decision the honor, the rights and the interests

of our country.

Anticipating the possibility of a crisis like of our country. Anticipating the positions, or a crisis like that which has arrived, instructions were given in August last, as a precautionary measure against invasion or threatened invasion, authorising Gen. Taylor, if the emergency re-only, but from the States of Louisians, Alaba-Mississippi, Tennessee and Kentucky. And corresponding letters were addressed to the respective Governors of those States .-These instructions were repeated, and in January last, soon after the incorporation of Texas further authorised by the President to make a requisition upon the Executive of that State for such of its militia force as may be needed to repel invasion. or to secure the country against apprehended invasion.

On the second day of March he was again reminded in the event of the approach of any considerable Mexican force, promptly and efficiently to use the authority with which he was clothed, to call to him such auxiliary force as he might need. War actually existing, and our territory having been invaded, Gen. Taylor, pursuant to authority invested in him. by my directions, has called on the Governor of Texas for 4 regiments of State troops, two to mounted and two to serve on foot; and on the Governor of Louisiana for 4 regiments of infantry, to be sent to him as soon as practica-

In further vindication of our rights, and the defence of our territory, I invoke the prompt action of Congress, to recognize the existence of the war, and to place at the disposition of the Executive the means of prosecuting the war with vigor, and thus hasten the restoration of peace. To this end I recommend that authority should be given to call into the public service a large body of volunteers, to serve for not less than six or twelve months, urless sooner discharged.

A volunteer force, is, beyond question, more efficient than any other description of citizen solihers.; and it is not to be doubted, that a number far beyond that required, would readily rush to the field upon the call of their counuv. I turther recommend, that a liberal provision be made for sustaining our entire militasy force and 'furnishing it with supplies and munitions of war. Most energetic and prompt measures, and

the immediate appearance in arms of a large and overpowering forces are recommended to Congress as the most certain and efficient means of bringing the existing collision with Mexico to a speedy and successful termination. In making these recommendations, I deem it proper to declare that it is my anxious deare, not only to terminate hostilities speedily, but to bring all metters in dispute between this government and Mexico to an early and amicable adjustment; and with this view I shall be prepared to renew negotiations whenever Mexin shall be ready to receive propositions or to

Washington, May 11, 1846.

[From the Washington Union, May 12.]

The House of Representative has responded mobly to the President's message. A bill has been passed, during this day's session, which appropriates ten millions of dollars, and authorizes the president to raise fifty thousand volun terrs to bring the war with Mexico to a speedy and successful termination. That republic has made war opon us, and this bill provides for conducting that war with energy and power. We are rejoiced to learn, by this evening's

tenant Mason, with two dragoons, had arrived safe in Gen. Taylor's camp. Captain Thornton, discovering the ambus-

cade too late to retreat, had plunged gallantly through the enemy's ranks, and cut his way with his own sword, with a boldne pidny that is almost incredible.

By the President of the United States of America. A PROCLAMATION. Whereas the Congress of the United States

by virtue of the constitutional anthority vested in them, have declared by their act, bearing date this day, that, " by the act of the republic of Mexico, a state of war exists between that go vernment and the United States :"

Now, therefore, I. JAMES K. POLK, Presi dent of the United States of America, do hereby proclaim the same to all whom it may concern; and I do specially enjoin on all persons holding offices, civil or military, under the authority of the United States, that they be vigilant and zealout in discharging the duties respectively incident thereto; and I-do moreover exhort all the good people of the United States, asethey love their country, as they feel the wrongs which have forced on them the last resort of injured nations, and as they consult the best means under the blessing of Divine Providence, of abridging its calamities, that they exert themselves in preserving rder, in promoting concord, in mainning the authority and the efficacy of the laws, and in supporting and invigorating all the meas ures which may be adopted by the constituted authorities for obtaining a speedy, a just, and an honorable peace.

