Excitement with regard to the Oregon ques-

mon seems in a great measure to have passed

The news from the Continent is not impor-In Persia the cholera is raging with devasta-

ting effect. Parliament had adjourned for the Easter holydays, the House of Commons to the 17th, and the House of Lords to the 21st. Sir Robert Peel gave notice that the Irish coercion bill will he taken up again on the 17th, and on the Mon-

day following the corn importation bill. The debates in Parliament seem to have been confined to Irish and railway affairs. These topics also engross the attention of the journals. It having ocen charged that the protectionists had made an agreement with Sir Robert Peel to on the corn-law question, the Premier in the House denied positively that any such agree-

ment had ever been thought of. The prince de Joinville has been appointed commander in chief of the Mediterranean fleet. He has been making a tour of inspection to several naval stations, Toulon and others, and the papers speak of excellent effects produced by his rigid examinations. These are said to have shown that close examination was greatly need-

ed.
There has been yet another ministerial crisis in Spain, Narvaez having quarrelled with two of his colleagues.

The Paris Journal des Debats-the government organ-has come out in lavor of free trade. ARRIVAL OF POULTRY FROM AMERICA .- On Sunday the Germa, 500 tons, arrived in St. Katherine dock, from Boston, with 25 cases of packed in ice to preserve them. We believe his to be the first importation of the kind.

OREGON -The article in the last number of the Quarterly Review, on the subject of Oregon, is beginning to attract attention, now that the hubbuh arising out of the Indian victories, is fast subsiding. The gist of the article is to promote a compromise, and the reviewer would be content with the fortyninth parallel. We have contended from the first that any fair settlement of the dispute would be hailed with avidity by the English people, in order to avoid the horrible consequences which an appeal to force would produce ; and the semi-official character of the article to which we allude, embudy ing the feelings of the Conservative party on the subject is confirmatory of our views.

The arrival at Havre with New York papers

to the 18th ult, brings the debates in Congress, on this subject, three weeks later than the pre-The ultra Oregon men appear to be losing ground, and the general feeling of the country as well as of Congress, leaves little to apprehend now for belligerent result. Indeed, it is generally believed here that the dispute is rigigally settled. We sincerely hope that this je not an assumption, but a fact .- Wilmer & Smith's . Tunes.

Convergial..-Commercial matters wear an mproved aspect. Affairs are sufficiently bad ; but comparatively speaking, not so much so as they were a week ago. The decision of Patliment respecting the pending railway bills will speeday bring into virculation large quantities of capital that have been withdraw from the ordinary channels o trade.

We are, too, in the midst of the spring season, with sunstance and a baliny atmosphere. Physical causes always exercise their influence in raising or depressing the animal spirits; and a clouded sky has always been found inimical to husiness. In our changeable climate these causes must be taken for what they are worthueressarily transitive, and often illusory.

The triff, like Mahamet's coffin, is suspended in mid-nir, between the higher and the lower powers ; but, pending its fate more advantage is being taken of the Treasury order for liberating goeds from bond on payment of the reduced duties. During the present week the receipts at the custom house have been largea tolerable penof that the commercial would think the tariff will ultimately find its way to the statute hook.

There has been a some what serious failure this week in Liverpool, and rumors touching the stability of other firms abound. The firm in question, Messrs. Carne and Telo, are extensive merchants in the Russian trade. Their liabilities are said to exceed half a million of dollars .--One of the joint stock banks, which suffered senously by a large failure some six weeks ago. are the unlucky creditors of the house to a cor Eiderable amount

The revenue returns to the 5th of April exubit some cutious results. This is the end of the financial year. The quarter's revenue, owing to the general stagnation of trade, shows a deficiency in the customs of half a million, in the excise of more than a quarter of a million.— The year's deficiency in the customs amounts to nearly two millions and a half, and upwards of £300,000 in the excise. But the stamps have increased £400,000, the Post Office £90-

The total ordinary revenue leaves a decreas of something more than two millions. The most granfying feature in the return is the conunued increase in the Post Office. Thus far the penny postage has worked admirably. The humbler classes, especially, have not been slow

to take advantage of its economy. In the poorer district of London, and most of the large towns, the increase of letters has exto districts. Nevertheless, thanks to the income tax, there is a clear surplus of two mil-

lons and a half above the expenditure. The falling off on the year's income is to be the previous year. Since the last budget, taxes to the extent of three millions and a quarter have been taken off articles which entered largely into the consumption of the manufacturers and the

ousiness classes. -The British corn trade continues dull, and year. A variety of causes will account for the agnation. The uncertainty which exists about

'These combined causes have kept down the price of flour, and will continue to depress the market until all uncertainty about the future ceases.

We have noticed, on more than one occasion recently, the high estimation in which Indian corn, as an article of food, has risen on this side | was taken sick with the same disease, and died of the Atlantic. Sir Robert Peel, on Wednesday evening, corroborated our statement. In Ireland it is fast superseding the watery potato, and the Premier expressed a praiseworthy feeling of pride at finding the people of that country preferring what he justly styles " a better and

more generous description of food."

SPAIN.— We have received, by extraordinary express, inteligence from Madrid, to the 4th inst. nnouncing that Gen. Navarez had resigned, and that his resignation had been accepted by the Queen.

M. Isturitz is President of the Council and Minister of Foreign Affairs. M. Armero, Minister of Merine. M. Egana remains as Minister of Justice. M. Mon is in the Finnance.

