wands on Saturday the 26th instant. wands on Saturday the 26th instant.

The Committee organised by electing G. F. MASON.
Chairman, and V. E. Ploller Secretary, when on motion of D. Vandercook Esq., the following gentlemen
were appointed a committee of vigilance for their respective townships, whose duty it is to call a meeting of the democratic citizens of each election district on Saturday, the 30th day of August next, for the purpose of choosing two delegates to represent said districts in a county con-vention to be holden at the Court House in the Borough Towards on Tuesday, the second day of September

The Committee earnestly recommend that early notice he given of the time and place of holding the township meeting, which ought in all cases to be at the mos meeting, which ought in all cases to be at the most convenient place for general attendance. And further your committee would strenuously urge upon all good democra's the importance of attending the primary meet-ings, thus giving a faithful representation of your demo-crats in the County Convention. The elective offices are important to the public interest, and if democrats wil give proper ettention to the preliminary steps in organizing our party—we shall settle a ticket harmoniously at zeptember court, and rally to its support with that zeal, with which the glorious democracy of old Bradford have

so often triumphed.

In conclusion, we would request the gentleman composing the committees to be active, and afford every facility for a legitimate expression of the democracy—be yourselves present at the meetings and see that every thing be conducted fairly.

## Delegate Meetings.

We wish to call the attention of our democratic readers to the fact, that Saturday, the 30th day of August inst, is the day appointed by the Standing Committee, and sanctioned by custom, for the democratic voters of the county, to assemble in their primary meetings, to choose delegates to represent their respective election districts in the convention to be holden Tuesday of the first court week.

To the committees of Vigilance appointed by th Standing Committee we would suggest, that it is their duty to give fair and seasonable notice of the time and place of holding the election for delegates, by advertisements and otherwise, so that no democrat remain in ignorance of the meeting.

We would urge upon democrats, generally, the imperitive necessity of attending the primary meetings. It is necessary alike to give the voice of the people in the so lection of candidates for office, to ensure harmonious and efficient support to the candidates so nominated, and to make the success of the democratic party certain. Then we say, let no democrat, who is able to attend, stay away from the Delegate meetings.

lection of good and trusty men as dejegates, it will inand a reliance upon the justice and merit of its claims, which will pull down at once disorganization, and warrant our success.

Mar awarence Castleter -- A fatal accident occurred one day last week in Springhill township in this county, by which Mr. Darius Shumway a respectable citizen of that township lost his life. Mr. Shumway and his son were riding in a common lumber wagon, and as they were about to descend a steep hill, Mr. S. walked on shead leaving his son to drive the horses. By some means the horses became frightened and ran off at full speed down the hill, throwing the young man out of the wagon. It is supposed that when they came up with Mr. Shumway he endeavored to stop their career, and in doing so, was struck with some portion of the wagon on the head and instantly killed. He was found just at the road side with his brains literally dashed out.

ROBBERT AT WILKESBARR.-The Jewelry store of W. S. Welles was robbed on the night of the 31st ult. of several valitable watches, and what money there was in the drawer. The real name of the robber is Giles Morehouse; his alias Nelson Morris by which name he was known in Wilkesbarre, and Giles Gregory. He is about 23 years of age, five feet sine inches high, and has a downcast look, rather full face; deessed in black, and a broad brimmed black hat.

Mr. W. offers a reward of \$100 for his detection, if taken north of Mason & Dixon's line.

THE NEW POST OFFICE LAW .- The operation this law, as was expected, has been to decrease the receipts at the several post offices. It remains yet to be seen, whether the increase of corrrespondence will not be sufficient in a few years, to sustain the department.

: The resignation of country postmasters has ceased probably on account of the circular issued by the Postmaster General, increasing the amount of pay received.

IRON ORE OF LACASTER COUNTY .- We understand that Mr. George M. Lauman, of Middletown, and Mr. George Wolf, of Columbia, have purchased a tract of land near Safe Harbor, in Lancaster county, containing one of the largest and most valuable beds of iron ore to be found in the country. This tract of land belonged to Mr. John Miller, contains 105 acres, and was sold for the low sum of \$11,000. The ore is of the same quality as the celebrated Chesnut Hill ore, and the supply is lmost inexhaustible. Bome of the veins are from fifty to sixty feet thick, and they lay so conveniently, that a ton of ore can be mined for twenty-five cents. Another great advantage is, that the ore can be mined and taken in barrows or carts, a distance of a few yards, to boats on the Conestoga Navigation, a continuation of the Tide Water Canal. There is a great abundance of the best of limestone on the spot.

