

Hon. David Willard.

The talented Representative in Congress from this District, has left our place for Washington, carrying with him the best and liveliest wishes of all who know him.

Mr. Willard stands, pre-eminently, in a lofty and commanding position. The Representative of a large, influential and democratic district, and receiving the confidence and cordial manifestation of the esteem and confidence of his constituents, will give him a position and an influence in the next Congress, which will redound to the credit of our country and our state, and win for him a golden opinion from all men.

Gov. Shunk, and Hon. Jesse Miller.

We find the following remarks in the Pennsylvania, and as a just and faithful well deserved tribute to our present worthy Chief Magistrate, and the Secretary of the Commonwealth, we copy them entire.

Gov. SHUNK AND SECRETARY MILLER.—These distinguished functionaries, now sojourning in this city, were yesterday visited by a great number of our citizens of both parties. As this is the first occasion that has been presented to the people of Philadelphia, since the Governor's election, to take him by the hand, the Democrats, as well as the Whigs, seem to regard it as a pleasant duty to pay their respects to him.

And gave up to party, what was meant for mankind. Though young, he has already won for himself a fame which has extended the length and breadth of our Commonwealth, as a fearless, able and efficient champion of Democracy and of the rights of man. It needs no prediction to mark the confidence and esteem which shall hereafter be placed in him by the people of this state.

Of the members elected to the ensuing Legislature, we notice some prominent gentlemen who may be desirous of reaching the chair; but with all due deference to them and their claims, it is to be hoped that the same unanimity among the democratic members which at the last session elevated Mr. Patterson, will again prevail, and again elect him as SPEAKER.

ECCLIPSE.—An eclipse of the moon came off on Saturday night, last, commencing at about 6 o'clock and continuing for three hours.

REGULAR NOMINATIONS.—The voice of the democracy has pronounced for regular nominations. It is the regular and systematic action of the party acting in unison, and the only way by which we can hope to be for any length of time.

The corner stone of Democracy is REGULAR NOMINATIONS, and a faithful adherence to them by Democratic voters. Every vote withheld from, even if not cast for the opposing candidate, goes to weaken Democracy, and strengthen Federalism.

The power and responsibility of the officers of the nation state, and our own county is in the hands of the Democratic party, and we anticipate a faithful discharge of all the public duties—to be administered for the benefit of the whole people, and at the same time, with such a system of economy as will reduce heavy taxation, give satisfaction to all well disposed citizens, and thereby make the success of Democracy a blessing, instead of a "burning curse," as the enemy pronounced it.

FINLAY PATTERSON.—The election of this gentleman to the State Legislature from Armstrong county, has given great satisfaction, not only to his friends at home, but throughout the Commonwealth. During the session of 1844 and '45 he was Speaker of the House, and it was remarked at the time, that he presided over that body with great promptness and decision, blending with these qualities, at the same time, a courteous and amiable demeanor.

Of the members elected to the ensuing Legislature, we notice some prominent gentlemen who may be desirous of reaching the chair; but with all due deference to them and their claims, it is to be hoped that the same unanimity among the democratic members which at the last session elevated Mr. Patterson, will again prevail, and again elect him as SPEAKER.

ECCLIPSE.—An eclipse of the moon came off on Saturday night, last, commencing at about 6 o'clock and continuing for three hours.

The Washington Union and the Oregon.

The Washington Union of Friday night contains a leading article on "the Oregon Question in the next Congress." Some of its passages are calculated to arrest attention—the Union being the official paper of the government.

We allude, of course, to what we call, with the fullest confidence, THE AMERICAN TERRITORY OF OREGON. On this great subject, within the last three or four years, public sentiment has ripened fast. In the judgment of a vast majority of this nation, the time is rapidly approaching—or, say, rather, has now come—when clear right in relation to this territory should embody itself in positive law.

But, however this may be, whether the negotiations succeed or fail, there can be no doubt that the democratic Congress now about to assemble, will have a great duty to do in relation to Oregon; and we believe that, coming to Washington fresh from conference with their constituents, they will come together resolved to do it.

AGAIN.—This territory lying between the Rocky mountains and the Pacific ocean—drained mainly by the Columbia river—bounded on the north, the east, and the south by mountain chains, and on the west by the ocean—extends from latitude 42 deg. to latitude 54 deg. 40 min. north. It contains more than 400,000 square miles—that is, it is more than twice as large as France, and about half as large as all the States now subject to the Federal constitution.

FUTURE HOME OF THE MORMONS.—Nootka or Vancouver Island, on the Northwest coast of North America, is to be the final destination and home of the Mormon people. This Island is about 300 miles long, and 75 to 100 in width. It is separated from the main land by a long, narrow strait, and lies between the 47th or 48th and 51st or 52d degrees of north latitude, extending along the coast in a northwest direction.

