[Correspondence of the Public Ledger.] Com. Sloat taken Possession of California-Extension of the Revenue Laws of the United States over that Country. WASHINGTON, Sept. 1st, 1846.

Exclusion in the *Country*. *Washington*, Sept. 1st, 1846. I wrote you a week ago that our squadron in the Pacific would not long remain idle, having received positive instruction to be up and doing. I now have the pleasure of communicating the following important news. Commodores Sloat entered the harbor of Mon-terey, and on the 6th of July-issued his procla-mation to the inhabitants of California, calling on them to remain peaceful, assuring them that he did not come as the enemy of Californir, but as their friends—that they are destined to formi har and parcel of the great federal union of the *Commodores* of the great federal union of the *Commodores* of *California*, calling *Commodores* and processing the mathat *Commodores* and processing the mathat *Commodores* and processing the mathat *Commodores* and *California*, *Californi* as their friends—that they are descared to form part and parcel of the great federal union of the United States, enjoying the same rights and privileges as the citizens of those States. They should select their own civil officers and magistrates, and enjoy all other privileges of freemen of which they are now in part or wholly deprived. The same revenue laws should be in force in California as in the United States. by which means they would, as Californians and members of the American Union, obtain provisions and manufactures of the United States duty free, while all other imports would pay a duty at least twenty-five per cent. less than is now levied on the same articles by the laws of Mexico ; those who will not become citizens of the great American confederacy, to depart in peace with all their property, provided they lav down their arms and remain in other respects neutral. He enjoins them to retain their Alcades and other magistrates till they should have better digested the particular form of government they wish to adopt, and have had time to, elect

other officers in their places. All property of private citizens, and particularly that of the hurches, should be respected; all supplies and provisions paid for, on reasonable terms, and no private property used for public purposes with-

out proper compensation. The proclamation is dated Savannan, harbor of Monterey, and signed John B. Sloat, commander-in-chief of the U. S. forces in the Pa

Captain Montgomery, of the U.S. ship Portsmorth, entered the harbor of Yerba buena. and issued his summons to the inhabitants of the country, in virtue of instructions from the Commodore. The summons bears date July 9.1846.

In addition to the above news information has reached here that Col. Fremont's advanced posts have reached Sonoma, to the north of San Francisco, Gen. Castro, Governor of the Province, advanced at the head of his troops to repulse them ; but the gallant Col. meeting him in person, the Mexican forces retreated.

The Californians are greatly divided among themselves. A junta met at Santa Barbara headed by Governor Pico, proclaiming Cali fornia an Independent Republic. Hereupor the Mexican Governor, Castro, declared the province under martial lane.

DRY Goobs .- The opening sale of the seaotlast year. Printing cloths, which last year trought 71 cents, have recently been sold at 4 for common goods. Woollens too are verv cheap, and our manufacturers have acquired such skill that they make a beautiful cassimere bit 55 to 75 cents, and yet save something .--There is no fear of England, France or Germa-ny, in such a market. Whether these prices are the consequence of the excessive action under a high tariff, or the apprehended influence of a lower one, we cannot say. The low prices which both Protectionists and Free Fraders have predicted as the consequence of high protection, have come about and are present with us.-Journal of commerce.

This is a very important matter to every con sumer in the country-a reduction in the price of articles they extensively use of more than forly per cent. We do not hear that the wages of the workmen employed in these factores have been reduced in the least. The reduction in the prices of the articles must there-

STRAM CANAL BOAT .- We see it stated that a steamboat is daily passing from Wilkesbarre to Pittston, on the North Branch canal. This boat was built by Capt. Converse, for the purpose of trying the practicability of navigating the North Branch Canal with steam, and so far it has been 'a-ite successful,

JAYNE'S HAIR TONIC.

We have heretofore humbered ourselves among those Acid, Prussian Blue, Pumice, Surnate Fin, Oxalic Acid, Prussian Blue, Pumice, Red Saunders, Rotten who believed that the "Hair Tonic" prepared by Dr. Stone, Camwood, Cochineal. Ext. Logwood, Fusic, Jayne, was one of the many quack nostronis whose vir- Crain Tin, Hatchwood, Lac Dye, Logwood. ues are never seen beyond the fulsome puffs of their authors. We are willing, at length, to make public acknowledgments of the error of our belief. An intimate friend, some two or three months, since, all the top of whose cranium was as bald as a piece of polished marble, maugre all our jesting and ridicule of the idea of attempting to culticate so barren a spot, purchased a bottle or two of the Hair Tonic from Dr. Jayne, and, according

to his directions, applied it. During the present week the same friend ushered himself into our presence, and uncovering his hitherto naked head, astonished us with thin, the' luxuriant growth of hair, from one to two inches in length-upon the very premises we had believed as unyielding to cultivation as the trackless sand that skirts the Atlantic. This is no puff, but is religiously true, and to those who doubt, the gentleman carf be cointed out. What is more in favor of this "Tonic," the case here cited was not one of temporary haldnessno sudden loss of the hair-but was one of years standing, though the gentleman is but forty-five years of age. - Phila.
