

Bradford Meporter.

Towanda, Wednesday, Nov. 11, 1846. Meeting of the Standing Committee.

We are requested to state that the Standing Commit tee appointed by the late Democratic Convention, will meet at the house of Ira H. Stephens, in this borough, on Saturday the 14th day of November next, at 2 o'clock P. M. The following named gentlemen compose the Committee :

ULLYSSES MERCUR, A. F. LYON,
JOHN PORTER, IRAD WILSON,
F. S. WHITMAN, EDWARDURANDALL,
BARTHOLOMEW LAPORTE

Particular Notice to Subscribers.

As a few more weeks will complete the first year of the present firm, subscribers who are desirous of paying within the year, must embrace the opportunity (soon.-Our terms, it will be remembered, require an additional fifty cents of those who neglect to pay their subscription within the year; and those terms will be rigidly adhereil to. We give this timely notice, that none may be disappointed when they settle their accounts.

We would also inform those who are expecting to pay in produce &c., that it must be paid within the year, or we shall not consider ourselves bound to receive any thing but cash, even at the \$2.50 per year. We are now ready to receive most kinds of Produce from those whose year has nearly expired, but we repeat, that it must be paid within the year, to comply with our terms. Every subscriber should settle his account at least once a year, in justice to themselves and the printer, and if they fail in this they must not expect us to receive anything but cash.

Subscribers who are some years in arrears to the office, will probably soon be waited on, by an other, as we have waited upon them until " forbearance has ceased to be a virtue." We regret the necessity, but justice to ourselves require that we should receive some return for the labor and money expended for their benefit. A subacriber who neglects his account for years, is an unprofitable patron.

A chance will be afforded at December Court, to "square the yerds," after which we say, "stand from

New York Election.

We publish below the returns from the State of New York. The result is as we anticipated. SMAS WRIGHT, than whom, a better and abler democrat never received the nomination, has been shamefully beaten by a combination of Whigs, Old Hunkers, Abolitionists and Anti-Renters. The majority for Young will be not far from 11,000. And yet, strange as it may appear, Addison Gardiner, the Democratic candidate for Lieutenant Governor, is probably re-elected. The Congressional delegation stands 24 Whig, 7 Barnburners, and 3 Hunker. The Canal Commissioners are divided, each party having one. The House of Representatives is probably Whig; the Senate still democratic, though the Whigs have elected a majority of the new Senators.

Majorities for Governor Compared.

Col. FREMONT .- A letter from Monterey of the Pacific to the editor of the Alexandria Gazette contains the annexed notice of our interesting young countryman, Lt. Col. Fremont. The letter is dated July 20:

"Col. Fremont's party arrived here yesterday, having had some pretty hard fighting with sily maintained by keeping a proper eye to its indeed they have an equal, in removing every descripthe Mexicans and Indians. They number ballasting. As it would become lightened by about two hundred, and are the most daring and hardy set of fellows I ever looked upon. They are splendid marksmen, and can plant a bullet in an enemy's head with their horses at to hear upon the war balloon, it would soon be five of said Pills, taken once in twenty-four hours, on a full gallop. They never think of eating bread, silenced by the rapidity, precision and certain- going to bed, will in a short time not only drive pain or but live upon meat all the time. They never ty with which the deadly missiles could be sleep in a house, but on the ground, with a showered down upon them. blanket around them, their saddle for a pillow, and a rifle by their side. I should like to give you some more minute accounts of them, but | cussioned bomb shells, the castle of Vera Cruz time will not admit.

A MAN SHOT .- The Easton (Pa.) Democrat and Argus save, last week that a man named Krantz has been committed to the county jail for shooting Henry Ent with a pistol, from the effects of which he died next day. The par-ties were playing cards in the cabin of a canal has been raised for this purpose. In the Mexiboat near Freemansburg; they got into a quar-rel, and Ent drew a knife, when Krantz fired capital to Toluca, beyond the mountains, out Pills, in Towards, Montanye's & Co; for other agenog him twice.

Effects of the Gale at Havana.