In testimony whereof, I have hereunto se my hand, and caused the seal of the United States to be affixed to these presents. Done at the city of Washington the thirteenth day of May, one thousand eight hundred and forty-six, and of the independence of the United States JAMES K. POLK.

By the President: JAMES BUCHANAN, Secretary of State.

To PREVENT CROWS FROM PULLING UP CORN. Just before your corn comes up take a common fox trap and set it in your corn ground where it is most exposed to the crows; and when you set it, be careful to leave the ground over the trap in the shap of a corn hill, and then scatter some corn over the trap and strew some along some three or four rods from the trap, in three or four directions. This will draw the crows into the trap; and if you can nab one, which you most propably will, you will not, for this season at least, be troubled with their company again, for he will call all within hearing, which will extend to no small distance I ure you, and let his colored' brethern know that there is danger in trespassing on that terri-

SEPPERD'S TOWN, Va., Oct. 10, 1843. DEAR SIR :-- You inquire of me whether I have used your Hair Tonic, and with what effect,

Several years ago my hair began to fall rapidly from the scalp, and I had the prospect of premature baidness. At length a friend recommended your Hair Tonic. I used three or four bottles, according to the printed directions, and at the end of six months, my hair was thick set, and since, its tendency to turn grey was arrested. I have never before given a certificate, recommending patent medicines, which indiscriminately used, as they often are, do much injury; but in a case like the present, where I know the article to be beneficial, and that it can do no harm, I have no scruples in stating facts within my own knowledge. STATE TREASURY OFFICE, ? HARRISBURG, MAY 9, 1846. To the Commissioners and Treasurer of the

county of Bradford. GENTLEMEN :- Although the subject was pressed upon the attention of the Legislature yet it omitted to provide any additional revenue for the current year. We

must therefore rely on the previous enactments. The loss to the commonwealth occasioned by the injury done to the public works, approximate \$300,000, and this falls exclusively on that part of the semi-annual interest due in August next. We must endoavor to and this falls exclusively on that part of the semi-annual interest due in August next. We must endoavor to make up this unexpected deficiency by the most prompt and vigorous use of the means that are left us. The increased tonnage during the entire year, it is believed, will be nearly commensurate with the loss I have sta-ted, and thus the nett tolls, will be about the same as last year. By the promptness and activity of the Canal Commissioners and their officers, the entire line of

our public works, including all the branches, are now in full and successful operation.

I stated in my circular of the 24th of May, 1845, our public works, including all the branches, are now in full and successful operation.

I stated in my circular of the 24th of May, 1846, that "we paid the interest due in February last, and we can do so in August and February next, if active ond count measures are adouted in the swerzed counties.

Your efforts have fulfilled these expectations, and our Commonwealth stands redeemed, from the dishonor, which for a time rested up Let us not falter now. Let us determine t use all the means in our power, to maintain our elevated position, and avert the impending calamities which would fail upon our Commonwealth and our citizens, should our plighted faith be again broken.

There is reason for great anxiety, but not despondency, as the following brief statement will exhibit.—

As a means of producing this result, I call your at tention to the proposition made in my circular of the 24th of May last. I renew the offer. An abatement of five per cent. will be allowed for the payment previous to the last of August, of the taxes of this year. It the sum paid approaches near the quota of your county this abatement will be made. You have it thus in your power to benefit your county and save the Commonwealth from dishonor. No higher motives of ac tion can be presented than these, that of interest an

In the event of the inability of your county to availiself of the abatement, it is expected that you will pres the collection of your duplicates as rapidly as possible and pay the amount without delay, into the Treasury. The dublicates having gone forth much earlier this year than the last, will greatly facilitate your collections.— There are arrearages of former years due from severa counties; these ought to be collected and paid imme diately. For the arrearages of 1845, interest is charged and will accumulate until paid. If your county is in his position, you should not suffer the loss which this

We will surmount our present difficulties if our de termined action be commensurate with the evil which is impending, and the good we may accomplish. If we are successful in paying the August interest, I firmly believe that the future payments can be made without a struggle.
