Democrats of Bradford, Rejoice!

Freemen, send up the glad shout! Make the welkin ring with joyful songs of exultation! We have met the enemy, and again they are ours. by the Democracy of Bradford.-Whigs, apostates, renegades and federalists-are all routed, horse, foot, and dragoons. FORMAL ANNEXATION OF NEW MEXICO.-Gen. Kearney, immediately on entering Santa United States, under the name of the territory of New Mexico. He announces that his intention is to respect the religious institutions of the country, to protect the property of the Church, and to cause the worship of those belonging to it to be respected. He requires those who have left their homes and taken up arms against the troops of the United States. to return forthwith to them, or else they will be considered as enemies and traitors, subjecting their persons to punishment, and their property to seizure and confiscation, for the benefit of the public treasury. It is the wish and intention of the United States to provide for New Mexico a free government with the least possible delay, similar to those in the United States, and the people of New Mexico will then be called on to exercise the rights of freemen in electing their own Representathis can be done, the laws hitherto in existence will be continued until changed or modified by competent authority, and those persons holding office will continue in the same for the present, provided they will consider themselves good citizens, and willing to take the oath of allegiance to the United States.

This is sufficiently explicit of the intentions of our government, and shows the progress of the work of annexation. New Mexico is now a territory of the United States. The next s'ep. after it is sufficiently civilized and refined by a plentiful infusion of the Anglo-Saxon race. will be to admit it into the Union with California, as a sister republic. TERRIBLE GALE IN NEWFOUNDLAND-Lives Lost.-We learn from the Boston Post of yesterflay, that a disastrous gale swept the colony on the 16th, 20th and 21st ult., causing immense destruction to life and property. Among the buildings destroyed in the city of St. John's, was the Nations Hall, which was blown down woman and child in the ruins. A brother and timbers at the same place. Several others were more or less hurt. Several bridges were carried away. One boat with six or seven men on board. in trying to make the harbor, was upset and all in the boat perished. Wrecks cover the waters and dead bodies aer continually being washed Vera Cruz.

At Grates Cove, in Trinity Bay, about 70 fishing skiffs lay at anchor, and 60 of them were totally wrecked and lost. We understand also that the state of things is truly melancholy and distressing in other parts of Trinity and Conception Bers.

Spain, after the miserable remains of their garrison had been sent off to Havana, I went with Our whole ticket is elected. We de Ulloa. It is a tremendous place, if at all well manned. No wonder it had held out so have achieved one of the most glolong. Had it not been for the raging of the

The thing can be done. rious and triumphant victories over vellow fever within its walls, and the want of provisions, the Mexicans would never have all opposition, that was ever won taken it without a naval force very superior to the one they then possessed, though they have never since had any force comparable to that

The outer walls of this fortress are of immense thickness-upwards of twelve feet; and in the positions most exposed the wall are seventeen or eighteen feet in depth, of solid white plete. But we are too full of joy, stone. It is a very porous and rather soft stone, so that balls do not split or crack it so over the result, to expatiate upon stone as quietly embed themselves. These outer walls have batteries all around; the guns upon the give in anwere well planted, with here and there a neat other column, the returns as far as corner for a mortar. The inner walls are so we have been able to collect them. it would still be at a slaughterous expense to They are not official, but will be the besiegers, if the garrison were at all competent to avail themselves of their position.

We entered the fortress from below, at the principal gate, which was of great strength, and very skilfully contrived, and then went They ensure the election of every along a stone passage, which had several gateways and "cunningly devised" narrow passes, with high stone walls on each side. This was terminated by a canal or moat, with a draw-bridge over it. We next arrived at flights of morning till night. Their general characteristic is that of great strength, creased our majorities fifty per cent. and plenty of room to work in. They moun-We had marked the majority for the most part in excellent condition. The mortars were of large calibre, though not in such good order as the guns. The powand if the weather had been fair, der magazines were each literally a dry stone opened on the batteries.

We next descended to the inner works,, and

oute. Besides the necessity to the beseigers of having guides who well knew every turn of the works, the excitement and smoke are almost certain to produce a confusion, in which the voice or presence of the guides would be Fe, published a proclamation, taking formal lost, and the party dashing onward might only possession of the whole of New Mexico, on arrive at a dead wall, a gap looking out upon both sides of the Del Norte, as a part of the the sea, or the mouth of a twenty-four pounder. The circutious route of our descent from the upper to the lower range of walls, was entirely exposed to their batteries, the guns grinning at us all the way, like so many black turks, as we traversed stone courseways and narrow passes. Whole regiments might here be raked down, after they had conquered the outer walls. But the "chances of war" are numerous; and one imperfection in the greatest power (if otherwise perfect) may render it inapplicable, and perhaps ridiculous. On arriving at these inner batteries, we found the guns in a wretched condition. They were no better than a Chinese effect, "calculated" to strike terror into the mind. But one may imagine how very angry the subtile architect of this formidable castle would have been, could he have seen his excellent arrangements for the safe and nearly certain destruction of the as-