UNION OF THE ATLANTIC AND PACIFIC.—It is said that the Minister of Foreign Affairs in Central America has arranged with a company of capitalists of Belgium, French, and English, to make a ship canal from Lake Nicaragua to the Pacific, the expense of which can be defrayed for ten millions of dollars, which we think can be easily done, using the lake for navigation. It is very possible that in this age of internal improvements, the two seas will be united before much more time elapses, and unless we find ourselves of our unrivalled facilities for communication with the Pacific, by the shortest and most expeditious route via Oregon, England will head us off completely.

Later from Nauvoo.

The Mormons, it would seem, do not consider the treaty which has passed between themselves and the Government of the State of Illinois as very binding. Fresh difficulties are daily arising, and it takes all the ingenuity and tact of the officers in command of the forces stationed in that vicinity to prevent an open outbreak between the citizens and the inhabitants of the county adjoining.

Col. Warren, Judge Purple, and Mr. Brayman, Attorney for the State, visited Nauvoo. Near the environs of the city they saw asembled a force of about two hundred armed Mormons. This being contrary to the order of Gen. Harden, in relation to armed men assembling in the county, Colonel Warren felt it his duty as an officer to inquire into the matter.

Col. Warren, Judge Purple, and Mr. Brayman, Attorney for the State, visited Nauvoo. Near the environs of the city they saw asembled a force of about two hundred armed Mormons. This being contrary to the order of Gen. Harden, in relation to armed men assembling in the county, Colonel Warren felt it his duty as an officer to inquire into the matter.

Important from Hoyt.

By the politeness of Capt. Hoyt, of the bark Hecla, from Port au Prince 17th Oct. we are in the receipt of late and important news from Hayti.

Since the attempt of the Rocoerists, some four weeks previously, to revolutionize the government, the public mind has been kept in constant agitation, and business has been prostrated by the portentous aspect of popular feeling. Almost every day brings forth some additional evidence that the elements of discord are fast verging towards a crisis.

BLOOMSBURG IRON FURNACE.—This Furnace continues to do an excellent business, having made, upon an average for the last three weeks, one hundred and fourteen tons of No. 1 iron per week, and in one week, one hundred and nineteen tons, were made, using less than two and a half tons of ore; one and a half tons of coal, and a half ton of Limestone to a ton of metal.

MELANCHOLY SUICIDE.—On the 30th of October ult., a man who called his name Fuller, committed suicide by cutting his throat with a razor at the Poor House of this county. He was brought there the day previous by the poor-master of the town of Winsor; and stated that he was from Butternuts, Otsego County. He was respectfully dressed with black coat and pantaloons, snuff-colored vest, and fine wool hat something worn. He was apparently 55 years of age, bald headed, and had a pair of silver mounted spectacles. He was evidently insane.—Binghamton Courier.

ANTHRACITE.—The editor of the Danville Intelligencer, says.—There is a large pile of Anthracite Coal on the wharf at that place, for the use of the Montour Iron Works, than at any other manufacturing place in the United States. That is a fact worth knowing. It augurs well for the increasing prosperity of our manufactures, by which all branches of business are fostered, invigorated and sustained.

Optical Illusion.

A beautiful optical phenomenon, sometimes called the mirage, was witnessed by the editor of this paper, on Lake Erie, during the past summer. It was a bright hot day of July.—We were sitting on the deck of a staunch steam-ship, running merely up the Lake with the south shore full in view; our attention divided between the continuous wave, thrown up by the prow of the vessel, as it danced away of the color of gold in the clear sunlight, and a mass of white clouds which hung over the shore and was continually changing into every conceivable shape of majesty and beauty; now presenting the forms of ragged towers, and mountain peaks; capped with snow, and again the outline of huge monsters, such as we read of in the imaginary mythology of the ancients.

EARTHQUAKE.—The shock of an earthquake was felt in New York and on Long Island, on Sunday evening, 26th ult. It was also noticed in Stamford, Norwalk, Bridgeport, and other places in Connecticut. In Stamford it commenced about half past 6 P. M., and lasted about 15 seconds. The earth trembled, buildings tottered, windows rattled, stone walls were thrown down, and the people were filled with consternation.

SLAVERY IN OREGON.—P. H. Burnett, Esq., a citizen of Oregon, in a letter which we see in the last Plate (Mo.) Argus, says:—The Legislature have passed an act declaring that slavery shall not exist in Oregon; and the owners of slaves who bring them here are allowed two years to take them out of the country, and, in default, the slaves to be free. The act also prohibits free negroes or mulattoes from settling or remaining in this country, and requires them to leave in two years, and, in default, to be hired out to the lowest bidder who will bind himself to remove them from the country for the shortest term of service, and within six months after the expiration thereof.