FIRE AT NEWFORT, R. I .- The Ocean Hotel, a large and commodious hotel at that celebrated watering place -Newport, was burned to the ground, on Sunday Aug. 3d. This house was erected winter before last, at a cost of \$36,000, and was insured for \$18,000. The furniture was worth \$25,000-two-thirds saved; insured for \$9,000.

Newport has been crowded with visitors the present eason. There were over three hundred and fifty at the Ocean House, and every place in the city full.

On Sunday, at one o'clock, as the fashionable throng were dressing for dinner, the cook-house caught fire, and soon enveloped the whole fabric-it being of combustible materials-in flames. As soon as the alarm was given, a scene of the utmost confusion ensued. The task of hurrying out baggage and furniture commenced, and the field opposite was soon covered.

The saddest portion of the calamity is the death Samuel Fowler Gardiner, Esq., one of the oldest, wealthiest, and most enterprising citizens of Newport. Rumor already adds the name of other victims.

FIRE IN WILLIAMSPORT .- By the Lycoming Gaette, we learn that on Thursday last, about 12 o'clock, M. the building on the corner of Pine street and Black Horse Alley, in that borough, owned by A. B. Cun-MINGS, Esq., of Philadelphia, and occupied by Mr.WIL-LIAM TILL, was entirely destroyed by fire; and but for the active exertions of the fireman and citizens generally, the whole of that portion the village would again have been a heap of smoking ruins. The stables of Judge Anthony and James Armstrong, Esq., were repeatedly on fire; being separated only by an alley twenty feet wide, from the burning building. Other buildings in the vicinity were also in great danger, and were only saved by dint of the most extraordinary exertions—the thermometer during the two hours that the fire raged standing at 90 in the shade—and the sun during the en tire period pouring its vertical rays on the roofs of the buildings already as dry as powder.

THE OREGON QUESTION .- The Washington Union. illuding to a discussion upon the Oregon question beween the London Foreign Quarterly Review and the Edinburgh Review, says that the administration will " assert and maintain all our rights to the Oregon territory. and that they will preserve and uphold the sacred honor of their country."

The Quarterly goes decidedly for the British claim predicts that our next Congress will throw out any occupation bill, because " it cannot be carried out without varwith England."

The Edinburgh Review proposes to compro the 49th degree, with the advantage in favor of England that the 49th "should cease to be the boundary when i reaches the coast, and that from thence the boundary should be the sea. This would give England the whole of Vancouver's Island," &c.

Advance in the price of Cotton—tremendous sales—Horrible butchery in Algiers—Anarchy in Spain—Elections in Great Britain, &c.

The steamship Cambria, Capt. Judkins, arrived at Boston on Wednesday afternoon in the astonishingly short passage of eleven days. She sailed from Liverpool on the 19th ult. The intelligence is important in a commer

cial point of view. There has been a decided improvement in cotton. The sales have been tremendously

arge, and the prices are one eighth higher. The corn trade exhibited ar improvement in prices in consequence of the variable state of the weather.

American stocks were improving. Money in London was plentiful, and the market was in a healthy state. There has been another decline in iron, and

the tendency was downwards. The intelligence from Algiers gives an account of the massacre of a thousand Arabs by the French. The cavern of the Dahro, where the Arabs had taken refuge. was the scene of this horrid affair. Here they were hemmed in, fagots were lighted, and the unfortunate wretch-

es were burnt and suffocated in their place of

refuge. The French papers contain the particulars of an outbreak in Catalonia. Some of the small towns round Barcelona had been called upon to contribute their quota of men to the army. Spain is in a dreadful condition.

The American Provision market was dull. and with light stocks; but daily arrivals were looked for, which would stimulate, somewhat, this branch of trade.

Iron, it is stated, has proved a disastrous article for speculation, every description of manufactured iron having been reduced 20 per cent., and the tendency was still downward.

The price of American stocks is looking up. The determination of the " drab-colored Pennsylvanians" to shame their traducers has produced this improved feeling, which exists in the Bourse of Paris as well as London.

Money in the British metropolis is plentiful, and the rate of discount is low. The Share market and the Public Securities are in a confiding and healthy state.

proximo. IRELAND .- The 12th of July .- The celebration of the 12th of July by the Orangemen provoked the attacks of the Catholic party in several instances, and in one at Armagh, we regret to say, the affray ended fatally. Several of the persons engaged in the fray were arres-ed, but were rescued immediately with the greatest effrontery. The soldiery paraded the streets during the night, and remained under arms all day on Sunday, to enable the peaceable inhabitants to go to worship.

