This strange document, sout as it was, deep This arrange unconstruction as a was, need ened the mystery, but it forced an investigaened the mystery, out it interest an investiga-Hatch was obliged reluctantly to agree to be arrested, Harrington was brought back, Webb was secretly arrested, and all were obliged to undergo in private the form of an investigation enuergo in Province and the brief unpleasantness of a nominal imprisonment.

In the meantime the officers interested had persuaded Vessrs. Livingston & Wells to lay ow and say nothing, and to leave every thing in their hands. They then called on Slappy. in their hands. Priev then called on Slappy, the Duke, and the other parties in the plot, and informed them they must "settle." A good deal of hagging took place, which finally resulted in each party disgorging his share of the plunder, whereupon Webb, Hatch and Harrington were secretly released, and Livingston and Wells received back a little over one-third of their losa. The balance was, and se sull retained by the thieves, for we do not presume that the officers could receive anything for acting as their agents in the compromise!

MASSACRE BY THE RANCHEROS .- Some hortible murders are said to have been committed by the Rancheros on a party of 16 Texians, men and women, coming across the country from Carpus Christi to the Brazos. The Rancheros, it is said, stript them, tied them together in twos, tick them across the river, deliberately cut their throats with a large knife and threw them into the river. Two of them escaped by swimming. One of them. Wm. Rogers, wandered for five days without anything to eat in the chapparal. and was finally taken prisoner on the Rio Grande and carried to Matamoras. He was sent over hy General Arista, and is now under the treatment of one of our medical officers. This inteligence has not been confirmed.

WILLMER AND SMITH'S EUROPEAN TIMES .-Our attention has been directed to an attack upon the reputation of the European Times, which undvertently appeared in our paper of the 24th of April last, in a letter from a correspondent.-We should not certainly have done that valuahe purnal the injustice of giving currence to imputation upon its fair fame, had we discovered the nature of the communication before its publication. The European Times is a most valuable newspaper, and an indispensable companion to the Merchants and business men of tas country engaged in European trade.

A SINGULAR CIRCUMSTANCE.—It is a singular fact, deserving of notice, that the inventor of the guillotine was its first victim-the discoverer of gunpowder, before he knew its terrible effects, lost his life in the attempt to apply it to the purposes for which it was intended; and in the recent glorious battle on the Rio Grande, me gallant Major Ringgold, who had been assistantly engaged for the last twenty years, bringing to perfection his corps of Flying Aritllery, was also the first that fell in testing its qualities with the enemies of our country

ARREST OF GAMBLERS .- The New Orleans more made a descent recently on a clique of gamblers found in a hotel in Common street. On searching their rooms some 200 or 300 A note and meeting home, called to the Chair, and BILL Barm appointed a committee of the whole to draft resolutions. After several pathers, card racks, &c. The implements of trade and machinery took five men to carry them to the police office.
