Gen. Gaines removed from the Command of the Western Divison.

General Gaines, in his zeal to serve his country, has laid his conduct open to censure.
The Senate has had a discussion upon the matter, and the General has been summoned to Washington city. The Washington Union says that General Gaines's course, in calling out 12.000 volunteers, has been altogether unauthorized and illegal. Gen. Taylor was aumorized to call for State troops, if necessary, and Gen. Gaines was informed that Gen. Taylor's command was entirely independent of him, and that the Government did not conceive that there could be thereafter any occasion to send into Texas State troops, unless on Gen. Taylor's, notification. The orders of Gen. Gaines have all been countermanded, and the Government has been compelled to decline the services of the troops called out by Gen. G.'s requisition. Many of these persons left their homes and business at great sacrifices; expenses have been incurred by themselves, or on their account, and it is sincerely hoped that Congress will make provision for these expenses. Without such a provision they cannot be paid. In consequence of this irregular action. Gen. Gaines has been removed from the command of the Western Division. In announcing this fact, the Union pays the following compliment

to the former services of Gen. G. "Gen. Gaines is old soldier who has done, in former years, good service; it is very desirable he should repose in quietness upon his laurels. However anguarded his conduct, few. very lew, are disposed to question his intennons, or to deny him the merit of patriotic motives. Government here has been and still is strongly inclined to give the most favourable interpretation to his conduct that the circum sances will permit; but in view of the difficulues of restraining his irregular action by orders also great a distance, the embarrassments his course has already produced, and, if continued this present position, will be likely to produce able been constrained, from high consideraons of daily and a sacred regard to the public ster et, to remove bun from the command of be Western Division, and to order him to per forthwith to Washington. Considering extraordinary course, and the mischiel it is already produced, his best friends, we enst, will be convinced that no milder course and have been pursued towards him.

A Massay Reconstation .- The Journal of beamerce, of Friday, contains a lengthy and sle arrele upon the causes of the war between Mexico and the United States. From this encle, we cut the following manly declaration, of a change of sentiment :

· And here we deem it proper to say, that more thorough examination of facts and ocuments, leads us to doubt the correctness strie opinion which we expressed the other w, that the war was occasioned by the advance tour Army to the Rio Grande. From what is been said above, and still more from the equel, it appears probable that the war had determined on by the Mexican Governthefore the American Army left Corpus

Cost; and it is expressly declared by Parades mias War Manifesto, that Corpus Christi is at in the limits of Mexico. By the way, Pandes was twenty days ahead of Polk in we nations .- the Manifesto of the former bearing date April 23d, and the Proclamation of the latter, May 13th.

We are convinced that our government was Mexico. No one can read the instructions to tien. Taylor which were issued from time to time, and come to any other conclusion.

TATAL Accident. - In Robeson township. Berks county, near the Gibralter Forges, on Wednesday last, the gable end of a new stone stable fell down, crushing to death instantly one of the workmen employed in its erection, named George Quinter, and seriously fracturing the arm of another. It is supposed that ing the arm of another. It is supposed that the wall was not put up securely, and that the continued rainy weather for some time previous constitute the supposed it to raine way.

LREEL, Treasurer. caused it to give way.

FATAL ACCIDENT .- A miner, named John Divis, a native of South Wales, was killed in an iron ore mine about two miles from Danville, on Saturday afternoon last. It appears that in endeavering to displace the propping where, some of the sticks fell upon him, slate and earth, crushed him to death.

Cathe or Paix .- Pain is the consequence of the exerion of the organ or part where it is present to throw of Morbid or corrupt homors, for no pain can exist but from the presence of those matters which are of an unhealthy character. When we have pain in the head, in the bowels, or in any other part of the body, it only times the presence of matters which the blood is trying "temove, and it is this struggle which is the occasion of pun. To be bled, only relieves the anguish in propation as the amount of life is reduced, and the same hav he said of all lulling or soothing remedies. Not so was Brandreth's Pills; they at once go to the assistance of the blood in aiding it to discharge had humors, to conquer the Death Principle. To relieve pain in this way does not leave any bad effects. The Life Princi-Pe is not reduced, nor are the teeth flestroyed; but all orgins are cleansed and their health insured.

Circumstances make the man, and very often, as in the present case, the book. For years there has been a teadily increasing interest felt for the vegetable kingdom. Latterly, this taste has been partially gratified by the literary magazines, which owe their popularity, in a great measure, to the beautiful flower prints that adorn them. One specimen a month, however, is not amond, now is it required in such connection. A work relating exclusively to the subject, is wanted by the public, and this want, the present enterprise is intended to supply.

We will mention in the outset that no universal

panicea will be found in its pages. We have never neard a secret worth knowing from, nor been cured of a deadly disease, by an Indian, or a seventh son of a seventh son, or any of the genus; the medical preten sions of all which, we utterly loathe and despise. Preceded by a short introduction o Physiology, and a view of the Natural and Linnman Systems, the work vill be devoted to a separate consideration of each plant.

Together with our own information, we shall draw on the standard works on Chemistry, and Medicine, com-bining every useful item of knowledge, and without lessening its value, present it in a concise and pleasing form. Obtaining our supplies from the same sources as the bee, we hope to secrete as elegant a sweet for the mind, as it does for the body. The properties of each, more especially the medicinal, will be confirmed, in a great number of in-tances, by personal experience To this will be added its history; its meaning in the language of flowers; and poetry, ither original or se-lected, from the gems of the children of long.

The whole illustrated by splendid Colored Engravings, taken from nature, full size, and finished in the highest style of modern art.

This work is designed to be eminently popular in its

application, and there is enough of that which is stranbecoming a state of war to exist between the ger than fiction about it, to render it, in no ordinary

degree, interesting and instructive.

Another Great and Enthusiastic MEETING!

A TA MEETING of "all No. 3—Brick Row." held on the 33d day of May, inst., Ol.D BAIRD, was called to the Chair, and BILL BAIRD appointed a committee of the whole to draff resolutions. After several pathetic speeches by Eleazer and George, the following Proamble and Resolutions were unanimously adopted: dopted:
Whereas, There appears to be a great desire on the

part of some Merchants in the Borough, to come up along with No. 3; and Whereas we are willing to assist them in doin 7 so as far as consistent : Therefore Resolved, That such-merchants have our consent to unite their several stock's together, as the only means by which they can equal No. 3.

Resolved, That the "S. wrings Bank" take the right wing; "small profits a.. d quick sales" the left, and "New York in Miniature" the rear,—a pike team

backwards.

Resolved, That we never before thought New York was such a looking place as its minii ture exhibits.

Resolved, That No. 3 always has, always can, and always WILL, sell goods cheaper, better goods and

more of them than any store in town.

Resolved, That the proceedings of this meeting be published in the Village papers, and that one copy be handed to each of our competitors, and half a copy "New York in miniature." BILL BAIRD & CO. May 29, 1846.

FIGURES WON'T LIE. The been ascertained, and finally spoken out, that the largest stock of Cloth. Cosmerce & vestings in Bradford, are to be found at the "Savings Bank;" and what is more satisfactory to purchasers of the above goods, they are at least 25 per cent, cheaper than at any other establishment.