Tremendous Loss of Shipping-Ninety-two vessels sunk, destroyed or otherwise injured — Forty or fifty Coasting Vessels Wrecked-Great Loss of Life and Property.

The brig Cyhelle, Capt. Merrill, arrived at Savannah on the 29th ult. bringing advices from Havana to the 20th. We are indebted to the Savannah Georgian for extras containing the accounts of the effects of the dreadtul gale of the 10th ult.

The recent gale experienced all along the Southern coast, was also felt with much violence at Havana, and did considerable injury to the city, and to the shipping in port. It was one of the most severe gales that has been experienced at that Island for many years past. During the hurricane in the city it was dangerous from large sheets of lead and tile pote lown down from the tops of the houses; these lay about in every direction, and were in many instances carried by the wind to a great distance. The beautiful Palmetto and other trees which adorned the Garenoro Square, were bro ken and torn down, even the lamp posts, &c. The wind was strongest about nine o'clock' at which time it shifted suddenly to the North west, and blew with terrific violence. The air was filled with dense clouds of "spoon drift" or salt spray, which it was impossible to face. The spray was carried for half a league into the country and deluged the houses, entering the crevices and flooding the streets. The surf and spray were seen to dash high over the light house on the Moro.

Many houses were blown down or unroofed and among them the Tacon Theatre, which was partially unroofed and received other damage. The etreets were nearly deserted except by occasional detachments of soldiers, ordered o different posts, to give assistance where it was needed.

The beautiful Passao, the fashionable drive and promenade of the citizens, suffered in its shrubs, trees and plants, and after the hurricane, many were forcibly detained to assist in removing the rubbish and runs from the streets. An occasional pedestrian might be seen flying fa-ter than he appeared willing to go, borne by the irresistible force of the wind, which swen through the long, narrow streets with incredible force.

But the wharves presented the most disastrous spectacle—ships, barks, brigs & schooners. some crowded on top of the others, threes, tier deep, sunk, wrecked, dismasted, or totally to pieces, with the owners, captain and sailors gazing upon the scene of destruction. Some vessels known to be in the harbon previous to the hurricane, have disappeared, and their fate left to conjecture. As nothing could be seen a furlong's, length owing to the show ers of spray and drift which filled the air, and as the wind blew nearly into harbor, they could not have gone out, but the sad spectacle of masts, spars, yards, and pieces of wrecks which strewed the harbor, proved that they must have drifted into each other and sunk o gone to pieces. 'The numerous men of war were driven ashore and dismasted.

It is not known how many lives were lost. but bodies were seen floating in the harbor in the different dresses of seamen in the merchan and naval services.

The brig Mohawk, from Newfoundland, went ashore at Punta Fort, and was exposed to the heaviest part of the hurricane. The crew escaped by lines being let down from the fort to the wreck, by which they ascended to the walls of the fort.

. News from the interior stated that the sugar crops were very much injured, and in many instances ruined. A continuance of fine weath er might restore such as was not totally lost.-The coffee plants were also seriously damag-

ed. The gale towards Cardenas was not so violent. Fears were entertained regarding severa vessels which sailed the day preceding the hur-

ricane. The Governor had issued permission to such as had had their houses damaged, to rebuild with wood, a privilege hitherto denied under

such circumstantes. His excellency was seen riding with his suite the day following the hurricane, to estimate the damage done. He was every where received with marke of respect by the citizens.

A BOLD VOLUNTEER .- J. Wise, Esq., the celebrated Æronaut, has addressed a commuication to the Lancaster Republican, in which he proposes to the War Department to take the castle of San Juan de Ulloa, by means of ing plan:

