E respectfully ask your attention to the following reasons who you should make your purchases of goods in the New York market, very frankly confessing it is our desire that you should do so.

It cannot be admitted, that from 50 to 60 per cent. of all the foreign merchandize which is imported into this country, is recoived into the port of New York. Of course there is here the opportunity for the widest selection.—The stock of goods on hand in this city, is at all times larger than the united stocks of all the other Eastern cities. It is equally certain that New York is the chief and grand depot for the manufactures of the Eastern and middle states, and of the products of the Western.

The prices of goods in New York, by reason of its immense supplies, and the consequent competition, are ne-

mense supplies, and the consequent competition, are ne cessarily lower, and credits are extended on as liberal

The Merchants, Manufacturers and Importers whose addresses are subjoined, are prejared to prove the truth of these positions, and will be happy to dispose of their goods on terms which will verify all that is asserted here.