A THUNDERBOLT OF WAR.—A letter from New Orleans says, "we have had among us lately a tall, well-looking, dashing Scotchman, by the name of Gen. Harrison; he is said to be a rare fish, and a revolutionist by trade. Report says he was in the African war, and fought for Abd-el-Kader in 1835, and had the command of five thousand men; that he has lately returned from South America, where he served with Gen. Rose, under the Argentine Republic, and also served the Montevideo government against Buenos Ayres; and that he has gone to Havana to see Santa Anna, and see what he can do with Mexico!"

POST OFFICE STATISTICS.—The Union gives a statement from fifteen more post offices, showing the deficit in each for the third quarter of 1844. In the whole fifteen offices the deficit is \$22,624. At Philadelphia, during the third quarter of 1844, the receipts were \$34,136, and during the third quarter of 1845, \$19,795, showing a deficit of \$14,341.

MELANCHOLY SUICIDE.—On the 30th of October ult., a man who called his name Fuller, committed suicide by cutting his throat with a razor at the Poor House of this county. He was brought there the day previous by the poor-master of the town of Winsor; and stated that he was from Butternuts, Otsego County. He was respectfully dressed with black coat and pantaloons, snuff-colored vest, and fine wool hat something worn. He was apparently 55 years of age, bald headed, and had a pair of silver mounted spectacles. He was evidently insane.—Binghamton Courier.

GREAT FIRE IN WILMINGTON, N. C.—A slip from the Wilmington (N. C.) Journal states that a destructive fire broke out in that city on the morning of the 4th instant, which destroyed about fifty buildings in the business part of the city. Loss estimated at \$175,000. The fire occurred in the square bounded by Market, Front, Dock, and Water streets. During the fire, which is supposed to have been caused by an incendiary, Col. J. McCrey and Col. J. T. Miller were injured by the falling of a wall. The names of persons whose property was destroyed are not mentioned.

PARADISE LOST.—Wm. Paradise left Indiana on the 1st of July, and has not since been heard of.—Mississippi Dem.

FATAL ACCIDENT.—The last Lycoming Gazette states the particulars of a distressing accident which took place near the Baltimore Saw Mill, in Plunket's Creek township, Lycoming county, on the 27th ult.

A party of workmen, on the day the accident happened, were engaged in sliding saw logs from the mountain to the public road. The logs which came end foremost, obtained an immense velocity in the descent, and smashed everything before them. Mr. David M. Caslin, whose station was at the base of the hill, unfortunately remained in the passage of the sliding logs too long, and when he observed one descending the mountain, endeavored to avoid it, but as he sprang aside, he noticed that the log had taken the same direction, and he then escaped to run back, but slipped and fell. The huge timber instantly struck one of his legs, just above the knee, carrying with it the cap and severing the leg, just below from the body. The unfortunate suffered died about 22 hours afterwards.

"SUGAR COATED PILLS."

If we were willing to limit the office of taste to its proper sphere, and to cease eating when appetite expressed content, indigestion would be a much rarer occurrence in civilized communities than it is observed to be. Hippocrates remarked that severe perspirations arising during sleep, without any other apparent cause, are a sure sign that too much nourishment is made use of. The day of reckoning will follow such a state of repletion, which clogs the bodily functions, and may lead to sudden death by some acute disease, when the individual is apparently in good health.

PROCLAMATION.

WHEREAS the Hon. JOHN N. CORNWELL, President of the 13th Judicial District, consisting of the counties of Luzerne, Bradford and Tioga, Harry Morgan and Reuben Wilber, Esquires, Associate Judges, in and for the said counties, have been directed, for holding a Court of Oyer and Terminer, General Quarter Sessions of the Peace, Common Pleas and Orphans' Court, at Towanda, in the county of Bradford, on the first Monday of February next, to wit, the first, to continue two weeks.

Notice is therefore hereby given, to the Coroners, Justices of the Peace and Constables of the county of Bradford, that they be then and there their proper persons, at 10 o'clock in the forenoon, on the said day, with their records, inquisitions, examinations, and other their remembrances, to do those things which to their office appertain to be done; and those who are bound by recognizance or otherwise to prosecute against the prisoners who are or may be in the jail of said county, or who are or shall be bound to appear at the said court, as to be then and there, to be punctually at the said time, and to be ready to attend the court, as shall be just. Jurors are requested to be punctually at their attendance, agreeably to their notice.

Dated at Towanda, the 5th day of October, in the year of our Lord one thousand eight hundred and forty-five, and of the Independence of the United States the seventieth. JOHN P. MEANS, Sheriff.
