CLEAR THE WAY.

And make room for the Sovereign Balm Pills. It is now about four years since Dr. E. L. Soule firs introduced the Oriental or Sovereign Balm Pills to the public, and we venture to say, that no other medicine has given such universal satisfaction, and the sale increase so fast, for with very little exertion or advertising the demand has increased to cover 1000 boxes per day. They are intirely regetable, and cause no pain in their operations, being perfectly safe for young or old, and those of debilitated constitutions, and as a family med-icine, have no equal. They are an effectual remedy for discusses of this climate, such as billous discusses in all. for discases of this climate, such as billous diseases in all their various forms. Fever, Old Liver Complaints Head-affices, Coughs, Colds, Costiveness &c. We have warranted them in over 100 cases of Fever and Ague, and have never known them to fail in removing it, in forman to the control of the control from one to six days, when taken according to directions. They never leave the bowels costive, being very different from any other Pills in use, which leave the bowels costive, and one dose only creates the necessity for another. In nervous debility and female weakness their effects have been truly astonishing. They have restored a large number of such cases after they had been confined to their ball, and trizen us her their that it had been confined to their bels, and given up by their physicians. The certificates a few of which may be seen in our circulars, which may be had of our agents gratis. They quiet the nervous system, and remove the cause of nervous irritation. In short they strengthen and renovate the whole system. In cases of Dyspepsia and costiveness they have worked wonders: Thousands have been restored from all the horrors of the above diseases, and a number of them in Syracuse, and in this county.--

For particulars see circulars.

We have always taken great care in selecting and compounding our medicines, which has been done by Dr. Soule in person, as may be seen by the following

we have acted as agents for Dr.E.L.Soule for the last four years in purchasing most of the medicines used in the composition of his pills.—During that time some of the articles have advanced nearly an hundred per cent. of the articles have advanced nearly an hundred per cent. He has not varied his proportions, and has at no time used any but the best qualities of medicines. We have also acted as agents in selling his Sovereign Balm Pills, and from the universal satisfaction given, we consider they rank among the best pills now before the public. Dr. Soule is the person who first introduced them into this country, and has continued the manufacture of them ever since.

The Treasury of History, omprising a general introductory outline, of Universe History, Ancient and Modern, and a series of se-perate histories of every principal nation that

exists, their rise, progress, present condition, &c., &c., &c., &c., BY SAMUEL MAUNDER,

Author of the "Treasury of Knowledge," "Biographical Treasury," &c. including THE HISTORY OF AMERICA. EDITED BY JOHN INMAN, 18Q.

The republication of this valuable work has beer

undertaken partly on account of the high favor with which it has been received in England, but chiefly in consideration of its intrinsic value, arising from the felicitous adaption of the plan to a want that has been long and generally felt and from the judgment and fidelity manifested in its execution. The idea of giving in a single work, of no very formidable dimensions, a sufficient outline of the world's whole history, and similar cutlines of the history of every nation, is so obvious, judicious and appropriate as to require no eulogium. Every person who cares at all for the sequisition of useful knowledge must desire to posess sequisition of useful knowledge must desire to possess such a general knowledge of past events, not only in his own country but in all countries, as shall enable him to understand the perpetually recurring allusions that are own country but in all countries, as shall enable him to understand the perpetually recurring allusions that are found in almost any course of general reading; because for want of such understanding there is always a serious diminution both of pleasure and profit even in the perusal of such works as are designed chiefly for amuse-ment. For instance, most of Sir Walter Scott's novels are founded upon history, and abound with reference to historal events and personages, a want of some acquain-tance with which detracts seriously from the interest and delight they are so well qualified to awaken; and so of most other works belonging to the better class of what is called light literature. But the difficulty has been to 

Maunder.

His plan has the merit of completeness, and is undoubtedly the best that could have been desired. His gives first a general sketch of ancient and modern history—a rapid and comprehensive bird's-eye view, as it were of the rise and progress of nations, the most important incidents of their career, and their relations to each other; and after this he takes up the nations acparately, furnishing a concise digest of all that is important or desirable to know concerning each, and thus affording a sort of key to the changes and events that were more briefly indicated, rather by their results than their incidents, in the general sketch or ontline. Thus the salient points of history are brought within a manther incidents, in the general sketch or ontline. Thus the salient points of history are brought within a manther incidents, in the general sketch of orthine. Thus
the salient points of history are brought within a manageable compass; and an excellent foundation is laid for
more thorough and extensive reading in reference to
any portion of the world or any epech of which a complete knowledge may be desired.

In the execution of this plan the author has been very

successful. His notices of historical events, though brief, are lucid and satisfactory; and he traces the connection ore flict and cause with singular acomen and generally with most commendable freedom from partiality or bias; thus supplying a very good idea of the philosophy of history as well as of the facts which history records.—
In a word, the work will be found invaluable to the general reader, and a very useful help to the student.