MINING IN AMERICA.—Agents for parties in he United States interested in the extension and success of mineral works there, are now in England, builly engaged in selecting our best workmen, and engaging them for employment n America; no less than forty of the men at the Bishop Wearmouth Iron Works have been tempted to give up their employment in England, and to proceed to the United States to be employed in a manufactory there.

HORRIBLE TRAGEDY AT DAHARA, IN ALGIERS. -It is thus recorded in the Akbar, of the 5th inst., a French journal published at Algiers:

There has just occurred in the Dahara one of those terrible events which deeply afflict those who behold them, even when convinced of their frightful necessity, and when they are justified in declaring that everything possible was done to prevent the catastrophe.

It is known that the corps commanded by Colonela Pelissier, St. Arnaud, and de l'Admirault, have been carrying on combined operations in the West. Col. Pelissier was busy in pursuing the Ouled Riahs, who have never yet submitted, as they live in immense caverns, where it would be madness for the roops to enter. On the 18th of June, finding themselves closely pursued, the Ouled Riahs flew to their usual place of refuge. After having surrounded the caverns, some fagots were lighted and thrown by the French troops before the entrance. After this demonstration which was made to convince the Arabs that lonel threw in letters, offering to them life and liberty if they would surronder their arms and their horses.

At first they refused, but subsequently they replied they would consent if the French troops would withdraw. The condition was considered inadmissible, and more burning fagots were thrown. A great tumult now arose, and t was known afterwards that it arose from a discussion whether there should be a surrender or not. The party opposed to surrender carried their point, and a lew of the minority made

their escape. Col. Pelissier, wishing to spare the lives of hose who remained in the cavern, sent some Arabs to exhort them to surrender. They refused, and some women, who did not partake of the savage fanaticism of the majority, attempted to fly, but their husbands and relations fired upon them, to prevent their escape from the martyrdom which they themselves resolved to suffer. Col. Pelissier then suspended the throwing of the burning fagots, and sent a French officer to hold a parley with the Ouled Riahs, but his messenger was received with a discharge of fire arms, and could not perform

his mission. This state of things continued till the night of the 19th, when, losing all patience, and nucleus of revolt in the country, the fire was renewed and rendered intense. During this time the cries of the unhappy wretches were dreadful, and then nothing was heard but the cracking of the fagots. This silence spoke volumes. The troops entered and found 500 dead bodies. About 150, who still breathed, were brought into the fresh air, but a portion

In consequence of the annexation measure being effected, a new organization of the militia of the Republic has been ordered; the levies under this regulation, are called the "voluntary defenders of the laws." It is stated that, among other indications of the prospect of a war at Vera Cruz, the inhabitants are busily engaged in covering the flat roofs of their houses with sand, to the depth of a foot or more. in anticipation of a bombardment of the town. An official statement of the military force of the country is published, the aggregate of which is about 30,000. Of this force about 19.000 are infantry, 8,500 cavalry, 2,500 artillery, and 1.300 sappers and miners.

A correspondent of the "Jeffersonian" considers the object of convoking the Mexican Congress to be solely a declaration of war.— Mexico has divided her territory into ten military departments; the fifth comprehends New Leon, Coahuila, Tamaulipse and Texas! Nothing will be done in the way of a declaration of war. until the official news of the action of the 4th of July Convention is received; which news will be brought down immediately by the British frigate Eurydice, it is supposed. Government makes no great bluster about a war, but at the same time is making active preparations, secretly, of a most energetic character, as I am assured by those who know what is going on. The intention is to send thirty thousand men to Texas, and with this object orders have been given to Gen. Paredes, Commander-in chief of the cantoon stationed at Lagos, to march with all his troops to San Luis Potosi. The number of these troops is said by some to be five thousand men, and by some seven thousand-cannot say certainly. It appears that he recommends very strongly the use of letters of marque, and has brought, it is said, from the United States, a copy of the documents which were granted to privateers by our government during the late war.

DESTRUCTIVE FIRE AT ST. JOHNS, N. B .-A great fire took place at St. Johns, (N. It broke out between the blacksmith's shop of Mr. Nesbit and chandlery of Mr. John Walker, at the corner of Ward street and Peters' wharf. The fire was confined to this street and wharf, Water st. and Prince William st., and Johnston's warf. Our correspondent informs us that all the printing offices in town were thrown into confusion by this fire, being either burnt out or removed. It is supposed that there was insurance on much of the property destroyed, but no accurate estimate had heen made. There is no insurance company at St. Johns, so this part of the loss will fallupon other communities.
