the locality of his shield, and very politely permits the General to stay, at his orders, by the sunny fireside of home, where he can save both body and breeches. We regret that such is the unwelcome position of General Scott. He has spread his own couch, and reposes

not sent the trumpet before him, to announce his former exploits, or to boast of his warlike intentions. The lightning of the telegraph brings first the thunder of his arms, and the echo of his victories. The stars and stripes are waving over Matamoras—the enemy has fled into the heart of the country, and Old Zachary, almost under the equator, pushes his conquest as coolly and calmly as he would hunt buffalo in the neighborhood of 54 40 in Oregon. Volunteers are flocking to the standard of the Army. General Gaines is raising his inland army in order to make a small pudding to stir at home; Gen. Scott is at Washington in pursuit of the right end of the calumet, so as to smoke the pipe of peace, with the President; but Old Zachary! the people are aware of his position. If the chair of the Presidency were planted on the Rio Grande, we should almost fear his nerves would become unsteady, but so long as it is kept in the distance and surrounded by other aspirants, we shall fear neither for his reputation nor his valor .- Luzerne

CAPI. FREMONT .- Letters have been received at the Navy Department from Monterey, bearing as late date as April 18th. The Union

The unwarranted attempt to drive Captain Fremont from the country has already, been alaled to in the newspapers. After having been offered away by Don Jose Castro, commandant general, Captain F expecting an attact fortified himself about twelve leagues distant from Monterev. Castrofassembled about 100 men in f. ont of the entrenchment. After remaining there three days, he concluded to retreat, when it was discovered that the party had quietly gone off. leaving some old saddles and trash which the Californians magnified into munition of war. Three hundred riflemen offered their services

in Capt. F. but they were declined. The movement against Captain Fremont seems to have been directed by the central goremment of Mexico; but it is not believed that the people of California entertained any ill-will towards him, or would willingly have done him harm. His own conduct in the whole matter seems to have been marked alike by courage and secretion. We subjoin a copy of a letter written to him to the American consul at Monterey when in expectation of an attack, and receive I with consul in the evening of March 10. The ention remained in excellent health, and had poor north:--

with Dear Sir :— I this proment receives to releters, and without waiting to read them, aknowle lige the receipt which the courier remarks the receipt which the receipt which the courier remarks the receipt which the r cores enstandy. I am in sking myself as strong apassible, in the intention that if we are unsilv attacked, we will fight to extremity and fasel quarter trusting to our country to avenge ut death. No one has reached my careb; and om the heights we are able to see troops (with me glass) mustering at Saint John's and preparweamning. I thank you for your kindness and good wishes, and would write more at length a to my intentions, did I not fear that my letter will be intercepted. We have in no wise done wrong to the people or the authorities of the country; and if we are hemmed in and assaultel, we will die, every man of us, under the flag of our country. Very truly, yours.

TERRIBLE HASL STORM IN ILLINOIS .- On the 31 test, great damage was done in the vicinity of Belleville, Illinois, by a hail storm. The tiver of a stage near Gov. Kinney's was knockwieff, and the horses ran away, hogs sheep and lows were ki led, and the copps were all utterwilestroved. The stones were larger than road sized fist! So say the papers.

CHOLERA, SUMMER COMPLAINT, DIARRHCEA Dysentery, and all other Derangements of the Stomach and Bowels, cured by Dr. D. JAYNE'S CARMINA-TIVE BALSAM.

New, Youk, 8th month 1st, 1838. PRIEND DR. JANNE-It gives me much pleasure to aform thee of the result of a case in which I administered thy Carminative Balsam, and I consider it to be a matter of duty due thee and the public, to give the following statements:-Being called to visit a patient a few days since, I found he was vomiting and purging most violently, with severe Tormina and Cramps in the upper and lower extremities, and also in the abdominal parislies. The Cramp was so violent, that it took four men to rub him incessantly, to keep down the spasm, and to use his own words, he said it seemed to him as if his bones would snap in two. There were also violent choic pains around the ubilical region, attended with very distressing nausea. In short, I considered it to be a case of genuine cholera, I found on inquiry, the patent had been unwell the day previous, with a looseness of the bowels. That six hours before I saw him, he was seized with the complaint, and had gradually got worse. The extremities were cold, and he was nearly pulseless. limmediately gave him a spoonful of thy Balsam, which in a few moments was ejected from the stomach, but on giving it a few times, the stomach became settled, and be expressed himself much relieved. I then gave him a calomel and opium powder. In two hours from the time I saw him he felt quite easy, and fell asleep, and tlept well for five hours; but on waking, the symptoms again returned. I directed more of the Balsam to be given him, when the disease subsided, and the patient was convalencent. It took only one bottle to effect a cure. I have also so often witnessed the beneficial effects of the Carminative Balsam in Summer Complaints and Diarrhoza, that I would not be without it for its weight