sailants, thus rendered abortive. We now descended a very wide and steep flight of stone stairs, which led us down into the grand castle square, or little town, as one might almost call it. We entered at the bottom through stone gate-ways, (the architect had never missed an opportunity for giving the besieged protection in retreating, and time to rally,) and then found ourselves in a large open square, enclosed on all sides by very lofty walls, the lower part of which displayed doors and entrances into barracks, guard-houses, and shops of various kinds for the sale of such articles as a garrison would need. The Governor's house is at the further end. It was a genuine soldier's lodgment, and very bare of all ornament, except those of war, for it was riddled all over with the marks of shot and shell.-Its strong covered balcony, intended to serve both as a protection from the broiling sun, and from the fall of missiles, was in many places torn in long gaps. All the towers and build-ings of any elevation had also been knocked shout and defaced by the shot and shells from Vera Cruz, previous to the surrender of the did not materially affect the strength of the eister were also instantly killed by some falling place. Very few of the guns had been dislodged ; even the outer batteries were not injured so as to render them ineffective, with the exception of a gap of roins in one or two places. The steamship Galveston, Capt. Wright, arived yesterday from Lavaca and Galveston .-She has brought us files of papers from the several cities of Texas. Our last advices from San Antonio were to the 10th. There is in the Austin Democrat of the 16th a letter from the editor, dated San Antonio, Sept. 12th which is the latest.

Captain Cady (whom Col. Harney had left in command at the Presidio Rio Grande, and whose men, in crossing the river to retun to San Antonio, were, as our San Antonio corretant General at San Antonio an official account from our correspondent's letter. He also fur-nishes the following list of those wounded and missing after the attack :

J. Paris, wounded slightly, private Captain vans' company. J. Wvat, wounded slightly, private Captain

Evans' company R. Reid, missing, private. E. Prewitt, missing, private Captian Evans'

J. Riddle, missing, butcher.

"The Texas Volunteers," continues the correspondent of the Democrat, " belonging to this division, have been mustered out of service about five or six days. One of these companies was paid yesterday, the 11th. From the time they were mustered out of service. they have had to subsist themselves. The greater portion of them were out of money, and complain loudly of the injustice they have suffered in being thrown upon the world without a single cent to buy a meal. It would appear incumbent on the commanding officer, either to furnish them rations or pay them off. If he knew the money to effect the latter had not arrived, why did he disband them ?"

The writer goes on to complain of the treatment to which the discharged volunteers have been subject. An application was made, he says to have the sick admitted into the hospital, but the answer received was, that " Texas volunteers did not deserve it."

He says not a word about the advance of Gen. Wool's division.

The Victoria Advocate of the 16th has the

following paragraph; We learn that an express was despatched to meet the Kentucky and Tennessee regiments of volunteers on their way to San Antonio, instructing them not to proceed to that place, but to direct their steps to Port Lavaca, where they will remain until further orders, which will depend upon the result of the negotiations now going on with Mexico. The reason of the order is, that by quartering near the bay the transportation of supplies will be saved. The Kentucky regiment, we learn, would cross the Colorado at Lagrange on yesterday, and may be expected here early next week.

THE HELEN M'LEOD .- Supposed safety of her passengers and Crew. -The owners of the Helen M'Leod in Baltimore received a letter by Saturday night's mail from New Orleans. written by a nautical gentleman, who says that after questioning in full the Italian saved from the wreck, he thinks it very probable that all the crew and passengers may have been saved. Valentine, the man raved, states that they were all preparing to leave the wreck in the long boat, had launched her for that purpose, and three men, including himself, had ont in, when the long boat capsized and filled; he being thus overboard, swam to a schooner which was lying close by and succeeded in reaching her. He further states that there were several vessels in sight at the time. both before and after the squall, and doubtless one or the other of these vessels took off the crew and passengers from the Helen M'Leod.

[From the New Orleans Bulletin of Sept 22.] Gen. Taylor and Army Advanceing.

By the arrival of the steamer McKim. from Brazos Santiago, we have received accounts from the Army of a later date. The Matamorat Flag of the 12th, contains the following : Camargo, September 8, 1846.

