearly three years past. Just drop in before you buy; inquire the prices and examine the qualities of our goods. We know you will do that, and we also know that having looked, you will buy, as you must be satisfied it is your interest to do so.

OUR new stock consists of *DRY-GOODS, GROCERIES, HARD-WARE, Family Medicines, paints & Oils*, and in fact every thing except "*Fresh Salt.*"

We fear the printers will grumble if we spin out this advertisement, to enumerate the articles. So just call and take a look. ☞Don't forget the place—*NO. 3 BRICK ROW*—'way above the "*Shavin's Bank,*" a considerable distance from "*the Old Arcade, the Hay Scales and the Slaughter-house,*" but close along by the side of No. 2.