IRELAND SCARCITY .- The price of potato nau mane and fish coercion bill, if he would yield in Dublin has now risen to 9d. a stone for good ones, and 62 for very indifferent ones. This is an advance of at least a hundred per cent, on the prices of last year, and yet the protec-tionist papers in Dubiin have the heartless effrontery to assert that there is no scarcity, and that provisions of all kinds were " never more plentiful or more cheap than at this season of the vear."

ENIGRATION.-The tide of emigration to America from Ireland has set in earlier than usual this year. The quays at Cork are crowded to inconvenience with passengers and their luggage. Already one vessel has sailed with a full complement of passengers, and twenty-three others, with nearly four thousand-emigrants are

preparing at that port for sea.

South Africa.—Important inteligence from the Cape of Good Hope had been received-Feb. 10-that an attack upon Graham's Town urkeys, geese, and capons; also, six boxes of was meditated by the Kafirs. The inhabitants red reindeer of superior quality. They were of the Colony were in great consternation, and the most alarming rumors were in circulation. At the latest date, however, no attack had been made, and it was believed that the difficulties with the Kafirs were in train for arrangement Yet, treachery was suspected, and the alarm had not entirely subsided.

> A CURIOSITY.-The Tom Cringle, loaded with guano, from Ichaboe, arrived at Swanzea in the early part of the week, after a protracted voyage. Since her arrival in port, this fine vessel has attracted a considerable attention, in consequence of having on board a copper-colored Ichabne Chief, who was brought from one of the contiguous Islands. He is a person of good features, of rather diminutive stature, standing about 5 feet high, with tolerably proportionate limbs, with the exception of his feet, which are remarkably small. When taken he was in state perfect nudity; a habit to which he clings with great tenacity. By great efforts, however, he has been prevailed upon to wear a few light garments; he appears to possess an amiable disposition, but he is remarkable for his timidity .-When even the smallest species of the canine race invades the ship's deck, he makes a fearful noise, and carts below with the most astonishing rapidity, where he will remain for some nours amusing himself with any thing produeing a tinkling sound, His inseparable com panions are two clubs, which he seems to prize greatly, and handles them with great dexterity. He seems to entertain great affection for the np's crew, especially the captain, whom he follows like a faithful dog. In acquiring a knowledge of the English language he has made but slow progress ; one or two words is the most he can articulate. As soon as the vessel is ready he will betaken back to his native soil, when, no doubt he will astonish his kindred with the accounts of his European expedition .- Welsh

OUR ARTISTS ABROAD .- A communication n the Cincinnati Atlas states that Mr. Power. the sculptor, now in Florence, is engaged on the bust of the Grand Duchess, who is said to he a heautiful and queen-like woman. This is the first honor of the kind conferred on a dehted to Prince Demidorf, of whose lady he made a bust a year since. The latter is a daughter of Jerome Bonaparte.

Kellogg is winning golden opinions in Italy, as a painter. He is now engaged on an original picture of a Turkish lady in a bathing room, and report speaks highly of its merits. Powell is still at Rome. A gentleman. recently from Italy, states that he is highly esteemed for his modesty and gentlemanly deportment-that he has greatly improved in his style of painting, and is considered as an artist of great promise.

EMIGRATION TO OREGON .- The Washinton Union has been permitted to make an extract from a letter writen by Gen. C. C. Van Horn, a distinguished cittizen of Northern Illinois,

dated March 25, 1846 · .. We had several teams pass here vesterday, on their way to Oregon. They had cows yoked to draw their loads, instead of oxen. In all, we have had forty teams pass here, and they tell us more are on the road. They were from Ohio, Michigan and Indiana. Know ing the deep interest I have manifested in the settlement of Oregon, and the extension of the American laws over it, they all give me a call; and I find every man of them resolute, and fully determined to protect himself in his country abandons him in his new home and drives him to this alternative. Not a man will ever

consent to be a British subject.' HEALTH OF GOV. DORR .- We entertained the hope during the cold season, that when warmer weather approached, we should be able to announce some improvement in the health of this distinguished champion of equal rights. SINGULAR FATALITY .- A couple of weeks since, a man named Tichenor, who had long resided in Owsley county, Ky., was visited by his son from an adjoining neighborhood, one day last week and that he was suddenly taken tack. An only daughter of Mr. Tichenor, a beautiful and amiable young lady, the very picture of health, was also hurried to eternity by the same calamity, in less than thirty-six hours from the time she was taken. They all suffered intensely. The sudden disease of the family had created alarm in the county .- Bal. Republican.

VERY KIND .- Shortly after it was fully known that Jams K. Polk was elected President of the United States, says the West Chester Jeffersonian, the Whigs very magnanimously agreed that the country might get along if it could without being totally ruined. although they positively refused to agree to anything of the kind before. Now, however, they give us full notice, that if Congress passes the Sub-treasury bill, that it must go to smash -there can be no salvation for it-for they'll never agree to let it do anything else. Really this is awful-terrible ! Won't you. Messrs Whigs, give us the benefit of the "notice," one year only to make up our final accounts.

HEAVY FORGERIES .- Within a week past forgeries to an amount exceeding twenty thousand dollars were discovered in Philadelphia. The forgers are said to be members of a firm of manfacturers in the western part of the city, do ing a very heavy business, and standing well before the community; and the gentleman, Mr. Jos. Flemming, whose name has been unlawfully used, is also a manufacturer to a large extent. The forgeries were discovered by the appearance of two setts of notes of the same dates. equal amounts. &c., at one of the Banks. One of these setts of notes was genuine, the other forged. The losses will fall principally on the the brokers or note shavers.

GOV. SHUNK'S VETO .- The Boston Morning.