I hasten to inform you of the arrival from Seralvo, of Captin Murray, with information that McCullough's Rangers had come into Gen. Worth's camp at Seralvo, and reported that on 4th inst, about 40 miles bringing Seralvo, they discovered a body of Mexicans forming the ad vance guard of a large force. They retreated as the Rangers came upon them, and were pur-sued until they fell back on a large force which was discovered to be from 800 to 1000 strong. It was believed that their intention was to in duce Gen. Worth to follow them so far as to attack him before any assistance could reach him Capt Murry thinks that a battle is being

fought at Seralvo, this day, the 21st of Sept. Captain Murry met Gen. Taylor with a part of his force, some distance in advance of the mainbody, and within 35 miles of Seralvo, on a forced march to its relief. It is positively asserted that the Mexicans are determined to make strong resistance between Seralvo and Mon-

Ampudia and Aristia are co-operating with each other, and their forces are fast augmenting. The Mexicans are rallying to their standard from all quarters. The heat has retartded somewhat the progress of the troops which left here with Gen. Taylor—it being out of the question to march during the heat of the day. The troops were in high spirits, and eager to come up with the Mexicans. Two companies of Rangers. that were here having their horses shod, started immediately after Capt. Murray's arrival.—
All is quiet here. Proclamations of Santa Ana, Ampudia, and the Governor of Tamaulipas, have een received in town, and are having their effect onthe Mexicans.

The proclamation of Ampudia makes the penalty very severe upon all who may furnish provisions-assist in transporting provisions or in any wise aid the Americans. It prohibits them from holding any intercourse or carrying on any trade with us. Death and confiscation of property are the penalties for disobeying the orders. These proclamations have also been received in Mier and Reyonosa. The Flag speaks in highest terms of eulogy of the order and quiet that prevails at Matamoras, through the unwearied vigilance of Capt. Clark, second ed by the active exertions of others.

Proclamations from Ampudta, Arista and others are being distributed throughout the Department of Tamauhpas. Those documents call upon the Mexicans to rally around the standard of their country, denouncing as treacherous all who cians, among the number Doctors Fitch and have dealings with the Americans, and threaten-

ing them with the penalty of death.

We take the following from the regular edispondent stated, fired on by Mexicans who lay in ambush.) has turnished to the acting Adjutant General at San Antonio an official account Gen. Worth to be at China. It was at Seralvo of the affair, differing in no essential point a small town about 60 miles from Monterey .-Further reports have reached here as to the number of Mexican troops in Monterey, which puts them at 8.000, with a heavy additional force on the march, which it is said will be there before Gen. Taylor can possibly arrive.

Taylor since he left Camargo. He is no doubt by this time in Serulvo, and but a few days can elapse

before important news may be looked for. Much the largest part of his force has been left behind, which he will not move forward unless the exigencies may demand it. The impossibility of transporting provisions had no doubt caused him to move forward a less force than he otherwise would.

The Tragedy at Richmond-Adultery and Murder.

For several days our quiet community has that implicated the reputation of one of the most respectable ladies in this city of Richmond. Although the foul charge was upon every tongue, and the shameful deed the theme of every discourse, sympathy for the wronged, and delicate regard for innocent connexions, muzzeled the press, as long as the consequences were of a private nature; but the excited vengeance of an injured husband exhibited itself yesterday morning in an act that must call for public investigation, which will disclose all the circum stances of this horrible affair. Every restraint is therefore, removed, and there is no reason why we should not proceed to gratify public curiosity by detailing the particulars, as far as we can gather them from a careful investi-

During the absence of Mr. Wm. R. Myers, who was on business at the North, it seems that his brother, Col. Samuel S. Myers, received an anoymous communication, charging his sister-in-law with adultery, and pointed to Mr. D. Martin Hoyt as the guilty party ; the writer requested an interview, and offered to produce the clearest proof of the truth of the tion to his sister, could not resist it. Intercepted notes were produced, and the most conclusive evidence was exhibited of guilty intercourse for months, if not for years.

The father of Mrs. Myers was almost in mediately written for, and, satisfied of his daughter's guilt, removed her from the city .-Col. Myers also wrote to his brother informing him minutely of all the circumstances. Thunderstruck at the infidelity of her whom he had ever loved, honored and cherished, and stung to madness with the thought of his honor wounded in the tenderest point, Mr. Myers harried to Richmond, burning to glut his vengeance where he had been so foul y wronged. To escape notice, however, he left the cars at the 26th ult, we find a full report of the trial of the Junction, about twenty-one miles from Geo. O'Blenis, charged with the morder of Richmond, and there taking a horse provided at 5 o'clock in the afternoon, burying a young castle. But the mutilations and destruction Franklin Coombs at Pointe Coupee, La., on the for him, he entered the city on Sunday, after 31st of December. 1844. The examination has been continued until Wednesday next, and the accused, with his attendants, Col. S. S. Myers and Mr. Wm. Burr, have been admitted to bail in the sum of ten thousand dollars each.