In the first place it will require the construction of a balloon of common twilled muslin, of about one hundred feet in diameter. This machine properly coated with varnish. will retain its buoyancy for many days or raise over 30,000 pounds. Say 20,000 indeif necessary. The process of inflation may he accomplished on land, or on heard a man The car to be loadened with precussioned bomb shells and torpedoes to the amount of 18,000 pounds, which will leave 2.000 pounds for ballast and men. Thus it will be ready to be placed in a position for deadly action in a very the body. short time. The cable by which it is to be manœuvered may be at least five miles long so that the balloon at a mile of elevation would leave the vessel, or land position, which act as the retaining point, out of the reach of the castle guns, and under the cover of our own batteries. The man of war balloon hovering a nile above the castle like a cloud of destruc tion, would be entirely out of danger of the enemy, gruns, since they could not be made to bear at an object immediately above them The position of the balloon as to heighth, and distance from the retaining point could be ca the discharge of shells and torpedoes, an ade-

quate quantity of gas can also be discharged " If a gun from the castle could be ever made

" With this zerial war ship hanging a mile above the fort, supplied with a thousand purcould be taken without the loss of a single life Cole, of Philadelphia; Mr. John Dixon, of Easton, Pa., to the army, and at an expense that would be a supplied by the expense of the take it by the common mode of attack."

Mexico .- Attempts are making to fortify of the way of danger.

Hon. David Wilmot.

We are gratified to know, that this able and promising Democrat, is re-elected to Congress from the adjoining Congressional District, in our sister State of Pennsylvanis. He has uniformly been an advecate of Democratic princi ples, and of none more decidedly, than that of law duties. In the canvass of 1844, he proclaimed every where, before the people, these doctrines, and was elected by an overwhelm ing majority. Indeed it may be said there was no opposition candidate. The show of a run that was made in favor of another man was scarcely of sufficient consequence to merit took his seat in Congress, pledged as a democrat, by the most frank public avowals of his principles previous to the election, to sustain the administration in carrying out the great measures of the democratic party; as promulgated at the Baltimore Convention; and reiterated by the President in his Inaugural, as well as in his message to the two Houses; he expected, and had the right to expect, the cooperation and support of every democratic member, then, to his astonishment and surprize he saw every democratic member from his own state deserting the administration, and the people, on one of the most important measures of the Session-the Tariff. Indeed, there was no single question before Congress of so much importance to the great hody of the people as this. With characteristic firmness, and devotion to the interests of his constituents; he did not desert either them or his principles ; and manfully sustained both. True, he was sustained in the Senate, by the Vice President, who in the noble stand he took upon the question, raised himself to the highest point in the estimation of the democracy of the whole Union; and gave Pennsylvania the high honor of securing the passage of the new Tariff law in the Senate. Without the aid of Vice President Dallas, be it remembered, the country would have been deprived of the benefit of this great measure of reform, so long demanded by the People, and so long withheld from

For this honest, consistent course pursued by Mr. Wilmot, he was denounced, not only by the Whige proper, but by Whige in the tlisguise of Democrats; and a most unusual effort has been made to defeat him at the late election. But he has signally triumphed .-The people of his district, have shown, by his re-election, that they knew how to appreciate their own interests, and the agents whom they choose to select to take care of them. We confess that we are the more gratified at this result, because we consider the interests of the people of Mr. Wilmot's District identified with those of ours and politically the same in all respects; and was pleased to see him, and our own representative, standing shoulder to shoulder in support of democratic measures, during the late, perhaps as important a session of Congress as has ever been held since the foundation of our government .- Owego Gazette

MR. BUCHANAN-MORE TROOPS .-- A correspondent of the Ledger, writing from Washington, under date of Saturday last, says: I re neat to you that fresh troops are to be called out ; and that the Northern States will be called on to fornish them, but it is not yet certain whether Pennsylvania or Ohio is to be most favored : I think Ohio stands the best chance.

It is rumored here, and I believe not without cause, that Mr Buchanan does not share the views of the President on the subject of the Tariff of 1846-that though opposed to the Tariff of 1842, as manifestly too high, he is or a gradual transition to the rate of duties fixed by the Tariff of 1846-believing that to he the safest course—and for a greater protection to the coal and iron interest of Pennsylvania. It is also said that Mr. Buchanan intends to present this, his opinion, in some tangible shape to the public, and that he will select the time between now and the next meeting of

Snow .- At Burlington, Vt., on Sunday, Oct. 18. the snow was four inches deep, and they rode to church in sleighs.
