THE FOLLOWING ANECDOTE connected with the decisive battle of the 9th is too good to be

omitted: "The battle commenced by heavy cannona ding on both sides. Gen. Taylor, in passing his lines, accosted Capt. May, of the 2d dranis lines, accounted cape may, or me 2d dranever done anything yet-you must take that battery." He said nothing, but turned to the command and said-" we must take that batcommand and care lines balcompanies—at least with the remainder of three companies—supported by the 5th and 8th regiments of infantry. They cleared the breastwork, rode over the battery, wheeled and came through the enemy's line, whilst the fire of the infantry was so deadly in its effects as to carry all before it. Captain May made a cut at an officer as he charged through; on his return he found him standing between the wheels of a cannon, fighting like a hero. He was asked if he was an officer? Capt. May answered him in the affirmative, when he presented his sword, remarking-" You receive Gen. Vega a prisoner of war." Captain May gave him in charge to one of his sergeants who had lost his horse in the charge, ordering him to conduct him to General Taylor out of the line."

Capt May's attack is spoken of asbeing one of those splended efforts which would have adorned the brightest feather of the plume of Murat, in the palmiest days of his glory. It cost him 18 horses, with a few of the gallant For any two, riders. The victory, says the extra from which we copy, entirely belongs to the. U. S. army, no volunteers having arrived in time to share in the honors of the day. It will convince our country, that West Point affords the material of exhibiting the courage and bravery of the American soldiers.

I trust we will hear no more of dismounting our gallant dragoons; the affair of the 9th shows them to be the arteries of our defence.

TEXAS .- In the present exciting times, the following chronological history of our young sister may not prove uninteresting to our read-

In 1803 this territory, embracing also the state of Louisiana, was acquired from France. In 1819 ceded by the United States to Spain. In 1821 Mexico revolted from the Spanish dominion, and declared her independence of the mother country.

In 1822 and 1825 Spain protests against the recognition of the Mexican independence, is acmally carrying on war with Mexico, and is in possession of the Castle of San Juan d'Ulloa. In 1823 the United States recognizes the independence of Mexico.

On the 4th October, 1824, the constitution of the Mexican United States was established, declared to be "federal" and "the parts of the federation to be States." Texas with Conhuila was a State; and her constitution. which was sanctioned by the Mexican confed eracy, declared said State " to be free and independent of the other Mexican States, and of every other foreign pouter and dominion; and "that the sovereignty of the States resides in the general mass of the people."

In 1825 the United States, during the admintstration of John Q. Adams, thro' Henry Cla, Secretary of State, proposes to purchase Texas from Mexico. At this time Spain was carring on war against her revolted provinces. In 1834 and 1835 Santa Anna invaded and

overthrew the Mexican federation, and annihilated the States by a military edict.

In 1836 Texas declared her independence and established it on the field of San Jacinto. In 1837 her undependence, recognized by the U. States-also by Great Britain, France and Holland.

†STATE TREASURY OFFICE, ? HARRISBURG, MAY 9, 1846.

To the Commissioners and Treasurer of the county of Bradford.

GENTLEMEN:—Although the subject was pressed upon the attention of the Legislature yet it omitted to provide any additional revenue for the current year.

We must therefore rely on the previous enactments. The loss to the commonwealth occasioned by the in-

into loss to the commonwealth occasioned by the in-jury done to the public works, approximate \$300,000, and this falls exclusively on that part of the semi-annual interest due in August nest. We must endeavor to make up this unexpected deficiency by the most prompt and vigorous use of the means that are left us. The increased tonnage during the entire year, it is believed, will be nearly commensurate with the loss I have sta-ted, and thus the nett tolls, will be about the same as last year. By the promptness and activity of the Canal Commissioners and their officers, the entire line of our public works, including all the branches, are now in full and successful operation.

I stated in my circular of the 24th of May, 1845,