Hoys denies his guilt, and when he supposed himself in extremis, he declared that the last words he uttered should be to proclaim the innocence of Mrs. Myers. The public ascribe these declarations rather to the gallantry of the gentleman than the real innocence of the lady.

This evening there is a report in circulation, how true we know not, that Mr. Hoyt has made a will and left Mrs. Myers a legacy of It is said that Col. Pollard, the father of the

Horrible Murder in Delaware County.

We learn from the Delawate Express, exra, of Saturday, that Mrs. Louisa Jones of Meredith, wife of Philander Jones, was cruelly murdered in her own house, on Sunday night, the 27th of September. The only in mates of the house at the time were Mr. and Mrs. Jones, and the mother of Mrs. Jones, a very old lady, and quite deaf.
The facts elicited before the coroner's jury

established the following facts :- Mr. and Mrs. Jones had lived very unhappily together for many years: she slept up, and he down stairs; and lately the fend between them had waxed considerably warm. Mr. Jones' story is, that, hearing a noise in the night, he got up, and on going out, found his wife had fallen down stairs, she considerably wounded, and life nearly or quite extinct. He called up his mother, and his sons who slept in another house, close by, and found his wife dead, then called in the neighbors to lay her out. Arrangements were made for the funeral, to take place on Tuesday. When the neighbors had gathered to consign the corpse to the grave, some dissatisfaction was manifested at the appearance of the wounds upon the deceased, and a vote taken whether to bury her or have the coroner called. The latter was decided upon, and Peter Brock, Esq. of Hamden, Coroner, was called, who summoned a Jury.

The inquest was held on Wednesday and Thursday. The testimony of several physi-Jacobs of this village, was conclusive that the deceased came to her death from wounds inflicted upon her head by some person. There were several wounds on different parts of her head, and some five or six, either one of which St., Philadelphia; 288 Greenwich St., N. York; and would have produced death. They had the 198 Tremont St., Boston. appearance of having been made with considerable force, and by some metallic instrument with an obtuse edge, perhaps a wagon hammer. The skull was broken in in several places in the region of the car, and part of one of the ears cut off. These and other matters The whole force with which Gen. Taylor adduced established the fact, beyond a question, that deceased had been inhumanly murviolence from the hand of a second person to them unknown.''

Mr. Jones was arrested, and the matter at Mr. Jones was arrested, and the matter at anda. This is no humbuggery. Just drop in an once placed before the Grand Jury, then in price my goods. I have almost every thing wanted in session, who found a true bill of indictment against him for Murder. He was arraigned on Friday, before Judge Edmonds, presiding at the Circuit here, and plead " not guilty. He will not be tried till the May term.

Mr. Jones is one of the best farmers in Meredith, is worth some five or six thousand dollare, and has always been considered a good irritable temperament, and, as is the general expression of those who knew him, is the last man that would have been suspected of such a crime; and though circumstances are at present against him he will, we trust, if innocent, be enabled to establish his innocence. He has employed Hon. S. Gordon to defend him.

A WORD TO MOTHERS!

Health is one of the best gifts of parents to their dil dren, and without it, all the advantages of fortune to but evils in disguise. Nature always admonishes the parent when aid is required. If a young child the much, it must be ill, for it is not capable of being affer. ted by any ideas, but those of bodily pain or pleasure. At such times mothers are apt to give their infants co. diale, containing intoxicating or stupifying properties and though this may answer their immediate purpose what is the result? The children either die in course sions, or live miserable and unhealthy, pine in ther growth, with debilitated stomachs, and palsied nerves, The food designed by nature for children is so clearly pointed out, that it is marvellous how any person can be mistaken, the breast of the mother, or bread and mik for infants, is so clearly adapted to the delicate state of their stomachs, that nothing can be substituted equally nutritious and wholesome. It is at the critical period of teething," or when the infant is withdrawn from its mother's breast, in order to substitute a stronger diet, that those fatal diseases arise which sweep off so many tens of thousands of infants annually. Who can est mate the rayages made by "Cholera Infantum !" And wet there is a specific for it, which has never been known to fait, when applied according to the directions. "JAYNE'S CARMIN FIVE [BALSAM" is at tem. dy that has restored many a danguishing babe to the arms of the delighted mother, restoring vigor to the sys. tem, at the same time that it eradicated the diseas.
